- d) Each point shall be recorded on disc in the following order:
 - ◆ Point description (code or short name)

 - ◆ X co-ordinate
 - ◆ Z co-ordinate
 - ◆ Connecting line reference (where applicable)
- e) The Surveyor shall supply a list explaining the point description codes to the Engineer together with the DTM.
- f) The accuracy of any point in the digital terrain model, whether a spot height or a detail point height, shall be such that the mean square error of the elevation of such points as determined from the digital terrain model when compared with the elevations as determined in the field, shall not exceed 100mm, unless otherwise agreed.

The mean square error shall be computed from the formula:

$$MSA = (\text{Sum } (dh^2)/n)^{0.5}$$

Where "dh" is the vertical error of each checkpoint and "n" is the total number of checkpoints.

- c) The grid spacing shall be 100m.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.

- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.

- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
