SECTION 7: SCOPE AND SPECIFICATION OF REQUIRED SUPPLY / SERVICES

1. Background

EThekweni Electricity (EE) sells energy to its consumers via two payment systems i.e. credit and prepaid. The prepaid system requires customers to purchase electricity credits upfront, prior to use. Prepaid electricity credits are purchased at various pay points in accordance with the customer's meter number. The customer, upon purchasing electricity, is required to present their meter number at the respective pay point. Customers may present meter cards at the pay points, which contain their meter numbers. Meter cards contain meter numbers physically (embossed or printed on the front face of the card) and digitally (encoded into the magnetic stripe on the rear side of the card). Once a purchase has been made against a valid meter number, the customer is given a voucher code which he/she shall enter the meter Customer Interface Unit (CIU) to redeem the credit.

Meter seals are also utilised on the prepaid system hardware such as the Remote Energy Dispenser (RED) and CIU to track and prevent hardware tampering.

This specification details the manufacture, supply and delivery of meter cards and meter seals for prepaid electricity energy dispensers.

2. Objective

The objective is to acquire meter cards and meter seals as specified below during a thirty-six-month period.

3. Normative references
