22. OBLIGATION TO NOTIFY ERRORS

Background

DBSA

The Development Bank of Southern Africa (DBSA) is a Development Finance Institution investing in various infrastructure projects throughout Africa and through donor-funded agencies. The DBSA uses the IFRS reporting framework. The Bank is subject to the PFMA. The Bank is exempt from Income Tax and any entities that DBSA establishes and forms part of the group will be exempt from income tax. The sections of the Company's Act applicable to the DBSA are section 27 to 31.

Municipalities

In terms of Chapter 7 of the Constitution of South Africa, the local sphere of government comprises municipalities, which form the lowest formal level of democratically elected government in South Africa. There are three kinds of municipalities in South Africa, metropolitan, local and district municipalities. Each municipality has the right to govern, on its own initiative, the local government affairs of its designated community. This includes ensuring the development, implementation and maintenance of necessary infrastructure and the delivery of basic municipal services, subject to national and provincial legislation:

- Intergovernmental Relations Framework Act
- Municipal Demarcation Act
- Municipal Electoral Act
- Municipal Finance Management Act
- Municipal Property Rates Act
- Municipal Structures Act
- Municipal Systems Act
- Municipal Fiscal Powers and Functions Act

Problem statement

- The DBSA has an approved strategy of developmental lending to the mandated sectors that should be undertaken on a commercial basis.
- The DBSA provides funding to various clients, including municipalities. Municipalities in South Africa are responsible to provide the bulk (primary and secondary) infrastructure in their areas of jurisdiction.
- Bulk and link infrastructure are often in support of and enables or unlocks the development of real estate and property / housing developments (catalytic projects), for both greenfield and brownfield developments. The link and internal services for such property developments are provided by private sector developers for non-subsidised components as well as government through relevant subsidy and grant programmes for subsidised housing projects and components within larger developments.
- Mixed use / integrated property / housing developments (privately and/or publicly driven) are often prevented from developing, delayed or develops slower than the market demands due to the lack of municipal bulk infrastructure.
- Financial and capacity constraints often prevent municipalities from providing the necessary bulk and link infrastructure that will unlock or enable these property/housing (catalytic) developments from proceeding.
- Delays in provision of bulk infrastructure services creates market failure to attract private sector investment, which in turn leads to lost opportunities for growth and development and spatial consolidation within Cities.
- In light of the above constraint, the DBSA has developed a financing and implementation structure ("the Product") that will allow the DBSA to support municipalities in providing the necessary bulk infrastructure that will enable and unlock private sector investment in property/catalytic developments.
- By its nature, the Product is unique/bespoke in nature and accordingly requires an evaluation of the accounting treatment of the Product both in terms of IFRS and GRAP, in the context of the provisions of the Local Government Municipal Finance Management Act, No. 56 of 2003.
- The objective is to structure the Product in an innovative way to minimise the impact on a municipality's balance sheet and borrowing capacity.
- It is therefore important to get the right technical expertise in order to provide input into the DBSA's key decision-making committees.
- The DBSA therefore seeks to procuring an Independent Technical Expert to provide accounting and tax opinions on the various options to be provided.

- DBSA will provide 3 possible structuring options and will require tax and accounting implications of implementing the product based on application of IFRS, GRAP and South African tax implications.

Scope of work

The responsibilities of the independent technical expert will be to provide tax and accounting opinions which must include:

- performing an IFRS assessment on the accounting treatment of the Product in terms of the initial recognition, classification, measurement, presentation and disclosure of the various transaction elements.
- performing an GRAP assessment on the accounting treatment of the Product in terms of the initial recognition, classification, measurement, presentation and disclosure of the various transaction elements.
- Assessment of all tax implications of the various proposed structures.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
