4. STATUS AND BACKGROUND OF THE REPLACEMENT AND ADVERTISED CONTRACTS

- 4.1 The Unit advertised twelve (12) replacements contracts, WS.7496, WS.7497, WS.7498, WS.7499, WS.7500, WS.7501, WS.7502, WS.7503, WS.7504, WS.7505, **WS.7506** and WS.7563 on 08 July 2022 and closed on 12 August 2022, refer to **Annexure H**. **It must be noted that WS.7506 is a replacement contract for WS.6789.** All twelve (12) replacement contracts were advertised simultaneously. The total number of applications received in respect of these tenders were about **865**.

The evaluation reports for the twelve (12) contracts were initially submitted to SCM on 16 January 2024 for reviewing. Between 23 January 2024 and 29 February 2024, SCM provided feedback highlighting concerns and corrections that required attention from the Unit. From 25 January 2024 to 29 February 2024, the Unit addressed queries as and when they were received. Additionally, several concerns were conveyed to the bidders, who provided responses to SCM department e.g., updated tax clearance pin, recent Annual Financial Statements, valid BBBEE etc.

The evaluation reports for the twelve (12) contracts were tabled at the Bid Evaluation Committee (BEC) on 13 March 2024 and was deferred by the Committee, **refer to Annexure I**. The Unit drafted addendums addressing the concerns raised by the committee and submitted them to the committee.

Unsuccessful letters, dated 08/ 08/ 2024, were issued and emailed to the respective bidders, providing a 14-day appeal period, which expired on 26/ 08/ 2024. However, to date, the Unit continues to receive appeals from the Legal Department for reasons behind the elimination, along with objections from bidders regarding the responses.

These objections still need to be referred to the Appeals Authority, and it appears that the process will take additional time due to the large number of appeals received.

- 4.2 Again, the Unit advertised five (5) replacements contracts, WS.7558, WS.7559, WS.7560, WS.7561, and WS.7562 on 16 September 2022 and closed on 21 October 2022, **refer to Annexure J**. All five (05) replacement contracts were advertised simultaneously. The total number of responses received in respect of these tenders were about **549**.

The evaluation reports for the five (5) contracts were tabled at the Bid Evaluation Committee (BEC) and was deferred by the Committee, **refer to Annexure K**.

The addendums were drafted addressing the concerns raised by the committee and submitted. On 21 August 2024 these contracts were approved excluding WS. 7561 which was later approved after submitting an addendum.

Unsuccessful letters for these contracts have been issued to the bidders, each with a 14-day appeal period, and some of these appeals have already been emailed to the Unit for responses regarding the reasons for elimination.

- 4.3 Lastly, the Unit advertised six (6) replacements contracts, WS.7622, WS.7623, WS.7624, WS.7625, WS.7626, and WS.7627 on 06 April 2023 and closed on 12 May 2023, **refer to Annexure L**. All six (6) replacement contracts were advertised simultaneously. The total number of applications received in respect of these tenders were about **531**.

The evaluation reports for the six (6) contracts were tabled at the Bid Evaluation Committee (BEC) and was deferred by the Committee, **refer to Annexure M**. The Unit prepared an addendum for the concerns that were raised by the committee and was submitted.

On 02 May 2024, three (3) contracts (WS. 7622, WS. 7624 and WS. 7625) were deferred while two (2) were approved (WS. 7623 and WS. 7627), **refer to Annexure N**. An addendum for the deferred contracts was prepared and submitted to the committee.

No unsuccessful letters have been issued for these contracts, and the Unit is still awaiting their release.

5. **REASON FOR DEVIATION**

The reasons for deviation are based on the following factors:

- **The high volume of applications received:** The documents are now available for free download and printing, leading to increased interest from bidders and a rise in bid responses.
- **The number of contracts advertised simultaneously:** The evaluation of 1945 applications are time-consuming and voluminous.
- **The strain on resources due to the need to evaluate these applications comprehensively,** e.g., availability of personnel, equipment's etc.

We are also uncertain about the timeline for the finalization of the appeals.
