4. POINTS AWARDED FOR SPECIFIC GOALS

- 4.1. In terms of Regulation 4(2); 5(2); 6(2) and 7(2) of the Preferential Procurement Regulations, preference points must be awarded for specific goals stated in the tender. For the purposes of this tender the tenderer will be allocated points based on the goals stated in table 1 below as may be supported by proof/ documentation stated in the conditions of this tender:
- 4.2. In cases where organs of state intend to use Regulation 3(2) of the Regulations, which states that, if it is unclear whether the 80/20 or 90/10 preference point system applies, an organ of state must, in the tender documents, stipulate in the case of—
- (a) an invitation for tender for income-generating contracts, that either the 80/20 or 90/10 preference point system will apply and that the highest acceptable tender will be used to determine the applicable preference point system; or
 - (b) any other invitation for tender, that either the 80/20 or 90/10 preference point system will apply and that the lowest acceptable tender will be used to determine the applicable preference point system,
- then the organ of state must indicate the points allocated for specific goals for both the 90/10 and 80/20 preference point system.

MBD 9: CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
4. This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
5. In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

I, the undersigned, in submitting the accompanying bid: **RLM/DCS/0055/2024/25 - APPOINTMENT OF A SERVICE PROVIDER FOR THE SUPPLY, DELIVERY, COMMISSIONING, SUPPORT AND MAINTENANCE OF DISASTER RECOVERY IT INFRASTRUCTURE AS WELL AS PROVISION OF MANAGED INFORMATION SECURITY SOLUTION FOR A PERIOD OF 36 MONTHS** (Bid Number and Description) in response to the invitation for the bid made by:

_____ **RUSTENBURG LOCAL MUNICIPALITY** _____

(Name of Municipality / Municipal Entity)

do hereby make the following statements that I certify to be true and complete in every respect:

I certify, on behalf of: _____ that:

(Name of Bidder): Bidders are required to fill in the name of their company in the space provided above.

1. I have read and I understand the contents of this Certificate;
2. I understand that the accompanying bid will be disqualified if this Certificate is found not to be true and complete in every respect;
3. I am authorized by the bidder to sign this Certificate, and to submit the accompanying bid, on behalf of the bidder;
4. Each person whose signature appears on the accompanying bid has been authorized by the bidder to determine the terms of, and to sign, the bid, on behalf of the bidder;
5. For the purposes of this Certificate and the accompanying bid, I understand that the word "competitor" shall include any individual or organization, other than the bidder, whether or not affiliated with the bidder, who:
 - (a) has been requested to submit a bid in response to this bid invitation;

- (b) could potentially submit a bid in response to this bid invitation, based on their qualifications, abilities or experience; and
- (c) provides the same goods and services as the bidder and/or is in the same line of business as the bidder
6. The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However communication between partners in a joint venture or consortium³ will not be construed as collusive bidding.
7. In particular, without limiting the generality of paragraphs 6 above, there has been no consultation, communication, agreement or arrangement with any competitor regarding:
- (a) prices;
- (b) geographical area where product or service will be rendered (market allocation)
- (c) methods, factors or formulas used to calculate prices;
- (d) the intention or decision to submit or not to submit, a bid;
- (e) the submission of a bid which does not meet the specifications and conditions of the bid; or
- (f) bidding with the intention not to win the bid.
8. In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the products or services to which this bid invitation relates.
9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.
10. I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No 12 of 2004 or any other applicable legislation.
- ³ Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.

2. Application

2.1 These general conditions are applicable to all bids, contracts and orders including bids for functional and professional services (excluding professional services related to the building and construction industry), sales, hiring, letting and the granting or acquiring of rights, but excluding immovable property, unless otherwise indicated in the bidding documents.

2.2 Where applicable, special conditions of contract are also laid down to cover specific goods, services or works.

2.3 Where such special conditions of contract are in conflict with these general conditions, the special conditions shall apply.

3. General

3.1 Unless otherwise indicated in the bidding documents, the purchaser shall not be liable for any expense incurred in the preparation and submission of a bid. Where applicable a nonrefundable fee for documents may be charged.

3.2 Invitations to bid are usually published in locally distributed news media and on the municipality/municipal entity website.

4. Standards

4.1 The goods supplied shall conform to the standards mentioned in the bidding documents and specifications.

5. Use of contract documents and information inspection

5.1 The supplier shall not, without the purchaser's prior written consent, disclose the contract, or any provision thereof, or any specification, plan, drawing, pattern, sample, or information furnished by or on behalf of the purchaser in connection therewith, to any person other than a person employed by the supplier in the performance of the contract. Disclosure to any such employed person shall be made in confidence and shall extend only as far as may be necessary for purposes of such performance.

5.2 The supplier shall not, without the purchaser's prior written consent, make use of any document or information mentioned in GCC clause 5.1 except for purposes of performing the contract.

5.3 Any document, other than the contract itself mentioned in GCC clause 5.1 shall remain the property of the purchaser and shall be returned (all copies) to the purchaser on completion of the supplier's performance under the contract if so required by the purchaser.

5.4 The supplier shall permit the purchaser to inspect the supplier's records relating to the performance of the supplier and to have them audited by auditors appointed by the purchaser, if so required by the purchaser.

6. Patent Rights

6.1 The supplier shall indemnify the purchaser against all third-party claims of infringement of patent, trademark, or industrial design rights arising from use of the goods or any part thereof by the purchaser.

6.2 When a supplier developed documentation / projects for the municipality / municipal entity, the intellectual, copy and patent rights or ownership of such documents or projects will vest in the municipality / municipal entity.

7. Performance security

7.1 Within thirty (30) days of receipt of the notification of contract award, the successful bidder shall furnish to the purchaser the performance security of the amount specified in SCC.

7.2 The proceeds of the performance security shall be payable to the purchaser as compensation for any loss resulting from the supplier's failure to complete his obligations under the contract.

7.3 The performance security shall be denominated in the currency of the contract or in a freely convertible currency acceptable to the purchaser and shall be in one of the following forms:

- (a) a bank guarantee or an irrevocable letter of credit issued by a reputable bank located in the purchaser's country or abroad, acceptable to the purchaser, in the form provided in the bidding documents or another form acceptable to the purchaser; or
- (b) a cashier's or certified cheque.

7.4 The performance security will be discharged by the purchaser and returned to the supplier not later than thirty (30) days following the date of completion of the supplier's performance obligations under the contract, including any warranty obligations, unless otherwise specified.

8. Inspections, tests and analyses

8.1 All pre-bidding testing will be for the account of the bidder.

8.2 If it is a bid condition that goods to be produced or services to be rendered should at any stage be subject to inspections, tests and analyses, the bidder or contractor's premises shall be open, at all reasonable hours, for inspection by a representative of the purchaser or organization acting on behalf of the purchaser.

8.3 If there are no inspection requirements indicated in the bidding documents and no mention is made in the contract, but during the contract period it is decided that inspections shall be carried out, the purchaser shall itself make the necessary arrangements, including payment arrangements with the testing authority concerned.

8.4 If the inspections, tests and analyses referred to in clauses 8.2 and 8.3 show the goods to be in accordance with the contract requirements, the cost of the inspections, tests and analyses shall be defrayed by the purchaser.

8.5 Where the goods or services referred to in clauses 8.2 and 8.3 do not comply with the contract requirements, irrespective of whether such goods or services are accepted or not, the cost in connection with these inspections, tests or analyses shall be defrayed by the supplier.

8.6 Goods and services which are referred to in clauses 8.2 and 8.3 and which do not comply with the contract requirements may be rejected.

RLM/DCS/0055/2024/25 - APPOINTMENT OF A SERVICE PROVIDER FOR THE SUPPLY, DELIVERY, COMMISSIONING, SUPPORT AND MAINTENANCE OF DISASTER RECOVERY IT INFRASTRUCTURE AS WELL AS PROVISION OF MANAGED INFORMATION SECURITY SOLUTION FOR A PERIOD OF 36 MONTHS

8.7 Any contract goods may on or after delivery be inspected, tested or analysed and may be rejected if found not to comply with the requirements of the contract. Such rejected goods shall be held at the cost and risk of the supplier who shall, when called upon, remove them immediately at his own cost and forthwith substitute them with goods, which do comply with the requirements of the contract. Failing such removal the rejected goods shall be returned at the suppliers cost and risk. Should the supplier fail to provide the substitute goods forthwith, the purchaser may, without giving the supplier further opportunity to substitute the rejected goods, purchase such goods as may be necessary at the expense of the supplier.

8.8 The provisions of clauses 8.4 to 8.7 shall not prejudice the right of the purchaser to cancel the contract on account of a breach of the conditions thereof, or to act in terms of Clause 22 of GCC.

9. Packing

9.1 The supplier shall provide such packing of the goods as is required to prevent their damage or deterioration during transit to their final destination, as indicated in the contract. The packing shall be sufficient to withstand, without limitation, rough handling during transit and exposure to extreme temperatures, salt and precipitation during transit, and open storage. Packing, case size weights shall take into consideration, where appropriate, the remoteness of the goods' final destination and the absence of heavy handling facilities at all points in transit.

9.2 The packing, marking, and documentation within and outside the packages shall comply strictly with such special requirements as shall be expressly provided for in the contract, including additional requirements, if any, and in any subsequent instructions ordered by the purchaser.

10. Delivery and documents

10.1 Delivery of the goods and arrangements for shipping and clearance obligations shall be made by the supplier in accordance with the terms specified in the contract.

11. Insurance

11.1 The goods supplied under the contract shall be fully insured in a freely convertible currency against loss or damage incidental to manufacture or acquisition, transportation, storage and delivery in the manner specified.

12. Transportation

12.1 Should a price other than an all-inclusive delivered price be required, this shall be specified.

13. Incidental Services

13.1 The supplier may be required to provide any or all of the following services, including additional services, if any:

- (a) performance or supervision of on-site assembly and/or commissioning of the supplied goods;
- (b) furnishing of tools required for assembly and/or maintenance of the supplied goods;
- (c) furnishing of a detailed operations and maintenance manual for each appropriate unit of the supplied goods;
- (d) performance or supervision or maintenance and/or repair of the supplied goods, for a period of time agreed by the parties, provided that this service shall not relieve the supplier of any warranty obligations under this contract; and

(e) training of the purchaser's personnel, at the supplier's plant and/or on-site, in assembly, start-up, operation, maintenance, and/or repair of the supplied goods.

13.2 Prices charged by the supplier for incidental services, if not included in the contract price for the goods, shall be agreed upon in advance by the parties and shall not exceed the prevailing rates charged to other parties by the supplier for similar services.

14. Spare parts

14.1 As specified, the supplier may be required to provide any or all of the following materials, notifications, and information pertaining to spare parts manufactured or distributed by the supplier:

- (a) such spare parts as the purchaser may elect to purchase from the supplier, provided that this election shall not relieve the supplier of any warranty obligations under the contract; and;
- (b) in the event of termination of production of the spare parts:

(i) advance notification to the purchaser of the pending termination, in sufficient time to permit the purchaser to procure needed requirements; and (ii) following such termination, furnishing at no cost to the purchaser, the blueprints, drawings, and specifications of the spare parts, if requested.

15. Warranty

15.1 The supplier warrants that the goods supplied under the contract are new, unused, of the most recent or current models and that they incorporate all recent improvements in design and materials unless provided otherwise in the contract. The supplier further warrants that all goods supplied under this contract shall have no defect, arising from design, materials, or workmanship (except when the design and/or material is required by the purchaser's specifications) or from any act or omission of the supplier, that may develop under normal use of the supplied goods in the conditions prevailing in the country of final destination.

15.2 This warranty shall remain valid for twelve (12) months after the goods, or any portion thereof as the case may be, have been delivered to and accepted at the final destination indicated in the contract, or for eighteen (18) months after the date of shipment from the port or place of loading in the source country, whichever period concludes earlier, unless specified otherwise.

15.3 The purchaser shall promptly notify the supplier in writing of any claims arising under this warranty.

15.4 Upon receipt of such notice, the supplier shall, within the period specified and with all reasonable speed, repair or replace the defective goods or parts thereof, without costs to the purchaser.

15.5 If the supplier, having been notified, fails to remedy the defect(s) within the period specified, the purchaser may proceed to take such remedial action as may be necessary, at the supplier's risk and expense and without prejudice to any other rights which the purchaser may have against the supplier under the contract.

16. Payment

RUSTENBURG LOCAL MUNICIPALITY

RLM/DCS/0055/2024/25 - APPOINTMENT OF A SERVICE PROVIDER FOR THE SUPPLY, DELIVERY, COMMISSIONING, SUPPORT AND MAINTENANCE OF DISASTER RECOVERY IT INFRASTRUCTURE AS WELL AS PROVISION OF MANAGED INFORMATION SECURITY SOLUTION FOR A PERIOD OF 36 MONTHS

16.1 The method and conditions of payment to be made to the supplier under this contract shall be specified.

16.2 The supplier shall furnish the purchaser with an invoice accompanied by a copy of the delivery note and upon fulfillment of other obligations stipulated in the contract.

16.3 Payments shall be made promptly by the purchaser, but in no case later than thirty (30) days after submission of an invoice or claim by the supplier.

16.4 Payment will be made in Rand unless otherwise stipulated.

17. Prices

17.1 Prices charged by the supplier for goods delivered and services performed under the contract shall not vary from the prices quoted by the supplier in his bid, with the exception of any price adjustments authorized or in the purchaser's request for bid validity extension, as the case may be.

18. Variation orders

18.1 In cases where the estimated value of the envisaged changes in purchase does not vary more than 15% of the total value of the original contract, the contractor may be instructed to deliver the goods or render the services as such. In cases of measurable quantities, the contractor may be approached to reduce the unit price, and such offers may be accepted provided that there is no escalation in price.

19. Assignment

19.1 The supplier shall not assign, in whole or in part, its obligations to perform under the contract, except with the purchaser's prior written consent.

20. Subcontracts

20.1 The supplier shall notify the purchaser in writing of all subcontracts awarded under these contracts if not already specified in the bid. Such notification, in the original bid or later, shall not relieve the supplier from any liability or obligation under the contract.

21. Delays in the supplier's delivery and/or performance

21.1 Delivery of the goods and performance of services shall be made by the supplier in accordance with the time schedule prescribed by the purchaser in the contract.

21.2 If at any time during performance of the contract, the supplier or its subcontractor(s) should encounter conditions impeding timely delivery of the goods and performance of services, the supplier shall promptly notify the purchaser in writing of the fact of the delay, its likely duration and its cause(s). As soon as practicable after receipt of the supplier's notice, the purchaser shall evaluate the situation and may at his discretion extend the supplier's time for performance, with or without the imposition of penalties, in which case the extension shall be ratified by the parties by amendment of contract.

RLM/DCS/0055/2024/25 - APPOINTMENT OF A SERVICE PROVIDER FOR THE SUPPLY, DELIVERY, COMMISSIONING, SUPPORT AND MAINTENANCE OF DISASTER RECOVERY IT INFRASTRUCTURE AS WELL AS PROVISION OF MANAGED INFORMATION SECURITY SOLUTION FOR A PERIOD OF 36 MONTHS

21.3 The right is reserved to procure outside of the contract small quantities or to have minor essential services executed if an emergency arises, the supplier's point of supply is not situated at or near the place where the goods are required, or the supplier's services are not readily available.

21.4 Except as provided under GCC Clause 25, a delay by the supplier in the performance of its delivery obligations shall render the supplier liable to the imposition of penalties, pursuant to GCC Clause 22, unless an extension of time is agreed upon pursuant to GCC Clause 22.2 without the application of penalties.

21.5 Upon any delay beyond the delivery period in the case of a goods contract, the purchaser shall, without cancelling the contract, be entitled to purchase goods of a similar quality and up to the same quantity in substitution of the goods not supplied in conformity with the contract and to return any goods delivered later at the supplier's expense and risk, or to cancel the contract and buy such goods as may be required to complete the contract and without prejudice to his other rights, be entitled to claim damages from the supplier.

22. Penalties

22.1 Subject to GCC Clause 25, if the supplier fails to deliver any or all of the goods or to perform the services within the period(s) specified in the contract, the purchaser shall, without prejudice to its other remedies under the contract, deduct from the contract price, as a penalty, a sum calculated on the delivered price of the delayed goods or unperformed services using the current prime interest rate calculated for each day of the delay until actual delivery or performance. The purchaser may also consider termination of the contract pursuant to GCC Clause 23.

23. Termination for default

23.1 The purchaser, without prejudice to any other remedy for breach of contract, by written notice of default sent to the supplier, may terminate this contract in whole or in part:

- (a) if the supplier fails to deliver any or all of the goods within the period(s) specified in the contract, or within any extension thereof granted by the purchaser pursuant to GCC Clause 21.2;
- (b) if the supplier fails to perform any other obligation(s) under the contract; or
- (c) if the supplier, in the judgment of the purchaser, has engaged in corrupt or fraudulent practices in competing for or in executing the contract.

23.2 In the event the purchaser terminates the contract in whole or in part, the purchaser may procure, upon such terms and in such manner, as it deems appropriate, goods, works or services similar to those undelivered, and the supplier shall be liable to the purchaser for any excess costs for such similar goods, works or services. However, the supplier shall continue performance of the contract to the extent not terminated.

23.3 Where the purchaser terminates the contract in whole or in part, the purchaser may decide to impose a restriction penalty on the supplier by prohibiting such supplier from doing business with the public sector for a period not exceeding 10 years.

23.4 If a purchaser intends imposing a restriction on a supplier or any person associated with the supplier, the supplier will be allowed a time period of not more than fourteen (14) days to provide reasons why the envisaged restriction should not be imposed. Should the supplier fail to respond within the stipulated fourteen (14) days the purchaser may regard the supplier as having no objection and proceed with the restriction.

23.5 Any restriction imposed on any person by the purchaser will, at the discretion of the purchaser, also be applicable to any other enterprise or any partner, manager, director or other person who wholly or partly exercises or exercised or may exercise control over the enterprise of the first-mentioned person, and with which enterprise or person the first-mentioned person, is or was in the opinion of the purchaser actively associated.

23.6 If a restriction is imposed, the purchaser must, within five (5) working days of such imposition, furnish the National Treasury, with the following information:

- (i) the name and address of the supplier and / or person restricted by the purchaser;
- (ii) the date of commencement of the restriction
- (iii) the period of restriction; and
- (iv) the reasons for the restriction.

These details will be loaded in the National Treasury's central database of suppliers or persons prohibited from doing business with the public sector.

23.7 If a court of law convicts a person of an offence as contemplated in sections 12 or 13 of the Prevention and Combating of Corrupt Activities Act, No. 12 of 2004, the court may also rule that such person's name be endorsed on the Register for Tender Defaulters. When a person's name has been endorsed on the Register, the person will be prohibited from doing business with the public sector for a period not less than five years and not more than 10 years. The National Treasury is empowered to determine the period of restriction and each case will be dealt with on its own merits. According to section 32 of the Act the Register must be open to the public. The Register can be perused on the National Treasury website

24. Antidumping and countervailing duties and rights

24.1 When, after the date of bid, provisional payments are required, or anti-dumping or countervailing duties are imposed, or the amount of a provisional payment or anti-dumping or countervailing right is increased in respect of any dumped or subsidized import, the State is not liable for any amount so required or imposed, or for the amount of any such increase. When, after the said date, such a provisional payment is no longer required or any such anti-dumping or countervailing right is abolished, or where the amount of such provisional payment or any such right is reduced, any such favourable difference shall on demand be paid forthwith by the supplier to the purchaser or the purchaser may deduct such amounts from moneys (if any) which may otherwise be due to the supplier in regard to goods or services which he delivered or rendered, or is to deliver or render in terms of the contract or any other contract or any other amount which may be due to him.

25. Force Majeure

25.1 Notwithstanding the provisions of GCC Clauses 22 and 23, the supplier shall not be liable for forfeiture of its performance security, damages, or termination for default if and to the extent that his delay in

Performance or other failure to perform his obligations under the contract is the result of an event of force majeure.

25.2 If a force majeure situation arises, the supplier shall promptly notify the purchaser in writing of such condition and the cause thereof. Unless otherwise directed by the purchaser in writing, the supplier shall continue to perform its obligations under the contract as far as is reasonably practical, and shall seek all reasonable alternative means for performance not prevented by the force majeure event.

26. Termination for insolvency

26.1 The purchaser may at any time terminate the contract by giving written notice to the supplier if the supplier becomes bankrupt or otherwise insolvent. In this event, termination will be without compensation to the supplier, provided that such termination will not prejudice or affect any right of action or remedy, which has accrued or will accrue thereafter to the purchaser.

27. Settlement of Disputes

27.1 If any dispute or difference of any kind whatsoever arises between the purchaser and the supplier in connection with or arising out of the contract, the parties shall make every effort to resolve amicably such dispute or difference by mutual consultation.

27.2 If, after thirty (30) days, the parties have failed to resolve their dispute or difference by such mutual consultation, then either the purchaser or the supplier may give notice to the other party of his intention to commence with mediation. No mediation in respect of this matter may be commenced unless such notice is given to the other party.

27.3 Should it not be possible to settle a dispute by means of mediation, it may be settled in a South African court of law.

27.4 Notwithstanding any reference to mediation and/or court proceedings herein,

- (a) the parties shall continue to perform their respective obligations under the contract unless they otherwise agree; and
- (b) the purchaser shall pay the supplier any monies due the supplier for goods delivered and / or services rendered according to the prescripts of the contract.

28. Limitation of Liability

28.1 Except in cases of criminal negligence or willful misconduct, and in the case of infringement pursuant to Clause 6;

- (a) the supplier shall not be liable to the purchaser, whether in contract, tort, or otherwise, for any indirect or consequential loss or damage not apply to any obligation of the supplier to pay penalties and/or damages to the purchaser; and

(b) the aggregate liability of the supplier to the purchaser, whether under the contract, in tort or otherwise, shall not exceed the total contract price, provided that this limitation shall not apply to the cost of repairing or replacing defective equipment.

29. Governing language

29.1 The contract shall be written in English. All correspondence and other documents pertaining to the contract that is exchanged by the parties shall also be written in English.

30. Applicable law

30.1 The contract shall be interpreted in accordance with South African laws, unless otherwise specified.

31. Notices

31.1 Every written acceptance of a bid shall be posted to the supplier concerned by registered or certified mail and any other notice to him shall be posted by ordinary mail to the address furnished in his bid or to the address notified later by him in writing and such posting shall be deemed to be proper service of such notice.

31.2 The time mentioned in the contract documents for performing any act after such aforesaid notice has been given, shall be reckoned from the date of posting of such notice.

32. Taxes and duties

32.1 A foreign supplier shall be entirely responsible for all taxes, stamp duties, license fees, and other such levies imposed outside the purchaser's country.

32.2 A local supplier shall be entirely responsible for all taxes, duties, license fees, etc., incurred until delivery of the contracted goods to the purchaser.

32.3 No contract shall be concluded with any bidder whose tax matters are not in order. Prior to the award of a bid SARS must have certified that the tax matters of the preferred bidder are in order.

32.4 No contract shall be concluded with any bidder whose municipal rates and taxes and municipal services charges are in arrears.

33. Transfer of contracts

33.1 The contractor shall not abandon, transfer, cede assign or sublet a contract or part thereof without the written permission of the purchaser

34. Amendment of contracts

34.1 No agreement to amend or vary a contract or order or the conditions, stipulations or provisions thereof shall be valid and of any force unless such agreement to amend or vary is entered into in writing and signed by the contracting parties. Any waiver of the requirement that the agreement to amend or vary shall be in writing, shall also be in writing.

35. Prohibition of restrictive practices

35.1 In terms of section 4 (1) (b) (iii) of the Competition Act No. 89 of **restrictive practices** 1998, as amended, an agreement between, or concerted practice by, firms, or a decision by an association of firms, is prohibited if it is between parties in a horizontal relationship and if a bidder(s) is / are or a contractor(s) was / were involved in collusive bidding.

35.2 If a bidder(s) or contractor(s) based on reasonable grounds or evidence obtained by the purchaser has / have engaged in the restrictive practice referred to above, the purchaser may refer the matter to the Competition Commission for investigation and possible imposition of administrative penalties as contemplated in section 59 of the Competition Act No 89 Of 1998.

35.3 If a bidder(s) or contractor(s) has / have been found guilty by the Competition Commission of the restrictive practice referred to above, the purchaser may, in addition and without prejudice to any other remedy provided for, invalidate the bid(s) for such item(s) offered, and / or terminate the contract in whole or part, and / or restrict the bidder(s) or contractor(s) from conducting business with the public sector for a period not exceeding ten (10) years and / or claim damages from the bidder(s) or contractor(s) concerned.

TERMS OF REFERENCE/ SPECIFICATIONS

1. BACKGROUND

Rustenburg Local Municipality (RLM), located in Rustenburg , Bojanala District of North West Province, invites

RUSTENBURG LOCAL MUNICIPALITY

RLM/DCS/0055/2024/25 - APPOINTMENT OF A SERVICE PROVIDER FOR THE SUPPLY, DELIVERY, COMMISSIONING, SUPPORT AND MAINTENANCE OF DISASTER RECOVERY IT INFRASTRUCTURE AS WELL AS PROVISION OF MANAGED INFORMATION SECURITY SOLUTION FOR A PERIOD OF 36 MONTHS

proposals from service providers for a three-year Term Contract for supply, delivery, configuration, commissioning, support and maintenance of a secured and reliable backend data processing and storage hardware (Servers, Storage Attached Network, Tape Library, and Fibre Switch) for its Disaster Recovery (DRP) site in Rustenburg Fire Station as well as provision of the real-time perimeter monitoring solution and services for the Production site (Head Office in Mpheni Missionary House).

2. SCOPE OF WORK (TECHNICAL)

The bidders are invited to propose reliable, robust, secured and scalable IT DRP solution that matches or exceeds the technical specifications (as presented below) of the Servers, Storage Attached Network, Tape Library, Fibre Switch, LAN switches, Rack-Mount Cabinet, KVM, KMM and all accessories required to complete the RLM IT Disaster Recovery solution. The bidders' proposed solutions should take into account the RLM Disaster Recovery Strategy (see item 4 below). The bidders should advise on the Wide Area Network (WAN) connectivity requirements of their proposed DRP solution to ensure that scheduled data replications between the live production site and the DRP site at Fire Station are successfully carried within specified time.

The bidder shall provide Uninterrupted Power Supply, Access Control and Fire Suppression System with cooling system for the DRP site and for Live Production site (Head Office: Mpheni Missionary House) shall provide only the Fire Suppression System. The bidder's proposed DRP Server Centre solution should be Tier 3 Server Centre. The service provider shall provide sufficient backup power through UPS, network communication facilities, access control system, fire suppression system, and soft services etc. as applicable for Server Centre and as required for the proposed equipment on 24 x 7 basis in order to maintain uptime of the DRP facility. The bidder shall lastly provide Managed Information Security Solution (real-time perimeter monitoring as well as Log Collection and analysis services).

NB: Bidders shall supply, deliver, install and cost all equipment, material, accessories, mounting hardware, software, licenses, cables and any other necessary components that are required to complete the commissioning of bidders' proposed solutions. Bidders shall consider product roadmap when proposing solutions to avoid proposing products that have already been phased out or are about to be phased out.

3. TOPOLOGY

3.1 Communications and Networking

- 100% Cisco Gigabit Ethernet backbone
- There are nineteen (19) Cisco LAN switches in seven (7) locations within Rustenburg.
- Cisco IP telephony system at Head Office and Fire Station. Includes Unity voice mail, CER, and Informacast paging application.
- 12 VLAN segments

4. DISASTER RECOVERY STRATEGY (VIRTUALISATION AND SAN)

Rustenburg Local Municipality ICT Disaster Recovery solution is architected around two separate interconnected data centres, in order to offer high availability and minimal downtime. The current data room at Mpheni Missionary house the primary production servers. For disaster recovery, a secondary data room will house the recovery servers, where data will either be mirrored in real time or near real time depending on the business requirements, from time to time as would be defined by the Business Impact Analyses and Risk Assessment.

Without a failover site that has the necessary redundancy, the IT Unit cannot access the offline data backups. With this in mind, the IT systems that have a high priority and zero downtime at critical times to the business (Financial and HR/Payroll applications) require a fully redundant and duplicated platform design.

4.1 Server Virtualisation

The technology platform at the DRP site will be based on server virtualization and utilization of a Storage Area Network (SAN) backend as the primary storage mechanism. Application servers will connect to the SAN on which all operating systems and data will reside. The primary systems will be run on new server hardware, which is based on Intel's latest-generation micro architecture.

Hardware consolidation is achieved by running servers as Virtual Machines. This allows multiple Windows Server instances to be run on a single physical server. Server hardware acquisition should support virtualisation technology. Server virtualization is the masking of server resources, including the number and identity of individual physical servers, processors, and operating systems, from server users.

Server virtualization provides a way for RLM to practice redundancy without purchasing additional hardware.

RUSTENBURG LOCAL MUNICIPALITY

RLM/DCS/0055/2024/25 - APPOINTMENT OF A SERVICE PROVIDER FOR THE SUPPLY, DELIVERY, COMMISSIONING, SUPPORT AND MAINTENANCE OF DISASTER RECOVERY IT INFRASTRUCTURE AS WELL AS PROVISION OF MANAGED INFORMATION SECURITY SOLUTION FOR A PERIOD OF 36 MONTHS

Redundancy affords RLM to run the same application on multiple servers. It's a safety measure, if a server fails for any reason, another server running the same application can take its place. This minimizes any interruption in service. It wouldn't make sense to build two virtual servers performing the same application on the same physical server. If the physical server were to crash, both virtual servers would also fail. The design incorporates redundant virtual servers on different physical machines, as well as different data centres.

4.2 SAN (Storage Network Attach)

A SAN backend with virtualisation offers the following advantages:

- **Better disk utilization**

The main benefit RLM derives from installing a SAN is better disk utilization. When all storage is tied together through a centralized storage network, the Municipality gains the ability to manage everything as a single entity. This gives RLM the ability to slice up the central pool of storage resources at the network level and assign that storage more intelligently to the servers that need it.

- **Better hardware utilization**

There will be less physical server hardware, resulting in better resource utilisation. Power consumption will be lower due to fewer servers and the use of more efficient blade servers. Additional power savings will be made subsequent to the lower cooling requirements. This supports an initiative to moving to towards "Green IT" as well as lowering the cost of electricity utilisation.

- **DR solution for multiple applications**

With many critical servers in the data centre running applications that simply can't go down as well as the need to be recovered quickly if a disaster strikes, the best solution is a SAN. Although the upfront costs for implementing a SAN-based disaster recovery solution are higher than the traditional approach of local storage, the benefits can be realized in just a single hour if a disaster happens. The cost of downtime is critical to the Municipality.

- **Better availability for our applications**

Storage arrays in storage networks are built from the ground up to be as reliable and redundant as possible with the aim to never go down. They use pre-failure notification technology like *email home*, where the storage array itself sends a notification to the manufacturer to report that one of its components might fail. Equipment that you find in a SAN is built to highly robust standards. Applications fail because of data becoming corrupted by things going wrong with the disks that those applications use. The storage arrays in a SAN use very good data protection algorithms to make sure that your data stays consistent.

- **Backup windows are taking too long**

Decreasing the time needed to back up large volumes of data is also one of the major benefits of installing a SAN. With the use of Snapshot Technology that SAN's offer, they enable making hardware-based, exact duplicates of your data almost instantly. The duplicates can be used as both the backup of RLM data and as a source for backing up that data to a tape library connected to our SAN. This is known as a disk to disk to tape topology that is the ideal method of backup.

The secondary data room as part of the implementation will house a secondary SAN which will provide full redundancy in the event of a disaster. It will contain near live mirror images of the application servers in the primary production environment. It will be located in at the DRP site. Given time and resource availability a separate data room at Mpheni Missionary House (production environment) will be earmarked for establishment of the hot DR, Test Environment and Restore environment to support high-priority disaster.

5. MINIMUM TECHNICAL SPECIFICATIONS OF THE IT DRP AND REAL-TIME PERIMETER MONITORING SOLUTIONS

5.1 VMWARE VIRTUAL SERVERS CONNECTED TO A CENTRAL SAN AND TAPE LIBRARY

The bidder will supply, deliver, configure and commission three servers (two servers to be preloaded with the latest version of VMWare, mirrored and ready to accommodate installation of Virtual Servers whereas the third server should be configured as Management and Backup Server). The two VMWare mirrored servers will be connected both to the LAN switch and a Fibre Channel switch (which, in turn, will be connected to a Backup Server, Tape Library and SAN devices). The Management and Backup Server will be connected to the LAN switch. The bidder shall provide everything necessary to complete provision of the backend devices whose technical specifications are detailed below.

5.1.1 RACKMOUNT SERVERS

smart Integrated Fire Suppression System with cooling at the DRP site which is capable to protect Data centre equipment from fire, smoke and monitor environmental conditions and trigger alerts effectively. The Fire Suppression System is also required at the Head Office Server Centre (Mpheni Missionary House) but the cooling system is required only at the DRP site.

The RLM Head Office Server Room is located at Mpheni Missionary House (Rustenburg) and it measures 5.80m in Length, 2.8m in Width, Height of 2.83m with a raised floor of 0.27m. The RLM DRP Server Room is located at Rustenburg Fire Station and it measures 5.20m in Length, 2.46m in Width, Height of 2.45m with a raised floor of 0.27m.

Technical Requirements

- **Automatic Thermal and Fire Detection (Mpheni House and DRP site)**

Server Rooms are usually isolate and least accessed Room in any Office. Hence it is essential for any Fire Suppression System to detect Fire Automatically. While traditional smoke detectors are placed on the ceiling and can only detect Fire when smoke reach to it, in the case of Fire in an Electrical Equipment this could be too late to react. The System should have a Thermal Detection feature so that a Fire can be detected prior to any visible Fire, and necessary measures can be taken to minimize the damage.

- **Audible and Visual Signal (Mpheni House and DRP site)**

The Fire Suppression System should have its own built-in Audio and Visual signalling system.

- **SMS/Email Notification (Mpheni House and DRP site)**

The proposed system should have smart notification features which can be configured to trigger on different thresholds for various sensors. The system should have following notification features:

- ✓ **Email Notification:** the system should be able to send email notification to set email addresses whenever email notification is triggered based on the configuration.
- ✓ **SMS Notification:** The system should be able to send SMS automatically for given numbers whenever SMS notification is triggered based on the configuration.
- ✓ **Voice Call:** The System should be able to make a voice call to a given number and play pre-recorded

- **Clean Agent, Gas/Chemical Extinguisher (Mpheni House & DRP site)**

While Water is most common agent to extinguish Fire, using water to extinguish fire in a Server Room will do more damage to the equipment than the fire itself. The proposed Fire Suppression System should not cause damage to the electronic equipment in the Server centre and should not leave any residue.

- **Access Control (Mpheni House & DRP site)**

The proposed system is preferred to have built-in access control to the Server centres or Racks to control and monitor the physical access to the servers / Server centres. Preferred to have fingerprint validation to the premises.

5.2.2 Cloud Backup Solution

The bidder shall provide Cloud Backup solution to backup all data to the cloud.

RUSTENBURG LOCAL MUNICIPALITY

RLM/DCS/0055/2024/25 - APPOINTMENT OF A SERVICE PROVIDER FOR THE SUPPLY, DELIVERY, COMMISSIONING, SUPPORT AND MAINTENANCE OF DISASTER RECOVERY IT INFRASTRUCTURE AS WELL AS PROVISION OF MANAGED INFORMATION SECURITY SOLUTION FOR A PERIOD OF 36 MONTHS

5.3 MANAGED INFORMATION SECURITY SOLUTION

The RLM seeks a service provider who can add value to security information and log management by assessing real-time data (REAL-TIME PERIMETER MONITORING TIER) and stored logs (LOG COLLECTION AND ANALYSIS TIER) to add context to incident identification and response. The services are required both for the live production and DRP sites.

In addition to the requirements set forth below, the Rustenburg Local Municipality requires Managed Security Service Provider (MSSP) to designate an account manager for the entire duration of the contract. The MSSP account manager will participate in quarterly status meetings, provide the Municipality with SLA and other reports and escalate any issues according to defined escalation procedures, etc. The Rustenburg Local Municipality requires MSSP to have a Security Operations Center(s) (SOC) that operates 24 hours a day, 7 days per week. The SOC engineers shall be reachable by telephone and e-mail.

The MSSP shall provide authorized Municipality administration access to a web based SOC portal in order to obtain on-demand, real time views of its monitored devices. The MSSP shall record all incidents in an issue tracking system, and make such system available to appropriate Municipality personnel. Individual contacts should be able to obtain real time and historical performance data for all monitored devices. They are also the primary contacts for the Managed Security Service Provider (MSSP) in case of security incidents, monitored device outages or scheduled maintenance notifications.

5.3.1 Real-time Perimeter Monitoring tier:

Monitor the Municipality network security equipment and provide real time analysis and alerts, focusing on actionable events for customer notification and real-time monitoring schemes which reduce/prioritize the volume of data that must be quickly analyzed. The MSSP must be able to apply their knowledge of external threats and attacks they encounter across the devices monitored for all of their customers to add value to the analysis of alerts for Rustenburg Local Municipality.

The Municipality seeks service providers that can offer an integrated dashboard of real-time monitoring and log analysis and reporting functions and workflow as well as regular operations status reports. The operations status report/dashboard must include detailed statistics for the monitored security services. This may include overview

of each ticket recorded during reporting period, device utilization graphs, etc. The incident report should contain overview of all security incidents detected within reporting period, including assessment and actions taken. Respondents must provide examples of reports they will use. Reports must be made available electronically through the secured portal.

With the exception of its IDS modules where the vendor will be responsible for configuration, management and monitoring, RLM will retain management of the monitored devices. Vendor's solution will employ a strategy to gather event data from monitored devices; forward such data to a secure operations center or portal, filter/data mine this data, and report findings to the appropriate RLM IT personnel based upon predefined trigger/escalation thresholds which are to be recommended by the MSSP and agreed to by Rustenburg Local Municipality.

5.3.2 Log Collection and analysis tier:

Provide security log aggregation, collection, retention, archival and analysis of such for compliance reporting and vulnerability/exploit remediation recommendations. Log collection is not subject to real-time alerts; it is considered analysis-after-the-fact. Regular inspection of collected log data is required with special attention given to identifying evidence of privilege escalation and unauthorized creation of accounts.

Log collection requirements shall include the acquisition of all log data and the retention of that data for one and a half years, even after review and reporting, to meet the Municipality's auditing and compliance needs.

5.4 PROFESSIONAL SERVICES

The bidder shall perform the following mandatory professional services:

- Supply, deliver, assemble, install, test and fully commission all equipment, material, accessories, mounting hardware, software, cables and any other necessary components that are required to complete the bidder's proposed IT DRP and Real-Time Perimeter Monitoring solutions. All software provided by the bidder shall be fully license and annual software renewal costs should be clearly specified.
- Configure, test and commission daily data replication between the live production and DRP sites
- Configure, test and commission the data backup solution and shall ensure that daily data backups are successfully carried out. Tape cartridges shall be changed on daily basis to offsite storage location
- Configure, test and commission the Managed Information Security solution
- Document system and data restore tests procedures and perform restore tests on quarterly basis without fail
- Transfer skills to RLM IT personnel (training programme to be provided)
- Document the proposed solutions
- Provide support and maintenance services

- Quarterly SLA reporting

The project manager / key personnel must have Premier visualisation certificates.

Furthermore, the project manager/key personnel must have one of the following certifications:

- COBIT 5
- ITIL

6. CORE SUBMISSION REQUIREMENTS BY THE SUCCESSFUL SERVICE PROVIDER BEFORE COMMENCEMENT

- Detailed proposals. The proposal must address the following components as per the technical specifications:
 - product descriptions
 - brochures
 - datasheets
- Bidder shall provide detailed costs of the proposed solutions and also summary of the costs as per the tables above (Price(s) quoted must be firm for one year and will escalate at an annual rate to be determined by CPI. Price(s) must also include all costs (material, labour, hardware, software, licensing, professional, transport, insurance, etc.) that are associated with the complete delivery of the required solutions and must include VAT))
- Technical Capacity (Project Structure/Team with roles and responsibilities of each position fully defined, Curriculum Vitae (CVs) of Human Resources to be deployed to provide professional services for assembly, installation, configuration and commissioning of servers, Storage Attached Network, Fiber Channel Switch, Tape Library and rack-mount solution)
- The bidder shall provide a Project Plan and Methodology indicating time frames, schedules to ensure non-interruption of RLM ICT services during delivery of proposed solutions
- Bidder shall provide letters or any other form of accreditation from the original equipment manufacturers (OEMs) of the hardware/software to serve as proof that the bidder is certified to supply/distribute and/or to support and maintain the bidder's proposed server, data storage and information security solutions.
- Reference of recent similar Projects (at least two referees that are not older than five years). This section should provide the track record and experience of the firm highlighting their experience in the supply/work that is similar or related to the goods/services being procured by RLM. The term "similar" refers to contracts which are closest to the contract being tendered, or are very closely related or associated with what RLM is procuring.
- Track record of the bidding company refers to contracts entered into by the company as an entity, and not based on the individual capacity of the members of the team or the company's owner or key personnel.
- The bidder shall provide SLA appropriate to the goods and services as per this Request for Proposals
- The bidder shall supply, deliver, install and cost all equipment, material, accessories, mounting hardware, software, licenses, cables and any other necessary components that are not indicated in this RFP but are required to complete the commissioning of the solutions required by RLM technical specifications

FUNCTIONALITY

The Technical/functional Section should detail how the service provider will deliver the project. The bidder shall package the submission in such a way that it will be easier for the Municipality to find information required to evaluate the bidder's response. The technical section of the proposal will therefore be subjected to the following evaluation criteria.

NB: For a bidder to qualify, it is a requirement for a prospective bidder to score a minimum of 70 out of 100 points for functionality.

Values: **1 = Poor, 3 = Good, 5 = Excellent**

Rustenburg Local Municipality reserves the right to verify all the information provided.
