| TEM | DULE NO: 05 SANITARY INTERNAL DRAINAGE | OTV | RATE | AMOUNT |
|------|---|--------|------|---------|
| | DESCRIPTION | QTY | KAIE | ANIOUNI |
| NO | Supply deliver and install grease trap, of the ALLTRAP ENGINEERING series, AT 700 2L/s or other approved, in order to separate low viscosity mineral liquids (oil and fat) that are not soluble in water. The unit shall be manufcatured from from high-grade austenitic stainless steel, chemically de-scaled (acid pickled) in order to enhance the natural corrosion resistance. All surfaces shall be polished and have a smooth finish for easy cleaning, minimum dirt collection and high flow rates. The unit shall be equipped with a large solid strainer basket with bottom draining cutouts covered with the fine S/S mesh, easily removable cover and basket for cleaning with the discharge pipe fully accessible once the drain has been dismantled, built-in drain/suction valve, the unit is to be sealed water tight. The flow Rate is 2 l/sec. The unit dimensions are (W)x(H)x(D) = 700mmx400mmx450mm with horizontal Inlet & Outlet as 100mm diameter | 1 | | |
| 6.2 | External Oil Seperator. Note: (External Chamber By Builder.) Supply, deliver and install grease trap, of the ALLTRAP ENGINEERING series OILSEP 3, c/w all fittings The flow Rate is 3 l/sec. The material must be stainless steel 304. The unit dimensions are (W)x(H)x(D) = 1130mmx1050mmx1000mm with horizontal Inlet & Outlet as 100mm diameter HERBISH HBBW 200V Bin Wash Floor Drain 400mm x 400mm vert | 1 2 | | |
