

QUESTIONS AND ANSWERS FOR RFB 3106/2025: SUPPLY, DELIVER, INSTALL, CONFIGURE NETWORK SWITCHES, ROUTERS, FIREWALLS, AND WIRELESS ACCESS POINTS, AND CABLING FOR LIMPOPO DEPARTMENT OF EDUCATION.

No	Question	Responses
1.	Should the SFP's be Single mode or Multimode?	Multimode
2.	The tender document "RFB 3106-2025 Bid Specification" on page 3, under section 2.1 Scope of Work, section (a) (ii) - the H3C S5170s requested, are these PoE or non PoE? The required switches are PoE, please cut the section that mentions H3C and paste it because I cannot see it	POE
3.	Section (d) mentions 20 x Access Points, but the pricing schedule has no section to fill in pricing for Access Points. Is the 20 Access Points meant to be in the Scope of Work? The access point is in the scope of work, please refer to my above email	Wireless Access Points are included in item no 1.5
4.	Are the SFPs are single-mode or multi-mode, as the tender doesn't specify multi-mode	Multimode
5.	Please clarify 200 Fiber Connectors?	SFPs, 10 Gbps, LC Type, Multimode
6.	This is a clarity-seeking question based on the Specification document page 9, paragraph c (Bidders are required to attach SITA PRODUCT CERTIFICATES for all offered products) which certificate are you referring to here	The bidders are required to provide the product certification from the OEM before procurement of the required products. This certification can be provided before procurement or as part of the bid response.
7.	I am writing you regarding the bid requirements. Should we have to submit both ISO 7001 and ISO 9001 certificates	No.
8.	Kindly provide a breakdown of the equipment distribution quantities for each of the 13 sites.	This information will be provided during the project phase.
9.	Please confirm the SFP type, Multi-Mode Fibre or Single-Mode Fibre.	Multimode Fibre

No	Question	Responses
10.	May we use references for similar LAN projects, but that was not related to H3C solutions, for Example Huawei or Cisco?	The requirement is that the bidder must have provided H3C routers, H3C switches, Sophos firewalls, WAP and cabling.
11.	In RFB 3106/2025 - Bid document (Page 11) – Please advise if below information is relevant to this RFB? Evaluation Returnable Documents (a) <u>Copies of Curriculum Vitae of the Project team</u> (b) <u>Project Plan</u> (c) <u>Technical Proposal</u>	No.
12.	On the attached Pricing schedule, there isn't a line item for Project Management and Logistics.	Row 10 states "(c) The price must include all cost to deliver the goods or render the service, including all applicable taxes, duty fees, logistics/delivery, storage, labour, overtime and subsistence and travel"
13.	The tender document supplied x 12 sites with the physical address, but it's not specific as to how many switches and AP's are going to which site?	This information will be provided during the project phase.
14.	Re SITA RFB 3106-2025, if possible, please let me know what is the split of the equipment per site.	This information will be provided during the project phase.
15.	What type of connectors are you looking for, there are many different types of connectors depending on the equipment you are connecting to	SFPs, 10 Gbps, LC Type, Multimode
16.	On the 20 x 100m cabling for fibre (are these patch cords and I guess it is supply only and if they are patch cords, what type of patch cords (Type of Connection), (What type of Microns)	SFP, 10Gbps, LC Connectors, Multimode
17.	If we only did the HP Aruba switches will it still be valid to quote or must we have	The bidder must have supplied, installed and configured network H3C switches, H3C routers, Sophos firewalls, WAP, and cabling.

No	Question	Responses
	done the H3C switches and will it then lead to our disqualification?	
18.	The environmental assessment why must there be an environmental assessment if we may ask?	Environmental assessment is greyed out. It is not required for the bid responses.
