	competencies that they want us to produce qualifications/ certificates for. So, I'm not quite sure if we should just produce our own list of competencies from our company organogram	7 OHS Competency (Consider scope of work, risks, OHS plan and applicability) CV, s and qualifications / certificates (List competencies required) The contractor will have to use the following to determine list of competencies provided: 1. Scope of work: for an example f the scope of work includes plumbing, electrical work, construction work, work at heights or excavation work. Competency certificates related to that scope must be provided. 2. Where certain controls on your company baseline risk assessment require competent persons to implement controls, provide those competencies. 3. OHS competencies that you refer to on your safety plan must be included, for an example: • CR 8(1) Construction Manager (Registered with SACPCMP) • Sec. 17 Health and Safety Representative (Appointment if not yet trained) • GSR 3(4) First aid Training • CR 29 (h&i) Fire fighters
