SECTION 3

SPECIFICATIONS

PROVISION OF INTERNAL COMMUNICATION PLATFORM FOR THREE (3) YEARS

1. Introduction

The National Housing Finance Corporation (NHFC) was established by the National Department of Human Settlements as a development finance institution (DFI) in 1996, with the principle mandate of broadening access to affordable housing finance for the low- and middle-income households.

NHFC is a national public entity, the NHFC adheres to the regulatory framework of the Public Finance Management Act (PFMA) of 1999.

The NHFC provides wholesale funding in the affordable housing market mainly to social housing institutions, non-banking retail intermediaries, privately owned property developers, construction companies and investors. It also provides loans and other forms of wholesale funding (equity and quasi equity) to certain niche businesses that are in the affordable housing market.

2. Background

The NHFC is seeking a service provider to provide a reputable internal communication software platform to improve the corporation's internal communication and employee cohesion.

The NHFC seeks a platform that will be instrumental in the improvement of dissemination of internal communications and employee cohesion amongst NHFC employees across the board. Most companies resort to using traditional communication channels such as internal emails to communicate with their employees. Unfortunately, most employees and companies find it challenging to keep on top of their congested inboxes and keep communication lines clear as a result. It is unrealistic of companies to expect effective employee engagements using channels which are already strained and over-utilised and ineffective for other forms of corporate communication.

3. Purpose

The purpose of this RFQ is to solicit quotations from potential service providers to provide the NHFC with a reputable workplace internal communication software platform whose purpose is to help improve internal communication.

The software platform must allow for messages to employees to be published and delivered as scheduled or real-time messages to the intended audience (either the entire organisation or task-based teams) via a priority channel, ensuring that messages are not only read but also remembered by recipients, resulting in seamless communication with an engaged workforce.

4. Scope of work / Key Deliverables:

The NHFC requires the quote on the following item(s) indicated below:

The bidder shall demonstrate employee communication software that uses a combination of impact messaging and multimedia channels to dynamically broadcast news and information to staff members very effectively, ensuring that the message is seen and remembered. The software must also be able to gather feedback from employees through innovative survey/questionnaire methods which are both effective but non-disruptive.

The contract will be for a period of three (3) years, and the desired implementation timeline is three (3) weeks from date of appointment.

The solution must have the following features:

- **Enhanced Internal Communication:** Focusing on ensuring internal messages are seen, read, remembered, and acted upon, overcoming the limitations of unread emails.
- **Interactive features:** Incorporates surveys, questionnaires, and tickertapes to gather real-time feedback.
- **Targeted delivery:** Allowing for segmenting audience to deliver content tailored to specific departments, divisions or regions.
- **Performance Tracking:** Enabling measurement of communication, tracking activity on messages, and reporting on exposure.
- **Modules:** Key modules must include screen savers, desktop wallpapers, pop-ups, and ticker tapes to maximise visibility.
