## **2.3 The CCT's undertakings**

### **2.3.1 Respond to requests from the tenderer**

**2.3.1.1** Unless otherwise stated in the Tender Conditions, respond to a request for clarification received up to one week (where possible) before the tender closing time stated on the front page of the tender document.

**2.3.1.2** The CCT's representative for the purpose of this tender is stated on the General Tender Information page.

### **2.3.2 Issue Notices**

If necessary, issue addenda in writing that may amend or amplify the tender documents to each tenderer during the period from the date the tender documents are available until one week before the tender closing time stated in the Tender Data. The Employer reserves its rights to issue addenda less than one week before the tender closing time in exceptional circumstances. If, as a result a tenderer applies for an extension to the closing time stated on the front page of the tender document, the CCT may grant such extension and, shall then notify all tenderers who drew documents.

Notwithstanding any requests for confirmation of receipt of notices issued, the tenderer shall be deemed to have received such notices if the CCT can show proof of transmission thereof via electronic mail, facsimile or registered post.

### **2.3.3 Opening of tender submissions**

**2.3.3.1** Unless the two-envelope system is to be followed, open tender submissions in the presence of tenderers' agents who choose to attend at the time and place stated in the tender conditions.

Tenders will be opened immediately after the closing time for receipt of tenders as stated on the front page of the tender document, or as stated in any Notice extending the closing date and at the closing venue as stated in the General Tender Information.

**2.3.3.2** Announce at the meeting held immediately after the opening of tender submissions, at the closing venue as stated in the General Tender Information, the name of each tenderer whose tender offer is opened and, where possible, the prices and the preferences indicated.

**2.3.3.3** Make available a record of the details announced at the tender opening meeting on the CCT's website (<http://www.capetown.gov.za/en/SupplyChainManagement/Pages/default.aspx>.)

### **2.3.4 Two-envelope system**

**2.3.4.1** Where stated in the tender conditions that a two-envelope system is to be followed, open only the technical proposal of tenders in the presence of tenderers' agents who choose to attend at the time and place stated in the tender conditions and announce the name of each tenderer whose technical proposal is opened.

**2.3.4.2** Evaluate the quality of the technical proposals offered by tenderers, then advise tenderers who have submitted responsive technical proposals of the time and place when the financial proposals will be opened. Open only the financial proposals of tenderers, who have submitted responsive technical proposals in accordance with the requirements as stated in the tender conditions, and announce the total price and any preferences claimed. Return unopened financial proposals to tenderers whose technical proposals were non responsive.

### **2.3.5 Non-disclosure**

Not disclose to tenderers, or to any other person not officially concerned with such processes, information relating to the evaluation and comparison of tender offers and recommendations for the award of a contract, until after the award of the contract to the successful tenderer.

### **2.3.6 Grounds for rejection and disqualification**

Determine whether there has been any effort by a tenderer to influence the processing of tender offers and instantly disqualify a tenderer (and his tender offer) if it is established that he engaged in corrupt or fraudulent practices.

### **2.3.7 Test for responsiveness**

**2.3.7.1** Appoint a Bid Evaluation Committee and determine after opening whether each tender offer properly received:

- a) complies with the requirements of these Conditions of Tender,
- b) has been properly and fully completed and signed, and
- c) is responsive to the other requirements of the tender documents.

**2.3.7.2** A responsive tender is one that conforms to all the terms, conditions, and specifications of the tender documents without material deviation or qualification. A material deviation or qualification is one which, in the CCT's opinion, would:

- a) detrimentally affect the scope, quality, or performance of the goods, services or supply identified in the Specifications,
- b) significantly change the CCT's or the tenderer's risks and responsibilities under the contract, or
- c) affect the competitive position of other tenderers presenting responsive tenders, if it were to be rectified.

Reject a non-responsive tender offer, and not allow it to be subsequently made responsive by correction or withdrawal of any material deviation or qualification.

The CCT reserves the right to accept a tender offer which does not, in the CCT's opinion, materially and/or substantially deviate from the terms, conditions, and specifications of the tender documents.

### **2.3.8 Arithmetical errors, omissions and discrepancies**

**2.3.8.1** Check the responsive tenders for:

- a) the gross misplacement of the decimal point in any unit rate;
- b) omissions made in completing the Price Schedule; or
- c) arithmetic errors in:
  - i) line item totals resulting from the product of a unit rate and a quantity in the Price Schedule; or
  - ii) the summation of the prices; or
  - iii) calculation of individual rates.

**2.3.8.2** The CCT must correct the arithmetical errors in the following manner:

- a) Where there is a discrepancy between the amounts in words and amounts in figures, the amount in words shall govern.
- b) If pricing schedules apply and there is an error in the line item total resulting from the product of the unit rate and the quantity, the line item total shall govern and the rate shall be corrected. Where there is an obviously gross misplacement of the decimal point in the unit rate, the line item total as tendered shall govern, and the unit rate shall be corrected.
- c) Where there is an error in the total of the prices either as a result of other corrections required by this checking process or in the tenderer's addition of prices, the total of the prices shall govern and the tenderer will be asked to revise selected item prices (and their rates if Price Schedules apply) to achieve the tendered total of the prices.

Consider the rejection of a tender offer if the tenderer does not correct or accept the correction of the arithmetical error in the manner described above.

**2.3.8.3** In the event of tendered rates or lump sums being declared by the CCT to be unacceptable to it because they are not priced, either excessively low or high, or not in proper balance with other rates or lump sums, the tenderer may be required to produce evidence and advance arguments in support of the tendered rates or lump sums objected to. If, after submission of such evidence and any further evidence requested, the CCT is still not satisfied with the tendered rates or lump sums objected to, it may request the tenderer to amend these rates and lump sums along the lines indicated by it.

The tenderer will then have the option to alter and/or amend the rates and lump sums objected to and such other related amounts as are agreed on by the CCT, but this shall be done without altering the tender offer in accordance with this clause.

Should the tenderer fail to amend his tender in a manner acceptable to and within the time stated by the CCT, the CCT may declare the tender as non-responsive.

### **2.3.9 Clarification of a tender offer**

The CCT may, after the closing date, request additional information or clarification from tenderers, in writing on any matter affecting the evaluation of the tender offer or that could give rise to ambiguity in a contract arising from the tender offer, which written request and related response shall not change or affect their competitive position or the substance of their offer. Such request may only be made in writing by the Director: Supply Chain Management using any means as appropriate.

### **2.3.10 Evaluation of tender offers**

#### **2.3.10.1 General**

**2.3.10.1.1** Reduce each responsive tender offer to a comparative price and evaluate them using the tender evaluation methods and associated evaluation criteria and weightings that are specified in the tender conditions.

**2.3.10.1.2** For evaluation purposes only, the effects of the relevant contract price adjustment methods will be considered in the determination of comparative prices as follows:

- a. If the selected method is based on bidders supplying rates or percentages for outer years, comparative prices would be determined over the entire contract period based on such rates or percentages.
- b. If the selected method is based on a formula, indices, coefficients, etc. that is the same for all bidders during the contract period, comparative prices would be the prices as tendered for year one.
- c. If the selected method is based on a formula, indices, coefficients, etc. that varies between bidders, comparative prices would be determined over the entire contract period based on published indices relevant during the 12 months prior to the closing date of tenders.
- d. If the selected method includes an imported content requiring rate of exchange variation, comparative prices would be determined based on the exchange rates tendered for the prices as tendered for year one. The rand equivalent of the applicable currency 14 days prior to the closing date of tender will be used (the CCT will check all quoted rates against those supplied by its own bank).
- e. If the selected method is based on suppliers' price lists, comparative prices would be the prices as tendered for year one.
- f. If the selected method is based on suppliers' price lists and / or rate of exchange, comparative prices would be determined as tendered for year one whilst taking into account the tendered percentage subject to rate of exchange (see sub clause (d) for details on the calculation of the rate of exchange).

**2.3.10.1.3** Where the scoring of functionality forms part of a bid process, each member of the Bid Evaluation Committee must individually score functionality. The individual scores must then be interrogated and calibrated if required where there are significant discrepancies. The individual scores must then be added together and averaged to determine the final score.

#### **2.3.10.2 Decimal places**

Score financial offers, preferences and functionality, as relevant, to two decimal places.

### 2.3.10.3 Scoring of tenders (price and preference)

**2.3.10.3.1** Points for price will be allocated in accordance with the formula set out in this clause based on the price per item / rates as set out in the **Price Schedule (Part 5)**:

- Highest ranked offers (price + preference) per item reflected in part 5, Pricing Schedule

**2.3.10.3.2** Points for preference will be allocated in accordance with the provisions of **Preference Schedule** and the table in this clause.

**2.3.10.3.3** The terms and conditions of **Preference Schedule** as it relates to preference shall apply in all respects to the tender evaluation process and any subsequent contract.

**2.3.10.3.4** Applicable formula:

The 90/10 price/preference points system will be applied to the evaluation of responsive tenders over a Rand value of R50'000'000 (all applicable taxes included), whereby the order(s) will be placed with the tenderer(s) scoring the highest total number of adjudication points.

Price shall be scored as follows:

$$Ps = 90 \times \frac{(1 - \frac{(Pt - Pmin)}{Pmin})}{Pmin}$$

Where: Ps is the number of points scored for price;  
Pt is the price of the tender under consideration;  
Pmin is the price of the lowest responsive tender.

Preference points shall be scored as follows:

Points will be awarded to tenderers who are eligible for preferences in respect of the B-BBEE level of contributor attained in terms of **Preference Schedule**.

A maximum of 10 tender adjudication points will be awarded for preference to tenderers with responsive tenders who are eligible for such preference, in accordance with the criteria listed below.

Up to **10** adjudication points (N<sub>P</sub>) will be awarded for the level of B-BBEE contribution, in accordance with the tables below:

| B-BBEE Status Level of Contributor | Number of Points for Preference |
|------------------------------------|---------------------------------|
| 1                                  | 10                              |
| 2                                  | 9                               |
| 3                                  | 6                               |
| 4                                  | 5                               |
| 5                                  | 4                               |
| 6                                  | 3                               |
| 7                                  | 2                               |
| 8                                  | 1                               |
| Non-compliant contributor          | 0                               |

*\*A non-compliant contributor is one who does not meet the minimum score for a level 8 contributor.*

or, in respect of Exempted Micro Enterprises (EMEs):

| Black Ownership of EME          | Deemed Status Contributor | B-BBEE Level of Contributor | Number of Points for Preference |

**The total number of adjudication points (N<sub>T</sub>) shall be calculated as follows:**

$$N_T = P_S + N_P$$

Where: P<sub>S</sub> is the number of points scored for price;  
N<sub>P</sub> is the number of points scored for preference.

The terms and conditions of the **Preference Schedule** shall apply in all respects to the tender evaluation process and any subsequent contract.

### **2.3.10.5 Risk Analysis**

Notwithstanding compliance with regard to any requirements of the tender, the CCT will perform a risk analysis in respect of the following:

- reasonableness of the financial offer
- reasonableness of unit rates and prices
- the tenderer's ability to fulfil its obligations in terms of the tender document, that is, that the tenderer can demonstrate that he/she possesses the necessary professional and technical qualifications, professional and technical competence, financial resources, equipment and other physical facilities, managerial capability, reliability, capacity, experience, reputation, personnel to perform the contract, etc.; the CCT reserves the right to consider a tenderer's existing contracts with the CCT in this regard
- any other matter relating to the submitted bid, the tendering entity, matters of compliance, verification of submitted information and documents, etc.

The conclusions drawn from this risk analysis will be used by the CCT in determining the acceptability of the tender offer.

No tenderer will be recommended for an award unless the tenderer has demonstrated to the satisfaction of the CCT that he/she has the resources and skills required.

### **2.3.11 Negotiations with preferred tenderers**

The CCT may negotiate the final terms of a contract with tenderers identified through a competitive tendering process as preferred tenderers provided that such negotiation:

- does not allow any preferred tenderer a second or unfair opportunity;
- is not to the detriment of any other tenderer; and
- does not lead to a higher price than the tender as submitted.

If negotiations fail to result in acceptable contract terms, the City Manager (or his delegated authority) may terminate the negotiations and cancel the tender, or invite the next ranked tenderer for negotiations. The original preferred tenderer should be informed of the reasons for termination of the negotiations. If the decision is to invite the next highest ranked tenderer for negotiations, the failed earlier negotiations may not be reopened by the CCT.

Minutes of any such negotiations shall be kept for record purposes.

The provisions of this clause will be equally applicable to any invitation to negotiate with any other tenderers.

In terms of the PPPFA Regulations, 2017, tenders must be cancelled in the event that negotiations fail to achieve a market related price with any of the three highest scoring tenderers.

### **2.3.12 Acceptance of tender offer**

Notwithstanding any other provisions contained in the tender document, the CCT reserves the right to:

**2.3.12.1** Accept a tender offer(s) which does not, in the CCT's opinion, materially and/or substantially deviate from the terms, conditions, and specifications of the tender document.

However, all requests for price increases will have to be substantiated before it can be considered.

#### 5.16 **Technology Refresh**

It is our intention to revise/update the hardware list for sending to the awarded service providers within a specific item for quotations. This process will be called Technology refresh. This includes adding the latest version of equipment, while keeping some of the previously listed equipment. The "refresh" items will be re-ranked according to the updated prices provided by service providers per item.

The City of Cape Town holds the rights to start the refresh process at its discretion.

While a Technology refresh is being performed, the City will continue to place orders and vendors will continue to supply with the current awarded equipment and pricing. Orders will be placed with the standby vendor(s) during this period if the main awarded vendor is unable to supply. The new equipment and pricing will only be effective after the technology refresh award is successfully completed. The intention is that the refresh will not disrupt the supply and delivery of equipment while it is being carried out.

Technology Refreshes will be awarded to the original pool of vendors, with the awards per item.

- 16.2 The supplier shall furnish the purchaser with an invoice accompanied by a copy of the delivery note and upon fulfilment of any other obligations stipulated in the contract.
- 16.3 Payments shall be made promptly by the purchaser, but in no case later than 30 (thirty) days after submission of an invoice or claim by the supplier.
- 16.4 Payment will be made in Rand unless otherwise stipulated in the SCC.

## **17. Prices**

- 17.1 Prices charged by the supplier for goods delivered and services performed under the contract shall not vary from the prices tendered by the supplier in his bid, with the exception of any price adjustments authorized in the SCC or in the purchaser's request for bid validity extension, as the case may be.

## **18. Contract Amendments**

- 18.1 No variation in or modification of the terms of the contract shall be made except by written amendment signed by the parties concerned.

## **19. Assignment**

- 19.1 The supplier shall not assign, in whole or in part, its obligations to perform under the contract, except with the purchaser's prior written consent.

## **20. Subcontracts**

- 20.1 The supplier shall notify the purchaser in writing of all subcontracts awarded under this contract if not already specified in the bid. Such notification, in the original bid or later, shall not relieve the supplier from any liability or obligation under the contract.

## **21. Delays in the supplier's performance**

- 21.1 Delivery of the goods and performance of services shall be made by the supplier in accordance with the time schedule prescribed by the purchaser in the contract.
- 21.2 If at any time during the performance of the contract, the supplier or its subcontractor(s) should encounter conditions impeding timely delivery of the goods and performance of services, the supplier shall promptly notify the purchaser in writing of the fact of the delay, its likely duration and its cause(s). As soon as practicable after receipt of the supplier's notice, the purchaser shall evaluate the situation and may at his or her discretion extend the supplier's time for performance, with or without the imposition of penalties, in which case the extension shall be ratified by the parties by amendment of contract.
- 21.3 No provision in a contract shall be deemed to prohibit the obtaining of supplies or services from a national department, provincial department, or a local authority.
- 21.4 The right is reserved to procure, outside of the contract, small quantities of supplies; or to have minor essential services executed if an emergency arises, or the supplier's point of supply is not situated at or near the place where the supplies are required, or the supplier's services are not readily available.
- 21.5 Except as provided under GCC Clause 25, a delay by the supplier in the performance of its delivery obligations shall render the supplier liable to the imposition of penalties, pursuant to GCC Clause 22, unless an extension of time is agreed upon pursuant to GCC Clause 21.2 without the application of penalties.
- 21.6 Upon any delay beyond the delivery period in the case of a supplies contract, the purchaser shall, without cancelling the contract, be entitled to purchase supplies of a similar quality and up to the same quantity in substitution of the goods not supplied in conformity with the contract and to return any goods delivered later at the supplier's expense and risk, or to cancel the contract and buy such goods as may be required to complete the contract and, without prejudice to his other rights, be entitled to claim damages from the supplier.

## **22. Penalties**

- 22.1 Subject to GCC Clause 25, if the supplier fails to deliver any or all of the goods or to perform the services within the period(s) specified in the contract, the purchaser shall, without prejudice to its other remedies under the contract, deduct from the contract price, as a penalty, a sum calculated on the delivered price of the delayed goods or unperformed services, using the current prime interest rate, calculated for each day of the delay until actual delivery or performance. The purchaser may also consider termination of the contract pursuant to GCC Clause 23.

## **23. Termination for default**

- 23.1 The purchaser, without prejudice to any other remedy for breach of contract, by written notice of default sent to the supplier, may terminate this contract in whole or in part:
- (a) if the supplier fails to deliver any or all of the goods within the period(s) specified in the contract, or within any extension thereof granted by the purchaser pursuant to GCC Clause 21.2;
  - (b) if the supplier fails to perform any other obligation(s) under the contract; or
  - (c) if the supplier, in the judgment of the purchaser, has engaged in corrupt or fraudulent practices in competing for or in executing the contract.
- 23.2 In the event the purchaser terminates the contract in whole or in part, the purchaser may procure, upon such terms and in such manner as it deems appropriate, goods, works or services similar to those undelivered, and the supplier shall be liable to the purchaser for any excess costs for such similar goods, works or services. However, the supplier shall continue performance of the contract to the extent not terminated.

23.3 Where the purchaser terminates the contract in whole or in part, the purchaser may decide to impose a restriction penalty on the supplier by prohibiting such supplier from doing business with the public sector for a period not exceeding 10 years.

23.4 If a purchaser intends imposing a restriction on a supplier or any person associated with the supplier, the supplier will be allowed a time period of not more than 14 (fourteen) days to provide reasons why the envisaged restriction should not be imposed. Should the supplier fail to respond within the stipulated 14 (fourteen) days the purchaser may regard the intended penalty as not objected against and may impose it on the supplier.

23.5 Any restriction imposed on any person by the Accounting Officer/Authority will, at the discretion of the Accounting Officer/Authority, also be applicable to any other enterprise or any partner, manager, director or other person who wholly or partly exercises or exercised or may exercise control over the enterprise of the first-mentioned person, and with which enterprise or person the first-mentioned person is or was, in the opinion of the Accounting Officer/Authority, actively associated.

23.6 If a restriction is imposed, the purchaser must, within 5 (five) working days of such imposition, furnish the National Treasury with the following information:

- (i) the name and address of the supplier and/or person restricted by the purchaser;
- (ii) the date of commencement of the restriction;
- (iii) the period of restriction; and
- (iv) the reasons for the restriction.

These details will be loaded in the National Treasury's central database of suppliers or persons prohibited from doing business with the public sector.

23.7 If a court of law convicts a person of an offence as contemplated in sections 12 or 13 of the Prevention and Combating of Corrupt Activities Act, Act 12 of 2004, the court may also rule that such person's name be endorsed on the Register for Tender Defaulters. When a person's name has been endorsed on the Register, the person will be prohibited from doing business with the public sector for a period of not less than five years and not more than 10 years. The National Treasury is empowered to determine the period of restriction, and each case will be dealt with on its own merits. According to section 32 of the Act the Register must be open to the public. The Register can be perused on the National Treasury website.

## **24. Anti-dumping and countervailing duties and rights**

24.1 When, after the date of bid, provisional payments are required, or anti-dumping or countervailing duties are imposed, or the amount of a provisional payment or anti-dumping or countervailing right is increased in respect of any dumped or subsidised import, the State is not liable for any amount so required or imposed, or for the amount of any such increase. When, after the said date, such a provisional payment is no longer required or any such anti-dumping or countervailing right is abolished, or where the amount of such provisional payment or any such right is reduced, any such favourable difference shall, on demand, be paid forthwith by the contractor to the State, or the State may deduct such amounts from moneys (if any) which may otherwise be due to the contractor in regard to supplies or services which he or she delivered or rendered, or is to deliver or render in terms of the contract or any other contract or any other amount which may be due to him or her.

## **25. Force majeure**

25.1 Notwithstanding the provisions of GCC Clauses 22 and 23, the supplier shall not be liable for forfeiture of its performance security, damages, or termination for default if, and to the extent that, his delay in performance or other failure to perform his obligations under the contract is the result of an event of force majeure.

25.2 If a force majeure situation arises, the supplier shall notify the purchaser promptly, in writing, of such condition and the cause thereof. Unless otherwise directed by the purchaser in writing, the supplier shall continue to perform its obligations under the contract as far as is reasonably practical, and shall seek all reasonable alternative means for performance not prevented by the force majeure event.

## **26. Termination for insolvency**

26.1 The purchaser may at any time terminate the contract by giving written notice to the supplier if the supplier becomes bankrupt or otherwise insolvent. In this event, termination will be without compensation to the supplier, provided that such termination will not prejudice or affect any right of action or remedy which has accrued or will accrue thereafter to the purchaser.

## **27. Settlement of Disputes**

27.1 If any dispute or difference of any kind whatsoever arises between the purchaser and the supplier in connection with or arising out of the contract, the parties shall make every effort to resolve such dispute or difference amicably, by mutual consultation.

27.2 If, after 30 (thirty) days, the parties have failed to resolve their dispute or difference by such mutual consultation, then either the purchaser or the supplier may give notice to the other party of his intention to commence with mediation. No mediation in respect of this matter may be commenced unless such notice is given to the other party.

27.3 Should it not be possible to settle a dispute by means of mediation, it may be settled in a South African court of law.

27.4 Mediation proceedings shall be conducted in accordance with the rules of procedure specified in the SCC.

27.5 Notwithstanding any reference to mediation and/or court proceedings herein,

- (a) the parties shall continue to perform their respective obligations under the contract unless they otherwise agree; and

## **28. Limitation of Liability**

- (a) the supplier shall not be liable to the purchaser, whether in contract, tort, or otherwise, for any indirect or consequential loss or damage, loss of use, loss of production, or loss of profits or interest costs, provided that this exclusion shall not apply to any obligation of the supplier to pay penalties and/or damages to the purchaser; and
- (b) the aggregate liability of the supplier to the purchaser, whether under the contract, in tort or otherwise, shall not exceed the total contract price, provided that this limitation shall not apply to the cost of repairing or replacing defective equipment.

- 34.2 If a bidder(s) or contractor(s), based on reasonable grounds or evidence obtained by the purchaser, has/have engaged in the restrictive practice referred to above, the purchaser may refer the matter to the Competition Commission for investigation and possible imposition of administrative penalties as contemplated in the Competition Act, Act 89 of 1998.

### 13.1 Background

The award of this tender will facilitate the purchase of commonly ordered computers and computer related equipment meeting the architectural standards set forth by the Information Systems and Technology (IS&T) directorate.

The items listed are considered to be commodities in that they will be loaded onto SAP for any authorised City employee to purchase any quantity of such items as they have budget available on an ad hoc basis.

The purpose of the Tender is to invite competent bidders to submit bids for:

- Schedule A – laptops and desktops
- Schedule B – Monitors
- Schedule C - Android Field devices
- Schedule D - Repairs to existing equipment

#### Seeded Units

On the initial award of items in Category A, and every time a different manufacturer is awarded items after that, the resellers must supply the following before procurement can happen:

Seeded equipment on each new model by the successful tenderer for testing, certification and imaging purposes for the duration of the tender

#### Green IT

Environmental issues are becoming increasingly important to organisations and individuals alike. Energy-efficient choices can reduce greenhouse gas emissions and save energy costs for the user, without sacrificing features, style or comfort.

The City has a role to play in combating climate change and is committed to making environmentally-responsible, energy-efficient choices. Our commitment to Green Computing is an essential component in this commitment.

The City has implemented Power Profiling for desktop equipment and requires all such equipment to comply with International Green Energy Standards and Certification.

It is with this understanding that lower power consumption is more desirable than high power consumption. Therefore, specifications regarding power supply or power consumption must always be interpreted as lower is better, and items such as power supplies will be subject to certain minimum requirements. Tenderers are requested to ensure equipment conforms to stated specifications. Items not meeting or conforming to these standards will be considered non-responsive.

Supply relevant: IT ECO, EPEAT® Gold, ENERGY STAR®, Green Guard and ROHS compliant certification from original equipment manufacturer (OEM) where requested and attach the certification with the tender document in Schedule 15

#### Repairs and Maintenance

The bidder will be required to provide the necessary repairs and maintenance on the products supplied.

#### Windows Compatibility

Computer and electronic equipment must comply with relevant international standards as defined and set out according to relevant international bodies. Desktops and laptops must be compatible with Microsoft Windows 10 Pro 64. Submit a copy of the Microsoft Hardware Compatibility certification in in Schedule 15. Refer to the following site for more information: <http://www.microsoft.com/windows/compatibility/>

#### Technology Refresh

It is our intention to revise/update the hardware list for sending to the awarded service providers within a specific item for quotations. This process will be called Technology refresh. This includes adding the latest version of equipment, while keeping some of the previously listed equipment. The “refresh” items will be re-ranked according to the updated prices provided by service providers per item.

The City of Cape Town holds the rights to start the refresh process at its discretion.

While a Technology refresh is being performed, the City will continue to place orders and vendors will continue to supply with the current awarded equipment and pricing. Orders will be placed with the standby vendor(s) during this period if the main awarded vendor is unable to supply. The new equipment and pricing will only be effective after the technology refresh award is successfully completed. The intention is that the refresh will not disrupt the supply and delivery of equipment while it is being carried out.

Technology Refreshes will be awarded to the original pool of vendors, with the awards per item.

#### Schedule A Specifications PCs

**IMPORTANT NOTE:** All Specifications are minimum specifications. Tenderers are free to exceed these as this will not influence the adjudication process

#### Instructions:

- a) When completing the compliance column **only insert “yes” or “no”**.
- b) If the device exceeds the minimum specifications indicate only with “yes” in the compliance column and put “exceeds” in comments column with any other details you wish to specify.
- c) **Do not insert “no – exceeds” in the compliance column** as this will be interpreted as non-compliance and will be considered non-responsive. A single “yes” in the column indicates the item complies with all minimum requirements.
- d) The City reserves the right to confirm the compliance. All non-complaint items will be considered non-responsive.
- e) For schedule A: The **tendered prices will be retained (Fixed) for three months from date of commencement** and for every **three months’** interval following until expiration of this contract. ## Schedule C Specifications Field Services Devices

### Field Services Device Section:

Unlike the established PC environment, the field services environment is still very new. At this stage the City is following the field services device strategy set by Project EPIC which has defined the following criteria to which devices must conform, namely form factor, ruggedized and manageability.

Field services devices are tools used by field workers to enable them to perform functions efficiently and effectively while in the field, and able to receive instructions and updates while working offsite. Field services devices will be referred to as devices below. This section is not intended to provide employees cell phones or devices for private use.

The first criterion is form factor (size).

The second criterion is determined by the physical environment i.e. harsh field conditions, where a device is exposed to physical shock, wet or dusty conditions. The industry standard used to determine whether a device is ruggedized is Ingress Protection (IP) rating. Ruggedized devices are designed specifically with internal components to operate under harsh conditions. Devices must be certified with an IP rating to conform. A standard device with a dust sleeve does not qualify as ruggedized.

The third criterion is enterprise manageability. Mobile Device Management (MDM) is an important feature and devices must be able to be managed or controlled by the MDM tool.

Enterprise management is divided into two classes:

\*Enterprise Manageability Level 2 (intermediate), and

\*Enterprise Manageability Level 3 (advanced).

**Please Note: Devices that require breakout to the internet for mobile device management (MDM) will not be considered by the City of Cape Town.**

### Enterprise manageability Level 2 (EML2) - (intermediate):

- Does not require access to the internet.
- Is integrated into the City's backend architecture
- EML 2 requires is able to change configuration settings and installing applications on devices. Including capabilities such as pull configurations, whitelisting and blacklisting of control of individual apps, kiosk mode, app uninstall restrictions, browser configuration, location management and VPN configuration, security management of certificates, remote lock and full/selective wipe and encryption of device /SD card.
- Mobile Device Management (MDM) capability on Backend:
  - Devices must be fully manageable and compatible with the City's current EML2 electronic management tool (SAP Afaria 7 SP33)
  - to be considered compliant at Enterprise Manageability Level 2
- Mobile Device Management (MDM) capability on Device:
  - must be Knox compatible
  - Devices must have advanced manageability features such as the City's current mobile device management software Knox, or equivalent
  - to be considered compliant at Enterprise Manageability Level 2
- If you are submitting an offer on these items the implication is the device **is compatible with the City's current MDM and Items C-18.1 to C18.6 on the Pricing Schedule may be left blank**

**Will be considered responsive for Items 1, 2, 5, 6, 7, 9, 10 and 11**

### Enterprise Manageability Level 3 (EML3) - (advanced):

- Does not require access to the internet.
- Is integrated into the City's backend architecture
- Zero touch deployment: EML 3 requires no end user intervention for changing configuration settings and installing applications on devices. Including capabilities such as push and pull configurations, whitelisting and blacklisting of control of individual apps, kiosk mode, app uninstall restrictions, browser configuration, location management and VPN configuration, security management of certificates, remote lock and full/selective wipe and encryption of device /SD card.
- Mobile Device Management (MDM) capability on Backend:
  - Devices must be fully manageable and compatible with the City's current EML3 electronic management tool (Huawei eUDC660 management system capabilities)
  - to be considered compliant at Enterprise Manageability Level 3
- If you are submitting an offer on these items and your device is not compatible with the City's current **EML 3 MDM Huawei eUDC660** management system, you will need to submit pricing on **Items C-18.1 to C-18.6 on the Pricing Schedule to include your own EML 3 MDM tool.**

### Will be considered responsive for Items 3, 4, 8, and 12

The table below describes the criteria and process to determine the build for Android devices.
