1. PURPOSE

- 1.1 To appoint an independent service provider to investigate and develop non-monetary benefits sharing and propose governance and institutionalisation framework for implementing and monitoring the Rooibos Traditional Knowledge, benefits sharing mechanisms for a period of eight (8) months.

2. INTRODUCTION AND BACKGROUND

- 2.1 The Bioprospecting, Access, and Benefit Sharing Amendment (BABS) Regulations of 2015, developed in terms of Chapter 6 and 7 of the National Environmental Management Biodiversity Act, 2004 (Act no. 10 of 2004) (NEMBA) regulates bioprospecting involving indigenous biological resources and/ or associated traditional knowledge. They further provide for fair and equitable sharing of benefits by stakeholders arising from bioprospecting involving indigenous biological resources. This is achieved through negotiation and conclusion of benefit sharing agreement/s. The Minister is also responsible to approve material transfer agreements and benefit sharing agreements submitted together with the permit application forms.
- 2.2 On 01 November 2019, the Minister approved for implementation the Rooibos Industry Wide Benefit Sharing Agreement. The Department is currently implementing the industry-wide benefit sharing agreement concluded between the Khoi-Khoi jointly with the San Communities and the South African Rooibos industry. This agreement is only based on monetary form of benefits and has been concluded in accordance with the NEMBA and the BABS Regulations.
- 2.3 The Minister, in terms of regulation of the BABS Regulations, before approving the benefit sharing agreement,
 - 2.3.1 Must be satisfied that the agreement is fair and equitable to both parties.
 - 2.3.2 May consult any person competent to provide technical advice on the agreement.
 - 2.3.3 May invite public comment on the agreement provided that no confidential information will be made public.
- 2.4 *Aspalathus linearis* or Rooibos is an endemic species to the Cape Floristic Region covering Western and Northern Cape provinces of South Africa. The San and Khoi-Khoi people hold traditional knowledge that pertains to the utilisation of rooibos. South Africa is the only exporter of rooibos tea in Africa and exports more than 6 000 tons per year. In this regard, there is a need to investigate and propose non-monetary benefit options for the communities that could be derived from the Rooibos industry. This also calls for properly constituted good governance structure and institutional arrangement that will ensure accountability, predictability, and transparency. This would ensure fair distribution of both monetary and non-monetary benefits to the broader beneficiaries based on informed an perspective.

- 2.5 These functions require a dedicated team of specialists in various fields as the delivery of the work is anticipated within a very short space of time, in order to move the review of the industry-wide benefit sharing process forward. Hence the need to appoint an independent service provider.
- 2.6 To this end, a service provider is required to support the Department to investigate and develop non-monetary benefits sharing and propose governance and institutionalisation framework for implementing and monitoring the Rooibos Traditional Knowledge, benefits sharing mechanisms. This is a necessary step to ensure successful implementation of the industry-wide benefit sharing agreements and basis for future negotiations of benefit sharing agreement/s. The proposed scope of the service provider covers the following:
- 2.6.1 Investigate and development of a non-monetary benefits options and plan designed to address a specific need of the communities and Rooibos industry as well as conservation in general.
 - 2.6.2 Set up a clear benefit monitoring mechanism that would ensure accountability and fair distribution and sharing of benefits with the broader communities of the Khoi and San.
 - 2.6.3 Investigate current modalities of governance within the two communities and development of good governance structure or framework of the communities which would delineate clear power and the governing or management.
 - 2.6.4 Development of the policies, systems, and processes that the community structure will use to legislate, plan, and manage their activities efficiently and to effectively coordinate with greater communities.
- 2.7 There are two community beneficiaries as follows:
- 2.7.1 **The San Council of South Africa.** The members of the San Council comprised of three San Communities, namely the Khomani CPA, the Xun and the Khwe CPA, and the Xam communities.

 - b) Griqua
 - c) Nama
