Confirmation of Maxar Sole Supplier Status and Unique Online Imagery Service Offering

This letter serves to confirm that Maxar is the owner and operator of Ikonos, Quickbird, Geoeye-1, WorldView 1,2,3 and 4 earth observation satellite. As such, we are the sole supplier of imagery from these sensors and including the following products derived from these satellite systems

- System-Ready (Basic) 1B
- System-Ready Stereo (Basic)
- View-Ready (Standard) 2A
- View-Ready OR2A
- Map-Ready (Orthorectified)
- Vivid
- Metro
- Dynamic
- Vricon Elevation suite
- Securewatch
- Precision 3d

Moreover, Maxar is the only satellite imagery service provider that delivers 30/40/50cm resolution imagery online (through its Securewatch Product) for the entire globe (including imagery from 2001 through to present and 2 million square kilometres of new imagery daily). Additionally, Maxar Worldview 2 and 3 satellites include unmatched spectral resolution. Worldview 2 and 3 satellite imagery includes 8 multispectral bands in the Visible, Near Infra-Red (VNIR) portion of the electromagnetic spectrum and WorldView 3 offers 8 additional bands in the Short Wave Infra-Red (SWIR) portion of the electromagnetic spectrum. All bands are available through the Securewatch platform

Should there be any further clarification required I may be contacted at the email address below or by phone at +27 82 4548158.

Regards
