Financial Proposals

All bidders who have scored a minimum of 70% on functionality will be considered for further evaluation and all those who failed to achieve the minimum percentage (70% equivalent) will be disqualified.

The following formula will be used to calculate the percentage for price / financial proposals:

$$Ps = (Pmin / Pt) \times Ap$$

Where

Ps = % scored for price bid / proposal under consideration

Pmin = lowest acceptable bid / proposal

Pt = price of bid / proposal under consideration

Ap = % allocated for price

Scoring on Functionality

The criteria for functionality are kept to the essential so as not to render the evaluation a mechanical exercise but rather a professional assessment. A few pointers are, however, relevant:

- ❑ **Personnel Experience and Expertise** refers to previous experience in relevant projects. In this stage the evaluation is focusing on individuals that will play a role in the project (CVs to be attached).
- ❑ **Company Experience** refers to previous relevant projects and overall track record.
- ❑ **Methodology** considers the responsiveness to the *request for proposals*, the level of detail in the proposal, attention to project management and innovative approaches and ideas in preparation of business plan. Methodology proposed shall be in line with the scope of the works proposed for the project.
- ❑ **Team Qualifications and Capability** considers the technical and professional skills of the project team, regional knowledge if relevant and proven conceptual abilities (supported by other client references if needed). The qualifications of the proposed team to be delegated on the project will be primarily assessed for their capacity to implement the project. Overall qualifications of the staff within the company and their minimum time allocation for the project will be secondary in assessing the qualifications.

F. General

Statutory compliance that may be used with this document during evaluation until completion of the project may be extracted from the following guidelines

- Engineering Guidelines (PMI, SACPCMP, ECSA);
- South African Council for Natural Scientists Professionals (SACNASP) for environmentalists;
- South African Council for Architectural Profession (SACAP)
- General Conditions of Contract for construction works 2015;

i. Duration

The panel has no guarantee for the quantum of work over the period of three years. The municipality reserves the right to open for new competitors from the market on an annual basis to be added on to the panel. The packages strategy will be on the basis of quotations to be submitted by panel service providers and invitations and subsequent awards will be on the basis of evaluating current work commitments within the municipality and previous performance in this regard. The municipality reserves the right to allocate or withhold allocations to panel service providers.

- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
