APPOINTMENT OF A OF SERVICE PROVIDER TO COORDINATE AND/OR PROVIDE TRAINING FOR THE URBAN SEARCH AND RESCUE (USAR) TEAM AND ASSIGN MENTORS FOR PURPOSE OF RECLASSIFICATION IN 2024

1. PURPOSE

- 1.1 To enable the Department of Co-operative Governance and Traditional Affairs (CoGTA) to appoint a service provider to provide training for the urban search and rescue (USAR) team and assign mentors for the purpose of reclassification in 2024.

2. BACKGROUND

- 2.1 The Provincial Disaster Management Centers (PDMC) is responsible for executing Provincial oversight function over Municipal Fire & Rescue Services in terms of Proclamation No. R 153 of 31 October 1994, under section 235 (8) of the Constitution of the Republic of South Africa, 1996 (Act no 108 of 1996). It is also primarily responsible for the coordination and management of disasters in the Province.
- 2.2 In view of the increasing number of disasters such as major structural collapses, floods, storms etc. a decision was taken at the Forum for Emergency Services Heads (FESH) to establish a USAR team which comprises of members from the various municipalities within the Gauteng Province. This team deals with the location, extrication, and initial medical stabilization of victims. It conducts search and rescue operations in collapsed structures and provide emergency medical care to trapped victims. The provincial USAR team is made up of rescue technicians from various municipalities within the Gauteng Province.
- 2.3 The Gauteng based Urban Search and Rescue (USAR) Team received its International Search and Rescue Advisory Group (INSARAG) External Classification (IEC) as a Medium Team in 2017 and is expected to undergo a reassessment in 2024 in order to retain its classification status by INSARAG.
- 2.4 It is important to note that the USAR team is structured to be rapidly activated and safely operate on a scene for up to 7 days. Primarily, it performs the functions of search, rescue, and medical care for USAR team members and rescued patients. The USAR team has enough members to replicate itself into two teams, with one team ready for deployment at any given time.

3. PROBLEM STATEMENT

- 3.1 South Africa is constantly threatened by hazards of natural, technological and environmental origin. It is increasingly exposed to the devastating effects of a range of severe hydro-meteorological events, including severe storms, floods, tornadoes, drought and fires. Transportation accidents and accidents involving hazardous material continue to pose major challenges as national routes cut across various provinces. With the increasing population size, Gauteng is also faced with the challenge of a proliferation of informal settlements, which are prone to hazards such as fires, flooding as well as extreme

APPOINTMENT OF A OF SERVICE PROVIDER TO COORDINATE AND/OR PROVIDE TRAINING FOR THE URBAN SEARCH AND RESCUE (USAR) TEAM AND ASSIGN MENTORS FOR PURPOSE OF RECLASSIFICATION IN 2024

weather conditions. The ever-increasing number of high-rise buildings in the Province, further pose a risk to citizens in the event of seismic activity or earthquakes.

- 3.2 To effectively respond to the hazards identified in paragraph 3.1 above, USAR services become an invaluable resource to the Province due to the actuality that it involves the location, extrication, and initial stabilization of people trapped in a confined space or under debris due to a sudden-onset large scale structural collapse. The services also include trench, industrial and agricultural rescue. Classified teams are also obligated to provide support during emergencies.
- 3.3 Currently the USAR team is preparing for reclassification which is scheduled to take **place in 2024**. One of the requirements for reclassification of teams is to ensure that the teams are adequately trained and also to ensure that mentors are assigned to guide the team in its preparations for the reclassification and during the classification process.
- 3.4 In addition to paragraph 3.3 above, it must be further recognized that the USAR team is the sole resource for rescue services in the province. Therefore, it is imperative that the team is adequately trained to provide response.

4. OBJECTIVES OF THE PROJECT

5.2. Appointment of mentors (x2)

It is also a requirement that mentors should not come from the organization or country undergoing the INSARAG External Reclassification (IER) because mentors have a responsibility of providing an independent, unbiased recommendation to the INSARAG Secretariat regarding the teams' readiness to undergo the IER.

The appointment of mentors will be discussed with Provincial Disaster Management Centre (PDMC). However, bidders must note that **mentors must be appointed from the INSARAG Africa/Europe region**.

MINIMUM THRESHOLD FOR FUNCTIONALITY		70	350

Scores are allocated according to a value matrix ranging from 0 to 5 of which 0 is the lowest score that can be obtained and 5 the highest. The Maximum Possible points are calculated by multiply the weight of each criteria with the highest score (as per the value matrix) that can be obtained.

APPOINTMENT OF A OF SERVICE PROVIDER TO COORDINATE AND/OR PROVIDE TRAINING FOR THE URBAN SEARCH AND RESCUE (USAR) TEAM AND ASSIGN MENTORS FOR PURPOSE OF RECLASSIFICATION IN 2024

- a) *The score for each criterion is added to obtain the total score; and*

$$Ps = \frac{So}{Ms} \times 100$$

Where:

Ps = Percentage scored for functionality by bid under consideration

So = Total score of bid under consideration

Ms = Maximum possible score

The percentage of each panel member is added and divided by the number of panel members to establish the average percentage obtained by each bidder for functionality.

Where

Ps = Points scored for competitive price of bid or offer under consideration

Pt = Competitive price of bid or offer under consideration; and
