MEMO

Good Day,

TENDER CLARIFICATION MEETING ADDENDA.

INVITATION TO TENDER No. E2180GXMPKUS

Provision of tube manipulation/bending for planned and unplanned outages for a 5year period at Kusile Power Station

QUESTIONARES

Good day Happy

I hope you are doing well.

We are currently in the process of preparing our submission for the Provision of tube manipulation/bending for planned and unplanned outages for a 5 year period at Kusile however, due to the technical nature and scope of the work, we kindly request an extension to the submission deadline to allow sufficient time for thorough preparation and internal approvals. Babcock hereby requests an extension until the **24/12/2025**.

Babcock requires the additional time to prepare a comprehensive offer to allow for:

- Due diligence of manufacturers' technical compliance and compliance with procurement policies. (To protect Eskom from sub-standard goods and to make sure the manufacturers have capacity and know how)
- Internal Tender Approval from Babcock Group CEO - This process takes about 2 weeks
- Bid governance processes, assessment, and approval for a comprehensive and competitive bid.

We look forward to your kind consideration and assuring you best of our services

ANSWERS

Good day Happy, unfortunately the tender cannot be extended as it'll pose a risk to the procurement plan and the current contract is due to expire

We humbly request Babcock to assist us in expediting the tender returnables and submit on the published closing date as delays will impact future outage planning
