**THE APPOINTMENT OF A SERVICE PROVIDER TO CONDUCT A
DETAILED FEASIBILITY STUDY FOR A WATERPARK FEATURING
WAVES IN THE HAZYVIEW AREA SITUATED AT MBOMBELA
LOCAL MUNICIPALITY IN MPUMALANGA PROVINCE.**

TERMS OF REFERENCE

TERMS OF REFERENCE FOR THE APPOINTMENT OF A SUITABLE SERVICE PROVIDER TO CONDUCT A DETAILED FEASIBILITY STUDY FOR A WATERPARK FEATURING WAVES IN THE HAZYVIEW AREA

1. BACKGROUND

In 2018, the Mpumalanga Provincial Government (MPG) undertook an ambitious journey with a strategic vision to establish Mpumalanga as a leading tourism destination. By leveraging the province's unique natural and cultural treasures, the initiative aimed to captivate visitors while highlighting tourism as a key driver of economic growth. Despite financial challenges and limited resources, the agency rolled out a robust marketing campaign targeting both local and international audiences.

Through participation in prestigious tourism expos and exhibitions, Mpumalanga's breath-taking landscapes and rich cultural heritage were showcased effectively. These efforts significantly enhanced the province's global visibility, presenting its diverse attractions to a wider audience and solidifying its status as an essential destination on the global tourism stage.

The Mpumalanga Department of Economic Development and Tourism (the dedt) has identified the Hazyview area as a priority node for tourism development. Furthermore, the department developed a five-year Mpumalanga Tourism Strategy (2018-2025) wherein diversification of tourism products is highlighted as a -necessity to enhance visitor experience especially in rural areas with huge potential for tourism growth such as the Bushbuckridge and Blyde River Canyon belt.

It is important to note that the Hazyview area and its surroundings constitute a cluster of tourism activities like accommodation, adventure tourism, wildlife

experiences in the Kruger National Park, the scenic beauty in the Blyde River Canyon, etc. Therefore, the development of a Waterpark with wave pools will be able to link it with small and micro businesses that would yield investments, create jobs and generate a lot of revenue to the Hazyview area. It is in this view that in this current financial year, the **Waterpark featuring Waves** has been identified as an anchor project for the Hazyview area. The project will unlock tourism potential of the area and enhance the competitiveness of the province regarding adventure tourism.

2. MOTIVATION

Given the above context, the Department of Economic Development and Tourism (DEDT) extends an invitation to companies with the necessary expertise to carry out a detailed feasibility study for a waterpark featuring wave pools in the Hazyview area, situated within the Mbombela Local Municipality. This initiative aligns with the Province's strategic roadmap to broaden its tourism offerings. The DEDT seeks a qualified firm or consortium capable of evaluating the market demand and feasibility for developing such a waterpark, whether as an independent facility or integrated within a resort complex. The study aims to determine whether the proposed **waterpark development** is economically feasible and if the value of the proposed project equals the capital investment

The Province aims to enhance and diversify its tourist attractions and activities within the Mbombela Local Municipality, catering to visitors traveling between the Blyde River Canyon and the Kruger National Park as well as from Mbombela to Acornhoek. This initiative aligns with local and provincial development objectives to attract a greater number of tourists and generate additional employment opportunities. Situated along the R40 Tourism Route, this corridor is one of the busiest in the Province, offering significant potential for growth and investment in the tourism sector.

The appointed service provider will holistically investigate feasibility of a Waterpark featuring Wave Pools through identifying but not limited to existing

and potential markets, the demand factor, different models as well as community beneficiation. The appointed service provider will therefore, be required to set up a well constituted project team responsible for all project professional services elements comprising of the following disciplines:
