SECTION 3: BACKGROUND, OVERVIEW AND SCOPE OF REQUIREMENTS

1 BACKGROUND

Brief description of the goods or service required and the reason(s) for the proposed acquisition.

Transnet Group Recovery Plan requires each OD to align their strategy to the group level and Transnet Engineering plays a vital role to the outcome performance of the recovery plan. In response to the Transnet Group Recovery plan, Transnet Engineering has undertaken to achieve various key strategic initiatives in line with the Transnet turnaround plans which includes the support to increasing the Transnet Freight Rail (TFR) volumes. These key strategic initiatives include but not limited to; increase the availability of wagons and locomotives by increasing performance and repairing the long-standing locomotives in support of TFR are well documented in TE recovery plan Initiative.

TFR is one of the OD's that contributes immensely to TE's revenue, hence TE readiness to support them is off great importance; as part of their recovery plans and growth, TFR had to increase their train movements from 170mt which was extended to 193mt to a high of 220mt.

- The additional capex will be utilized to purchase, upgrade, and replace aging equipment and machinery within the Transnet Engineering's Plants and Corridors. The request also includes acquisition on new additional machinery to improve manufacturing and maintenance capabilities within Transnet Engineering and accelerate the delivery and conclusion of Transnet Engineering key e.g., Alstom Project, Wabtec, CR13 wagon line, etc that are contributing to increasing volumes.

Over the years most of these Facilities have become unreliable due aging of the Infrastructure Plant Equipment and Machinery which now urgently need CAPEX funding to replace them. The aging, unreliable state of the machinery and unavailability of tools has led to Transnet Engineering not meeting the set targets, impacting the delivery of TFR volumes, and impacting the execution and completion of TE critical strategic projects. In their current condition, Transnet Engineering facilities won't be able to fully support the TFR increased volumes.

Such a partnership will allow Transnet to reach higher levels of quality, service and profitability.

Specifically, Transnet seeks to benefit from this partnership in the following ways:

- 2.1 Transnet must receive reduced cost of acquisition and improved service benefits resulting from the Supplier/Service provider's economies of scale and streamlined service processes.

a. STEP FOUR: Evaluation and Final Weighted Scoring

a) **Price and TCO Criteria** [Weighted score 80 points]:

Evaluation Criteria	RFP Reference
• Commercial offer	<i>Section 4</i>

Transnet will utilise the following formula in its evaluation of Price:

$$PS = 80 \left(1 - \frac{Pt - Pmin}{Pmin} \right)$$

Where:

Ps = Score for the Bid under consideration
 Pt = Price of Bid under consideration
 $Pmin$ = Price of lowest acceptable Bid

- b) **Specific Goals** [Weighted score 20 point]
- Specific goals preference points claim form

Thresholds	Minimum Threshold
Technical Criteria	70

Evaluation Criteria	Final Weighted Scores
Price	80
Specific goals - Scorecard	20
TOTAL SCORE:	100

c. STEP FIVE: Post Tender Negotiations (if applicable)

- Respondents are to note that Transnet may not award a contract if the price offered is not market-related. In this regard, Transnet reserves the right to engage in PTN with the view to achieving a market-related price or to cancel the tender. Negotiations will be done in a sequential manner i.e.:
 - first negotiate with the highest ranked bidder or cancel the bid, should such negotiations fail,
 - negotiate with the 2nd and 3rd ranked bidders (if required) in a sequential manner.
- In the event of any Respondent being notified of such short-listed/preferred bidder status, his/her bid, as well as any subsequent negotiated best and final offers (BAFO), will automatically be deemed to remain valid during the negotiation period and until the ultimate award of business.
- Should Transnet conduct post tender negotiations, Respondents will be requested to provide their best and final offers to Transnet based on such negotiations. Where a market related price has been achieved through negotiation, the contract will be awarded to the successful Respondent(s).

d. STEP SIX: Objective Criteria (if applicable)

Transnet reserves the right to award the business to the highest scoring bidder/s unless objective criteria justify the award to another bidder. The objective criteria Transnet may apply in this bid process include:

- Impact on Transnet's Return On Investment;
- Rotation of Suppliers to promote opportunities for other suppliers, by overlooking a supplier that has been awarded business repeatedly overtime in order to benefit other suppliers in the market;

- is able, in the option of the employer to perform the contract free of conflicts of interest.

e. STEP SEVEN: Award of business and conclusion of contract
