1.	Annexure C2.2 BOQ 7b under PST, item 140.03 importing of materials PSD 8.3.4 to 8.3.6 spec says delete these subclauses. Do we have to price these items?	1.	An updated BOQ was provided with Addendum 2 that addressed these concerns.

5.	Is a grade PE 8CE considerable for this bid, in that the PE (Potentially Emerging) essentially permits a contractor to contest and execute works that are 1 grade above.	5.	Please refer Clarification 1 item 5.
6.	May you help with an unlocked BOQ for project RW10407165/25	6.	Document is locked to protect information. Bidders have access to the relevant pricing columns of the document.
7.	I do have a copy of the BoQ that I downloaded from the eTender portal. The problem that we have is that there are certain sections (i.e. bill 2 to bill 12 and bill 15 to bill 16) of the BoQ that are locked and will need to be added manually. This process of manually adding the items will take time as the formula bar does not work on locked excel sheets. I am kindly requesting that the author of the BoQ must upload an unlocked excel BoQ.	7.	Document is locked to protect information. Bidders have access to the relevant pricing columns of the document.
8.	On the summary page of the BOQ, the formula for Bill 6 (Cell F11), is incorrect, as it refers to Bill 5 summary.	8.	Cell F11 is not locked. Bidders to change the formula to represent the correct amount.
