SECTION 3: BACKGROUND, OVERVIEW AND SCOPE OF REQUIREMENTS

1 BACKGROUND

The objective of this Request for Proposals ("RFP") is to invite interested parties to submit proposals to Transnet Property ("TP"), an Operating Division of Transnet SOC Ltd for the valuation of Transnet SOC Ltd Owned Properties for a period of six (6) years on an as and when required basis in the following specialized categories:

- General Valuation Services
- Plant, Equipment and Machinery
- Mining and Mineral Rights
- Municipal Rates and Taxes

Through this procurement process, Transnet Property intends to appoint qualified, registered and experienced service providers for property valuations in various property categories. The service providers for valuation services will be allocated work on each asset cluster for the category of the property that they would have shown interest in, as and when Transnet requires to utilize the services.

Multiple Service Providers:

Transnet reserves the right to appoint one or more service providers for each property category.

Allocation of Work:

Work will be allocated in asset clusters under each property category,

- first to the highest ranked bidder in each property category.
- Subsequent allocation of work will then be rotated in accordance with Transnet Policy for Investment Property where applicable,
- followed by capacity to execute the work, proven to the sole and discretionary satisfaction, of Transnet. When such capacity is exhausted,
- work will be allocated to the next ranked bidder in the property category, according to the same principle of proven capacity.

As per the Transnet Policy for Investment Property, bidders are to note that for Invest Property valuations, full valuations by an external, independent valuer, having appropriate recognised professional qualifications and recent experience in the location and category of the property being valued are obtained on an allocation basis, ensuring that at least one third (1/3) of the investment property portfolio is valued by an external independent valuer each year, and all properties in the portfolio are valued by an external independent valuer at least once in a three year cycle.

Bidders are to take note that the price offers submitted in their bids submissions, will not be changed after award of business, therefore Transnet will utilize the price offers as prescribed in the bidders'

submissions to allocate work for the asset cluster for each category of the property that bidders would have shown interest in for the duration on the contract. Bidders are to adopt the prescribed rates as per the SACPVP fee guidelines and offer Transnet a percentage discount of their choice. The percentage discount should be based on the projected total value of the allocated asset cluster for each category.

Bidders are to comply fully with the rates prescribed by the South African Council for the Property Valuers Profession (SACPVP). **See Annexure C** for the SACPVP fee guidelines. Bidder's failure to comply fully will lead to bid disqualification.

The valuation services are required for specific projects as well as ad-hoc work, and the outputs should be comprehensive and full valuations. The principles that are contained in the International Valuation Standards Council (IVSC) and the South African Council for the Property Valuers Profession (SACPVP) shall apply to Valuations. The International Valuation Standards Council (IVSC) Standards includes modifications, additional requirements or specific examples of how the General Standards will apply for Valuations.

All the properties are either held in favour of or vested in Transnet SOC Ltd, or properties to be valued for acquisition purposes that support Transnet's objectives.

This document serves as a valuation brief to the appointed service providers who will establish the Market Value and Rental Value of Land and Buildings and Optimized Replacement Cost Value on the Identified Properties taking into account all the necessary factors.

2 EXECUTIVE OVERVIEW

Whereas Transnet is seeking to appoint service providers to provide solutions for its Operating Divisions' projects and business activities nationally, it also seeks to improve its current processes for providing these services to its end user community throughout its locations.

The selected service provider(s) must share in the mission and business objectives of Transnet. These mutual goals will be achieved by meeting contractual requirements and new challenges in an environment of teamwork, joint participation, flexibility, innovation and open communications. In this spirit of partnership, Transnet and its service provider(s) will study the current ways they do business to enhance current practices and support processes and systems. Such a partnership will allow Transnet to reach higher levels of quality service and profitability.

Specifically, Transnet seeks to benefit from this partnership in the following ways:

- 2.1 Transnet must receive reduced cost of acquisition and improved service benefits resulting from the service provider's economies of scale and streamlined service processes.

- 2.2 Transnet must achieve appropriate availability that meets user needs while reducing costs for both Transnet and the chosen service provider(s).
- 2.3 Transnet must receive proactive improvements from the service provider(s) with respect to supply/provision of Goods/Services and related processes.
- 2.4 Transnet's overall competitive advantage must be strengthened by the chosen service provider's leading-edge technology and service delivery systems.
- 2.5 Transnet end users must be able to rely on the chosen service provider's personnel for service enquiries, recommendations and substitutions.
- 2.6 Transnet must reduce costs by streamlining its acquisition of services, including managed service processes on a Group basis.
