

Golf T-shirts are typically made from lightweight, durable materials like polyester or cotton, designed for comfort and performance on the course.

Golf Shirts

- **Material:** 100% polyester, which is lightweight, strong, and resistant to shrinking.
- **Fit:** Relaxed fit design for comfort during movement.
- **Colors Available:** White and Blue
- **Design Features:**
 - Double-stitched cover seam hems for added durability.
 - Rib knit collar and sleeves to maintain a non-roll finish.
 - 2-button placket for closure.
 - Side slits at the waist for ease of movement.
- **Care Instructions:** Wash separately with similar colors, avoid bleach, and iron on low heat

REBEL or Equivalent Premium Golf Shirts

- **Material:** 220gsm cotton petit pique, providing a soft feel.
- **Fit:** Elegant slim fit with ribbed collar and matching sleeve ends.
- **Colors Available:** Black, navy, and charcoal grey.
- **Care Instructions:** Wash at or below 30 degrees, do not bleach, cool iron, do not dry clean, and do not tumble dry. Each shirt is individually packed in a poly bag

PRODUCT INFORMATION

- An oil and slip resistant outsole, SR (Slip resistance on ceramic tile floor)
- A dual density PU (Polyurethane) lightweight outsole and an insole with anti-static technology, which reduces the chance of electrostatic discharge and assists with climate control in warm and cold environments.
- Heat insulation properties on the outsole up to 95° C ideal for use when working in the hot sun or in jobs where drastic temperature changes are frequent.
- The outsole has an energy absorption heel for comfort.
- A removable and breathable EVA in sock with anti-static stitching.
- An impact resistant steel toecap made in Italy, rated up to 200 ± 4 Joules.
- A steel midsole for protection against penetrating surfaces and objects.
- A wider toe cap provides extra room and comfort, whilst preventing the toes and joints from rubbing onto the steel toe cap.

1. Stay warm, Stay seen- WATT bunny reflector jacket or equal equivalent

Designed for professionals who brave cold and hazardous environments, the WATT Bunny Jacket combines warmth, visibility, and versatility. Whether you're working outdoors, managing traffic, or handling logistics, this jacket keeps you protected and comfortable throughout your shift.

Key Features

- Zip-Off Sleeves: Easily convert from jacket to vest for changing weather.
- Fleece Lining: Soft inner lining provides thermal comfort in cold conditions.
- Ribbed Hem & Cuffs: Ensures a snug fit and blocks out wind.
- High-Visibility Colours: Lime
- Class 3 Reflective Garment: Enhanced visibility with compliant reflective tape.
- Durable Fabric: Made from 240g/m² polycotton for long-lasting wear.
- Embroidery: PRASA Logo on the left front chest

2. Softshell Jacket unisex

Standard softshell jackets feature a stretch-woven or laminated outer face with a bonded fleece interior, offering a balance of wind resistance, water repellency, and breathability.

Key features

- **Outer shell:** 92% to 95% polyester blended with 5% to 8% spandex or elastane..(approx.125g to 330g/m² laminated fabric) for 4-way stretch mobility).
- **Inner lining:** 100% polyester micro-polar fleece or bonded textured fleece (approx. 190g to 310g/m²) for thermal insulation.
- **Colour:** Black
- **Embroidery:** PRASA Logo on the left front chest.

3. Long Puffer Jacket for women and men**Key features**

- 100% polyester or 400T fabric treated with a water-resistant coating to block wind and light rain.
- **Inner lining:** Smooth polyester or nylon Taffeta for easy layering over clothing.
- **Insulation:** hand-stuffed synthetic down padding or natural goose down for lightweight thermal retention.
- **Quilting:** Horizontal or vertical baffles designed to keep the insulation from shifting.
- **Colour:** Black
- **Embroidery:** PRASA Logo on the left front chest.
