BACKGROUND INFORMATION

STATUS QUO

The Permanent way department has been facing a significant challenge of maintenance due to the backlog of replacement of non-standard turnout fasteners. Apart of maintenance, the department has been affected by severe acts of theft and vandalism resulting in a number of lines across the region being closed to the movement of trains.

PROBLEM STATEMENT

Turnouts forms an integral part of the Perway track structure, the main function include to provide safe passage of trains used to transport passengers/ goods.

The main purpose of sleepers is to support the track in its geometrical position and to laterally stabilise the whole length of track.

The average life span of wood sleepers is 15 to 25 years, depending on traffic conditions. Due to poor drainage, weather conditions and budget constraints we have exceeded the normal lifetime of wooden sleepers and as a result are embarking on a sleeper replacement

programme for the current financial year to ensure the track stays in a standard conditions and defects are minimized. Defects (e.g. vertical alignment, gauge) contribute to the deterioration of the rail tracks as well as the non-compliance with track standards and need to be addressed as a matter of urgency

Figure 1: Wooden sleepers and stolen railway fastening clips on a turnout crossing.

Beside the non-standard turnout sleepers, there has been increase of theft and vandalism of railway track components from 2019 and this act of theft is still ongoing. Sleepers that have been stolen and vandalised, pose a safety risk to the operation of trains. If not monitored properly they can cause derailments that may lead to loss of life, goods and property. They may also cause performance delays through the introduction of speed restrictions and limiting availability and reliability of the Perway infrastructure.

In some areas the theft has left the infrastructure paralysed completely where even the rails have been stolen.

The percentages quoted in the appendix shall indicate the proportion of the scheduled rate or price that are subject to exchange rate fluctuations and the adjustments on account of exchange rate fluctuations shall only be made in respect of those proportions of the tendered rates and/or prices. NEW PREFERENTIAL PROCUREMENT REGULATIONS

The new regulations, issued by the Minister of Finance in 2017, were revised to align with certain changes to the Broad-Based Black Economic Empowerment (B-BBEE) legislation. They encourage procurement from Small Enterprises, particularly through sub-contracting if a tender is set above the R30 million threshold.

The Regulation focuses on the need by all organs of state and public entities to specify conditions that only locally produced or locally manufactured goods meeting the stipulated minimum threshold for local production and content will be considered for certain designated sectors. They also afford organs of state the freedom to choose to apply pre-qualifying criteria to advance certain designated groups.

In compliance with the new regulation, this project will require that a minimum of 30% be subcontracted to one of the following types of enterprises:

- EME or QSE
- EME or QSE which is at least 51% Black owned
- EME or QSE which is at least 51% owned by black youth (from ages 14 to 35)
- EME or QSE which is at least 51% owned by black people who are women; and
- EME or QSE which is at least 51% owned by black people with disabilities.
- an EME or QSE which is 51% owned by black people living in rural or underdeveloped areas or townships
- a cooperative which is at least 51% owned by black people
- an EME or QSE which is at least 51% owned by black people who are military veterans; or
- more than one of the categories referred to in paragraphs.

NATIONAL INDUSTRIAL PARTICIPATION PROGRAMME

The National Industrial Participation Programme (NIPP), which is applicable to all government procurement contracts that have an imported content, became effective on the 1 September 1996. The NIP policy and guidelines were fully endorsed by Cabinet on 30 April 1997. In terms of the Cabinet decision, all state and parastatal purchases / lease contracts (for goods, works and services) entered into after this date, are subject to the NIP requirements. NIP is obligatory and therefore must be complied with. The Industrial Participation Secretariat (IPS) of the Department of Trade and Industry (DTI) is charged with the responsibility of administering the programme.

Bidders are therefore required to complete SBD 5 to give effect to the above. **Bidders who do not complete this form will be automatically disqualified.**
