7.3 Minimum Threshold 80 points for Technical Criteria

Phase 3: TECHNICAL EVALUATION: 80 POINTS THRESHOLD

Technical evaluation requires a minimum of 80 points threshold, failure to meet the threshold will result in disqualification.

TECHNICAL COMPLIANCE TO SPECIFICATIONS

The technical evaluation will be conducted per group of material and will be as follows:

Notes to bidders:

1. If a bidder submits multiple MOUs per group or category, the bidder must submit drawing packs for each MOU and will be scored separately per MOU. A bidder will only progress for a category if at least one MOU meets the requirements. If progressed, the bidder will only be permitted to supply Transnet from those MOUs that have passed the evaluation.
2. Providing evidence of full compliance to Transnet's drawings or specifications as per Annexure A by submitting documentation or drawings or datasheets from the OEM for all items in the category they are bidding for that:
 - a. Are labelled according to the groups and item number in the GROUP tables and Annexure A.
 - b. Clearly contains details that the OEM drawing complies with the given drawing, description, specifications, and standards for the item. Technical compliance to given specifications will be tested during the technical evaluation process.
 - c. Are stamped or signed by the OEM
 - d. Where hardness and mixed metals or alloys are specified, the bidder must ensure the returned drawing clearly states the hardness and percentage contents for each metal
3. The following additional technical documentation for groups covered by specifications CEE-0063 and BBB 6017 shall be submitted:
 - a. The bidder must provide the technical data sheet or type test certificate to verify conformance to the requirements in accordance with clause 4.1 of specification BBB6017.
 - b. The bidder shall complete the technical datasheet in accordance with clause 1.4 of specification CEE-0063.
 - c. The bidder shall submit the technical data sheet or type test certificate verifying conformance to requirements of clauses 4.1, 5.3.1, 5.4.1, 5.5.1, 5.6.3, 5.6.4, 6.2.1 of specification CEE-0063.
4. For non-OEM bidders, the quality plan(s) or ISO9001 certification(s) shall be for each of the OEM(s) or Manufacturer(s) that provided the MOU(s) or Authorization or Confirmation letter(s). If a quality plan or ISO9001 certification is submitted without accompanying MOU or Authorization or Confirmation letter, that quality plan or ISO 9001 will not be evaluated.
5. The OEM bidders who own multiple manufacturing facilities that will be manufacturing the items must provide the quality plans or ISO 9001 certifications and confirmation letters for all the facilities that will be manufacturing the material.
6. Bidders must submit evidence of lead times indicated, preferably in the form of a previous order for similar material in that group which indicates the on which the order was received (e.g. Purchase Order) and the date on which the material was ready for collection or delivery (e.g. delivery or collection note). Failure to submit this evidence will result in a 0 score for lead time in that group.
7. Bidders must submit evidence of previous supply or testing of similar items, from the previous 36 Months, in the form of:
 - a. Test certificates and inspection certificates: Should be signed or authorized by a member of the Quality Assurance Team, dated, items' descriptions clearly indicated etc.
 - b. Delivery notes: Should be stamped or signed, dated, full item descriptions clearly indicated etc.
 - c. Invoices: Should be signed, dated, full item descriptions clearly indicated etc.

Full compliance with Transnet's given specifications earmarked as annexure and in the group tables below by:

2. The Threshold for each group is 40 Points. Failure to return requested drawings for any single item or material will result in zero (0) points for that entire group. Items will only be evaluated and awarded individually if the group cannot be awarded to any bidder as a whole.
3. Bidders must carefully read **all quoted descriptions, drawings, specifications, and applicable standards** and ensure that the documents submitted for each item are fully compliant for every item in each group they are bidding for. This will be tested in STEP 2 of the evaluation.
