## MTK 26/2025 – PROVISION OF WASTE MANAGEMENT SERVICES FOR A PERIOD OF THREE (3) YEARS

### TENDER BRIEFING – QUESTIONS & ANSWERS

---

1. **The recyclable rebates on page 1 of Annexure B (Pricing Schedule), includes garden waste and waste tyres, however, these cannot be sold. Can Mintek reconsider this?**

Both items have been removed from the rebate list.

2. **Can Mintek put a percentage on the rebates (perhaps between 0 – 25%) since the bidders are competing.**

This section will not be taken into consideration when costing is done. We only want to see how much rebates the companies are offering and if it is market related.

3. **Is the 1000 tonnes for the Ores – Mineral Waste, correct? (As stipulated in Annexure A – Mintek Waste Streams Assessment for Landfill Site)**

Yes.

4. **Please provide clarity in terms of the required equipment type, as stipulated on the Generation of Hazardous Waste SDS (ad-hoc) table (page 4 of Annexure B).**

This has been amended. The generation of SDSs is a service, and we need the price per SDS.

5. **Can Mintek consider extending the tender closing date by two weeks?**

The tender closing date has been extended to 04 May 2026 at 12pm.

6. **For the functionality evaluation, can completion certificates be acceptable as some companies are reluctant to issue testimonials?**

Unfortunately, completion certificates cannot be accepted as they do not reflect the level of performance/ service that was rendered by the bidder. We are not only

measuring the completion of the work, but also the client's satisfaction with the service rendered.
