To enable the Department of Co-operative Governance and Traditional Affairs (CoGTA) through the Directorate: Disaster Management to procure the services of a Service Provider to conduct an Impact evaluation on the effectiveness of Disaster Risk Reduction (DRR) programs in the Gauteng Province

## **2. BACKGROUND**

2.2. Section 39 mandates each province to prepare and implement a provincial disaster management plan for the province, the plan must set out -

- (i) The way in which the concept and principles of disaster are applied in its function area;
- (ii) Its role and responsibilities in terms of the national or provincial disaster management framework;
- (iii) Its roles and responsibilities regarding emergency preparedness, mitigation, response, post –disaster recovery, rehabilitation and resilience building;
- (iv) Its capacity to fulfil its role, responsibilities, and disaster management strategies
- (v)
- (vi) Spatial coverage of DRR programmes in the province
- (vii) Contingency strategies, emergency procedures in the event of disaster, including measures to finance these strategies.

2.3. The Sendai Framework for Disaster Risk Reduction prioritize strengthening of governance at the global and regional levels. It upholds stakeholder commitment as the basis for disaster risk-informed sustainable development plans, and strongly advocates the inclusion of community-based perspectives in the planning and delivery of disaster risk reduction (DRR) programs.

## **APPOINTMENT OF A SERVICE PROVIDER TO CONDUCT AN IMPACT EVALUATION ON DISASTER RISK REDUCTION (DRR) PROGRAMS IN THE GAUTENG PROVINCE**

- 2.4. Following a shift of the resilience paradigm from 'bouncing back' to 'bouncing forward', which impact lies positive change that reflects transformational resilience. DRR frameworks are now focusing on capitalizing on existing and potential local resources to achieve long-term sustainability.
- 2.5. Evidence-based policy has increased significantly in DRR, with the Sendai Framework calling for a stronger evidence base to support the implementation of DRR. It also ensures good governance and accountability, by understanding and explaining the benefits of DRR intervention measures, and ensuring efficient and accountable resource allocation
- 2.6. Between the period 2017 -2022, the PDMC conducted DRR programs in Sedibeng District Municipality, West Rand District Municipality, City of Johannesburg, City of Ekurhuleni and City of Tshwane. The DRR impact Evaluation will focus on the above regions as per Annexure A attached.
- 2.7. The PDMC is therefore seeking to appoint a Service Provider that will assist CoGTA in conducting an Impact evaluation on the effectiveness of DRR programs. The gap analysis and the recommended evidence based DRR strategies as per DRR impact evaluation will form part of the future DRR planning process in the province.

### **3. AIM OF THE PROJECT**

#### **The Impact evaluation on DRR will;**

- identify gaps in current DRR interventions measures and further recommend evidence-based strategies
- allow for an evidence-based decision and policy making in DRR intervention measures
- explore new areas to mainstream DRR, including partnerships and collaborative opportunities
- strengthen community bounce-forward capacities and systems in support of transformational resilience

--	--	-----------	------------

Scores are allocated according to a value matrix ranging from 0 to 5 of which 0 is the lowest score that can be obtained and 5 the highest. The Maximum Possible points are calculated by multiply the weight of each criteria with the highest score (as per the value matrix) that can be obtained.

The minimum qualifying score for functionality is indicated as a percentage and is calculated as follows:

- The score for each criterion is added to obtain the total score; and
- The following formula is applied to convert the total score to a percentage for functionality:

So

$$Ps = Ms \times 100$$

Where:

*Ps* = Percentage scored for functionality by bid under consideration

*So* = Total score of bid under consideration

*Ms* = Maximum possible score

The percentage of each panel member is added and divided by the number of panel members to establish the average percentage obtained by each bidder for functionality.
