COMMISSION SECTION 1: BACKGROUND, OVERVIEW AND RFP SCOPE OF REQUIREMENTS.

1. INTRODUCTION

The National Lotteries Commission (NLC) serves as the exclusive National Regulator for lotteries and sports pools in South Africa. It oversees various lottery categories, including the National Lottery Operator, Society Lotteries, Private Lotteries, and Lotteries incidental to exempt entertainment. The NLC ensures the protection of participants' interests in lotteries and guarantees the proper conduct of all lotteries. It also polices other lottery-type schemes. Additionally, the NLC monitors and regulates lottery competitions, organized by both non-profit organizations to raise funds and companies to promote their goods and services.

Furthermore, the NLC functions as a Grant Funder, providing funding to registered Non-Profit Organizations, Non-Profit Companies and Public Benefit Organisations for projects aimed at improving the lives of everyday South Africans. Grant funding primarily focuses on areas requiring substantial support to bring about growth and change within indigent and disadvantaged communities. The impact of the NLC Grant Funding model is designed to play a significant role in changing people's lives. The NLC, as a Commission, adheres to a strict mandate governing its operations and guiding the model of its Grant Funding.

It is essential to note that the NLC does not adjudicate applications for funding or make allocations to organizations. Instead, this responsibility falls to committees known as Distributing Agencies. These agencies are appointed by the Minister of Trade and Industry and Competition, in conjunction with other relevant Ministers, following a process of public nomination. **The NLC provides administrative support to the Distributing Agencies.**

2. BACKGROUND AND PURPOSE

The NLC is implementing a progressive modernization strategy to transform into a more automated, e-services-focused, self-regulated, and risk-oriented organization. This initiative aims to facilitate better regulation, promote social upliftment, and enhance accessibility to Grant Funding through innovative and inclusive multi-channel services, with telephony being an integral component of this strategy.

Currently, the NLC relies on an on-premise Enterprise ERP platform and an on-premise Telephony Solution platform, both having almost reached end-of-life, no upgrades are under consideration. The NLC also makes use of a hosted contact center telephony platform that is integrated to the on-premise telephony system.

The organization is in the process of procuring a single-source Enterprise Business Applications Solution (Enterprise Solution) to handle all channel inquiries, stakeholder queries, grant applications, internal business, and technology queries through a centralized entry point.

This approach aims for more effective and efficient customer and product service, management, and feedback as well as reduced cost of ownership aligned with the Commission's mandate as per legislation.

The scope of the Enterprise Solution, currently being procured, encompasses core workflow applications, such as Customer Relationship Management, Case and Query Ticketing and Management, Core Business Application Workflows, Backend Processing, API Collaboration with identified partners, and fundamental Content and Records Management.

The envisaged integrated Telephony Solution will play a crucial role as a fundamental customer interface and service channel at NLC. In particular:

- **Ensuring exceptional customer service is a top priority for the National Lotteries Commission (NLC)** and to achieve this goal, NLC requires a cloud-based contact centre solution and a comprehensive telephony system for its Head Office and all current and future branches. This document outlines user requirements for this solution, emphasizing functionality across devices and locations, integration with Microsoft Teams (MS-Teams), and appropriate call routing and a work from anywhere (employee mobility) environment.
- **The NLC requires that all product and service channels are appropriately PoPI, PAIA, and ISO compliant**, supporting the implementation of standards and legislative requirements as per **4.24 Compliance to ISO, Industry Best Practice and Technology Standards:**
- **The solution must include full integration with the Enterprise Core Technology Solutions currently being procured separately.**

It is a further requirement that the proposed solution contain integration capabilities to:

- **Support the harmonization of all internal enterprise functions onto the designated business solutions technology platform as outlined in the Scope of Services and Work below;**
- **Offer a configurable service setup for swift deployment, user-friendly operation, security, and user customization; and**
- **Ensure user-driven service level skills and capacity to optimize and minimize third-party maintenance costs.**

3. OBJECTIVE

TERMS OF REFERENCE - INVITATION TO SERVICE PROVIDERS TO SUBMIT PROPOSALS FOR THE PROVISIONING OF AN INTEGRATED CLOUD BASED CONTACT CENTRE SOLUTION AND AN END-TO-END CLOUD TELEPHONY SOLUTION FOR THE NLC FOR A PERIOD OF FIVE YEARS. THE SOLUTION WILL ACCOMMODATE CURRENT AND FUTURE BRANCHES TO ENABLE THE COMMISSION TO PROVIDE A LEVEL OF SERVICE WHICH IS OF A HIGH QUALITY, TARGET BASED AND MEET THE EXPECTATIONS OF ALL ITS STAKEHOLDERS.

4. SCOPE OF WORK, SERVICES AND DELIVERABLES

Phase 1: Cloud-Based Contact Centre and Telephony Solution Implementation

4.1 Contact Centre Setup.

- a. The current Contact Centre and Telephony Solution is ZYCOO VoIP PBX.
- b. Establish an independent cloud-based contact centre to support both on-site and remote operations for up to 50 Call Centre Agents. **Note:** there is currently no shift-based work arrangement in place for these agents.
- c. Inbound call handling includes porting the current numbers including the **Share Call Number**.
- d. Provide additional softphone licenses for 400 users.
- e. The current Telephone Number in use is a **Share Call Number: 08600 65383**.
- f. **Telephone number ranges will be retained by the incumbent PSTN service provider.**
- g. NLC uses Altron's SD-WAN Broadband solution with full high-availability (HA) failover capability. The broadband trunk has a capacity of 10 Gbps.
- h. **Call Centre Inbound Call volumes are expected to be circa 2500 to 3000 calls per month.**
- i. **No handsets will be required**, softphone licences are required.

4.2 Automatic Call Distribution (ACD).

- a. Implement automatic routing of calls to specific agents or skill sets.

4.3 Interactive Voice Recording (IVR).

- a. Provide easy-to-manage IVR options, self-help for customers, and an emergency skill set feature.
- b. Text-to-speech is not required; all voice announcements must be professionally recorded. The Bidder is responsible for configuring these announcements as part of the system implementation.

4.4 Reporting.

- a. Implement a robust recording system with different reporting options, including real-time and historical data. This should include at least; service levels, calls offered, answered, abandoned, calls waiting, average talk time, list, and agent status etc.

4.5 Call Queue Management System.

- a. Manage users, queues, and skill sets with remote monitoring of calls and accessible from mobile devices.
- b. Wallboards with Dashboards to display real time reports according to requirements.
- c. Provision of an Email or SMS based OTP authentication mechanism.

4.6 Call Recordings

- a. Implement comprehensive call recording, retrieval based on search criteria, export and email options, and integration with NLC's Enterprise Solution data store and in compliance with NLC's Data Retention Policy. The minimum retention for voice recording must be 60 days.

4.7 Call Quality Management

- a. Conduct agent interaction monitoring, silent, barge, whisper functionality, and call quality scoring/customer feedback.

4.8 Omnichannel Integration

- a. Integrate voice, Webchat, SMS, and social media for seamless routing, reporting, and recording.
- b. Integration with MS Outlook, MS-Teams WhatsApp for business.

4.9 Reliability and Security

- a. Utilise South African-based data centers, ensure cloud-based solution security.
- b. Robust User Authentication including Privileged User Access Management for administration functions.
- c. The system should support quick and easy backup and restore functionality e.g., immutable datasnapshotting and audit logging.
- d. Ongoing practical compliance to applicable information security and technology standards and processes as per 4.24 Compliance to ISO, Industry Best Practice and Technology Standards: below.

4.10 Uptime Guarantee

- a. Provide a minimum 99% uptime guarantee.

4.11 User Licenses

- a. Issue 50 Contact Centre licenses and 400 licenses for other employees, scalable on a pay-per-usage basis.

4.12 Installation and Configuration

- a. Implement a site-agnostic, available, cost-effective solution accessible via various end-user devices to ensure employee mobility, hosted by the Bidder.

4.13 Support

- a. Provide unlimited optimal support and maintenance for a five-year period, including amendments, corrections, fixes, and addition of new functionality.
- b. Perform required firmware updates, software updates, security fixes as when so required.
- c. Provide monthly support hours as follows:
 - Working hours (8am to 5pm, Monday to Friday): 44.

- After hours (Monday to Friday): 44.
 - After hours (any hours outside working hours on Saturday, Sunday and Public holiday):30.
- d. Demonstrate the capability to handle both existing and anticipated potential volume growth of customers and users. Current volumes are approximately 20,000 Grant Applications and 3,500 Grant Awards per annum, resulting in about 20,000 customer profiles. NLC expects a threefold increase in the next 2 to 3 years.

4.14 Training

- a. Conduct technical and user training for NLC staff members, including contact center management in line with the expected licensing requirements.
- b. The successful Bidder will be expected to provide face-to-face training on utilization of the system for internal staff to a maximum of 400 staff members at the NLC offices or via MS Teams.
- c. Provide a training manuals and video material for internal users, explaining how to use the solution and its various functions.
- d. It is expected that the training manuals and videos will be updated as and when requested by NLC during the contract period.
- e. The primary focus is for the appointed Bidder to transfer skills to NLC's Administrative/Managerial, technical resources and interns, ensuring proficiency in ongoing systems amendments, administration, and support.

4.15 Integration

- a. The system should provide API capability that allow it to connect to other systems already existing in the NLC environment.
- b. Ensure seamless integration and migration to and from the new NLC Core Business Solution and other enterprise solutions where required, including but not limited to Microsoft 365, Oracle Fusion Version 11.1.9 (9.2 On-Prem), Oracle 11g, Oracle SQL, and VMWare Ver. 6.7.0 for non-Oracle Stack. Other server environments include Windows 2016 Standard up to 2023, with legacy servers operating on Windows 2012, and Windows 2016, among others.

4.16 ICT Infrastructure

- a. Assess current and future bandwidth requirements for the proposed solution and integrate APIs.
- b. Provide detailed technical documentation and diagrams to facilitate and support NLC infrastructure requirements, including bandwidth considerations.
- c. Details of the target NLC Bandwidth infrastructure will be communicated at the Bidder Briefing.

4.17 Project Management

- a. Include costs for an appropriate project management service, reporting to the NLC PMO office.

4.18 Documents and Handover

- a. Deliver all solution specification documents and training material to NLC, ensuring a comprehensive handover to business and technical resources.

Phase 2: Post Implementation Value Added Services and Solution Integration

4.20 After Call Surveys

- a. Enable easy setup, reporting, and revision of after-call surveys.

4.21 Speech Analytics (exclusive specialised Contact Centre requirements)

- a. Implement a speech analytics tool for organizing and analysing interactions.

4.22 External CRM Integration (exclusive specialised Contact Centre requirements)

- a. The telephony solution is not required to include a built-in CRM module, but must support future integration with external CRM and ERP systems via standard APIs. No additional licenses are required for non-contact center agents, as NLC only requires system-level integration into its external CRM and ERP systems.

4.23 Compliance to ISO, Industry Best Practice and Technology Standards:

The proposed solution should accommodate the following Legislative and Standards Requirements:

- a. **The Electronic Communications and Transaction (ECT) Act of 2002:** Provides for the facilitation and regulation of electronic communications and transactions; to provide the development of a national e-strategy for the Republic; to promote universal access to electronic communications and transactions and the use of electronic transactions by SMMEs; to provide for human resource development in electronic transactions; to prevent abuse of information systems; to encourage the use of e-government services; and to provide for matters connected therewith.
- b. **The Protection of Personal Information (POPI) Act of 2014:** The purpose of the POPI Act is to ensure that all South African institutions conduct themselves in a responsible manner when collecting, processing, storing, and sharing another entity's personal information by holding them accountable should they abuse or compromise personal information in any way.
- c. **COBIT (Control Objectives for Information and related Technology):** Is regarded as the world's leading ICT governance and control framework. COBIT provides a reference model of 34 possible IT processes typically found in an organization. Each process is defined together with process inputs and outputs, key process activities, process objectives, performance measures and

an elementary maturity model. Originally created by ISACA, COBIT® is now the responsibility of the ITGI (IT Governance Institute).

- d. **ITIL (IT Infrastructure Library):** is a high-level framework that provides information on how to achieve successful operational service management of ICT. ITIL was developed and is maintained by the United Kingdom's Office of Government Commerce in partnership with the IT Service Management Forum. While not specifically focused on ICT governance itself, the process-related information is an essential reference source for monitoring and the continuous improvement of the ICT service management function.
- e. **Certified** : **ISO 9001 - Standards for a Quality Management System.**
- f. Compliant to : ISO 22301 - Business Continuity Management.
- g. Compliant to : ISO 27001 - Certification and High-Quality Data Encryption.
- h. Recommended ISO 27032 - Guidelines for Cybersecurity.
- i. Compliant to : ISO 27701 - Privacy Information Management.
- j. Compliant to : ISO 31000 - Risk Management Standard.
- k. That the Bidder/OEM/Supplier is ISO 27001 compliant and accredited for both software development and operations related to the Services.
- l. That all repositories utilized are at least DoD 5015.2 compliant.
- m. All relevant legislation applicable to NLC such as the PFMA, Lotteries Act & Regulations Act 57 of 1997

5. KEY DELIVERABLES

It is expected that the NLC Digitisation/Modernisation Programme Telephony Solution will be implemented in 2 Major Phases:

Phase 1 involves the implementation of a Cloud-Based Contact Centre Solution and an End-to-End Cloud-Based Telephony Solution for the NLC Head Office and its current and future branches, spanning a 5-year period.

Within Phase 1:

- NLC requires the successful bidder to deliver and deploy the Core Contact Centre and Telephony Solution, specified in section 4, within 3 months of signing the SLA.
- Integration with both existing and new NLC Enterprise Solutions should be completed within 8 weeks of SLA signing.
- The successful Bidder must initiate a practical skills transfer plan for NLC-identified target resources within the first 16 weeks.

- The system must support all 9 Provincial Offices and a hybrid working environment.

Phase 2 can begin concurrently with Phase 1 if feasible but should be completed within 3 months after Phase 1's conclusion and includes After call survey, Speech Analytics and External CRM Integration.

- Appropriate support must continue until 12 months from the signature date, as outlined in Section 4.13. Phase 2 will specifically address requirements 4.20 to 4.23, detailed in section 4."

6. DURATION OF THE PROJECT

The expected duration of the contract is years (5) years, which may be effective on the date of appointment, the date of signing of a service level agreement (SLA) or as directed and at the discretion of the NLC.

SECTION 2: NOTICE TO BIDDERS

1. Terms and conditions of Request for Proposals

- 1.1 This document may contain confidential information that is the property of the NLC.
- 1.2 No part of the contents may be used, copied, disclosed, or conveyed in whole or in part to any party in any manner whatsoever other than for preparing a proposal in response to this RFP without prior written permission from the NLC.
- 1.3 All copyright and intellectual property herein vests with the NLC.
- 1.4 Late and incomplete submissions will not be accepted.
- 1.5 No services must be rendered, or goods delivered before an official NLC Purchase Order form has been received.
- 1.6 This RFP will be evaluated in terms of the 80/20 preference point system
- 1.7 Suppliers are required to register on the Central Supplier Database at www.csd.gov.za.
- 1.8 Suppliers must provide their CSD registration number (and attach a CSD Registration report) and ensure that their tax matters are compliant.

6. Confidentiality

- 6.1 Bids submitted for this Request for Proposals will not be revealed to any other bidders and will be treated as contractually binding;
- 6.2 The Commission reserves all the rights afforded to it by the POPIA in the processing of any of its information as contained in Bid Proposals.
- 6.3 The Bidder acknowledges that it will obtain and have access to personal information of The NLC and agrees that it shall only process the information disclosed by the NLC in terms of this bid award and only for the purposes as detailed in this RFP and in accordance with any applicable law.
- 6.4 The Bidder shall notify the NLC in writing of any unauthorized access to personal information and the information of a third party, through cybercrimes or suspected cybercrimes, in its knowledge and report such crimes or suspected crimes to the relevant authorities in accordance with applicable laws, after becoming aware of such.

7. Communication

- 7.1 Specific queries relating to this RFP should be submitted lucky@nlcsa.org.za, before the closing date.
- 7.2 In the interest of fairness and transparency the NL C's response to such a query may be made available to other bidders.
- 7.3 It is prohibited for bidders to attempt, either directly or indirectly, to canvass any officer or employee of the NLC in respect of this RFP between the closing date and the date of the award of the business.
- 7.4 Bidders found to be in collusion with one another will be automatically disqualified and restricted from doing business with organs of state for a specified period.

8. Supplier Performance

- 8.1 The National Lotteries Commission conducts regular performance reviews in accordance with the requirements for the classification of the contract and or stakeholder by making use of supplier evaluation forms. The evaluation is conducted against the deliverables or scope of the contract with a minimum of an annual review done for contracts longer than a year

and a review at completion of contract for those contracts less than a year.

8.2 Ad-hoc performance reviews shall be conducted where non-performance is identified outside the review period.

8.3 Non-performance will be addressed with at least a formal letter advising specific non-performing areas and stating remedial action/s required within specific time frames. Non-adherence to remedial actions shall lead to escalating performance management actions.

8.4 Any party to this agreement may request to participate in a joint performance review where appropriate and seek continuous improvement opportunities.

Tender Evaluation Criterion: Project Plan Framework

Bidders must submit a comprehensive **Project Plan Framework** demonstrating their capability to effectively manage the delivery of the proposed **Cloud-Based Telephony Solution**. The framework must be current, relevant, and based on recognised project management methodologies applied to similar implementations within the past **five (5) years**.

Project plans that are generic, outdated, or not demonstrably aligned to **Cloud-Based Telephony or comparable enterprise communication platform implementations delivered within the last ten (10) years** may be scored down or deemed **non-responsive**.

The Project Plan Framework must, at a minimum, address the following elements and provide sufficient detail and supporting evidence:

- **Project Definition** – including project objectives, scope, assumptions, dependencies, governance structures, and clearly defined roles and responsibilities.
- **Project Planning** – detailing the implementation schedule, key milestones, resource allocation, quality assurance approach, and change management processes.
- **Project Monitoring and Control** – describing performance tracking, progress reporting, issue and risk escalation procedures, and corrective action mechanisms.
- **Risk Management Approach** – outlining the identification, assessment, and mitigation of key project and operational risks, including risk ownership and management processes.
- **Project Sign-off and Handover** – including acceptance criteria, deliverables for handover, knowledge transfer activities, and transition to operational support.
- **Delivery, Deployment, Implementation and Support Plan** – describing the rollout approach, migration or cut-over strategy, post-implementation stabilisation, and ongoing service support arrangements.

Only submissions that provide a **clear, structured, and implementable Project Plan Framework aligned to the proposed solution**

Scoring Guide (1–5 Points)

Evaluators shall assess the bidder's **Project Plan Framework** against the required elements using the following scoring scale:

5 Points – Excellent

- Fully comprehensive, well-structured, and addresses all required elements.
- Demonstrates **current (≤ 5 years)** Cloud-Based Telephony implementation experience using recognised best-practice methodologies.
- Very low delivery risk.

4 Points – Very Good

- Addresses all required elements with minor gaps.
- Clearly relevant to **current (≤ 5 years)** Cloud-Based Telephony implementations.
- Low delivery risk.

3 Points – Adequate

- Addresses most elements but lacks depth or clarity.
- Relevance is evident but not consistently substantiated.
- Moderate delivery risk.

2 Points – Weak

- Limited coverage of required elements and weak relevance.
- Approach is poorly articulated or outdated.
- High delivery risk.

1 Point – Poor

- Incomplete or non-responsive submission.
- No credible project delivery approach.
- Unacceptable delivery risk.

0 Points – Non-Existent

- No Project Plan Framework provided.

NB: BEFORE COMPLETING THIS FORM, TENDERERS MUST STUDY THE GENERAL CONDITIONS, DEFINITIONS AND DIRECTIVES APPLICABLE IN RESPECT OF THE TENDER AND PREFERENTIAL PROCUREMENT REGULATIONS, 2022

1. GENERAL CONDITIONS

1.1 The following preference point systems are applicable to invitations to tender:

- the 80/20 system for requirements with a Rand value of up to R50 000 000 (all applicable taxes included); and
- the 90/10 system for requirements with a Rand value above R50 000 000 (all applicable taxes included).

1.2 To be completed by the organ of state

(delete whichever is not applicable for this tender).

- a) The applicable preference point system for this tender is the **90/10** preference point system.
- b) The applicable preference point system for this tender is the **80/20** preference point system.
- c) Either the **90/10 or 80/20 preference point system** will be applicable in this tender. The lowest/ highest acceptable tender will be used to determine the accurate system once tenders are received.

1.3 Points for this tender (even in the case of a tender for income-generating contracts) shall be awarded for:

- (a) Price; and
- (b) Specific Goals.

1.4 To be completed by the organ of state:

The maximum points for this tender are allocated as follows:

	POINTS
PRICE	80
SPECIFIC GOALS	20
Total points for Price and SPECIFIC GOALS	100

- 1.5 Failure on the part of a tenderer to submit proof or documentation required in terms of this tender to claim points for specific goals with the tender, will be interpreted to mean that preference points for specific goals are not claimed.
- 1.6 The organ of state reserves the right to require of a tenderer, either before a tender is adjudicated or at any time subsequently, to substantiate any claim in regard to preferences, in any manner required by the organ of state.

2. DEFINITIONS

- (a) “**tender**” means a written offer in the form determined by an organ of state in response to an invitation to provide goods or services through price quotations, competitive tendering process or any other method envisaged in legislation;
- (b) “**price**” means an amount of money tendered for goods or services, and includes all applicable taxes less all unconditional discounts;
- (c) “**rand value**” means the total estimated value of a contract in Rand, calculated at the time of bid invitation, and includes all applicable taxes;
- (d) “**tender for income-generating contracts**” means a written offer in the form determined by an organ of state in response to an invitation for the origination of income-generating contracts through any method envisaged in legislation that will result in a legal agreement between the organ of state and a third party that produces revenue for the organ of state, and includes, but is not limited to, leasing and disposal of assets and concession contracts, excluding direct sales and disposal of assets through public auctions; and
- (e) “**the Act**” means the Preferential Procurement Policy Framework Act, 2000 (Act No. 5 of 2000).

3. FORMULAE FOR PROCUREMENT OF GOODS AND SERVICES

3.1. POINTS AWARDED FOR PRICE

3.1.1 THE 80/20 OR 90/10 PREFERENCE POINT SYSTEMS

A maximum of 80 or 90 points is allocated for price on the following basis:

$$P_s = 80 \left(1 - \frac{P_t - P_{min}}{P_{min}} \right) \quad \text{or} \quad P_s = 90 \left(1 - \frac{P_t - P_{min}}{P_{min}} \right)$$

Where

- P_s = Points scored for price of tender under consideration
 P_t = Price of tender under consideration
 P_{min} = Price of lowest acceptable tender

Table 1: Specific goals for the tender and points claimed are indicated per the table below.

(Note to organs of state: Where the 80/20 preference point system is applicable, corresponding points must also be indicated as such. Note to tenderers: The tenderer must indicate how they claim points for each preference point system.) Please complete this table for claiming of points.
