1. Purpose

The Department of Social Development intends to appoint panel of service providers to undertake forensic investigations on behalf of the Department into allegations of fraud, corruption and any other irregularities identified as and when required.

2. Background

The Department of Social Development has found itself significantly under capacitated and unable to undertake these investigations internally. Cases were referred to OOP Provincial Forensic Audit Services to investigate on behalf of the department. It has become apparent recently that capacity has not been available to investigate these matters at Provincial Forensic Audit Services.

During 2013, engagement was made with Provincial Forensic Audit Services (PFA) for assistance with all forensic services. We had partnered with PFA and have been assisted by them with cases being investigated. We have however to date reached saturation point with the PFA who not only services DSD but the entire GPG as well. Hence the need now to seek assistance from external service providers in the form of a forensic investigation panel to investigate newly reported cases, which are of a more sensitive and complex nature.

A forensic investigation panel will allow the Department to have a selection of pre-qualified service providers to choose from when investigations need to be conducted as and when required but more effectively and efficiently.

3. Objectives

- To identify skilled experts with adequate tools and resources to undertake the Forensic Investigation on behalf of the department maintaining quality and confidentiality standards and strict deadlines in line with all applicable legislative frameworks and Public Service relevance.

- To obtain investigative reports for the cases which could assist the department in identifying any irregularities which occurred and/or contraventions to the legislative framework, being able to determine if any officials are required to be disciplined or assist in the prosecuting officials and/or members of the public who have been found to have committed or contributed to such irregularities which have caused detriment/loss to the state.

4. Scope of Work

- Conduct forensic investigations into allegations identified.
- Compilation of detailed investigation reports detailing findings and recommendations as well as referenced evidence for all findings.
- The investigation reports should also include practical remedial measures to assist the Department correcting any irregularities identified as detailed below.
 - Any contravention of procedures and internal control systems.
 - Practical corrective action to prevent the contravention from reoccurring.
 - Has the Department suffered any financial loss? If so, the loss should be quantified, and the responsible person should be identified.
 - Whether civil/criminal action and/or disciplinary processes is necessary.

5. Deliverables and timeframes

- Weekly written progress updates on the case being investigated as per approved investigation plan.
- Weekly progress on hours spent on investigation and budget comparison with clear identification of costs incurred/owed to date by the department.
- Compilation of detailed investigation report detailing findings and recommendations as well as supported by referenced evidence for all findings and carrying out further corrective action by the department.

6. Budget

The Directorate: Risk Management and Compliance does not have a designated budget for the outsourcing of forensic investigations to external service providers. Funding for these forensic investigations will thus be made available through the consideration by the Accounting Officer and CFO depending on the nature, complexity and prioritization of such cases.

The investigation team composition should be provided by the service providers which specifies the number of investigators on the team, including seniority and their areas of expertise and their respective responsibilities. The cost breakdown should provide for each member of the team detailing costing indicating hours and the rates to be charged. Rates should not exceed regulated consultancy rates by National and/or Provincial Treasury. Prices quoted must be **inclusive of VAT**.

7. Monitoring and Evaluation

The agreement will be concluded between the successful service providers and the Gauteng Department of Social Development. The Purchase Order and the proposal of the successful bidders will constitute a binding contract.

The parties namely, the Gauteng Department of Social Development and the successful bidders, may enter into a Service Level Agreement. The service level agreement will spell out the operational requirements.

Progress of the investigation process will be monitored and evaluated by the Office of the Chief Risk Officer at specifically agreed upon intervals.

8. Duration of Purchase Order/Contract

The service providers will be expected to commence work within 2 working days after receipt of the Purchase Order. The total duration of the work under the contract will be determined on the nature and complexity of the investigation. The whole contract will be on a time and material basis.

9. Proposals

The proposal of prospective service providers for the panel must include:

- a) Proposed methodology and approach that will be followed in the completion of this task, which include a detailed project plan reflecting project phases, timeframes, and outputs.
- b) Demonstrate experience of the prospective Forensic Investigation Panel's engagement in similar work.
- c) Demonstrable analytical and project management skills.

10. General Conditions

- a) The general conditions as prescribed by National Treasury will be applicable in all instances.
- b) All information, documents, programmes, and reports must be regarded as confidential and may not be made available to any unauthorized persons or institution without the written consent of the Accounting Officer or his/her delegate.
- c) The Department of Social Development will ensure that the service providers are provided with all relevant and available data and information, which is necessary to perform the services.
- d) The Department of Social Development will become the owner of all information, documents, programmes, advice, and reports collected and compiled by the service providers in the execution of this project.
- e) The copy right of all documents and reports compiled by the service providers will vest in the Department of Social Development and may not be reproduced

or distributed or made available in any other way without the written consent of the Department.

- f) Consolidation of reports, administration and the work performed by the project manager.
- g) The Service Provider and its partners should provide a weekly declaration on conflict of interest. Should it be determined that a team member is in any way conflicted the work done by them should be redone and quality assured at the cost of the Service Provider.

11. Payment

- a) Payment will be effected within thirty (30) days after receipt of a detailed invoice from the successful service providers. The invoice will be made to and paid by the department based on the work performed.
- b) Payments will be made in accordance with the contract concluded with the successful service providers and will be based on the milestones for the project agreed to and signed off as part of the project implementation plan.
- c) Disbursements will only be reimbursed if it was incurred for the purpose of accomplishing the tasks as outlined in terms of reference.

Stage 1B	PAPER BASED EVALUATION

During this stage of evaluation bids that do not meet the minimum qualifying criteria for functionality will be disqualified from further evaluation
