14.1 BACKGROUND

The Makhuduthamaga Local Municipality is mandated in terms of the Municipal Systems Act and other legislation to provide infrastructure and services to all people in its area of jurisdiction. The provision thereof is enabled through various funding and implementation mechanisms. To enable the Makhuduthamaga Local Municipality to execute its mandate, the Municipality intends to plan and execute the **CONSTRUCTION OF ACCESS ROAD FROM TSOPANENG TO MOELA /KGOPANE** and thus requires the professional service provider to assist with the Feasibility Study, Designs, and implementation processes thereof;

- The project scope entails but is not limited to the following,
 - Designing of an approximately 6.5 Km long and 6m wide surfaced road from Tsopaneng to Moela /Kgopane
 - Designing of stormwater control measures (etc. Culverts, side drains).
 - Carrying out Feasibility studies (EIA's, Geotech, OHS, and Surveying)
 - Develop a skills transfer training schedule for EPWP LIC participants on the project.
 - Planning (Preliminary Designs and Detailed Designs)
 - Preparations of Tender Documentation
 - Preparation of Construction/Working drawings
 - Project management and full-time supervision (Level 3) during the construction stage.
 - Progress and financial reporting on Monthly basis
 - Appointment of an Independent Environmental Site officer to ensure that all aspects of the EMP and environmental Act relevant to the construction work are complied with and adhered to.
 - Appointment of the OHS specialist to ensure compliance with the Occupational Health and Safety Act (85 of 1993) including all relevant and applicable regulations to the Act and compliance with and adherence to all amendments and regulations from time to time.
 - Issuing of Completion Certificates
 - Preparation of Close-Out Reports
 - Completion/Close-out Report and As-built drawings and maintenance plan
 - Unbundling report

NB: The following parameters should be maintained in the proposal.

- Aesthetic appeal
- Appropriate form and function
- Suitable location
- Cost effectiveness

Fees paid will be as prescribed by the prevailing guidelines as gazetted annually by ECSA. However, tenderers who offer discounts off primary fees will score favourably during evaluation.

This terms of reference set out the minimum scope of work for which the service providers is responsible. The key accountabilities and deliverables of professional services providers is herein set out.

14.3 REQUIRED BIDDER PROFILE

Interested parties should indicate in their proposals their expertise and their capacity to undertake this assignment together with an indicative project plan. Experience in working on similar projects with local authorities will also be considered.

A solid partnership with a black economic empowerment (BEE) company, preferably based in the Makhuduthamaga area of the Limpopo Province, is another major consideration for transfer of

skills during the execution of this project, if the company itself is already not a BEE company. If the bidder is a BEE, it must demonstrate to the MKM their internal capacity (own resources and not subcontracted) to deliver within the project.

The interested parties should also be intimately familiar with the policy and strategies of the Government of the Republic of South Africa, the Limpopo Provincial Government, and The Makhuduthamaga Local Municipality and with the initiatives taking place in various government fronts at national, provincial and local spheres. Prospective service providers must show a proven knowledge of services provision and project management principles and methodologies.

14.4 COMPLIANCE WITH A PROGRAMME MANAGEMENT SYSTEM

The service provider is required to adhere to the guideline procedures set down in the manual of consultants with respect to the programme. If during the course of this appointment, the manual of consultants is revised the service provider is required to give immediate effect to all revisions made to the manual of consultants in the execution of work.

14.5 PROPOSAL OBJECTIVES

14.5.1 Overall Objectives

The overall objective of the submission is to provide for optimum service provision solutions so that sustainable service provision can be provided in accordance with an appropriate and acceptable strategy which incorporates integrated project planning, project specifications, a programme for project implementation and a framework which ensures sustainability of the projects implemented.

Service providers must align their proposals with other study initiatives already done and some already implemented.

14.5.2 Specific Objectives

The specific objective is to carry out feasibility studies , project proposals, preliminary designs, designs, bid documentation, bid process facilitation and construction supervision of the **CONSTRUCTION OF ACCESS ROAD FROM TSOPANENG TO MOELA /KGOPANE Road** and compile a proposal that should address:

- (i) technical issues in relation to the required service,
- (ii) financial matters (capital costs estimates),
- (iii) institutional matters (capacity to own, operate and maintain infrastructure), and
- (iv) Environmental considerations regarding the infrastructure development proposals.

14.5 STAKEHOLDER CONSULTATION

It is imperative that the proposal should provide for the full integration of stakeholders to ensure buy-in to the proposal process and commitment to the proposals. The Professional Service Provider (PSP) must proactively identify key stakeholders and engage with them in accordance with an appropriate communications and consultation plan. The ward councillors of Makhuduthamaga Municipality will set up the required PSC's and will however assist with all facilitation processes.

14.6 PROJECT TERMS OF REFERENCE (GENERIC)

14.6.1. Status Quo Assessment

Considerable planning work has been done in the recent past and therefore the aim of this task is to ensure that the proposal is based on the best available information. The main activities will therefore include:

- Confirmation of status of planning information.
- Confirm the status of the infrastructure programme and project implementation.

14.6.2 Physical Attributes

The physical attributes of the study area must be adequately addressed to provide a backdrop to further work under the study.

14.6.3 Demographic Attributes

Demographic information for the study area is available from the Census and the GSDM and this information must be adopted as base information. However, the demographic work done to date must be reviewed and refined as appropriate. It is critical that assumptions and processes for generating data and information be verified (confirmed) and recorded in the proposal report. Population growth rates for the various villages and towns need to be confirmed as key factors.

14.6.4 Socio-Economic Attributes

As backdrop to the planning of the services and the formulation of project specifications and an implementation plan, the socio-economic profile of the study area must be reviewed and reported upon in the proposal.

14.6.5 Institutional Attributes

The institutional arrangements must be assessed with a view to highlighting issues that need to be addressed so that services may be provided in a sustainable manner and that the delivery goals are met.

14.6.5 Cost Estimates

The financial implications for the proposed project must be determined including:

- 1) Capital cost estimates.

14.6.6 Environmental Matters

Environmental protection and conservation management influences are important considerations. The existing environmental conservation status for the proposal area must therefore be noted subject to further determination through the normal Environmental Impact Studies normally conducted just before project implementation.

14.6.7 Implementation Business Plan

The implementation business plan is a key deliverable as it will set out a realistic plan for the implementation of project. It should include inter alia:

- Essential further studies and projects required.
- Highlight project design concept,
- Project implementation (construction) highlighting phases,
- Project cost estimates.

14.7 PROPOSED PROJECT RESOURCES

The proposal must also include company profiles and curriculum vitae of all key persons who will be assigned to or engaged on the project as part of the consortium / joint venture. Such persons shall not be withdrawn from the project without the prior and written consent of the Makhuduthamaga Local Municipality.

An inspection will be done of offices of the companies that enter a bid. Inspections will evaluate the adequacy of all facilities inclusive of computer hard- and software available for use during the programme. If any off-site work will be done, it should be clearly described in the submission made.

KEY PROPOSAL DELIVERABLES

The proposals should address, but not be limited to the above-mentioned deliverables in detail. There is no prescribed format for writing project proposals; however the proposals should at least include the following:

15. Introduction
16. Background
17. Status Quo Assessment
18. Environmental issues
19. Approach
20. Identification of service delivery gaps
