1. Background

The Electoral Commission maintains a network of local offices in two hundred and thirteen (213) municipalities throughout the country.

Local offices are responsible for implementing electoral related projects and programmes at a municipal level and also serve as a distribution point to voting stations during an Election Period.

However, municipalities are finding it increasingly difficult to accommodate the Electoral Commission's local municipal offices (due to their own operational challenges) and opportunities for suitable alternative rental properties are limited in the Blouberg local municipality area.

The Electoral Commission is therefore desirous to acquire a prefabricated/modular office block unit (similar to the design as contained in Annexure B) to be located within the municipal precinct of Blouberg, Limpopo Province and therefore invites interested specialist manufacturers to submit written proposals to this requirement. The prefabricated/modular office block units must be disability friendly.

2. Bid Requirements

- 2.1 Bidders are required to submit a comprehensive company profile that describes the nature of the organisation and its normal business activities with details of track record relating to the manufacturing of prefabricated/modular office block units.
- 2.2 Bidders must submit written proposals which sufficiently address the office space requirements, as indicated in the detailed specifications stipulated herein (sections 4 and 5) and must include a floor plan of the proposed prefabricated/modular office block unit. The written proposal must include confirmation that the required structural and electrical certificates will be provided during the project delivery process.
- 2.3 The pricing schedule as contained in section 15 of the specifications must be completed and submitted together with the written proposal. Bidders are required to submit details as itemised in the pricing schedule. Failure to complete and submit the pricing schedule will invalidate a bid. The total project price (inclusive of VAT) must be transferred and placed on the tender.
- 2.4 This information will be used in the evaluation and adjudication of the bid and the Electoral Commission will not request additional information for evaluation purposes in the event of the bidder's failure to include essential material. Bid responses will be evaluated as submitted.
- 2.5 The Electoral Commission does, however, reserve the right to verify the information provided. If information is found to be factually incorrect, misrepresented or is not provided, the bidder's proposal may be disqualified.
- 2.6 Where consortiums or joint ventures submit a response or where subcontractors are included in the response, full details must be provided of all the partners/participants and the letters of agreement of all the partners should be included with the bid submission. The approved service provider(s) shall be obliged to inform the Electoral Commission about all changes in nominated partners/participants during the contract and the Electoral Commission reserves the right to cancel the contract should the Electoral Commission consider any of the changes as operationally or materially significant.

Note: Where specific written submissions are called for in this bid, they must be provided. All such submissions will be used in the adjudication of the proposal. Failure to submit the correct written documentation and/or evidence may therefore lead to disqualification of a BID submission.

3. Production Requirements

The introduction of the new Preferential Procurement Regulations of 2022 (PPR2022), repealed the Preferential Procurement Regulations of 2017 and all its instructions and procedures. As a result, the application of the local content is no longer a compulsory requirement. The Electoral

7. PRICES COSTING AND BIDDING

- Bidders must take care to estimate and calculate their costs and prices CORRECTLY before placing a bid on the system.
- Erroneous low bids cannot be removed or adjusted upwards. Common errors include the entering of a unit price instead of a total price in the case of a batch requirement, or accidentally omitting zeros (e.g. R50 instead of R5000).
- All prices must include VAT.
- Bidders must include the **cost of supply, site preparation, delivery, assembly and other costs** (see pricing Item 16) in their bid price.
- Quoted prices must include unit cost of the prefabricated/modular office block unit, transport and installation.
- Please note that the bid price reflected on the tender (eProcurement/Votaquotes system) must be in South African Rand (ZAR) and must include all applicable costs including VAT.

8. DELIVERIES

- Deliveries to Electoral Commission locations must be made from Monday to Friday during working hours (08h30 to 17h00).

11. BID EVALUATION

- The Electoral Commission, furthermore, also reserves the right to consider at its sole discretion alternative options to exact specifications outlined in the tender or otherwise stipulated that may be offered by suppliers should the Electoral Commission be of the opinion that such alternative options that are being offered are economically viable and/or may be a practical solution and/or may be generally beneficial in respect of promoting and reaching the Electoral Commission's goals, target dates and objectives.
- **For bid evaluation purposes, ALL BIDDERS ON THIS TENDER who have placed a bid will be required to submit images of the product offering.** Successful bidders

will be subjected to a comprehensive due diligence audit process as determined by the Electoral Commission before an official purchase order is issued.

12. SUPPLIER PERFORMANCE

- **Quality means products that adhere to the technical specification requirement.**
- **Defective products must be replaced at the cost of the supplier.**
- **Deliveries must meet predetermined schedules agreed to in the purchase order.**
- The Electoral Commission reserves the right to reject any deliveries not conforming to the above, including damaged units.
- Where previously agreed delivery schedules are not met by a supplier, the Electoral Commission shall have the right to appoint an alternative supplier (such as the next highest ranking bidder on this tender for example or any other supplier able to deliver) to make good the shortfall in supply. Any extra costs incurred by the Electoral Commission in obtaining such corrective services or products from another source will be for the account of the defaulting supplier. As such, any costs already incurred by the initially appointed supplier shall, at the sole discretion of the Electoral Commission, be for the account of that supplier since it failed to deliver! The normal penalties provided for on the Electoral Commission's purchase order shall also apply!

13. LOCAL CONTENT

Minimum local content requirements

- The stipulated minimum threshold percentages for local production and content for the required **steel products and component for construction** is tabled below, thus only locally produced or locally manufactured **steel products and component for construction** from local suppliers in accordance with the applicable threshold values will be considered.
- The applicable threshold values in respect of local content for the required **steel products and component for construction** is as follows:

Number	Description	% Local Content
1	Fabricated Structural Sheet	100%
2	Joining/Connecting Components	100%
3	Frames	100%
4	Roof and Cladding	100%
5	Fasteners	100%
6	Wire Products	100%
7	Ducting and Structural Pipework	100%

In cases where raw materials are not available locally

- If the raw material or input for the **steel products and component for construction** is **not** available locally, bidders should obtain written authorisation from the dtic should there be a need to import such raw material or input. A copy of the authorisation letter must be submitted together with the bid at the closing date and time of the bid.
- The exchange rate used for the calculation of local production and content will be the exchange rate published by the South African Reserve Bank (SARB) at 12:00 on the date of the advertisement of the bid.
- The rates of exchange quoted by the bidder in paragraph 4.1 of the Declaration Certificate will be verified for accuracy.

Important Note on Determining Local Content:

A declared local content of, for example, 100% is not a true reflection if the dtic issued an authorisation letter to import some of the raw materials. In such instances bidders are expected to declare the actual local content % of less than 100% for the fact that an authorisation letter was provided by the dti. In that regard, bids will not be disqualified during the first stage of evaluation for not meeting the required local content threshold. The purpose thereof is to encourage bidders to declare the exact local content, e.g. if a bidder indicates that he/she will be importing raw materials or certain components then it is not possible to have 100% local content if there is any portion of import no matter how small it may be.

Calculation of the local content

- The South African Bureau of Standards (SABS) approved technical specification number SANS 1286:2017 will be used to calculate local content.
- The Declaration Document for Local Content (Annexure B) together with Annexure C (Local Content Declaration: Summary Schedule) must be completed, duly signed and submitted by the bidder at the closing date and time of the bid.
- The SABS approved technical specification and the Guidance on the Calculation of Local Content together with the Local Content Declaration Templates [Annexure C (Local Content Declaration: Summary Schedule), D (Imported Content Declaration: Supporting Schedule to Annexure C) and E (Local Content Declaration: Supporting Schedule to Annexure C)] are accessible to all potential bidders on the dti's official website <http://www.thedtic.gov.za/sectors-and-services-2/industrial-development/industrial-procurement/> at no cost.
- The local content (LC) expressed as a percentage of the bid price will be calculated in accordance with the following formula:
 - $LC = (1 - x/y) * 100$

Where

x is the imported content in Rand

y is the bid price in Rand excluding value added tax (VAT)

- Prices referred to in the determination of x will be converted to Rand (ZAR) by using the exchange rate published by the SARB at 12:00 on the date that the bid has been advertised.

- Bidders must submit written proposals which sufficiently address the general specifications (section 3).
- Bidders must submit a comprehensive written proposal which sufficiently address the prefabricated/modular office block unit space requirements, as indicated in the detailed specifications stipulated herein (section 4) and **must** include a floor plan of the proposed prefabricated/modular office block unit.

products and component for construction will be subject to those suppliers being used and no change will be allowed without prior approval by the Electoral Commission. The Electoral Commission also reserves the right to execute random inspections at the manufacturers of the **steel products and component for construction** and any other vetting/inspections that may be required to ensure adherence to bid conditions – that includes verification of the origin of any material used in the production process.

- Where subcontractors (these may include manufacturers of **steel products and component for construction**) are being used for the supply of the **steel products and component for construction** (or any component thereof) a letter of guarantee must be obtained from that supplier in support of any of the local content claims being made. The letter of guarantee must state that the subcontractor is supplying the **steel products and component for construction** (or any component thereof) to the bidder and that the **steel products and component for construction** (or any component thereof) conforms to the specific local content requirements and thresholds applicable to that particular **steel products and component for construction** item/s. Any percentage applicable to imported products/components must also be clearly stated.
- Relevant certificates to prove that the **steel products and component for construction** conforms to applicable SABS standards should also be submitted.
- The written submission must also be accompanied by the documentation referred to in **section 12**:
 - Declaration Document for Local Content (Annexure B);
 - Local Content Declaration: Summary Schedule (Annexure C)
 - Imported Content Declaration: Supporting Schedule to Annexure C (Annexure D)
 - Local Content Declaration: Supporting Schedule to Annexure C (Annexure E)
- In addition to the above, service providers must prepare and submit a bill of materials (BOM) (raw materials included) to be utilised in the production process. The schedule must clearly indicate which materials are produced locally in South Africa and which materials are imported. The proposed format for the BOM to be created is as follows:

Bill of Materials (BOM)* (Fabricated Structural Steel)	% of Finished Fabricated Structural Steel	Locally Manufactured (YES / NO)	Imported (YES / NO)	DTIC Authorisation (YES / NO)
e.g. Reinforced steel	25%	Yes	No	Not applicable
e.g. Steel Flooring	20%	Yes	Yes	Not applicable
e.g. Gutters	15%	No	Yes	Yes
e.g. Handrailing	25%	Yes	No	Not applicable
e.g. Downpipes	5%	Yes	No	Not applicable
e.g. Trusses	10%	Yes	No	Not applicable

* The above example should be used to reflect each of the categories of prefabricated office block unit to be manufactured and supplied in order to illustrate the local content requirements and adherence to stipulated minimum thresholds. The primary steel utilised in the manufacturing process as that does not have to be stipulated – the relevance to local content is the actual manufacturing of the components used in the office equipment.

- In support of the local content requirements, the necessary written authorisation from the Department of Trade and Industry (the dti) must be submitted, should there be a need to import such raw material or input.
- The information provided in Annexures C, D and E must correlate with the BOM, especially in respect of local content % and values.

- 1.3. Where necessary, for tenders referred to in paragraph 1.2 above, a two stage bidding process may be followed, where the first stage involves a technical evaluation and the second stage price and specific goals which includes B-BBEE and minimum threshold for local production and content.
- 1.4. A person awarded a contract in relation to a designated sector, may not sub- contract in such a manner that the local production and content of the overall value of the contract is reduced to below the stipulated minimum threshold.
- 1.5. The local content (LC) expressed as a percentage of the bid price must be calculated in accordance with the SABS approved technical specification number SATS 1286: 2017 as follows:

$$LC = [1 - x / y] * 100$$

Where

x is the imported content in Rand

y is the bid price in Rand excluding value added tax (VAT)

Prices referred to in the determination of x must be converted to Rand (ZAR) by using the exchange rate published by South African Reserve Bank (SARB) at 12:00 on the date of advertisement of the bid as indicated in paragraph 4.1 below.

The SABS approved technical specification number SANS 1286:2017 is accessible at no cost on the dtic website or through the quick link:

Stage 1 - Bidder's Disclosure Evaluation/Assessment [SBD4]

All bids received will be evaluated and assessed in respect of the mandatory information provided in the Bidder's Disclosure (SBD4) as well as the register for restricted suppliers and tender defaulters.

Any potential issues that may arise or transgressions that may identified will be pursued in accordance with statutory obligations and requirements.

In this regard, the following must be noted:

The Electoral Commission must, as part of its supply chain management (SCM) processes, identify and manage all potential conflicts of interest and other disclosures made by a person participating in procurement process to enable the accounting officer or delegated authority to make informed decisions about the person participating in the SCM process.

As such, the Bidders Disclosure form, issued as Standard Bidding Document (SBD) 4, was extended to all entities which were invited to participate in the bid process.

As part of the evaluation of the procurement process, the information provided by a person on the SBD4 form must be evaluated.

In so doing, it must be noted that if the bid evaluation establishes that:

- (a) a person within the bidding entity is an employee of the State, the Electoral Commission's CEO must request the relevant accounting officer/accounting authority whether the person -
 - (i) Is prohibited from conducting business with the State in terms of Section 8 of the Public Administration Management Act, 2014; or
 - (ii) has permission to perform other remunerative work outside of their employment, where the PAMA does not apply to such employee;
- (b) the conduct of a person constitutes a transgression of the Prevention and Combating of Corrupt Activities Act, 2004;
- (c) the conduct of a person constitutes a transgression of the Competition Act, 1998, the conduct must be reported to the Competition Commission; and
- (d) the conduct of a person must be dealt with in terms of the prescripts applicable to the Electoral Commission.

If it is established that a person has committed a transgression in terms of the above, or any other transgression of SCM prescripts, the bid may be rejected and the person may be restricted.
