

## **CLARIFICATION QUESTIONS FOR SUPPLY AND DELIVERY FOR HERBICIDES NORTH EAST GRID.**

**31 AUGUST 2023**

Thank you for your response.

- 1) I just want to ensure I submit all the correct documents for this tender.
  - The main tender document together with supporting documents relating to registrations (CIPC, VAT, etc) as well as our BBBEE status and registrations.
  - What other documents must be submitted with the above please ? please check your invitation to tender returnable **page for tender closing and contract award**
- 2) The tender documents states that no prices must be submitted with the tender as e-auction will be held on prices for all qualifying tenderers.
  - How does this work ? **do note out prices in your submission park it for later stage.** will we be notified if we are part of the e-auction process ? **Yes after you passed commercial and technical evaluations** Is it a live online auction with bidding taking place on lower and lower prices until time of close ? **Yes** Or how does the e-auction process work ? **you will see when you undergo it no need to panic.**

Can you please assist in clarifying the following matters as per the Invitation to Tender documentation :

- 1) On page 8 of 44 of Invitation to tender document, 3.9 Basic Compliance, point 3..... "Submit complete original tender with commercial, financial, BOQ on both excel & Pdf format, SDL&I in one file and technical information in the second file for evaluation purposes" ..... Can you please help me in this regard ? What are the documents referred to here that must be submitted in Excel and Pdf format ? **Yes** What is the SDL&I and technical info that must be submitted ? **Yes ,Your tender response should have response for Commercial file, Financial ,SHEQ AND SDL&I**
- 2) On page 8 of 44. Underneath 3.13 is a table....in the table under point 2 and 3, it is requested that the Vehicle and Driver license must be submitted for transportation of the goods. We don't have the specific vehicle and drivers name at this stage. Must this be submitted now for evaluation ? Must I get letter from transporters who can verify that they are registered to transport the goods in question as per tender and that all their drivers have the relevant drivers license to transport such goods ? Or what must be done here in this regard ?  
**The supplier needs to stick to the requirements requested for transparency . They can still request those documents from the Transporter and submit for the Tender.**

Good day,

Trust you are well. Please see my request on specification that we would like more clarity on to ensure the correct products would quoted on to meet your specific needs.

In realastion to the Unique identification no: 240-125477962 there are three products listed(SEE BELOW):

Herbicide Category	Residual Activity	Active ingredient
1) Non-residual herbicides: Herbicides with active ingredients which control only existing weed growth.	Nil – Non-residual:	Glyphosate
2) Residual or soil acting herbicides: Residual or soil acting herbicides which controls existing growth and provide extended control of subsequent growth.	Short term: 6-12 months	Triazines Bromacil
3) Residual or soil acting herbicides: Residual or soil acting herbicides which controls existing growth and provide extended control of subsequent growth.	Medium term: 12-18 months	Tebuthiuron

### 3.3.3. Specification for herbicide specification

Is this the requested specification for the tender, if so please confirm. As the below products are the exact composition and formulation to the requested on Unique identification no: 240-125477962 document?

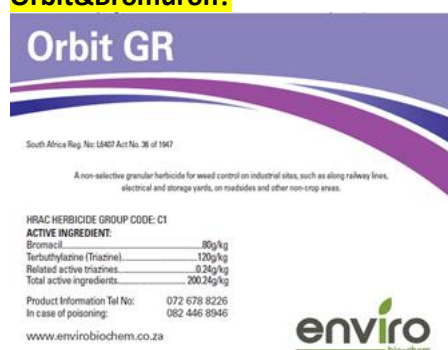

### The three product as per specification:

1. Tumbleweed: Active Ingredient – Glyphosate 240 SL. This product match the specification but it is not what is asked for on the quote's scope of work.

2. Orbit/Comit: Active ingredient – Bromacil 80g/kg : Triazines 120g/kg. This product match the specification but it is not what is asked for on the quote's scope of work

### Orbit&Bromuron?

3. Bromuron: Active ingredient – Bromacil 50g/kg : Tebuthiuron 50g/kg. This product does not match the specification. Due to the bromacil in the formulation. Both Orbit and Bromuron will do the same work, as they are both Granular Formulation (GR) stipulated under the scope of work. **The 650x25kg granular weedkiller on request. If you can confirm if this will be allowed to tender on it?**

## Orbit&Bromuron?

**Orbit GR**

South Africa Reg. No. L8017 Act No. 36 of 1947

A non-selective granular herbicide for weed control on industrial sites, such as along railway lines, electrical and storage yards, on roadsides and other non-crop areas.

HRAC HERBICIDE GROUP CODE: C1

**ACTIVE INGREDIENT:**

Bromacil	80g/kg
Terbutylazine (Triazine)	120g/kg
Related active triazines	8.24g/kg
Total active ingredients	208.24g/kg

Product Information Tel No: 072 678 8226  
In case of poisoning: 082 446 8946  
www.envirobiochem.co.za

**enviro**  
bio-chem

**Bromuron 100 GR**

Reg. No.: L8017 Act No. 36 of 1947

A non-selective root absorbed granular herbicide with extended residual action for the control of undesirable vegetation on non-crop land and on industrial sites.

'n Nie-selektiewe, wortelopneembare, korrel-tipe onkruidodder met lang nawerking vir die beheer van 'n ongewenste plantegroei in nie-gevas en nywerheidsgebiede.

HRAC HERBICIDE GROUP CODE: C1 + C2 | HRAC ONKRUIDODDERGROEP KODE:

**ACTIVE INGREDIENT/AKTIEWE BESTANDDEEL:**

Bromacil/Bromasil (uracil/urasil)	50 g/kg
Tebuthiuron/Tebutiuron (urea compound/ureumverbinding)	50 g/kg

If the granulare products are as stipulated above under point 2 and 3. You are still left with the other product under the scope of word which is the liqued formulation. QTY 300x20L

## Would that be then the product stipulated above under point 1?

### 4. Scope of work/Works Information/Employers Requirements

Supply and delivery of herbicide as per the below:

- 650 x 25kg Granules Herbicide with Residual or soil acting herbicide (Weed killer with Tebuthiuron as active Ingredients).
- 300 x 20 Litre drum of Liquid Herbicide with Residual or soil acting herbicide (Weed killer with Triazines or Bromacil as active Ingredients).

See attached standard scope of work document **240-125477962** attached.

Question(summary below) we would like to be answered:

1. Is this the requested specification for the tender, if so please confirm. As the below products are the exact compstion and formulation to the requested on Unique identification no: 240-125477962 document?
2. The 650x25kg granuler weedkiller on request. If you can confirm if this will be allowed to tender on it?
3. Orbit&Bromuron?
4. Would that be then the product stipulated above under point 1?

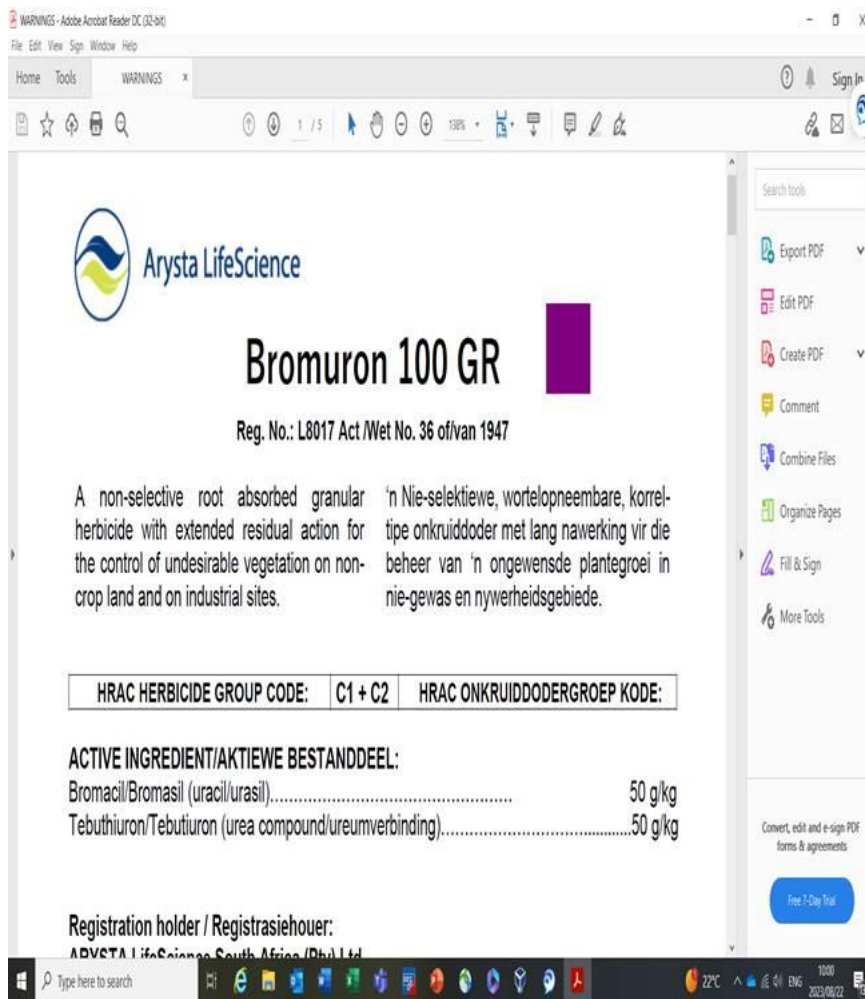

Good day

Please note the below.

Regards

Hi

Please request them to look at the active ingredients per as attached, out of my head I know bromuron 100GR is one of those.

Good day Thula

Please assist with the attached and below query.

Good day

Please assist with below query on specification of product requested.

I have attached two labels of products that I just want to confirm meets your specification needs.

Orbit GR as the granular

Outpace super as the liquid

Kind regards

Good day

Trust you are well,

I would like to find out about the tender specification on Tender Nr **MWP2061TX ( THE SUPPLY AND DELIVERY OF HERBICIDES IN THE NORTH EAST GRID AT VULCAN SUBSTATION)**.

If you could supply us with the correct label of the products you are looking for as on the tender specifications on the (standard scope of work) document as to the (technical + evaluation criteria ) documents and another specification on the (invitation to tender) document.

Scope of work in “invitation document” refers to tebuthiuron as the granular and Triazine or Bromacil as the liquid.

4. Scope of work/Works Information/Employers Requirements

Supply and delivery of herbicide as per the below:

- 650 x 25kg Granules Herbicide with Residual or soil acting herbicide (Weed killer with Tebuthiuron as active Ingredients).
- 300 x 20 Litre drum of Liquid Herbicide with Residual or soil acting herbicide (Weed killer with Triazines or Bromacil as active Ingredients).

See attached standard scope of work document **240-125477962 attached.**

In the Technical+ evaluation document only refers to the Tebutiuron

Technical Gate keepers				
Failure to provide all the required documentation will result in the tenderer application been disqualified immediately. There will be no scoring linked to these requirements .Only "Yes" or "No" answers				
Item #	Description	Proof documentation required	Weight	Score
1	Herbicide must have Residual or Soil acting Herbicide TEBUTHIURON	MSDS and List of Active Ingredients	80	
2	Vehicle list	Proof of vehicle to Transport Hazardous Goods	10	
3	Driver Licence	Hazardous goods Transportation	10	

In the “standard scope of work document it is referred to as follow

Herbicide Category	Residual Activity	Active ingredient
<b>1) Non-residual herbicides:</b> Herbicides with active ingredients which control only existing weed growth.	Nil – Non-residual:	Glyphosate
<b>2) Residual or soil acting herbicides:</b> Residual or soil acting herbicides which controls existing growth and provide extended control of subsequent growth.	Short term: 6-12 months	Triazines Bromacil
<b>3) Residual or soil acting herbicides:</b> Residual or soil acting herbicides which controls existing growth and provide extended control of subsequent growth.	Medium term: 12-18 months	Tebuthiuron

### 3.6.2 Prescription for herbicide application
