Important information for completing returnable schedules

1. The returnable schedules list on the previous page shows all the returnable schedules which need to be completed and returned for bid evaluation and contracting purposes. This list includes both document-standard and project-specific schedules. The list should be used as a checklist by the bidder to verify that all returnable schedules have been duly completed, to avoid the bid being rejected due to an incomplete submission.
2. Each returnable schedule per main Part of the document is numbered, starting at Schedule A1 and following a consecutively incremented whole number sequence preceded by the Part identifier through each main Part of the bid document to the final schedule number assigned, as per the returnable schedules list.
3. Schedules can be quickly located by their document page number given in the list of returnable schedules.
4. The bidder must furnish all the information required for each returnable schedule with the indicated amount of detail to ensure compliance of the bid with responsiveness criteria. Please note: If any returnable schedule or part thereof is not applicable to the tenderer, that schedule or part thereof must be clearly marked "Not Applicable" (N/A), and not simply left blank. Schedules left blank without any indication of response by the tenderer to the requested information in the schedule, will be taken as an omission of the requested information.
5. Some schedules may either require, or have as an option, additional pages of information to be appended by the bidder when submitting the bid. In each case the exact number of additional pages must be indicated in the space provided on that schedule, or indicated as NIL if no additional pages are appended. **Please note: Appended pages must not be directly affixed to the returnable schedule itself, but must be grouped together at the end of the document (or at the end of each two-part section of the document as appropriate when a two-envelope submission is required), and all appended pages must be clearly marked with the schedule number to which they belong.**

- 8.5 Bids will only be considered if all the requirements as stated in these terms and conditions and in the GCC and SCC are complied with. Specific emphasis is placed on the following criteria for responsiveness:
- (1) It is not compulsory for bidders to be registered on the WCSEB by date of tender closing. The appointed service provider will however be required to register on the Western Cape Supplier Evidence Bank (WCSEB) to ensure all compulsory information is obtained upon expiry or annual renewal during the contract period. 8.6 All bids are subject to a comprehensive risk assessment in terms of:

1. Financial viability and sustainability;
2. Evaluation and validation of the required information provided by the bidder in inter alia returnable schedules.

The Purchaser reserves the right to request, in writing, additional information from bidders to clarify their offer if deemed necessary for risk assessment purposes. Failure on the part of the bidder to provide the additional information within seven calendar days after receipt of such a request will disqualify the bid. Bid offers which present an unacceptable high risk to the Purchaser in terms of any of the risk assessment criteria, will be rejected.

Prior to bid award, an on-site inspection of the bidder's business and operations may be undertaken by officials of the Purchaser to make an assessment of the facilities and manufacturing capabilities of the bidder (if applicable), for verification purposes and completion of the overall risk assessment for this bid. Each party will be responsible for their own costs related to such on-site inspection. If the site inspection reveals any falsification or misrepresentation of information submitted by the bidder in the bid submission, the bid may be disqualified.

(a) For a Sole Contract a Retention amount **as stated in the Contract Data** is retained from the Supplier in the assessment of each amount payable until the date of Contract Completion. The amount retained is halved in the first assessment made after the date of Contract Completion and shall remain at this amount until the end of the Retention Period **as stated in the Contract Data**.

(b) For a Term Contract or a Framework Contract a Retention amount **as stated in the Purchase Order** is retained from the Supplier in the assessment of each amount due until the date of Order Completion. The amount retained is halved in the first assessment made after the date of Order Completion and shall remain at this amount until the end of the Retention Period **as stated in the Purchase Order**.

SCC2.5.7 Payment by the Supplier of its subcontractors and suppliers

The Supplier shall pay a subcontractor or supplier for all subcontracted work or goods and services rendered to the Supplier which in terms of this contract have been certified and paid to the Supplier. The Supplier shall pay a subcontractor or supplier within 30 days of receipt of payment from the Purchaser or in accordance with the terms as stipulated in writing in a subcontracting or supply agreement, whichever is the earlier.

SCC2.6 CHANGE EVENTS

SCC2.6.1 Change events

Change events are events which have implications of cost and/or time and/or variation of the Goods and Services which are not made provision for by the stipulations in the Scope of Goods and Services or elsewhere in this contract. Change events do not require a contract amendment procedure as contemplated in GCC Clause 18, but are instead governed as stated in the clauses contained in SCC2.6. The following are change events:

- (1) The Purchaser instructs a change in the Scope of Goods and Services, unless the change is effected to make a Defect acceptable. Any change to the Scope of Goods and Services shall be limited to include only items logically related to, or associated with, those of the original Scope of Goods and Services contemplated by, and included in, this contract.

- (2) The Purchaser instructs a change to the Contract Completion Date or an Order Completion Date.
- (3) The Purchaser does not allow access to its premises or does not provide the services and things necessary which the Purchaser is to provide to the Supplier as stated in this contract.
- (4) The Purchaser gives an instruction to stop or not to start the provision of the Goods and/or Services.
- (5) The Purchaser does not reply to a communication within the Period for Reply required by this contract.
- (6) The Purchaser changes a decision which the Purchaser has previously communicated to the Supplier, which results in cost and/or time impacts on the provision of the Goods and/or Services.
- (7) The Purchaser instructs the Supplier to search for a Defect in the provided Goods and/or Services and no Defect is found.
- (8) The Purchaser notifies a correction to an assumption which the Purchaser has stated about a change event which results in cost and/or time impacts on the change event.
- (9) An event which stops the Supplier from providing the Goods and Services by the Contract Completion Date or by the Order Completion Date and which neither Party could prevent, and deemed at the time of quotation to have such a small chance of occurring that it would have been unreasonable to have allowed for it.
- (10) A difference between the final quantity of any item of Goods and/or Services completed, and the quantity stated for that item in the contract or in a Purchase Order.
- (11) A loss or damage to Goods and Services completed which is not the fault or responsibility of the Supplier or could not have been prevented by any reasonable action of the Supplier.
- (12) An item of Goods or Services required which is not included in the Price Schedule.

SCC2.6.2 Notification of change events

- (a) The Supplier shall give notification to the Purchaser of an event which the Supplier believes has happened or which the Supplier believes will happen as a change event, unless the Purchaser has already notified the event to the Supplier. If the Supplier does not notify the change event within four weeks of becoming aware of it, the Supplier will forfeit any change in the prices and changes to the Contract Completion Date or an Order Completion Date, unless the event arises from an instruction by the Purchaser. The Supplier may include a quotation for the change event at the time of notification.
- (b) If the Purchaser decides that an event notified by the Supplier is as result of a fault of the Supplier, or has not happened and is not expected to happen, or has no effect on the Supplier's Cost and/or completion time or is not one of the change events stated in this contract, the Purchaser shall notify the Supplier of the decision that the prices, and the Contract Completion Date or Order Completion Date are not to be changed.
- (c) If the Purchaser decides otherwise, then within one week of receiving the Supplier's notification, the Purchaser shall acknowledge receipt of the notification. At the same time, the Purchaser shall instruct the Supplier to submit a quotation for the event, unless a quotation was included in the notification or if a revised quotation is required.
- (d) If the Purchaser decides that the Supplier did not give early warning of the event which the Supplier reasonably could have given, the Purchaser shall notify the decision at the time when acknowledging receipt of the Supplier's notification and instructing the Supplier to submit a quotation.
- (e) Change events cannot be notified after the later of the date of Contract Completion and the end of the Retention Period stated for the contract. For a Purchase Order, change events cannot be notified after the later of the date

of Order Completion and the end of the Retention Period stated in the Purchase Order.

SCC2.6.3 Quotations for change events

- (a) A quotation for a change event comprises two distinct components: (1) proposed changes to the prices or rates, and (2) any delay in stipulated completion times for providing the Goods and/or Services. The Supplier shall include details of the assessment and calculations with each quotation and shall submit the quotation to the Purchaser within one week after receiving instruction from the Purchaser to do so, or within two weeks of the date of notification of the change event if no such instruction is received.
- (b) The Purchaser may also instruct the Supplier to submit a quotation for a proposed instruction or a proposed changed decision (a "Proposal"). A quotation for a Proposal is not put into effect by the Supplier unless explicit instruction to do so is given by the Purchaser.
- (c) The Purchaser shall reply within one week of receipt of the Supplier's quotation submission. For a Proposal the Purchaser's reply is one of the following: (1) that the Proposal will not be effected (the default if no reply is given) or (2) a notification that the Proposal including quotation is approved and will be effected or (3) a notification that the Proposal is acceptable in principle but the Purchaser does not agree with the quotation. For all other change events the Purchaser's reply is either approval of the quotation or a notification that the Purchaser does not agree with the quotation (no default if no reply is given).
- (d) If the Purchaser does not agree with the quotation, the Supplier may submit a revised quotation within one week of receipt of the Purchaser's reply. If no revised quotation is received or if the Purchaser does not agree with the revised quotation, the Purchaser may perform an own evaluation and shall notify the Supplier of it.

SCC2.6.4 Evaluation/assessment of change events

- (a) If a change event only affects the quantities of Goods and/or Services in the Price Schedule, the changes to the prices are calculated by multiplying the changed quantities by the appropriate rates in the Pricing Schedule.
- (b) For all other change events the changes to the prices are calculated based on the Supplier's Cost, forecasted if not already incurred or actual if already incurred. The Supplier's Cost is broken down and shown separately for labour (people), materials, equipment used, subcontracted work and transport, excluding any overheads and profit. The mark-up percentage for overheads and profit **as stated in the Contract Data** is applied to the calculated effect of the event, excluding any taxes such as Value added Tax (VAT) and taxes for import, export and customs clearance.
- (c) The effects of change events on the Supplier's Cost are calculated at open market or competitively tendered prices where all recoverable discounts, rebates and taxes have been deducted. The cost of events that the Supplier is required to be insured for by this contract as well as any costs paid to the Supplier by an insurer for the event are deducted from the Supplier's Cost.
- (d) The delay to the Contract Completion Date or an Order Completion Date is calculated as the length of time that the applicable Completion Date is forecasted to be delayed by the change event.
- (e) Prices and rates for work not included in the Price Schedule and approved by the Purchaser are added to the Price Schedule as lump sums or rates, as appropriate, and are used from there on forward for pricing subsequent Purchase Orders.

SCC2.6.5 Cost of preparation of quotations for change events

All costs associated with the preparation of quotations for change events for this contract are the Supplier's risk and are not reimbursable by the Purchaser.

SCC2.7 TITLE, AND THE USE OF EQUIPMENT AND OTHER THINGS

SCC2.7.1 The Purchaser's title to, and marking of, Goods
 Irrespective of the type of title the Supplier has to any Goods delivered as specified in the Scope of Goods and Services, title shall pass to the Purchaser upon delivery. The Supplier shall mark all the Goods for payment by the Purchaser before delivery in accordance with the stipulations in the Scope of Goods and Services.

SCC2.7.2 Intellectual property rights

- (a) The ownership of and all rights in and to intellectual property owned by either Party prior to the commencement of this contract shall be and remain vested with the Party who as at the commencement of this contract is the owner thereof.
- (b) The Supplier shall have no claim or be entitled to any copyright or other intellectual property that arises as deliverables or otherwise out of the execution of this contract, ownership of which shall at all times vest in the Purchaser. The Supplier may not reproduce or use the copyright or any intellectual property unless with the prior written permission of the Purchaser.
- (c) The Supplier hereby warrants that it either owns or obtained the right to use all intellectual property in all material used by it in the course of providing the Goods and/or Services in terms of this contract.
- (d) The Supplier hereby indemnifies the Purchaser from and against any claim that any material used by it, in the course of providing the Goods and/or Services in terms of this contract, infringes any third party's intellectual property rights.

SCC2.7.3 The Parties' use of equipment and other things

- (a) The Supplier has the right to use equipment and other things provided by the Purchaser only to provide the Goods and Services.
- (b) The Supplier shall return to the Purchaser all equipment and other surplus things provided by the Purchaser, provide items of equipment and provide the information and other things for the Purchaser's use as stated in the Scope of Goods and Services, for a Sole Contract before the date of Contract Completion and for a Term Contract or Framework Contract before the earlier of the date of Order Completion and the end of the Service Period, as applicable.

SCC2.7.4 Keeping a site attendance register
 If the Supplier operates a site on the Purchaser's premises as part of providing the Goods and Services, the Supplier shall keep a site attendance register detailing the identity of, sign-in and sign-out by its employees and visitors to the site or location where the Goods and Services are provided, details of which shall be made available to the Purchaser upon request.

SCC2.8 RISK, INDEMNITY, AND INSURANCE

SCC2.8.1 Purchaser's risks
 The following are Purchaser's risks:

- (a) Claims, proceedings, compensation and costs payable which are due to negligence, breach of statutory duty or interference with any legal right by the Purchaser or any person employed by the Purchaser (with the exception of the Supplier), or a fault of the Purchaser.
- (b) Loss of or damage to the Goods and/or Services after delivery/completion except loss or damage occurring before the date of Contract Completion or the later of the end of the Service Period and the latest date for Order Completion as applicable, which is due to (1) a Defect which existed at delivery or completion, or (2) an event which is not a Purchaser's risk or (3) activities of the Supplier after delivery/completion.
- (c) Loss of or damage to the Goods and Services retained by the Purchaser after delivery/completion upon contract termination except loss or damage due to

the activities of the Supplier after delivery/completion following the termination.

SCC2.8.2 Supplier's risks

Mediation shall be conducted in Cape Town in the governing language of this contract, which is English.

SCC2.9.2 Termination for reasons other than Supplier's default or insolvency (GCC Clauses 23 and 26)

If either Party wishes to terminate the Supplier's obligation to supply the Goods and Services in terms of this contract, he notifies the intention to terminate together with a valid reason for terminating to the other Party. Unless the Parties can agree otherwise, termination is effected by the Purchaser issuing a termination certificate to the Supplier if the reason complies with this contract.

(a) Additional reasons for termination

The following are the only valid reasons for termination of this contract, in addition to the reasons of Supplier's default or insolvency as contemplated in GCC Clauses 23 and 26:

- (i) The Supplier may terminate if the Purchaser has not made a payment within 12 weeks of receipt of a complete and correct payment submission from the Supplier;
- (ii) The Purchaser may terminate for any other reason.

- (b) Procedures on termination
 - (i) On termination, the Supplier shall return to the Purchaser any equipment and surplus things provided by the Purchaser, and hand over any items ordered and paid for by the Purchaser.
- (c) Payment on termination

The amount payable on termination includes the following:

 - (ii) the Supplier's Cost associated with cancelling of items ordered by the Supplier, where applicable,
 - (iii) The total of the Prices of any items ordered by the Supplier which cannot be resold or used elsewhere and of which the Supplier has to accept delivery, and
 - (iv) for a Sole Contract, if the Purchaser terminates for reason (a)(ii) above, 5% of the Prices of any remaining Goods and Services deliverable under the contract, had there been no termination.

The Purchaser may cancel a Purchase Order at his sole discretion.

SCC2.10 FRAMEWORK CONTRACT (Only applicable if Contract Type is Framework Contract)

SCC2.10.1 Object and operation of the Framework

- (a) The object of this Framework is to enable the Purchaser to invite tenders and to appoint more than one Supplier to carry out work over the Service Period on an "as instructed" basis within its defined scope, based on the pricing information provided by the Supplier in the Pricing Schedule of this document. The goal of this approach is to speed up and streamline procurement of the Goods and/or Services required by the Purchaser from the open market in order to fulfil its strategic objectives, while maintaining transparency and equitability of the procurement process.
- (b) The Purchaser is not obligated and does not guarantee that the Supplier will be issued with a minimum number of Purchase Orders instructing the provision of Goods and/or Services during the Service Period.
- (c) The Purchaser issues Purchase Orders for the provision of Goods and/or Services during the Service Period of the contract based on best value and best serving the strategic objectives of the Purchaser.

SCC2.10.2 Management of the Framework

- (c) A Framework Core Management Group (the "Group") of people may be established by the Purchaser. The Group is responsible for operating and maintaining the Framework relationship to facilitate continuity, effectiveness and communication.
- (d) The Group consists of nominated representatives of the Purchaser and the Supplier. The Supplier shall nominate 2 (two) representatives on the appropriate returnable Schedule ("Supplier's Nominees for Framework Core Management Group") in this document. Up to 4 (four) Purchaser's representatives can be nominated at the Group's establishment meeting. Both the Purchaser and the Supplier are free to replace their representatives at any time and for any reason during the Service Period, by notifying the other of the names of the replacements. If the Purchaser is not satisfied with a nominated representative of the Supplier, the Purchaser shall give the reasons and instruction to the Supplier to replace the representative. The Supplier shall replace the representative unless the reasons given by the Purchaser are illegal or impossible to comply with.
- (e) The Group meets through meetings scheduled by the Purchaser when the Purchaser deems necessary. In the event of problems or obstacles in the way of satisfactory operation of the Framework, an ad hoc meeting of the Group may be called by either the Purchaser or the Supplier. The Purchaser is responsible to take minutes of all meetings, which are distributed to all Group members within two weeks after the meeting. Expenditure to attend meetings of the Group is not a cost-reimbursable item for the Supplier.

SCC2.10.3 Adding Suppliers to the Framework

- (a) Annual and ad hoc review of the Framework and addition of Suppliers

Within the period of 4 weeks before and after each Framework Contract anniversary date until the end of the Service Period or if circumstances of insufficient Supplier availability arise or prevail at any other time during the Service Period which are deemed by the Purchaser to threaten or impair the effective and efficient operation of the Framework in the fulfilment of the strategic objectives of the Purchaser, the Purchaser shall review and evaluate the Framework per geographic region or location as applicable. Where circumstances of insufficient Supplier availability are indicated, the Purchaser may exercise the option to add Suppliers to the Framework, subject to the following conditions:

 - (ii) The Framework's pricing is such that all Suppliers are remunerated in accordance with a Price Schedule comprising uniform rates and prices which are the same for all, or failing which competitive pricing and value for money compared to that of other existing Suppliers be clearly demonstrated and documented;
 - (iii) All added Suppliers shall be contracted under the exact same conditions of contract as the other existing Suppliers and are remunerated in accordance with the same Framework Price Schedule.
 - (iv) Where existing suitable Framework Suppliers appointed under this contract but in other geographical regions or locations can be identified, preference be given to such Suppliers to be added to the region or location where the Goods and/or Services are required;
 - (v) Where no suitable existing Framework Suppliers can be identified to be added to a particular region or location, the Purchaser may approach other service providers not contracted under this Framework but who are suitable to be added to the Framework, in that region or location.
- (b) The procedure to be followed for adding Suppliers to the Framework is as follows:
 - (i) For existing Framework Suppliers, a contract amendment as per GCC Clause 18, which shall be effected by mutual agreement between the Purchaser and Supplier, reduced to writing in an addendum signed by both Parties and added to the Supplier's existing Framework Contract;

- (ii) For service providers not contracted under the Framework, secondary open procurement and competitive negotiations in compliance with all applicable Government procurement prescripts including a secondary risk assessment procedure to evaluate inter alia current commitments, previous performance and other risk factors. Successful bidder/s to be appointed with a notification of appointment issued by the Purchaser and signature by both Parties of this Framework Contract document, effective for the remainder of the Service Period.

SCC2.10.4 The Selection Procedure

The Purchaser shall select a Supplier appointed under the Framework to submit a quotation for a proposed Purchase Order according to these criteria and terms:

(a) Eligibility of a Supplier for selection

A Supplier is eligible for selection by the Purchaser to submit a quotation for a proposed Purchase Order if (1) the Goods and/or Services required are within the scope of the Supplier's offer in terms of this contract, and (2) the Supplier has a business presence in the geographical location where the Goods and Services are required, and (3) the Supplier is not currently engaged in the execution of another Purchase Order under this Framework, the workload of which is deemed by either the Purchaser or the Supplier likely to impair the Supplier's ability to undertake and complete the proposed Purchase Order effectively, and (4) the Supplier does not have a record of unsatisfactory performance during execution of previous Purchase Orders under this Framework, and if the Supplier has, then only if the Purchaser is satisfied with remedial measures instituted by the Supplier to prevent a recurrence of such unsatisfactory performance for future Purchase Orders.

(b) Selection of a Supplier in the Framework

- (i) If the Purchaser seeks quotations for proposed Purchase Orders under the Framework, the Purchaser (1) selects a Supplier who is eligible for selection and (2) if more than one Supplier is eligible for selection, the Purchaser rotates its selection of Suppliers sequentially to spread Orders fairly between eligible Suppliers as far as it is practically possible, within the limits of the Purchaser's strategic business objectives.
- (ii) The Purchaser also has the option to invite a secondary competitive process by selecting all eligible Suppliers to submit a competitive quotation, where the Supplier offering the lowest price within the context of acceptable risk, is selected. A reason for exercising this option may be when quotations are sought for significant quantities of Goods and/or Services for which no prices or rates are available in the Price Schedule. Selection of a Supplier is effected when a written issue of instruction to submit a quotation for a proposed Purchase Order is received by the Supplier.

SCC2.10.5 The Quotation Procedure

The Supplier provides a quotation to the Purchaser for a proposed Purchase Order according to these criteria and terms:

- (a) The Purchaser shall give written instruction to the Supplier to submit a quotation for a proposed Purchase Order, by issuing a Purchase Order form in either hardcopy or digital format to the Supplier. The Purchase Order form documentation shall contain all the relevant forms, the scope of work and related information describing and defining the Goods and/or Services to be delivered/completed. If the quotation is simultaneously competing with quotations from other selected Suppliers under this Framework, the Supplier is so notified.
- (b) The Supplier shall give written acknowledgement of receipt of the Purchase Order form. The Supplier shall prepare the quotation for the Purchase Order based on the pricing in the Price Schedule for this contract. The Supplier's rates and prices in the Price Schedule are binding and apply as the maximum allowable rates and prices quoted for any Purchase Order under this Framework. If a quotation is competing with quotations from other selected Suppliers under the Framework, the Supplier may reduce any of the rates or prices in the Pricing Schedule in order to improve the competitiveness of the

quotation. Rates and prices may never be exceeded, except for the provisions of price escalation for inflation, if applicable.

- (c) Quotation for items for which there are no prices available in the Price Schedule are subject to assessment by the Purchaser and negotiation where applicable, and the Purchaser reserves the right to treat new items in the same way as change events.
- (d) The Supplier shall submit its quotation by returning the Purchase Order documentation together with any other required documentation or information to the Purchaser in compliance with the instructions given by the Purchaser, on or before the stated date and time. Late or incomplete submissions may be rejected.
- (e) The Purchaser shall give reply to the Supplier. The reply can be (1) acceptance and approval of the quotation and instruction to provide the Goods and/or Services for the Purchase Order, or (2) a notification that the Purchaser does not accept the quotation and the Purchase Order will not be effected, or (3) a notification that the Supplier's submission is acceptable in principle but the Purchaser does not agree with the quotation and further refinement of pricing and/or detailing must be concluded to the Purchaser's satisfaction before the quotation will be approved.
