QUERY 2- Winding Technologies (pty) Ltd

Tender Enquiry Page Ref.	Document Description and Statement/ Query/ Clarification Required
45 of 56	<p>I would like to seek clarity regarding one of the technical requirements listed in the above-mentioned tender. It states that <i>"Bidders shall be independent laboratories, specialising in diagnostic testing of insulating materials, especially oil and paper, used in high voltage electrical equipment."</i></p> <p>As a contractor specialising in oil purification works, we collect and submit our oil samples to an accredited independent laboratory for testing. Kindly confirm whether this arrangement disqualifies us from submitting a tender, considering we do not operate our own independent laboratory.</p>

CLARITY FOR QUERY 2:

According to the standard conditions of tender, page 7 of 56 clause 7, "Bidders who are not manufacturers, accredited distributors, or agents must provide a valid agreement / Joint Venture Agreement, entered into with the manufacturer, accredited distributors, or agents, with their submission. This agreement must meet all the requirements as laid down in the tender document and must cover the contract period".
