#### 1. PURPOSE

The Road Traffic Infringement Agency (RTIA) would like to invite bid proposals from competent service providers to render legal services to the Agency for a period of three (3) years.

#### 2. BACKGROUND

The Legal, Governance and Compliance unit is a support Unit within the Agency and provides support function within the Agency through Legal and Compliance Management Policies, amongst others. In terms of the Policies, the Unit is tasked with the drafting of contracts, including management and implementation thereof, negotiations with the Union, litigation management, CCMA appearances, drafting of legal opinions and advisories, legislative drafting and interpretation, compliance management as well as attending to any other legal requests made by business Units from time to time. As it may be perceived from this background, the existence of the Unit is crucial to the sustainability of the Agency and the Unit requires human capital capability to effectively executive its pertinent functions.

The Agency is on the verge of implementing one of the most important Government policies and requires all the legal support it needs to successfully achieve that mandate. Furthermore, AARTO Act is one of the most legally complex and controversial Acts of Parliament to be implemented. It has implications on peoples' constitutional rights to movement, freedom of trade, access to courts and the right to be presumed innocent until proven guilty. While the Unit firmly believes that the AARTO Act does not and would not negatively impact on these constitutional rights, there has been a huge outcry from certain stakeholders purporting that the Act offends certain Bill of Rights provisions and should therefore not be implemented.

In the previous years and very close to the announcement of the date of the national roll out, the Agency faced several litigation matters which were lodged by some of the most prominent and important stakeholders within the transport fraternity in the Country. Some of these include a matter lodged by Justice Project South African on the basis that the Agency was not fully compliant with the precepts of the Act which requires that the Agency issues documents to the infringers through registered mail but instead the Agency utilised what the JPSA termed as secure mail.

While emphasis is placed on contemplated litigations which necessitate the appointment of a panel of legal practitioners in terms of Legal Practice Act, 2014 (Act 28 of 2014), the appointed service providers will also be required to provide other legal support services in the form of legal opinions, drafting of contracts and other similar services which may be required from time to time.
