

1

NEC3 ENGINEERING & CONSTRUCTION CONTRACT

PART ONE – COMMERCIAL REQUIREMENTS

The Establishment of a contract for the Provision of Supervision, Labour, Equipment, Material (except for the Eskom Free Issue material, i.e Wooden Poles, Concentric Cable, Meters and Pole Top Split Meter Boxes) for the Electrification of 60 Off-Grid Connections at Maqhashiya Village using Solar PV and a further 12 month post installation maintenance in the KZN Operating Unit, Central East Cluster

ENQUIRY NUMBER : E3480DXKZNOU

TENDERER NAME : _____

TENDERER INFORMATION

It is important that this information is completed accurately and completely.

1.	Eskom Vendor Registration Number	
If you are not currently a registered vendor with Eskom, you are not required to register for tender submission. Registration on the Eskom Vendor Database is not a prerequisite for submitting a tender. Companies who are not currently registered will not be prejudiced in any way for the evaluations.		

2.	CSD Registration Number (MAAA.....)	
3.	Company Legal Name	
4.	Company Trading Name	
5.	Income Tax Number as per South African Revenue Services (SARS) Tax Clearance Certificate	
6.	VAT Number as per SARS Tax Clearance Certificate	
7.	Company Registration Number as per SARS Tax Clearance Certificate	
8.	Expiry Date as per SARS Tax Clearance Certificate	
9.	B-BBEE Status as per SANAS accredited certificate or Affidavit	
10.	B-BBEE Expiry Date as per SANAS accredited certificate or 12 months from Commissioner of Oaths Stamp	
13.	Expiry Date as per Compensation for Occupational Injuries and Diseases Act (COID)	
14.	Nature of Business as per COID certificate	
15.	CIDB CRS Number	
16.	CIDB Class Grading	

17.	Shareholders as per Declaration of Shareholding or Beneficiaries	
	Names of all Shareholders	Identity Number of all Shareholders
		Number / Percentage of Shares

18.	Are any shareholders employed by or close family members to employees of Eskom Holdings and/or its subsidiaries?	
19.	If Yes, provide details	
20.	Office Telephone Number	
21.	Your cell phone contact details	
22.	Your office email address	

23. COMPANY BANK DETAILS

Name of Account Holder:	
Bank:	
Account Number:	
Branch:	
Branch Code:	
Type of Bank Account:	

MANDATORY REQUIREMENT

PRICE LIST

- Price List to be **fully completed and signed in its entirety and submitted at tender closing.**
- Failure to price all items on the price list will result in a disqualification of your tender submission.
- Greyed-out items are NOT to be priced.
- Prices must Exclude VAT.

**** COMPLETE AND SIGN PRICE LIST ON NEXT PAGE ****

BOQ – E3480DXKZNOU

SUMMARY OF BILL OF QUANTITIES - MASHAQIYA SOLAR PROJECT

Bill No.	Description	Amount
1	Preliminary and General	
2	Civil Works	
3	Solar Home System Equipment and Installation	
4	Earthing and Lightning Protection	
5	Telecommunications and Remote Monitoring	
6	Testing, Commissioning, Acceptance and Handover	
7	Operation and Maintenance Requirements	
8	Outdoor Inverter and Battery Enclosure	

	SUB-TOTAL EXCLUDING VAT	
	ADD VAT @ 15%	
	GRAND TOTAL INCLUDING VAT	

BILL NO. 1 - PRELIMINARY AND GENERAL

Item No.	Description	Unit	Qty	Rate	Amount
Contractual Requirements					
	"The sum shall cover the contractor's initial costs of providing sureties, insurance of the Works and plant, third party or public liability insurance and unemployment insurance to cover his compliance with the requirements of the Workmen's Compensation Act, 1941 (Act NO. 30 of 1941) and any other initial financing obligations of a preliminary and general nature, such as contributions to the CEITB."	Sum	1		
Establishment of facilities on site:					
	a) The supply and complete installation of Diamond mesh fencing including fence posts at 1.8 meters high	m	300		
	b) The supply and complete installation of a Diamond mesh Lockable Gate including fence posts 1.8m high x 3.6m wide, including lock	No.	2		
	c) The supply and complete installation of a temporary diamond mesh lockable pedestrian gate, 1m wide	No.	1		
	d) Site office 6m x 3m with aircon	Sum	1		
	e) Site Storage 6m x 3m	Sum	1		
	f) Ablution facilities	Sum	1		
	g) Plant, tools & equipment	Sum	1		
1.3	Removal of all items indicated above upon completion of construction and making good and restoring of the Site to the satisfaction of the Project Manager.	Sum	1		

1.4	Provision of "As Built" drawings.	Sum	1		
1.5	Construction Name Board - The Contractor shall supply, install and maintain one project signboard bearing the name of the project, the name and logo of Eskom, and the Contractor.	Sum	1		
1.6	Provision of samples of materials to be used (only materials supplied by contractor). (Provisional)	Sum	1		
1.7	Provision for the compilation of the Construction Programme, updated on a fortnight basis and Quality Assurance Programme for the works.	Sum	1		
Occupational Health & Safety Requirements					
2.2	Provision of personal protective equipment and clothing for all the contractor's staff, including sub-contractors.	Sum	1		
2.3	Provision of safety measures, e.g.. Fall arrest systems, shoring for safety purposes etc.	Sum	1		
2.4	Compliance with OH&S Act & Construction Regulations, for other provisions not accounted for elsewhere	Sum	1		
Compliance with the Requirements for the Expanded Public Works Programme					
Note: The reports are to be submitted with the contractors monthly invoice.					
3.1	Compliance with the Requirements for the Expanded Public Works Programme (incl. monthly reports).	Sum	1		
Time Related Items (To maintain site for the duration of the project)					
Operate and Maintain Facilities on Site:					
	a)Site office 6m x 3m with aircon	Month	3.5		
	b) Site Storage 6m x 3m	Month	3.5		
	c) Staff living accommodation	Month	3.5		
	b) Ablution facilities	Month	3.5		
	c) Plant, tools & equipment	Month	3.5		
	d) Temporary water supply	Month	3.5		

	e) Temporary electric power supply	Month	3.5		-
Labour: The Contractor need to submit Weekly Time Sheets for all hourly compensation claims and a Daily attendance register					
4.2	Contractor shall provide a competent SACPCMP registered Construction Manager for the management and the supervision of the whole construction works on a full-time basis	Month	3.5		
4.3	Community Liaison Officer conversant in Zulu and local cultural norms	Month	3.5		
4.4	Storeman (Storeman is required to reconcile and quantify All material on site including Eskom supplied material using the correct material return to stores forms. The Storeman shall adhere to the implementation and maintenance plan for Materials Management System for the duration of the contract).	Month	3.5		
Safety Officer					
4.5	Contractor shall provide a competent SACPCMP registered Safety Officer to ensure the safety of all individuals on site. The Safety Officer is to ensure all construction and safety regulations are adhered to on site.	Month	3.5		
Security					
4.6	Contractor shall provide security guard/s to ensure the site including offices, storage sheds and all Eskom material are protected from theft or any damage. The Contractor needs to ensure that the above mentioned is guarded 24hrs a day.	Month	3.5		
TOTAL (BILL 1) CARRIED TO SUMMARY					

BILL 2: CIVIL WORKS

Item No.	Description	Unit	Qty	Rate	Amount
Site clearance and earthworks					
2.01	Clear and grub the work areas for Solar Home System installations, access and working space, including removal of grass, shrubs, minor vegetation, roots, loose surface material and unsuitable organic matter; cart away or dispose of arisings as directed and leave the areas ready for setting out, excavation and construction. Measured net over the areas identified for the SHS installations.	m ²	4620.00		
2.02	Remove topsoil to a nominal depth of 150 mm, keep separate from unsuitable material, stockpile where practical for re-use in reinstatement or cart to spoil as instructed; include trimming, loading, hauling within the site, shaping stockpiles and maintaining stockpiles so that the material remains suitable for rehabilitation.	m ³	12.96		
2.03	Survey, set out and verify the position, levels, orientation and footprint of each complete SHS installation, including the PV carport structure, equipment enclosure, earthing electrodes, earth conductors and any associated civil works; include pegging, checking against drawings, recording coordinates and providing as-built setting out information. Ensure all PV panels are installed North-facing and located such that shading from trees, buildings, structures, terrain features or other obstructions is avoided.	No	60.00		
2.04	Excavate in all materials and spoil or dispose of surplus material from general bulk earthworks, working platforms, slope trimming and levelling required for the SHS positions; include loading, hauling, temporary stockpiling, trimming, keeping excavations free of water, maintaining safe working faces, and shaping the formation to receive compacted layers or foundations.	m ³	1479.00		

2.05	Compact selected in-situ or backfilled material to a minimum of 93% Mod AASHTO maximum dry density at optimum moisture content, including watering, drying, scarifying, testing support and reworking where necessary until the specified density and finish are achieved.	m ³	259.20		
2.06	Supply, haul, place, water and compact approved G8 selected fill material in layers not exceeding 150 mm loose thickness, including all plant, labour, testing, trimming, shaping and compaction to a minimum of 93% Modified AASHTO density, complete in accordance with the Specifications, Drawings and Engineer's requirements. The rate shall include for loading, transport, spreading, moisture conditioning, compaction, proof rolling, removal of unsuitable material where required, and all associated quality control testing. Measured as compacted volume in place. Note: Final quantities shall be determined from actual site conditions and measured in place and material to be approved by the Engineer prior to use.	m ³	140.00		
Concrete and reinforcement					
2.07	Provide smooth formwork to exposed faces of concrete foundations, equipment plinths and support bases, including cutting, fixing, bracing, striking, cleaning, release agents and all labour and material necessary to obtain true lines, levels and faces suitable for the finished installation.	m ²	1080.00		
2.08	Supply, cut, bend, fix and support mild steel reinforcement bars in accordance with the drawings and Engineer's instructions, including tying wire, spacers, chairs, hooks, laps, bends, wastage, placing and maintaining correct cover during concrete placement.	kg	15600.00		
2.09	Place blinding concrete under foundations and excavated bases, Class 15/19 concrete, nominal 25 mm thickness or as detailed, including supply, placing, levelling, curing and surface preparation to receive reinforcement and structural concrete.	m ³	10.80		

Foundations Concrete - SHS Pad Foundations and Concrete Testing					
2.10	G46 item 24) SHS Pad Foundations - Option A: ready-mix concrete to SHS pad foundations as scheduled in the Civil BOQ.	m³	146.00		
Option B: Site-Mixed Concrete					
2.11	G46 item 25) SHS Pad Foundations - Supply all cement, stone, sand, water, batching equipment, mixing, transport, placing, vibration, curing and testing of 25 MPa/19 mm site-mixed concrete.	m³	146.00		
Concrete Testing					
2.12	Slump testing of concrete, including test records and reporting.	No	10.00		
2.13	Casting, curing, transport and testing of concrete cube sets (6 cubes per set).	Set	8.00		
Structural steel for PV carport and enclosure support structures - SANS 1200H full breakdown					
H1 - Supply and Fabrication of Steelwork					
2.14	Supply and fabrication: COLUMN Section designation IPE 160 [Steel:350W], including shop preparation, cutting, drilling, marking, handling and delivery ready for subsequent corrosion protection and erection.	t	11.20		
2.15	Supply and fabrication: RAFTER Section designation IPE-AA 140 [Steel:350W], including cutting, drilling, connection preparation and handling.	t	7.76		
2.16	Supply and fabrication: PURLIN Section designation 100x75x20x2.0 [Steel:350W], including cutting to length, drilling, punching and handling.	t	8.09		
2.17	Supply and fabrication: DIAGONAL BRACING Section designation 100x75x20x2.0 [Steel:350W], including preparation, punching, drilling and handling.	t	7.17		
2.18	Supply and fabrication: Column to Rafter 180x270x5 mm steel plates, including cutting, drilling, edge preparation and handling.	t	0.92		
2.19	Supply and fabrication: Rafter to Purlin 70x70x6 cleats, including cutting, drilling, edge preparation and handling.	t	0.32		

H2 - Corrosion Protection					
2.20	Corrosion protection to COLUMN Section designation IPE 160 [Steel:350W].	t	11.20		
2.21	Corrosion protection to RAFTER Section designation IPE-AA 140 [Steel:350W].	t	7.76		
2.22	Corrosion protection to PURLIN Section designation 100x75x20x2.0 [Steel:350W].	t	8.09		
2.23	Corrosion protection to DIAGONAL BRACING Section designation 100x75x20x2.0 [Steel:350W].	t	7.17		
2.24	Corrosion protection to Column to Rafter 180x270x5 mm steel plates.	t	0.92		
2.25	Corrosion protection to Rafter to Purlin 70x70x6 cleats.	t	0.32		
2.26	Corrosion protection to Column to Rafter M12 nuts and bolts.	t	0.18		
2.27	Corrosion protection to Rafter to Purlin M12 nuts and bolts.	t	0.14		
2.28	Corrosion protection to Top-Diagonal Bracing to Purlin M10 nuts and bolts.	t	0.03		
2.29	Corrosion protection to Side-Diagonal Bracing to Column M10 nuts and bolts.	t	0.05		
2.30	Corrosion protection to Enclosure- Column to Horizontal Member M12 nuts and bolts.	t	0.05		
2.31	Corrosion protection to Column-Base Plate to Concrete Pad M12 nuts and bolts.	t	0.11		
H3 - Delivery					
2.32	Delivery to site: COLUMN Section designation IPE 160 [Steel:350W].	t	11.20		
2.33	Delivery to site: RAFTER Section designation IPE-AA 140 [Steel:350W].	t	7.76		
2.34	Delivery to site: PURLIN Section designation 100x75x20x2.0 [Steel:350W].	t	8.09		
2.35	Delivery to site: DIAGONAL BRACING Section designation 100x75x20x2.0 [Steel:350W].	t	7.17		
2.36	Delivery to site: Column to Rafter 180x270x5 mm steel plates.	t	0.92		
2.37	Delivery to site: Rafter to Purlin 70x70x6 cleats.	t	0.46		
2.38	Delivery to site: Column to Rafter M12 nuts and bolts.	t	0.18		

2.39	Delivery to site: Rafter to Purlin M12 nuts and bolts.	t	0.14		
2.40	Delivery to site: Top-Diagonal Bracing to Purlin M10 nuts and bolts.	t	0.03		
2.41	Delivery to site: Side-Diagonal Bracing to Column M10 nuts and bolts.	t	0.05		
2.42	Delivery to site: Enclosure-Column to Horizontal Member M12 nuts and bolts.	t	0.05		
2.43	Delivery to site: Column-Base Plate to Concrete Pad M12 nuts and bolts.	t	0.11		
H4 - Erection by Crane					
2.44	Erection by crane: COLUMN Section designation IPE 160 [Steel:350W], including lifting, positioning, temporary bracing, alignment and making safe.	t	2.24		
2.45	Erection by crane: RAFTER Section designation IPE-AA 140 [Steel:350W], including lifting, positioning, temporary bracing, alignment and making safe.	t	0.03		
2.46	Erection by crane: PURLIN Section designation 100x75x20x2.0 [Steel:350W], including lifting, positioning, temporary bracing, alignment and making safe.	t	1.62		
H5 - Erection by Hand					
2.47	Erection by hand: COLUMN Section designation IPE 160 [Steel:350W], including handling, positioning, temporary bracing, alignment and making safe.	t	8.96		
2.48	Erection by hand: RAFTER Section designation IPE-AA 140 [Steel:350W], including handling, positioning, temporary bracing, alignment and making safe.	t	0.10		
2.49	Erection by hand: PURLIN Section designation 100x75x20x2.0 [Steel:350W], including handling, positioning, temporary bracing, alignment and making safe.	t	6.48		
2.50	Erection by hand: DIAGONAL BRACING Section designation 100x75x20x2.0 [Steel:350W], including handling, positioning, temporary bracing, alignment and making safe.	t	5.74		
2.51	Erection by hand: Column to Rafter 180x270x5 mm steel plates.	t	0.92		

2.52	Erection by hand: Rafter to Purlin 70x70x6 cleats.	t	0.46		
H6 - Erection of Connection Bolts [M12]					
2.53	Erection of M12 connection bolts: Column to Rafter M12 nuts and bolts.	No	1920.00		
2.54	Erection of M12 connection bolts: Rafter to Purlin M12 nuts and bolts.	No	2880.00		
2.55	Erection of M12 connection bolts: Enclosure-Column to Horizontal Member M12 nuts and bolts.	No	480.00		
H7 - Erection of Connection Bolts [M10]					
2.56	Erection of M10 connection bolts: Top-Diagonal Bracing to Purlin M10 nuts and bolts.	No	600.00		
2.57	Erection of M10 connection bolts: Side-Diagonal Bracing to Column M10 nuts and bolts.	No	960.00		
H8 - Erection of Holding Down Bolts [M12]					
2.58	Erection of M12 holding down bolts: Column-Base Plate to Concrete Pad M12 nuts and bolts.	No	1200.00		
H9 - Site Welding [6 mm]					
2.59	Site welding [6 mm]: Column to Rafter connections, including preparation, welding, inspection, cleaning and touch-up of affected corrosion protection.	m	81.48		
2.60	Site welding [6 mm]: Rafter to Purlin connections, including preparation, welding, inspection, cleaning and touch-up of affected corrosion protection.	m	16.80		
TOTAL CARRIED TO SUMMARY					

Item No.	Description	Unit	Qty	Rate	Amount
PV modules, support and DC system					
3.1	Supply and install 600 W monocrystalline photovoltaic modules, complete with module positioning, alignment, final fixing on the approved support structure, handling, protection against damage, electrical interconnection readiness and all manufacturer-recommended installation requirements. Quantity is based on 9 modules per SHS for 60 installations.	No	540		
3.2	Supply and install PV mounting rails, clamps, brackets, end clamps, mid clamps, fixings, fasteners and all proprietary accessories required to secure the PV modules to the roof/ground/carport mounting arrangement; include alignment, stainless or corrosion-resistant fasteners, torqueing and making good of protective coatings.	Set	60		
3.3	Supply and install UV-resistant 4 mm ² red and black PV DC single-core cable between PV modules, combiner/DC protection box and inverter equipment as applicable, including routing, clipping, containment interface, segregation, labelling and allowance for wastage and terminations measured elsewhere.	m	6000		
3.4	Supply, make off and install MC4 compatible male/female connector pairs for PV module strings, including crimping, polarity checks, weatherproofing, strain relief, testing and all small accessories necessary for complete PV string connections.	Pair	300		
3.5	Supply and install UV-resistant cable glands, flexible and rigid conduit, saddles, bushes, locknuts, sealing accessories and supports for DC and auxiliary cabling between equipment, including drilling of enclosures and maintaining the required IP rating after installation.	Set	60		

3.6	Supply and install UV-resistant cable ties, clips, saddles and small cable support accessories for PV DC and equipment cabling, including fixing to the mounting structure, neat routing and provision of strain relief at equipment terminations.	Set	60		
3.7	Supply and install weatherproof DC protection box, complete with enclosure, DIN rail, glands, internal wiring, labels, termination points and arrangement suitable for the PV string configuration; include fixing to the support or enclosure and connection readiness.	No	60		
3.8	Supply and install 20 A, 1000 V DC PV string fuse holders and fuse links within the DC protection arrangement, including labelling, termination, polarity verification and all accessories necessary for safe isolation and protection of PV strings.	No	120		
3.9	Supply and install 600 to 1000 V DC, 32 A DC isolator, complete with enclosure or integral mounting, operating handle, labelling, termination, polarity checks, and all accessories necessary for safe disconnection of PV DC circuits.	No	60		
3.10	Supply and install Type II DC surge protection device suitable for 600 to 1000 V DC PV circuits, including base, cartridges, earthing connection to the common earth system, labelling and status indication where applicable.	No	60		
Inverter, battery and enclosure services					
3.11	Supply and install 5 kW, 48 V DC, 230 V AC off-grid hybrid inverter with MPPT functionality, complete with mounting bracket, fixing, DC and AC connection interfaces, communication interface, configuration, firmware setup where required and manufacturer-recommended installation accessories.	No	60		
3.12	Supply and install 48 V, 5.3 kWh lithium iron phosphate battery system, complete with battery management interface, mounting or rack arrangement, interconnecting hardware, protection during installation, configuration and integration with the hybrid inverter.	No	60		

3.13	Supply and install 160 A DC battery fuse and fuse holder or approved protective device, including enclosure/interface, terminations, labelling and coordination with the battery isolator and inverter DC input.	No	60		
3.14	Supply and install 160 A DC battery isolator suitable for the battery system, including mounting, cable terminations, labelling and safe access for operation and maintenance.	No	60		
3.15	Supply and install 35 mm ² copper red and black battery cabling between battery, isolator, fuse and inverter, including lugs, heat shrink, ferrules, routing, support, protection against abrasion, polarity checks and torqueing of terminations.	m	480		
3.16	Supply and install filtered battery cooling fan, complete with grille, filter, fixing, wiring, protection and testing. Contractor to determine the actual fan rating based on the enclosure size.	No	60		
3.17	Supply and install digital thermostat or battery cooling controller for automatic control of the battery ventilation system, including sensor placement, wiring, setting of operational parameters and functional testing.	No	60		
3.18	Supply and install DC extraction fan for inverter cooling, complete with fixing, grille, wiring, protection and testing. Contractor to determine the actual fan rating based on the enclosure size.	No	60		
3.19	Supply and install thermostatic fan controller for inverter ventilation, including sensor installation, wiring, setting of operating temperature range, testing and labelling.	No	60		
3.19 a	Supply and install passive ventilation louvre assemblies complete with washable or replaceable filtration media, insect screens and weather protection; include fixings, weather seals and all accessories necessary for integration with the enclosure ventilation system.	Set	60		

3.20	Automatic fire suppression system comprising self-activating fire suppression balls or approved equivalent, rated for Class A, B and C fire risks, complete with mounting brackets, fixing accessories and installation within the equipment enclosure (2 devices per enclosure).	No	120		
3.21	Hygrostat (humidity controller) complete with wiring, mounting and commissioning.	No	60		
3.22	Anti-condensation heater. Contractor to determine the actual heater rating based on the enclosure size.	No	60		
3.23	Internal 230 V AC socket outlet complete with wiring, mounting and labelling.	No	60		
AC distribution and interface materials					
3.24	Supply and install AC distribution board complete with enclosure, DIN rail, neutral and earth bars, internal wiring, labels, glands, fixing and all accessories necessary to distribute the inverter AC output to the connected installation.	No	60		
3.25	Supply and install 25 A double-pole AC circuit breaker, including mounting in the AC distribution board, wiring, termination, labelling and coordination with the inverter output and downstream circuits.	No	60		
3.26	Supply and install Type II, 230 V AC surge protection device, including base, cartridges, earth connection to the common earth busbar, indication, labelling and verification of correct connection.	No	60		
3.27	Supply and install 20 A double-pole AC circuit breaker, including mounting, wiring, termination, labelling and coordination with downstream circuits or protection requirements.	No	60		
3.28	Supply and install PV system safety labels, operating labels, warning notices, isolation labels, circuit identification labels and OHS notices to each SHS installation and associated equipment enclosures in accordance with applicable SANS and Eskom requirements.	Set	60		

3.29	Install Eskom supplied 1 kV, 6 mm ² concentric copper service cable where instructed, including handling, stringing/routing, securing, terminations by others where applicable, protection and coordination with the meter and SHS interface.	m	3000		
3.30	Install Eskom-supplied 5.0 m wooden pole, 80-100 mm top diameter, including receipt, handling, setting out, excavation, erection, plumbing, backfilling, compacting and making safe where required by the service arrangement.	No	60		
3.31	Install Eskom supplied pole-top split-meter box, two-way 50 A, including mounting to support, fixing, alignment, cable entry coordination, weatherproofing and readiness for meter installation.	No	60		
3.32	Install Eskom supplied smart DIN G3-PLC electricity service meter, including handling, mounting, connection interface, labelling and coordination with Eskom metering requirements. Final metering work shall be undertaken with the required authorised personnel where applicable.	No	60		
3.33	Install Eskom supplied meter seals and security seals to metering and service equipment where instructed, including recording of seal numbers and replacement of damaged seals caused by the Contractor.	No	60		
3.34	Install Eskom supplied padlocks to metering or service equipment where instructed, including handing-over of keys, key numbering and recording in the completion documentation.	No	60		
TOTAL CARRIED TO SUMMARY					

BILL 4: EARTHING AND LIGHTNING PROTECTION

Item No.	Description	Unit	Qty	Rate	Amount
Lightning protection and earth termination system					
4.1	Supply and install a Class III lightning protection and equipotential bonding system comprising 1 m high aluminium air termination rods fixed at the PV carport structure edges, including brackets, clamps, fixings, corrosion-resistant fasteners, alignment, bonding to the natural down-conductor path, and verification of continuity. The rate shall further include equipotential bonding of the PV carport structure, equipment enclosure support structure, metallic enclosures, exposed conductive parts, and associated support steelwork to the common earthing system, including lugs, clamps, stainless steel or brass hardware, conductor tails, all necessary connections, and continuity testing, complete and ready for commissioning.	No	240		
4.2	Supply and install 16 mm diameter × 1.5 m long copper-coated steel earth rods, driven to the required depth at locations shown on the drawings or as directed, including couplings where required, protection of rod tops, connection preparation, and testing support. The rate shall further include all exothermic welded connections between round copper conductors and copper-coated earth rods, including provision of moulds, weld charges, joint preparation, cleaning, inspection, testing support, corrosion protection, and completion of the earthing system ready for commissioning.	No	120		

4.3	Supply and install 10 mm diameter round copper earth conductor at approximately 0.6 m below finished ground level to interconnect earth electrodes and bond the PV carport structure, equipment enclosure support structure, and all exposed metallic components to the common earthing network. The rate shall include excavation, laying, backfilling, protection, mechanical support, and all Silbralloy brazed copper-to-copper earthmat joints, including joint preparation, sample joint approval prior to production work, brazing materials, cleaning, inspection, corrosion protection, testing, and maintenance of records of completed joints.	kg	1500		
4.4	Supply and install 10 mm diameter round copper earth conductor at approximately 0.6 m below finished ground level to interconnect earth electrodes and provide equipotential bonding of the PV carport structure, equipment enclosure support structure, metallic enclosures, exposed conductive parts, and associated steelwork to the common earthing network. The rate shall include excavation, laying, backfilling, protection, mechanical support, lugs, clamps, stainless steel or brass hardware, conductor tails, and all connections to the earthing system, including Silbralloy brazed copper-to-copper earthmat joints and exothermic welded joints between round copper conductors and copper-coated earth rods. The rate shall further include joint preparation, sample joint approval prior to production work, provision of brazing materials, weld moulds and charges, cleaning, inspection, testing support, continuity verification, corrosion protection, maintenance of records of completed joints, and commissioning of the complete earthing and bonding system.	kg	600		

4.5	Carry out earth continuity testing of each SHS installation, including continuity between PV support steelwork, equipment enclosure, earth busbar, SPDs, inverter, battery equipment and main earthing system; include test instruments, records and submission of results.	No	60		
4.6	Carry out earth resistance testing of each SHS earthing system, including testing before backfilling where required, attendance to witness hold points, recording of readings, and retesting after corrective measures where applicable.	No	60		
4.7	Install additional earth electrodes and associated interconnecting conductor where required to achieve the specified earth resistance or accepted performance criteria after pilot or final testing. This item is provisional and shall be used only upon instruction of the Project Manager or Engineer.	Prov. Sum	1		

TOTAL CARRIED TO SUMMARY					
---------------------------------	--	--	--	--	--

BILL 5: TELECOMMUNICATIONS AND REMOTE MONITORING

Item No.	Description	Unit	Qty	Rate	Amount
5.1	Supply, install, configure, activate, test and commission complete GPRS communication and remote monitoring facilities for each Solar Home System (SHS), including eSIM-enabled communication device/modem, antenna (where required), SIM/eSIM activation, cabling, mounting accessories, communication setup and verification of network connectivity. The rate shall include all labour, materials, software configuration, commissioning, documentation for each SHS installation.	No	60		

TOTAL CARRIED TO SUMMARY

BILL 6: TESTING, COMMISSIONING, ACCEPTANCE AND HANDOVER

Item No.	Description	Unit	Qty	Rate	Amount
6.1	Install, test and commission one complete pilot Solar Home System before proceeding with the remaining installations, including civil, structural, PV, inverter, battery, earthing, lightning protection, telecommunications and monitoring checks; include all inspection records, measurements, functional tests and corrective actions required before acceptance of the pilot installation.	Sum	1		
6.2	Provide corrective measures and retesting for the pilot installation where the required performance criteria are not achieved, including additional testing, investigation, minor remedial work and updated records. Use only where instructed or accepted by the Engineer or Project Manager.	Prov. Sum	1		
6.3	Carry out preliminary cable testing to prove correct installation of DC, AC, battery, communication and associated cabling, including polarity checks, insulation resistance, continuity, integrity of terminations, labelling checks and submission of test records for each SHS installation.	No	60		
6.4	Final test and commission the complete SHS electrical equipment installation, including PV array checks, inverter configuration, battery integration, AC distribution, DC protection, SPDs, controls, cooling and operational function tests; include coordination with manufacturer, Eskom or Eskom-appointed contractor where specified.	No	60		
6.5	Verify reliable transmission of operational data from each SHS to the monitoring platform, including acceptance record for PV generation, battery state of charge, load consumption, alarms and device status.	No	60		
6.6	Compile and submit all relevant test results for materials, workmanship and commissioning, including electrical tests, earthing tests, lightning protection tests, communication tests, inspection checklists, hold-point approvals and corrective action close-out records.	Sum	1		
6.7	Provide Certificates of Compliance and statutory electrical certification for the completed electrical works covered by the contract, including inspection, testing, authorised sign-off and inclusion of certificates in the handover package.	No	60		

6.8	Demonstrate successful communication, operation and acceptance of each completed SHS installation to the designated Eskom representative or Engineer prior to completion, including live demonstration, system status review and acceptance record.	No	60		
-----	---	----	----	--	--

TOTAL CARRIED TO SUMMARY					
---------------------------------	--	--	--	--	--

BILL 7: OPERATION AND MAINTENANCE REQUIREMENTS

Item No.	Description	Unit	Qty	Rate	Amount
7.1	Prepare and submit a preventative maintenance schedule and corrective maintenance plan for the installed SHS assets, including planned inspections, cleaning, battery checks, corrosion checks, monitoring arrangements, defect response and reporting responsibilities aligned to the defects liability period and Eskom requirements.	Sum	1		
7.2	Establish and maintain monitoring and fault reporting arrangements during the defects liability period, including call logging, escalation, tracking, reporting arrangements and communication channels for operational faults and alarms.	Sum	1		
7.3	Carry out quarterly scheduled inspections of the complete SHS installations, including visual inspection of PV modules, support structures, enclosures, inverter, battery, cabling, protection devices, labels, earthing, lightning protection, cooling systems and general condition; quantity based on 60 installations x 4 inspections.	No	240		
7.4	Carry out quarterly cleaning of relevant solar PV and enclosure components, including safe cleaning of PV module surfaces, ventilation grilles, filters and accessible enclosure components; include equipment, consumables, access and recording of completed cleaning activities.	No	240		
7.5	Carry out quarterly battery health checks and reporting, including review of battery condition, state of charge, alarms, temperature/ventilation status, terminations and manufacturer-recommended checks; submit records for each installation.	No	240		
7.6	Carry out quarterly corrosion inspections of support structures, enclosures, fixings, fasteners, electrical terminations, earthing connections and associated components, including condition reporting and recommendations for remedial action.	No	240		
7.7	Monitor system performance and alarms during the defects liability period, including regular review of communications, alarms, system status, abnormal performance and escalation of defects or failures for action.	Month	12		
7.8	Carry out monthly operational data download, backup and submission to Eskom Engineering, including data checks, file naming, secure storage, report preparation and confirmation of submission.	Month	12		

7.9	Prepare and submit quarterly maintenance reports, including inspection findings, cleaning records, battery health results, corrosion observations, faults, corrective actions, performance trends and recommendations.	Quarter	4		
7.10	Prepare and submit a recommended spare parts schedule for major equipment, including PV modules, inverters, batteries, communication equipment, protection equipment and ancillary components, with suggested quantities and identification references.	Sum	1		
7.11	Supply initial critical spare holding where instructed by Eskom. This item is provisional and may be adjusted by the Quantity Surveyor or Project Manager based on final equipment selection and approved spare holding strategy.	Prov. Sum	1		
7.12	Carry out final defects liability inspection and prepare O&M close-out report, including final status of installations, outstanding defects, corrective actions completed, recommendations and handover confirmation.	Sum	1		

TOTAL CARRIED TO SUMMARY					
---------------------------------	--	--	--	--	--

BILL 8: OUTDOOR INVERTER & BATTERY ENCLOSURE

The following items comprise complete outdoor IP65 inverter and battery enclosures measuring approximately 1650mm (L) × 1410mm (H) × 400mm (D), including all components and accessories required for a complete installation.

Item No.	Description	Unit	Qty	Rate	Amount
8.1	IP65 enclosure cabinet complete with mounting plate, weather seals and installation hardware.	No	60		
8.2	Lockable enclosure door complete with 3-point locking mechanism, hinges and handles.	No	60		
8.3	Supply and install copper earth busbar within each equipment enclosure, complete with mounting insulators, fixing hardware, labels and sufficient termination points for inverter, battery, AC and DC SPD, enclosure, support structure and associated bonding conductors.	No	60		
8.4	Provide earthing and bonding connections for AC and DC surge protection devices to the common earthing system, including correctly sized conductors, short and direct routes, lugging, labelling, testing and verification of connection integrity.	No	60		
8.5	Weatherproof gland plate complete with cable glands, blanking plugs and sealing accessories.	Set	60		
8.6	Replaceable dust filter set.	Set	60		
8.7	Internal wiring trunking, cable ducts, terminals, ferrules and installation hardware.	Set	60		
8.8	Communication equipment mounting plate and support brackets.	Set	60		
8.9	External antenna mounting bracket complete with fixings and cable routing accessories.	No	60		
8.10	External earth stud complete with protective cover, labels and fixing hardware.	No	60		
8.11	Site Acceptance Testing (SAT) of completed enclosure installation.	Lot	60		
8.12	As-built drawings, O&M manuals, datasheets, warranties and commissioning records.	Lot	60

- **Acceptance of the terms and conditions of the enquiry (i.e. return of the NEC Engineering and Construction Contract offer and acceptance.**

NEC3 Engineering & Construction Contract

C1.1 Form of Offer & Acceptance

Offer

The Employer, identified in the Acceptance signature block, has solicited offers to enter into a contract for the procurement of:

The Establishment of a contract for the Provision of Supervision, Labour, Equipment, Material (except for the Eskom Free Issue material, i.e Wooden Poles, Concentric Cable, Meters and Pole Top Split Meter Boxes) for the Electrification of 60 Off-Grid Connections at Maqhashiya Village using Solar PV and a further 12 month post installation maintenance in the KZN Operating Unit, Central East Cluster

The tenderer, identified in the Offer signature block, has examined the documents listed in the Tender Data and addenda thereto and by submitting this Offer has accepted the Conditions of Tender.

By the representative of the tenderer, deemed to be duly authorised, signing this part of this Form of Offer and Acceptance the tenderer offers to perform all of the obligations and liabilities of the *Contractor* under the contract including compliance with all its terms and conditions according to their true intent and meaning for an amount to be determined in accordance with the *conditions of contract* identified in the Contract Data.

Option B	The offered total of the Prices exclusive of VAT is	
	Value Added Tax @ 15% is	
	The offered total of the amount due inclusive of VAT is ¹	
	(Excluding VAT).	

This Offer may be accepted by the Employer by signing the Acceptance part of this Form of Offer and Acceptance and returning one copy of this document including the Schedule of Deviations (if any) to the tenderer before the end of the period of validity stated in the Tender Data, or other period as agreed, whereupon the tenderer becomes the party named as the *Contractor* in the *conditions of contract* identified in the Contract Data.

Date

Tenderer's CIDB registration number (if applicable)

¹ This total is required by the *Employer* for budgeting purposes only. Actual amounts due will be assessed in terms of the *conditions of contract*.

Acceptance

By signing this part of this Form of Offer and Acceptance, the Employer identified below accepts the tenderer's Offer. In consideration thereof, the Employer shall pay the Contractor the amount due in accordance with the *conditions of contract* identified in the Contract Data. Acceptance of the tenderer's Offer shall form an agreement between the Employer and the tenderer upon the terms and conditions contained in this agreement and in the contract that is the subject of this agreement.

The terms of the contract, are contained in:

Part C1	Agreements and Contract Data, (which includes this Form of Offer and Acceptance)
Part C2	Pricing Data
Part C3	Scope of Work: Works Information
Part C4	Site Information

and drawings and documents (or parts thereof), which may be incorporated by reference into the above listed Parts.

Deviations from and amendments to the documents listed in the Tender Data and any addenda thereto listed in the Returnable Schedules as well as any changes to the terms of the Offer agreed by the tenderer and the Employer during this process of offer and acceptance, are contained in the Schedule of Deviations attached to and forming part of this Form of Offer and Acceptance. No amendments to or deviations from said documents are valid unless contained in this Schedule.

The tenderer shall within two weeks of receiving a completed copy of this agreement, including the Schedule of Deviations (if any), contact the Employer's agent (whose details are given in the Contract Data) to arrange the delivery of any securities, bonds, guarantees, proof of insurance and any other documentation to be provided in terms of the *conditions of contract* identified in the Contract Data at, or just after, the date this agreement comes into effect. Failure to fulfil any of these obligations in accordance with those terms shall constitute a repudiation of this agreement.

Notwithstanding anything contained herein, this agreement comes into effect on the date when the tenderer receives one fully completed original copy signed between them of this document, including the Schedule of Deviations (if any).

Unless the tenderer (now *Contractor*) within five working days of the date of such receipt notifies the Employer in writing of any reason why he cannot accept the contents of this agreement, this agreement shall constitute a binding contract between the Parties.

Schedule of Deviations to be completed by the *Employer* prior to contract award

Note:

1. This part of the Offer & Acceptance would not be required if the contract has been developed by negotiation between the Parties and is not the result of a process of competitive tendering.
2. The extent of deviations from the tender documents issued by the Employer prior to the tender closing date is limited to those permitted in terms of the Conditions of Tender.
3. A tenderer's covering letter must not be included in the final contract document. Should any matter in such letter, which constitutes a deviation as aforesaid be the subject of agreement reached during the process of Offer and Acceptance, the outcome of such agreement shall be recorded here and the final draft of the contract documents shall be revised to incorporate the effect of it.

, the undersigned **[insert full name of signatory]**....., in my capacity as **[insert capacity, i.e., member, director, partner, etc.]** of the supplier **[insert registered full legal name of the supplying entity AND their company registration number]**, certify under oath that, to the best of my knowledge, the information furnished herein is true and correct. I accept that Eskom reserves its right to act against the supplier named above or me personally in terms hereof, should this declaration prove to be false.

Eskom employees and directors that engage in **private work** for or on behalf of the Supplier are not permitted to financially benefit from the procurement associated with this **enquiry / tender / negotiation [delete whichever option is not applicable]**

In order to manage situations where conflicts of interests may exist, involving Eskom employees and/or directors engaging in **private work** with the Supplier (named above) associated with this **enquiry / tender / negotiation [delete whichever option is not applicable]**, you are hereby required to declare their positions to Eskom and take an oath declaring their interests.

For the purposes of this Declaration:

- 1. Private Work** includes private interests, and means any employment or commercial activity, or any other interests embarked on by an employee outside the scope of his/her Eskom employment.
- 2. A commercial activity** means any activity an employee engages in outside Eskom for the purpose of generating income, whether or not the activity actually produces income and/or is profitable.
- 3. Close Family** means persons related to the employee or director by birth, marriage, domestic partnership, adoption, guardianship or the like, who may influence, or be seen to influence the objectivity of the employee or director **OR** related persons who may be influenced by the employee or director in their dealings with Eskom;
- 4. Associate** means any person (i.e. a friend, rival, business partner, neighbour or the like) who has a relationship with an employee or director who may influence, or be seen to influence the objectivity of the employee or director **OR** who may be influenced by the employee or director in their dealings with Eskom;
- 5. Participation in the Procurement Process** means conceptualisation, proposal, specification, feasibility studies, sourcing, evaluation, benchmarking, negotiation, approval and awarding or withdrawal of offers / tenders in relation to orders / contracts for performing any work, providing any services, or supplying any material, article or equipment or performing any other act; and
- 6. Business Courtesy** means a gift or favour received from a person or a firm for which fair market value is not paid, and includes non-monetary gifts, meals, drinks, entertainment, hospitality, recreation, transportation, attendance prizes, discounts, tickets, passes, promotional items, materials, equipment and the like.

In order to give effect to the above, the following questionnaire must be completed and submitted as a returnable with your enquiry / tender/ attendance at a negotiation.

*** Delete whichever is not applicable.**

Are you or any other person who holds an interest in the Supplier named above (i.e. a shareholder, a director, or a member or partner, a line manager, or a fellow employee), employed by Eskom or serves as a director at Eskom? ***YES/NO**

If If so, state particulars

The Parties to this Agreement are:-

- I. **ESKOM HOLDINGS SOC LTD** a company incorporated under the laws of the Republic of South Africa, having its registered office at Megawatt Park, Maxwell Drive, Sunninghill ext.3, Sandton, Republic of South Africa, with registration number 2002/015527/06 [hereinafter referred to as **“the Disclosing Party”**].
- II. a company incorporated under the laws of..... [insert name of country], having its registered office at[registered address], with registration number[insert registration number], hereinafter referred to as **“the Receiving Party”**.

Hereinafter individually referred to as a “Party” and jointly as the “Parties”.

NOW THEREFORE, IT IS HEREBY AGREED AS FOLLOWS:

1.1 The Disclosing Party intends providing the Receiving Party with certain information relating to **The Establishment of a contract for the Provision of Supervision, Labour, Equipment, Material (except for the Eskom Free Issue material, i.e Wooden Poles, Concentric Cable, Meters and Pole Top Split Meter Boxes) for the Electrification of 60 Off-Grid Connections at Maqhashiya Village using Solar PV and a further 12 month post installation maintenance in the KZN Operating Unit, Central East Cluster** (“the Project”/Transaction).

1.2 The parties wish to record the terms and conditions upon which the Disclosing Party shall disclose Confidential Information to the Receiving Party, which terms and conditions shall constitute a binding and enforceable Agreement between the parties and their agents.

1.3 Notwithstanding the date of signature hereof, this agreement shall be binding upon the parties with effect from the date upon which the Disclosing Party shall have disclosed any Confidential Information to the Receiving Party, whichever date is the earliest.

1.4 Neither this Agreement nor the exchange of information contemplated hereby shall commit either party to continue discussions or to negotiate, or to be legally bound to any potential business relationship. The parties shall only be bound to a business relationship by way of a further definitive written Agreement signed by the Parties.

1.5 The party disclosing the Confidential Information shall be known as the “**Disclosing Party**” and the party receiving Confidential Information shall be known as the “**Receiving Party**”.

		Effective Date	02 September 2024		
		Review Date	September 2029		
Project/Transaction Title		MAQHASHIYA VILLAGE SOLAR PV PROJECT			

“**Confidential Information**” shall for the purpose of this Agreement mean all information and materials (whether in written, graphic, electronically stored or oral form) owned and/or developed by the Disclosing Party or its affiliates, including, without limitation, any technical, commercial, financial or marketing information, strategies, operations, know-how, trade secrets, processes, machinery, designs, drawings, formulae, test work data, equipment, notes, memoranda, methods and other natural resources, technical specifications and data relating to the Project (including, but not Ltd to, the information set out in 1.1 above), relating to the disclosing Party's business practices or the promotion of the disclosing Party's business plans, policies or practices, which information is communicated to the receiving Party, or otherwise acquired by the Receiving Party from the Disclosing Party, during the course of the Parties' commercial interactions, discussions and negotiations with one another, whether such information is formally designated as confidential or not.

Disclosure of Confidential Information

- 3.1 The Disclosing Party shall only disclose the Confidential Information to the Receiving Party to the extent deemed necessary or desirable by the Disclosing Party in its discretion.
- 3.2 The Parties acknowledge that the Confidential Information is a valuable, special and unique asset proprietary to the Disclosing Party.
- 3.3 The Receiving Party agrees that it will not, during or after the course of its relationship with the disclosing party under this agreement and/or the term of this Agreement, disclose the Confidential Information to any third party for any reason or purpose whatsoever without the prior written consent of the Disclosing Party and to the extent of such authorisation, save in accordance with the provisions of this Agreement. In this Agreement “**third party**” means any party other than the Receiving and Disclosing Parties or their Representatives.
- 3.4 Notwithstanding anything to the contrary contained in this Agreement the Parties agree that the Confidential Information may be disclosed by the Receiving Party to its respective employees, agents, officers, directors, subsidiaries, associated companies, shareholders and advisers (including but not Ltd to professional financial advisers, legal advisers and auditors) (“**Representatives**”) on a need-to-know basis and for the purposes of the Project; provided that the Receiving Party takes

whatever steps are necessary to procure that such Representatives agree to abide by the terms of this Agreement to prevent the unauthorised disclosure of the Confidential Information to third parties.

	Non-Disclosure Agreement (NDA) Suppliers-Tenderers	Template Identifier	240-43921804	Rev	6

Project/Transaction Title		MAQHASHIYA VILLAGE SOLAR PV PROJECT			

For purposes of this clause, the Receiving Party's Representatives shall be deemed to be acting, in the event of a breach, as the Receiving Party's duly authorised agents.

3.5 Except as otherwise contemplated in this Agreement, the Parties agree in favour of one another not to utilise, exploit or in any other manner whatsoever use the Confidential Information disclosed pursuant to the provisions of this Agreement for any purpose whatsoever other than the Project without the prior written consent of the Disclosing Party.

3.6 Accordingly, the Receiving Party agrees to indemnify, defend and hold the Disclosing Party harmless from and against any and all suits, liabilities, causes of action, claims, losses, damages, costs (including, but not Ltd to, cost of cover, reasonable attorneys' fees and expenses), or expenses of any kind (collectively, "Losses") incurred or suffered by the Disclosing Party and/or its Representatives arising from or in connection with the Receiving Party's unauthorized use or disclosure of the Disclosing Party's Confidential Information in violation of the Agreement.

4. Title

All Confidential Information disclosed by the Disclosing Party to the Receiving Party is acknowledged by the Receiving Party to be proprietary and the exclusive property of the Disclosing Party. This Agreement shall not confer any rights of ownership or license on the Receiving Party of whatever nature in the Confidential Information.

5. Restricting on disclosure and use of the Confidential Information

5.1 The Receiving Party undertakes not to use the Confidential Information for any purpose other than:

5.1.1 the Project; and

5.1.2 in accordance with the provisions of this Agreement.

	Non-Disclosure Agreement (NDA) Suppliers-Tenderers	Template Identifier	240-43921804	Rev	6
		Document Identifier	240-63152171	Rev	5
		Effective Date	02 September 2024		
		Review Date	September 2029		
Project/Transaction Title		MAQHASHIYA VILLAGE SOLAR PV PROJECT			

6. Standard of care

The Receiving Party agrees that it shall protect the Confidential Information disclosed pursuant to the provisions of this Agreement using the same standard of care that it applies to safeguard its own proprietary, secret or Confidential Information but no less than a reasonable standard of care, and that the Confidential Information shall be stored and handled in such a way as to prevent any unauthorised disclosure thereof.

7. Return of material containing or pertaining to the Confidential Information

7.1 The Disclosing Party may, at any time, and in its sole discretion request the Receiving Party to return any material and/or data in whatever form containing, pertaining to or relating to Confidential Information disclosed pursuant to the terms of this Agreement and may, in addition request the Receiving Party to furnish a written statement to the effect that, upon such return, the Receiving Party has not retained in its possession, or under its control, either directly or indirectly, any such material and/or data.

7.2 If it is not practically able to do so, the Receiving Party shall destroy or ensure the destruction of all material and/or data in whatever form relating to the Confidential Information disclosed pursuant to the terms of this Agreement and delete, remove or erase or use best efforts to ensure the deletion, erasure or removal from any computer or database or document retrieval system under its or the Representatives' possession or control, all Confidential Information and all documents or files containing or reflecting any Confidential Information, in a manner that makes the deleted, removed or erased data permanently irrecoverable. The Receiving Party shall furnish the Disclosing Party with a written statement signed by one of its directors or duly authorized senior officers to the effect that all such material has been destroyed.

7.3 The Receiving Party shall comply with any request by the Disclosing Party in terms of this clause, within 7 (seven) business days of receipt of any such request.

8. Excluded Confidential Information

The obligations of the Receiving Party pursuant to the provisions of this Agreement shall not apply to any Confidential Information that:

8.1 is known to, or in the possession of the Receiving Party prior to disclosure thereof by the Disclosing Party;

	Non-Disclosure Agreement (NDA) Suppliers-Tenderers	Template Identifier	240-43921804	Rev	6
		Document Identifier	240-63152171	Rev	5
		Effective Date	02 September 2024		
		Review Date	September 2029		
Project/Transaction Title		MAQHASHIYA VILLAGE SOLAR PV PROJECT			

8.2 is or becomes publicly known, otherwise than as a result of a breach of this Agreement by the Receiving Party;

8.3 is developed independently of the Disclosing Party by the Receiving Party in circumstances that do not amount to a breach of the provisions of this Agreement;

8.4 is disclosed by the Receiving Party to satisfy an order of a court of competent jurisdiction or to comply with the provisions of any law or regulation in force from time to time; provided that in these circumstances, the Receiving Party shall advise the Disclosing Party to enable the Disclosing Party to take whatever steps it deems necessary to protect its interests in this regard and provided further that the Receiving Party will disclose only that portion of the Confidential Information which it is legally required to disclose and the Receiving Party will use its reasonable endeavours to protect the confidentiality of such Confidential Information to the greatest extent possible in the circumstances;

8.5 is disclosed to a third party pursuant to the prior written authorisation and Ltd to the extent of such approval of the Disclosing Party;

8.6 is received from a third party in circumstances that do not result in a breach of the provisions of this Agreement.

9. Term

This Agreement shall commence upon the date referred to in date of signature and shall endure for a period of 3 (three) years after the date of termination of the relationship between the parties or at a date specified in any subsequent agreement(s) between the Parties in pursuance of the Project referred to herein.

10. Additional Action

10.1 Each Party to this Agreement shall execute and deliver such other documents and do such other acts and things as may be reasonably necessary or desirable to give effect to the provisions of this Agreement.

10.2 Nothing contained in the Agreement shall be construed as creating an obligation on the part of either Party to refrain from entering into a business relationship with any third party. Nothing contained in

the Agreement shall be construed as creating a joint venture, partnership or employment relationship between the Parties. Except as specified herein, neither Party shall have the right, power or implied

	Non-Disclosure Agreement (NDA) Suppliers-Tenderers	Template Identifier	240-43921804	Rev	6
		Document Identifier	240-63152171	Rev	5
		Effective Date	02 September 2024		
		Review Date	September 2029		
Project/Transaction Title		MAQHASHIYA VILLAGE SOLAR PV PROJECT			

authority to create any obligation or duty (express, implied or otherwise) on behalf of the other Party. For the avoidance of doubt, nothing in this Agreement shall oblige either of the Parties to enter into any agreements or transactions whatsoever.

11. Breach

In the event that the Receiving Party should breach any of the provisions of this Agreement and fail to remedy such breach within seven (7) business days from date of a written notice to do so, then the Disclosing Party shall be entitled to invoke all remedies available to it in law including, but not Ltd to, the institution of urgent proceedings as well as any other way of relief appropriate under the circumstances, in any court of competent jurisdiction, in the event of breach or threatened breach of the Agreement and/or an action for damages.

12. Amendments

No amendment, interpretation or waiver of any of the provisions of this Agreement shall be effective unless reduced in writing and signed by the duly authorised representatives of both Parties.

13. Enforcement

The failure or delay by the Disclosing Party to enforce or to require the performance at any time of any of the provisions of this Agreement shall not be construed to be a waiver of such provision, and shall not affect either the validity of this Agreement or any part hereof or the right of the Disclosing Party to enforce the provisions of this Agreement.

14. Representations & Warranties

14.1 Each Party represents that it has authority to enter into this Agreement and to do all things necessary to procure the fulfilment of its obligations in terms of this Agreement.

14.2 The Disclosing Party warrants that disclosure of the Confidential Information to the Receiving Party:

14.2.1 will not result in a breach of any other Agreement to which it is a party; and

	Non-Disclosure Agreement (NDA) Suppliers-Tenderers	Template Identifier	240-43921804	Rev	6
		Document Identifier	240-63152171	Rev	5
		Effective Date	02 September 2024		
		Review Date	September 2029		
Project/Transaction Title		MAQHASHIYA VILLAGE SOLAR PV PROJECT			

14.2.2 will not, to the best of its knowledge and belief, infringe the rights of any third party; and the Disclosing Party hereby indemnifies and holds the Receiving Party harmless against any liability for third party claims on such a basis.

15. Entire agreement

This Agreement contains the entire agreement of the Parties with respect to the subject matter of this Agreement and supersedes all prior agreements between the Parties, whether written or oral, with respect to the subject matter of this Agreement.

16. Governing law

This Agreement and the relationship of the Parties in connection with the subject matter of this Agreement and each other shall be governed and determined in accordance with the laws of the Republic of South Africa.

17. Addresses and Notices

17.1 The Parties hereby choose the address for service ("domicilium") for all purposes under the Agreement the addresses set out below:

PARTY	PHYSICAL ADDRESS	POSTAL ADDRESS	TELEPHONE NO.	CONTACT PERSON
ESKOM HOLDINGS SOC LTD	MEGAWATT PARK, MAXWELL DRIVE, SUNNINGHILL	P O BOX 1091 JOHANNESBURG 2000 SA	+27	
INSERT NAME OF SUPPLIER/VENDOR /AND OTHER RATICULARS				

17.2 A Party may change its domicilium address, by giving thirty (30) business days prior notice in writing to the other Party.

17.3 Any notice given by one party to the other is deemed to have been received by the addressee:

	Non-Disclosure Agreement (NDA) Suppliers-Tenderers	Template Identifier	240-43921804	Rev	6
		Document Identifier	240-63152171	Rev	5
		Effective Date	02 September 2024		
		Review Date	September 2029		
Project/Transaction Title		MAQHASHIYA VILLAGE SOLAR PV PROJECT			

17.3.1 on the date on which it was delivered to the addressee's address if delivered by hand; or

17.3.2 on the seventh (7th) business day after the date of posting if sent by pre-paid registered post to the addressee's address; or

17.3.3 when received in legible form, if sent to the addressee's then telefax number.

18. Severability

In the event of any one or more of the provisions of this Agreement being held for any reason to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability shall not affect any other provision of this Agreement, and this Agreement shall be construed as if such invalid, illegal or unenforceable provisions was not a part of this Agreement, and this Agreement shall be carried out as nearly as possible in accordance with its original terms and intent.

19. Assignment

19.1 Neither Party may assign or otherwise transfer any of its rights or obligations under this Agreement to any third party without the prior written consent of the other Party.

19.2 Notwithstanding the above, Eskom may on written notice to the other Party hereto, cede and delegate its rights and obligations under this contract to any of its subsidiaries or any of its present divisions or operations which may be converted into separate legal entities as a result of the restructuring of the Electricity Supply Industry and the Electricity Distribution Industry.

20. Publicity

Neither party will make or issue any formal or informal announcement or statement to the press or any third party in connection with this Agreement without the prior written consent of the other Party.

21. Interpretation

21.1 For the purposes of this Agreement the following rules of construction shall apply, unless the context requires otherwise:

21.1.1 the singular shall include the plural and vice versa;

	Non-Disclosure Agreement (NDA) Suppliers-Tenderers	Template Identifier	240-43921804	Rev	6
		Document Identifier	240-63152171	Rev	5
		Effective Date	02 September 2024		
		Review Date	September 2029		
Project/Transaction Title		MAQHASHIYA VILLAGE SOLAR PV PROJECT			

21.1.2 a reference to any one gender, whether masculine, feminine or neuter, includes the other two;

21.1.3 any reference to a person includes, without being Ltd to, any individual, body corporate, unincorporated association or other entity recognised under any law as having a separate legal existence or personality;

21.1.4 any word or expression defined in, and for the purposes of, this agreement shall if expressed in the singular include the plural and vice versa, and a cognate word or expression shall have a corresponding meaning;

21.1.5 references in this agreement to “clauses”, “sub-clauses” and are to clauses and sub-clauses of this agreement; and

21.1.6 any reference in this agreement to this agreement or any other agreement, document or instrument shall be construed as a reference to this agreement or that other agreement, document or instrument as amended, varied, novated or substituted from time to time.

21.2 All the headings and sub-headings in this agreement are for convenience only and are not to be taken into account for the purposes of interpreting it.
