Description of Request	DevExpress DXperience Subscription Licenses for a period of 5 years

1. High level background

DevExpress tools are primarily used to create Windows, web, and mobile applications. DevExpress is well-known for its comprehensive set of UI controls, reporting tools, and application frameworks that are designed to work seamlessly with Microsoft technologies such as .NET, ASP.NET, WPF (Windows Presentation Foundation), WinForms, and Blazor.

These tools are called DevExpress DXperience and they are popular among developers for their performance, ease of use, and comprehensive documentation. They are widely used in enterprise-level applications and are known for enabling developers to create professional and high-quality software efficiently.

2. Scope of work/Business requirements

2.1. Provide detailed description and volumes of the product/service requested:
Supplier to provide 3 DevExpress DXperience subscription licenses for a period of 5 years.

Non- committal provision of 3 additional licenses that may be required over the years. In other words, the maximum licenses may be up to 6 licenses in total in addition to the initial 3 licenses.

2.2. Training/Transfer of skills:
No formal training will be required from the supplier, as the tools are designed to be user-friendly and intuitive.

3. Service Level Agreement requirements
SLA is not applicable since the service required is subscription licences

4. Approvals:
