1.	Dear Sir/Madam, Despite information shared in the ITT, would it be acceptable for Eskom to receive a similar offer using Krohne products? Those ones are well known in the nuclear industry and especially widely installed in the French nuclear fleet. Thank you for your consideration	Thank you for your enquiry. Please note that the tender documents require tenderers to offer the specific product and configuration detailed in the Scope of Work and Bill of Materials. The tender documents further state that no alternative tenders or alternative products will be accepted. In accordance with the tender requirements, Eskom is required to evaluate tenders on the basis of the specifications and requirements issued to the market and to	2026-07-28

		apply such requirements fairly and consistently to all tenderers. Accordingly, a proposal based on Krohne products would constitute an alternative product offering and would not be acceptable under this enquiry, irrespective of whether the product may be considered technically similar or equivalent. Tenderers are therefore required to submit offers in accordance with the specified product configuration and requirements contained in the tender documents. The request to submit a tender based on Krohne equipment is not accepted.
