PART 3

THE REQUIRED SERVICES AND SCOPE OF WORK

SECTION A: SCOPE OF WORK

1. BACKGROUND AND RATIONALE FOR THE CONTRACTING OF SERVICES

The Mandela Bay Development Agency (MBDA) is financed through a Service Level Agreement with the Municipality which translates into a single donor-dependency institutional investment & financing model. The dependence on a single donor is putting the Mandela Bay Development Agency (MBDA) at a high risk in terms of institutional sustainability. The Agency must increase its institutional and programme funding partnerships to expand its funding and grant income which will ensure that the Agency remains relevant, effective, efficient and sustainable.

All Development Agencies undergo various stages of institutional development and growth. Various stages of institutional development, growth and maturity requires different financing and investment models to ensure the Agency's continuity, growth, succession and overall sustainability.

In order for the Mandela Bay Development Agency (MBDA) to shift towards a multiple and diverse income investment and sustainability finance model which yields a high return on infrastructure, spatial, economic and psycho-social development it aims to contract the services of a panel of dedicated Service Provider(s) to assist in the following key operational function:

- 1) *The services will entail completing and submitting of skills development programmes funding applications to various Government, non-government foundations, international donors, private sector and any other agencies and entities that offer funding in line with the projects the MBDA undertakes.*

The above area of functional operational support will enable the Mandela Bay Development Agency (MBDA) to expand its footprint which will positively contribute to increased service delivery, outreach and impact and therefore ensure improved performance.

The contracting of a panel of service provider(s) will strengthen the Agency's capacity to achieve its objectives of expanding its network of funders and partners which will yield a higher return on investment, whilst at the same time ensuring that the Agency remains relevant and effective.

2. INSTITUTIONAL SUSTAINABILITY

To enhance the Agency's financial sustainability by scoping and introducing alternative skills development financing models. It is a key strategic priority for the 2024 fiscal year to build its funding base.

The current institutional financing model and mono-dependence on Local Government through a Service Level Agreement with the Municipality as its primary funding partner makes it difficult for

the Agency to deliver on its core mandate, as it is continually impacted and influenced by variables outside of its control. This hinders service delivery due to funding constraints because of funding approvals and disbursement delays. This creates institutional instability and is therefore a strategic risk area which negatively impacts on the Agency's performance year-on-year.

The solution is to diversify the Agency's income and funding sources which will mitigate the risk of delayed funding which continuously hinders and stifles the Agency's ability to deliver services as per its mandate.

The function of soliciting funds is a lengthy and cumbersome administrative process which requires the services of the panel to carry out the consultation and administrative functions as required within the funding process from start to end. Therefore, the ability to meet the funding criteria within various funding cycles and as per guidelines of the funders/donors/grant makers.

To expedite this, the Agency requires the contracted services of a Service Provider Panel who will ensure that researched, identified and approved targeted funding applications are completed for submission with the support of MBDA management and programme staff. This includes meeting the conditions and ensuring that the regulatory compliance for the application of grant, donor, CSI programme funding are met. This function is to ensure that the formal application process is completed and meets the necessary submission requirements.

3. THE FUNDING ECO-SYSTEM

Various types of funding such as Payment by Results commissioning, Consortium-based funding criteria (multiple partners), Competitive Bidding Processes for funding are all diverse models introduced by donors and grant-makers which the Agency could consider.

At National Government level, and also within the three (3) spheres of government the change is where government departments have shifted to a more structured approach of contracted-partnerships for service delivery with Agencies aligned to key National Imperatives as planned by National, Provincial and Local Government. This allows opportunities for all spheres of Government Departments to contract credible agencies to run projects of critical priority on their behalf within their different geographic areas. These programmes and projects must be aligned to the National, Provincial and Local IDP's (Integrated Development Plans) of the regional and local municipalities. Currently the Agency needs to drive unlocking and leveraging Socio-Economic Programmes grant funding to expand its "footprint" and deliver on its mandate, over and above the funding from the Local Municipality.

4. FUNDING DIVERSIFICATION

The Agency is aware that the more different funding and income sources it has, the better financially and sustainable the Agency will be. For diversification, growth and economic impact, the MBDA endeavours to make a meaningful contribution in the Skills Development space.

For the Mandela Bay Development Agency (MBDA), sustainability can be categorised into four (4) components areas in practice: i.e. –

1. Economic financial sustainability
2. Social sustainability
3. Environmental sustainability
4. Infrastructure programmes and sustainability

This RFP targets the **Social Sustainability** category, by implementing funded and accredited Skills Development Programmes that will contribute to the alleviation of a lack of scarce skills, lack of specialized and general skills, unemployability and unemployment. This will in turn curb the ongoing levels of poverty and crime, potentially.

5. POTENTIAL FUNDING OPPORTUNITIES
