12. Evaluation Criteria and Methodology

12.1 Evaluation of tenders and selection of contractors'/service providers

The NHLS is a Schedule 3A Government Institution subjected to the Public Finance Management Act (PFMA), the Public Preferential Framework Act (PPFA) and Treasury Regulations/ Instructions. Bidders must assist the NHLS to eliminate corruption and fraud by completing and submitting form SBD4.

- 12.1.1. Any tender closing is followed by a Public Opening where the names and pricing of all bids received are read out to the bidders attending. NHLS tender opening officials sign the pages where pricing is indicated to prevent any alterations.
- 12.1.2. Next steps of evaluation is Administrative pre-qualification verification and the "technical" or so called "functional" evaluation which is purely based on NHLS specifications (Annexure 2) and Scope of Work. NHLS end-user department (who *requested the bid*), Procurement Services, Finance and subject specialists are part of the Cross Functional Evaluation Team (CFET) meeting which is chaired by Quality Assurance (QA). *All the members of the CFET must complete Declaration of Interest forms and must recuse themselves in case of any conflict of interest.*
- 12.1.3. The final stage of evaluation is done after the CFET has reached their verdict and is done by NHLS Procurement Services and separately from the CFET meeting. Points for Specific Goals (commercial evaluation) is being added in order to get the final order of merit for the bidders being evaluated.
- 12.1.4. Bidders that score the minimum threshold are recommended and submitted to the NHLS Tender Evaluation Committee (TAC) for adjudication and the bid MUST be awarded to the bidder who scored the highest points (Merit 1) during the CFET and Commercial evaluation(B-BBEE). *All the members of the CFET must complete Declaration of Interest forms and must recuse themselves in case of any conflict of interest. **Should the TAC decide on a bidder other than Merit 1, this decision must be motivated as a Deviation from NHLS Policy & procedure and Treasury must be advised accordingly.***
- 12.1.5. The CEO of the NHLS must finally approve the recommendation by the TAC, in his capacity as the Accounting Officer.
- 12.1.6. Details of the successful bidder to be advertised in the Government Tender Bulletin.
- 12.1.7. Suppliers must accept the Terms & Conditions of our contract(s) which will result from the RFB document". RFB conditions and pricing shall be fixed and firm from RFB closing date to the end of contract.

3 BACKGROUND

National Health Laboratory Services [hereinafter referred to as NHLS] is a public health laboratory service with laboratories across South Africa. Its activities comprise diagnostic laboratory services, research, teaching and training, and production of sera for anti-snake venom, reagents and media.

NHLS was established in 2001 by an Act of Parliament to provide diagnostic pathology laboratory services to the National and Provincial Health Department.

4 SCOPE OF WORK

Cryptococcal meningitis (CM) is a highly infectious disease caused by *Cryptococcus neoformans*, It has a high mortality rate, particularly among HIV-positive patients with compromised immune systems (as indicated by CD4 counts <100cells/μl).(1-3). Cryptococcal antigen (CrAg) screening was included in the World Health Organization HIV guidelines of 2016 (4). On the back of these guidelines, a CrAg screening program was launched first as a pilot study at selected CD4 laboratories of the National Health and Laboratory Service (NHLS) in South Africa (5, 6) and then extended to a national program in 2018 to 49 testing laboratories, where samples of HIV-positive

patients with a confirmed CD4 count <100cells/μl were reflexed for CrAg testing (7-9). Program data has since been used extensively to report the prevalence of CrAg in South Africa (7, 8, 10) and the cost-effectiveness of the local program (5-9, 11-13).

All CrAg testing in the NHLS laboratories are performed with the lateral flow assay (LFA) from IMMY (Immuno-Mycologics, IMMY, Norman, OK, USA) (14), as at the time of the roll out, it was the only commercially available LFA kit. Since 2018, additional CrAg LFA products have been launched worldwide (15-21). Fully automated systems are also available for ELISA testing for high throughput laboratories. The current CrAg tender is with Bruker SA.

The reflex program depends on the number of annual CD4 tests with a count <100cells/μl. A national early detection program must accommodate testing based on sample volumes per day that determine the appropriate platform, i.e. LFA manual testing vs. fully automated ELISA CrAg testing. All CD4 laboratories are currently coping with the manual LFA method and as CD4 test volumes are projected to decline over the next five years, it is expected that the number of reflexed CrAg test volumes will also decline over time. Despite the universal test and treat approach adopted for national and international guidelines (22, 23), ~10% of HIV patients remain severely immune-compromised (6.5% positivity rate), with a further 10% having a CD4 count between 101-200 cells/μl (projected 1-2% positivity rate). A study conducted in November 2020 assessed the incidence and prevalence of CrAg for the latter group and the results have been communicated with the National Department of Health (NDoH) for inclusion of additional samples for reflex testing.

CrAg testing continues to be provided through microbiology laboratories (n=212) for clinician initiated testing based on patient clinical presentation, i.e. not reflexed against a CD4 count through CD4 laboratories. These laboratories use the same CrAg LFA testing method as CD4 laboratories. For referrals please find addendum 1 attached.

- the 90/10 system for requirements with a Rand value above R50 000 000 (all applicable taxes included).

1.2 To be completed by the organ of state

- a) Either the **90/10 or 80/20 preference point system** will be applicable in this tender. The lowest acceptable tender will be used to determine the accurate system once tenders are received.

- a) Price; and
- b) Specific Goals.

1.4 To be completed by the organ of state:

The maximum points for this tender are allocated as follows:

	POINTS
PRICE	90/80
SPECIFIC GOALS	10/20
Total points for Price and SPECIFIC GOALS	100

1.5 Failure on the part of a tenderer to submit proof or documentation required in terms of this tender to claim points for specific goals with the tender, will be interpreted to mean that preference points for specific goals are not claimed.

1.6 The organ of state reserves the right to require of a tenderer, either before a tender is adjudicated or at any time subsequently, to substantiate any claim in regard to preferences, in any manner required by the organ of state.

3 FORMULAE FOR PROCUREMENT OF GOODS AND SERVICES

3.1. POINTS AWARDED FOR PRICE

3.1.1 THE 80/20 or 90/10 PREFERENCE POINT SYSTEMS

A maximum of 90 or 80 points is allocated for price on the following basis:

80/20

$$Ps = 80 \left(1 - \frac{Pt - Pmin}{Pmin} \right)$$

Or

90/10

$$Ps = 90 \left(1 - \frac{Pt - Pmin}{Pmin} \right)$$

Where

Ps = Points scored for price of tender under consideration

Pt = Price of tender under consideration

Pmin = Price of lowest acceptable tender

4. POINTS AWARDED FOR SPECIFIC GOALS

- 4.1. In terms of Regulation 4(2); 5(2); 6(2) and 7(2) of the Preferential Procurement Regulations, preference

points must be awarded for specific goals stated in the tender. For the purposes of this tender the tenderer will be allocated points based on the goals stated in table 1 below as may be supported by proof/documentation stated in the conditions of this tender:

- 4.2. In cases where organs of state intend to use Regulation 3(2) of the Regulations, which states that, if it is unclear whether the 80/20 or 90/10 preference point system applies, an organ of state must, in the tender documents, stipulate in the case of—
- a) an invitation for tender for income-generating contracts, that either the 80/20 or 90/10 preference point system will apply and that the highest acceptable tender will be used to determine the applicable preference point system; or
 - b) any other invitation for tender, that either the 80/20 or 90/10 preference point system will apply and that the lowest acceptable tender will be used to determine the applicable preference point system,

then the organ of state must indicate the points allocated for specific goals for both the 90/10 and 80/20 preference point system.

Points awarded for historically disadvantaged individuals

Preference points for HDI's are calculated on their percentage shareholding in a business, provided that they are actively involved in and exercise control over the enterprise. The following formula is prescribed

$$NEP = NOP \times \frac{EP}{100}$$

Where

- NEP = Points awarded for equity ownership by an HDI
- NOP = The maximum number of points awarded for equity by an HDI in that specific category
- EP = The percentage of equity ownership by an HDI within the enterprise or business, determined in accordance with the definition of HDI's.

A consortium or joint venture (including unincorporated consortia and joint ventures) must submit a consolidated B-BBEE Status Level Verification certificate for every separate tender.
