Dear Sir/Madam

Request for Enquiry Number	MWP2660GX
Project Title	Refurbishment of Boiler Feed Pump Turbine Low Pressure Control Valve on Unit 1 – Unit 6 at Lethabo Power Station for period of 5 years
Tender Questions Closing Date	28 August 2024

Item	Questions	Answers	Clarity Published Dates
1.	Would you be able to assist me with your Site-Specific Safety Plan as I need to work it into OHS Plan for the tender that we are submitting.	The supplier must the SHE specification as a guideline to develop his plan. But he should not entirely depend on that specification, he must include his information as well. Refer to uploaded documents under SHEQ folder – OHS Specification	20 August 2024
2.	May I please have clarity on the technical are there any human resources needed and on the NEC3 if there is only one valve to be refurbished?	There is only one valve that needs to be refurbished, and the valve needs to be refurbished at the supplier's workshop. No resources needed on site.	20 August 2024
