- Bidders must attach at least three (3) reference letters from clients and final completion certificates which clearly indicate that they have undertaken building works with installation of roof sheeting as part of scope of works.
- Bidder must submit a clear and concise methodology & approach showing his understanding of the terms of reference. This forms part of returnable schedules and is not an elimination criterion at Stage 1 (Admin Compliance), but will be verified during technical risk analysis and in-loco inspections, before Adjudication and award. If a commercial risk is identified, the highest scoring bidder may not be awarded.
- Bidder must submit a concise Programme of Works showing his understanding of activities to be undertaken

A risk analysis of the Bills of Quantities and list of specific detailed quotations as part of returnable documents will be carried out during the Stage 1 Administrative compliance evaluation by the Bid Evaluation Committee with the support of the Built Environment Professional Team, to check for:

- Mistakes in the Pricing schedules, BOQ's, and to confirm whether the tender price submitted is market related and does not pose a commercial risk to the Client.
- If detailed quotations POE (Portfolio of evidence) on specific P&G (Preliminaries & General), OHS (Occupational Health & Safety) and specialist builders' items and installations were submitted in terms the Special Bid Conditions .

In the event where the analysis of the Bills of Quantities find inconsistencies and misrepresentation in terms of what has been declared in the Bid submission, the Bidder may be:

- notified of such inconsistencies and or misrepresentations in writing and allowed 7 (seven) days to rectify and or clarify such.
- eliminated and not be eligible to be evaluated under Stage 2 Price & Specific goals.

Wherever a brand name is specified in this document (i.e. specifications, pricing schedule, bill of quantities or anywhere), the department requires an item similar/equivalent or better to the PSP's specification.

The successful tenderer (after being informed) will be required to bring along an unsigned copy of the form of contract to be signed by parties (e.g. JBCC Edition 6.2 of 2024)

STAGE TWO: EVALUATION POINTS ON PRICE AND SPECIFIC GOALS / PPPFA OF 2022

The **80/20 preference point system** shall be applied for the purposes of this bid as per the requirements of the *Preferential Procurement Policy Framework Act, 2000 (Act No. 5 of 2000)* and PPPFA Regulations of 2022

Criteria	Points
POINTS ON PRICE	80
POINTS FOR SPECIFIC TARGETED GOALS	20
TOTAL	100

The 80/20 preference point system for acquisition of services, works or goods equals or is less than Rand value of R50 million:

(a) The following formula must be used to calculate the points for price in respect of tenders (including price quotation) with a Rand value equal to, or above R 30 000 and up to Rand value of R 50 000 000 (all applicable taxes included):

The financial offer will be scored using the following formula:

$$A = (1 - \frac{P - P_m}{P_m})$$

The value of value of W_1 is:

- 1) **90** where the financial value inclusive of VAT of all responsive tenders received have a value in **excess of R50 000 000** or
- 2) **80** where the financial value inclusive of VAT of one or more responsive tender offers have a value that **equals or is less than R 50 000 000**.

5.7.3

The procedure for the evaluation of responsive tenders is **Method 2** (Administrative, price and preference)

5.8

PREFERENCE POINTS CLAIM FORM IN TERMS OF THE PREFERENTIAL PROCUREMENT REGULATIONS 2022

BID DESCRIPTION	INFRASTRUCTURE IMPROVEMENTS TO HEALTHCARE FACILITIES OR TAMBO DISTRICT: NMAH HOSPITAL BUILDING FAÇADE MAINTENANCE WORKS
SCMU NUMBER	SCMU3-2627-0165-OR

This preference form must form part of all tenders invited. It contains general information and serves as a claim form for preference points for specific goals.

NB: BEFORE COMPLETING THIS FORM, TENDERERS MUST STUDY THE GENERAL CONDITIONS, DEFINITIONS AND DIRECTIVES APPLICABLE IN RESPECT OF THE TENDER AND PREFERENTIAL PROCUREMENT REGULATIONS, 2022

1. GENERAL CONDITIONS

1.1 The following preference point systems are applicable to invitations to tender:

- the 80/20 system for requirements with a Rand value of up to R50 000 000 (all applicable taxes included); and
- the 90/10 system for requirements with a Rand value above R50 000 000 (all applicable taxes included).

1.2 To be completed by the organ of state

(delete whichever is not applicable for this tender).

The applicable preference point system for this tender is the 80/20 preference point system.

The lowest/ ~~highest~~ acceptable tender will be used to determine the accurate system once tenders are received.

1.3 Points for this tender (even in the case of a tender for income-generating contracts) shall be awarded for:

- (a) Price; and
- (b) Specific Goals.

1.4 To be completed by the organ of state:

The maximum points for this tender are allocated as follows:

	POINTS
PRICE	80
SPECIFIC GOALS	20
Total points for Price and SPECIFIC GOALS	100

1.5 Failure on the part of a tenderer to submit proof or documentation required in terms of this tender to claim points for specific goals with the tender, will be interpreted to mean that preference points for specific goals are not claimed.

1.6 The organ of state reserves the right to require of a tenderer, either before a tender is adjudicated or

at any time subsequently, to substantiate any claim in regard to preferences, in any manner required by the organ of state.

2. DEFINITIONS

- (a) “**tender**” means a written offer in the form determined by an organ of state in response to an invitation to provide goods or services through price quotations, competitive tendering process or any other method envisaged in legislation;
- (b) “**price**” means an amount of money tendered for goods or services, and includes all applicable taxes less all unconditional discounts;
- (c) “**rand value**” means the total estimated value of a contract in Rand, calculated at the time of bid invitation, and includes all applicable taxes;
- (d) “**tender for income-generating contracts**” means a written offer in the form determined by an organ of state in response to an invitation for the origination of income-generating contracts through any method envisaged in legislation that will result in a legal agreement between the organ of state and a third party that produces revenue for the organ of state, and includes, but is not limited to, leasing and disposal of assets and concession contracts, excluding direct sales and disposal of assets through public auctions; and
- (e) “**the Act**” means the Preferential Procurement Policy Framework Act, 2000 (Act No. 5 of 2000).

3. FORMULAE FOR PROCUREMENT OF GOODS AND SERVICES

3.1. POINTS AWARDED FOR PRICE

3.1.1 THE 80/20 PREFERENCE POINT SYSTEMS

A maximum of 80 or 90 points is allocated for price on the following basis:

$$Ps = 80 \left(1 - \frac{Pt - Pmin}{Pmin} \right)$$

Where

Ps = Points scored for price of tender under consideration

Pt = Price of tender under consideration

Pmin = Price of lowest acceptable tender

3.2. FORMULAE FOR DISPOSAL OR LEASING OF STATE ASSETS AND INCOME GENERATING PROCUREMENT

3.2.1. POINTS AWARDED FOR PRICE

A maximum of 80 points is allocated for price on the following basis:

$$Ps = 80 \left(1 + \frac{Pt - Pmax}{Pmax} \right)$$

Where

Ps = Points scored for price of tender under consideration

Pt = Price of tender under consideration

Pmax = Price of highest acceptable tender

4. POINTS AWARDED FOR SPECIFIC GOALS

- 4.1. In terms of Regulation 4(2); 5(2); 6(2) and 7(2) of the Preferential Procurement Regulations, preference points must be awarded for specific goals stated in the tender. For the purposes of this

tender the tenderer will be allocated points based on the goals stated in table 1 below as may be supported by proof/ documentation stated in the conditions of this tender:

- 4.2. In cases where organs of state intend to use Regulation 3(2) of the Regulations, which states that, if it is unclear whether the 90/10 preference point system applies, an organ of state must, in the tender documents, stipulate in the case of—
- (a) an invitation for tender for income-generating contracts, that either the 90/10 preference point system will apply and that the highest acceptable tender will be used to determine the applicable preference point system; or
 - (b) any other invitation for tender, that either the 90/10 preference point system will apply and that the lowest acceptable tender will be used to determine the applicable preference point system,
- then the organ of state must indicate the points allocated for specific goals for both the 90/10 preference point system.

Table 1: Specific goals for the tender and points claimed are indicated per the table below.

(Note to organs of state: Where either the 90/10 preference point system is applicable, corresponding points must also be indicated as such.

Note to tenderers: The tenderer must indicate how they claim points for each preference point system.)

The specific goals allocated points in terms of this tender	Number of points allocated (80/20 system) (To be completed by the organ of state)	Number of points claimed (80/20 system) (To be completed by the tenderer)

POPIA

PROTECTION OF PERSONAL INFORMATION: CONSENT (POPIA)

The introduction of The Protection of Personal Information Act (POPIA) ensures the regulation of personal information through its entire life cycle of collection, transfer, storing and deletion.

As part of its business activities, the Department of Health obtains and requires access to personal data from a wide range of internal and external parties, including without limitation bidders who respond to requests for proposals that are published by the Department of Health from time to time. The Department of Health confirms that it shall process the information disclosed by Bidders for the purpose of evaluating and subsequently awarding/appointing a successful Bidder.

The Department of Health hereby states that it does not and will never modify, amend, or alter any personal information submitted to it by a Bidder. Not unless directed to do so by an order of court, the Department of Health does not disclose or permit the disclosure of any personal information to any Third Party without the prior written consent of the owner of the information.

Similarly, Bidders will from time-to-time access and be seized with information of a personal nature pertaining to the Department of Health. Some of the information may because of legislative compliances be available in the public domain, whilst some is uniquely provided to bidders in pursuit of procurement or other business-related activities. In this regard, the Department of Health requires that Bidders which receive or have access to its personal information, process any such information in a manner compliant with the requirements of the POPIA.

AGREEMENT

1. The Department of Health and the Bidder (the Parties) agree and undertake that upon obtaining and having access to personal information relating to either of them, they shall always ensure that:
 - a) They process the information only for the express purpose for which it was obtained.
 - b) Information is provided only to designated and authorized personnel who require the personal information to carry out the Parties' respective obligations in terms of the Procurement processes.
 - c) They will introduce, and implement all reasonable measures ensure the protection of all personal information from unauthorized access and/or use.
 - d) They have taken appropriate measures to safeguard the security, integrity, and authenticity of all personal information in its possession or under its control.
 - e) The Parties agree that if personal information will be processed for any other purpose other than the one for which the accessing of the information was intended, explicit written consent will be obtained prior to the execution of such reason.
 - f) The Parties shall carry out regular assessments to identify all reasonably foreseeable internal and external risks to the interception of personal information in its possession or under its control and shall implement and maintain appropriate controls in mitigation of such risks.

2. The Parties agree that they will promptly return or destroy any personal data in their possession or control which belongs to the other Party once it no longer serves the purpose for which it was collected, subject to any legal retention requirements. The information will be destroyed in such a manner that it cannot be reconstructed to its original form, linking it to any individual or organization.

3. Bidder's Obligations

- a) The Bidder is required to notify the Information Officer of Department of Health, in writing as soon as possible after it becomes aware of or suspects any loss, unauthorized access or unlawful use of any of the Department of Health's personal information.
- b) The Bidder shall, at its own cost, promptly and without delay take all necessary steps to mitigate the extent of the loss or compromise of personal data.
- c) The Bidder shall be required to provide the Department of Health with details of the persons affected by the compromise and the nature and extent of the compromise, including details of the identity (if known) of the unauthorized person who may have accessed or acquired the personal data.
- d) The Bidder undertakes to co-operate with any investigation relating to security breach which is carried out by or on behalf of Department of Health.

3.0 Offer and Acceptance

Amend 3.3 to read as follows:

This **agreement** shall come into force on the date as stated on the Form of Offer and Acceptance and continue to be of force and effect until the end of the **latent defects** liability period [22.0] notwithstanding termination [29.0] or the certification of **final completion** [21.0] and final payment [25.0]

4.0 Cession and Assignment

Replace Clause 4.3 with the following:

Where a contractor cedes any right or any monies due to or to become due under this agreement as security in favour of a financial institution, the prior written consent of the employer, which consent shall not be unreasonably withheld, must be obtained

5.0 Documents

Replace Clause 5.4 with the following:

The Bills of Quantities shall not be used as a specification of material and goods or methods unless so instructed by the Principal Agent. The contractor may not use the Bills of Quantities for purpose of ordering material. All dimensions and quantities must be determined on site before ordering. In the event of discrepancy between the drawings and Bills of Quantity, the drawings shall take preference

Replace Clause 5.5 with the following:

The parties may publish or disclose on any platform only the contract scope and contract amount

6.0 Employer's Agents

Replace Clause 6.5 with the following:

Where the principal agent and/or an agent fails to act or is unable to act or ceases to be the principal agent or an agent in terms of this agreement, the employer shall appoint another principal agent and/or an agent

Add the following as 6.7:

In terms of the clauses listed hereunder, the **employer** has retained its authority and has not given a mandate to the **principal agent**. The **employer** shall sign all documents in relation to clauses 4.2, 14.1.2, 14.1.4, 14.4.1, 14.6, 23.1, 23.2, 23.3, 23.7, 23.8, 26.1, 26.7, 26.12 and 28.4

8.0 Works Risk

Replace Clause 8.4 with the following:

The **contractor** shall bear the full risk of damage to and/or destruction of the **works** by whatever cause during construction of the **works** and hereby indemnifies and holds harmless the **employer** against any such damage. The **contractor** shall take such precautions and security measures and other steps for the protection and security of the **works** as the **contractor** may deem necessary

9.0 Indemnities

9.2.7: Add the following to the end of the first sentence: "... due to no fault of the **contractor**"

9.2.9 No Clause

9.2.10 No Clause

Add the following as clause 9.3:

The employer's rights to claim damages for the contractor's omissions and actions will not be affected.

10.0 Insurances

Add the following as 10.1.5.1:

High risk Insurance

In the event of the project being executed in a geological area classified as a "High Risk Area", that is an area which is subject to highly unstable sub-surface conditions that might result in catastrophic ground movement evident by sinkhole or doline formation the following will apply:

10.1.5.1.1 Damage to **the works**

The contractor shall, from the date of possession of the **site** until the date of the **certificate of practical completion**, bear the full risk of and hereby indemnifies and holds harmless the **employer** against any damage to and/or destruction of the **works** consequent upon a catastrophic ground movement as mentioned above. The **contractor** shall take such precautions and security measures and other steps for the protection of the **works** as he may deem necessary

When so instructed to do so by the **principal agent**, the **contractor** shall proceed immediately to remove and/or dispose of any debris arising from damage to or destruction of the **works** and to rebuild, restore, replace and/or repair the **works**, at the **contractor's** own costs

10.1.5.1.2 Injury to persons or loss of or damage to property

The **contractor** shall be liable for and hereby indemnifies and holds harmless the **employer** against any liability, loss, claim or proceeding arising at any time during the period of the contract whether arising in common law or by statute, consequent upon personal injuries to or the death of any person whomsoever resulting from, arising out of or caused by a catastrophic ground movement as mentioned above

The **contractor** shall be liable for and hereby indemnifies the **employer** against any and all liability, loss, claim or proceeding consequent upon loss of or damage to any moveable, or immovable property, or personal property, or property contiguous to the **site**, whether belonging to or under the control of the **employer** or any other body or person whomsoever arising out of or caused by a catastrophic ground movement, as mentioned above, which occurred during the period of the contract

10.1.5.1.3

It is the responsibility of the **contractor** to ensure that he has adequate insurance to cover his risk and liability as mentioned in 10.1.5.1.1 and 10.1.5.1.2. Without limiting the **contractor's** obligations in terms of the contract, the **contractor** shall, within twenty-one (21) **calendar days** of the date of possession of the site, but before commencement of the **works**, submit to the **employer** proof of such insurance policy, if requested to do so

10.1.5.1.4

The **employer** shall be entitled to recover any and all losses and/or damages of whatever nature suffered or incurred consequent upon the **contractor's** default of his obligations as set out in 10.1.5.1.1; 10.1.5.1.2 and 10.1.5.1.3. Such losses or damages may be recovered from the **contractor** or by deducting the same from any amounts still due under this contract or under any other contract presently or hereafter existing between the **employer** and the **contractor** and for this purpose all these contracts shall be considered one indivisible whole

11.0 Securities

Amend 11.10 to read as follows:

There shall be no lien or right of retention held by any **contractor** in respect of the works executed on site

Replace Clauses 11.1, 11.1.1, 11.1.2, 11.2.1 and 11.2.2 with the following:

11.3 No Clause

11.4 No Clause

11.5 No Clause

11.7 No Clause

11.8 No Clause

11.9 No Clause

11.10 No Clause

12.0 Obligations of the Parties

12.1.1 No Clause

Replace Clause 12.1.5 with the following:

Give possession of the site to the contractor within ten (10) working days after the appointment of all SMME contractor packages, approval of the Health and Safety Plan or the issue of a construction permit by the Department of Labour, if applicable, after the contractor complied with the terms of 12.2.22

12.1.6 No Clause

12.1.8 No Clause

Replace Clause 12.2.2 with the following:

The priced Bills must be submitted as part of the returnable documents. Where the priced document contains errors or discrepancies and/or prices considered by the employer or principal agent to be imbalanced or unreasonable the employer or principal agent and the contractor shall adjust such prices without any change to the contract sum

Replace Clause 12.2.5 with the following:

Effect and keep in force insurances in favour of the employer as beneficiary where the contractor is responsible for providing insurances [10.0] [CD]

Replace Clause 12.2.13 with the following:

Designate a competent person full time on site to continuously administer and control the works on site and to receive and implement notices and contract instructions on behalf of the contractor

Add the following as Clause 12.2.22:

Within fourteen (14) working days of the date of the letter of acceptance submit to the principal agent an acceptable health and safety plan, required in terms of the Occupational Health and Safety Act, 1993 (Act No 85 of 1993)

Add the following as Clause 12.2.23:

The contractor shall within reasonable time inform the agents regarding inspection of the works before covering / closing [B 12.0]

19.0 Practical Completion

Replace Clause 19.5 with the following:

On issue of the only or last certificate of practical completion the employer shall be entitled to possession of the works and the site. On issue of the certificate of practical completion for a section, the employer shall be entitled to possession of such section.

21.0 Defects Liability Period and Final Completion

Clause 21.0

Replace Clause 21.1 with the following:

The defects liability period for the works shall commence on the calendar day following the date of works completion and end at midnight (00:00) ninety (90) calendar days from the date of works completion [CD] or when work on the list for completion has been satisfactorily attended to [21.6], whichever is the later (if we use works completion)

Replace Clause 21.6 with the following:

On the expiry of the ninety (90) calendar days defects liability period [21.1] for items not indicated as items with an extended liability as indicated in B14 and on receipt of the contractor's notice to the principal agent

And/or

On the expiry of the defects liability period as indicated in B14, for items indicated in B14 and on receipt of the contractor's notice to the principal agent, the principal agent shall:

- (1) inspect the works and within ten (10) working days either issue a list for final completion detailing all outstanding work or defects that must be attended to, or rectified to achieve final completion or
- (2) issue the certificate of final completion to the contractor with a copy to the employer for that part of the works where defects liability period has expired

21.6.1 Omit Clause

21.6.2 Omit Clause

Add the following as Clause 21.13:

The ninety (90) calendar days defects liability period for the works [21.1] is replaced with an extended defects liability period of three hundred and sixty-five (365) calendar days in respect of the listed applicable elements in B14

Add the following as Clause 21.14:

Penalties will be applied if the items on the completion list have not been attended to within a period of ninety (90) calendar days [21.1]. If additional defect items have being added to the list during this period, then the Principal Agent and Contractor will agree on a revised completion date. Failing in achieving the revised date will result in penalties being applied.[B12.0

It is a condition of contract that:

The contractor shall achieve in the performance of the contract the Contract Skills Development Goal (CSDG) established in the CIDB Standard for Developing Skills through Infrastructure Contracts, published in Gazette Notice No.48491 of 28 April 2023.

The contractor shall achieve in the performance of the contract the Contract Participation Goals (CPG) relating to the engagement of targeted enterprises as established in the cidb Standard for Indirect Targeting for Enterprise Development through Construction works Contracts, published in Gazette Notice No.36190 of 25 February 2013.

The main contractor shall provide a minimum Contract Participation Goal (CPG) of 5% of the total project value and develop targeted enterprises in two agreed developmental areas as per clause 3.2.1 of the Indirect Targeting Standard (Gazette Notice No.36190 of 25 February 2013).

Distinguish Between Construction Period and Contract Period

Please note the following key distinction:

- Construction Period: This refers to the physical timeframe allocated to the contractor to execute works on site
- Contract Period: This encompasses the full contract lifecycle from award date through practical completion, extension of time (if granted), project close-out, and final account.

The JBCC Principal Building Agreement Edition 6.2, Clause 19.0, defines practical completion, while Clause 23.0 (Delays and Extension of Time) outlines provisions under which a contractor may apply for and be granted an extension. It is important that these provisions be observed to avoid unintended contract breaches or disputes.

C TENDERER'S SELECTIONS

C 1.0 Security [11.0]

In respect of contracts with a contract sum more than R1 Million, the security to be provided by the contractor to the employer will be selected by the Contractor as indicated below:

Guarantee for construction: Select Option A,B,C,D or E		Option:

*The General Preambles for Trades 2017 published by the Association of South African Quantity Surveyors is designed to support and extend the abbreviated descriptions utilised in these bills of quantities by inter alia referring to SANS construction standards. **Where such preambles are not applicable** (eg where BS or Euro construction standards are applicable or the design consultants provide other preambles/specifications for insertion), users are to ensure that the abbreviated descriptions when read in conjunction with the Standard System of Measuring Building Work (seventh edition) for works within South Africa or the Standard Method of Measuring Building Work for Africa 2015 (first edition) for works elsewhere in Africa, represent the full description by extending the abbreviated bills of quantities descriptions and/or by inserting appropriate preambles or specifications*

Note that the text of the Standard System of Measuring Building Work (seventh edition) and that of the Standard Method of Measuring Building Work for Africa 2015 (first edition) is the same

The General Preambles for Trades 2017 published by the Association of South African Quantity Surveyors shall be deemed to be incorporated in these **bills of quantities** and no claims arising from brevity of description of items fully described in the said General Preambles will be entertained

Supplementary preambles and/or specifications are incorporated in these **bills of quantities** to satisfy the requirements of this project. Such supplementary preambles and/or specifications shall take precedence over the provisions of the General Preambles

The **contractor's** prices for all items throughout these **bills of quantities** shall take account of and include where applicable for all of the obligations, requirements and specifications given in the General Preambles and in any supplementary preambles and/or specifications

STRUCTURE OF THIS PRELIMINARIES BILL

Section A : A recital of the headings of the individual clauses in the aforementioned **JBCC** Principal Building Agreement

Section B : A recital of the headings of the individual clauses in the aforementioned **JBCC** General Preliminaries

Section C : Any special clauses to meet the particular circumstances of the project

PRICING OF PRELIMINARIES

Should the **contractor** select Option A in the **contract data** for the adjustment of **preliminaries**, the amounts entered against the relevant items in these **preliminaries** are to be divided into one or more of the three categories provided namely fixed (F), value related (V) and time related (T)

SECTION A: PRINCIPAL BUILDING AGREEMENT

Interpretation (A1-A7)

1 Clause 1.0 - Definitions and interpretation

Pricing of bills of quantities

The **contractor** is to allow opposite each item for all costs in connection therewith. All prices to include, unless otherwise stated, for all materials, fabrication, conveyance and delivery, unloading, storing, unpacking, hoisting, labour, setting, fitting and fixing in position, cutting and waste (except where to be measured in accordance with the standard system of measurement), patterns, models and templates, plant, temporary works, returning of packaging, duties, taxes (other than Value Added Tax), imposts, establishment charges, overheads, profit and all other obligations arising out of this **agreement**. Value Added Tax (VAT) is to be separately stated on the summary page of these **bills of quantities**

Items left unpriced will be deemed to be covered in prices against other items throughout these **bills of quantities** and no claim for any extras arising out of the **contractor's** omission to price any item will be entertained

Prices for all **construction equipment**, temporary works, services and other items shall include for the supply, maintenance, operating cost and subsequent removal and making good as necessary

Abbreviated descriptions

The items in these **bills of quantities** utilise abbreviated descriptions. It is the intention that the abbreviated descriptions be fully described when read with the applicable measuring system and the relevant preambles and/or specifications. However, should the full intent and meaning of any description not be clear, the **contractor** shall, before submission of his tender, call for a written directive from the **principal agent**, failing which it shall be assumed that the **contractor** has allowed in his pricing for materials and workmanship in terms of international best practice

Legal status of contractor

If the **contractor** constitutes a joint venture, consortium or other unincorporated grouping of two or more persons then:

1. These persons are deemed to be jointly and severally liable to the **employer** for the performance of this **agreement**
2. These persons shall notify the **employer** of their leader who has assigned authority to bind the **contractor** and each of these persons
3. The **contractor** shall not alter its composition or legal status without the prior written consent of the **employer**

Tenant installation/user requirements delayed

There is a possibility that certain works related to tenant installation/user requirements may have to be delayed and may consequently not be executed prior to **practical completion**

Should the **contractor** be instructed to do so he shall execute this work under the conditions pertaining to this **agreement** on the basis that a separate amount for **preliminaries** appurtenant to this work (if applicable) is agreed to between the **contractor** and the **principal agent** and on condition that instruction to proceed with such work is given to him within a period of three (3) calendar months after the date of **practical completion** of the **works**

The **employer** reserves the right to omit such work without compensation to the **contractor** for loss of profit or any other loss which the **contractor** may suffer as a result of such omission

Cost of claims

All costs incurred by the **contractor** in the preparation of claims shall be borne by the **contractor**. This provision shall not preclude an adjudicator or an arbitrator appointed in terms of this **agreement** [30.6 & 7] from making a determination on costs

Claims from subcontractors

The **contractor** shall review, assess and adjudicate any claims received by him from any **subcontractor** and thereafter submit same to the **principal agent** with a recommendation in order to assist the **principal agent** in adjudicating the claim [26.6]

User note

General attendance is defined as being the duties of the contractor in terms of clause 12.2 of the JBCC n/s subcontract agreement

F:..... V:..... T:.....

Item

62 Clause 10.2 - Special attendance

User note

Insert details after the provisional sums (nominated or selected subcontract amounts) for any special attendance where specifically required for each n/s subcontractor separately

It is important to note that general attendance only requires the contractor to "permit the subcontractor to use erected scaffolding, hoisting facilities, etc provided by the contractor, in common with others having the like right while it remains erected on the site" (refer to 12.2.13 of the JBCC n/s subcontract agreement). Many n/s subcontractors qualify their tenders to exclude scaffolding and/or hoisting facilities. Especially scaffolding could be an expensive item and it may be necessary in order to avoid claims to require the contractor to provide for the extended use of scaffolding for specific subcontracts within a description of "special attendance" in the applicable bill

SECTION C: SPECIFIC PRELIMINARIES

User note

Users shall avoid inserting in Section C items which may be construed as amending, modifying, correcting or supplementing the provisions of the JBCC Principal Building Agreement. Such amendments, modifications, corrections or supplements should be kept to the absolute minimum and should be inserted in Section A under the recited clause headings of the JBCC Principal Building Agreement in this Bill No. 1

Selected examples of typical clauses are provided to indicate ways of describing such clauses. Users must delete, adapt or add to these examples to suit their particular circumstances

74 Warranties for materials and workmanship

Where warranties for materials and/or workmanship are called for, the **contractor** shall obtain a written warranty, addressed to the **employer**, from the entity supplying the materials and/or executing the work and shall deliver same to the **principal agent** on **final completion** of the contract

The warranty shall state that workmanship, materials and installation are warranted for a specific period from the date of **practical completion** and that any **defects** that may arise during the specified period shall be made good at the expense of the entity supplying the materials and/or doing the work, upon written **notice** to do so

The warranty will not be enforced if the work is damaged by **defects** in the execution of the **works**, in which case the responsibility for replacement shall rest entirely with the **contractor**

F:..... V:..... T:.....

Item

75 Overtime

Should overtime be required to be worked for any reason whatsoever, the cost of such overtime is to be borne by the **contractor** unless the **principal agent** has specifically authorised, prior to execution thereof, that costs for such overtime are to be borne by the **employer**

F:..... V:..... T:.....

Item

76 Cooperation of the **contractor** for cost management

It is specifically agreed that the **contractor** accepts the obligation of assisting the **principal agent** in implementing proper cost management. The **contractor** will be advised by the **principal agent** of all cost management procedures which will be implemented to ensure that the **contract value** does not exceed the budget

F:..... V:..... T:.....

Item

77 Overloading

The **contractor** shall take all necessary steps to ensure that no damage occurs due to overloading of any portion of the **works** or temporary works eg scaffolding, etc. The **contractor** shall submit details of his proposed loading, storage, plant erection, etc to the **principal agent** for approval prior to proceeding with such loading, storing or erecting and shall comply with and pay for the **principal agent's** requirements in connection with the provision of temporary support work, etc. Any damage caused to the **works** by overloading shall be made good by the **contractor** at his sole expense

F:..... V:..... T:.....

Item

78 Propping of floors below

The **contractor** is advised that propping of floors below may be required if he wishes to use any areas of completed suspended reinforced concrete slabs for vehicle access, storage of **materials and goods** and location of plant, scaffolding, etc. The location of these areas and any necessary propping shall be approved by the **principal agent** and the cost thereof shall be borne by the **contractor**

F:..... V:..... T:.....

Item

79 Testing of flat roof waterproofing for watertightness

Flat roof waterproof areas shall be flooded and kept "ponded" for at least forty eight (48) hours as a test to ensure the watertightness of the waterproofing and before any further construction work is carried out above the waterproofing

PART C3: SCOPE OF WORKS

C3 SCOPE OF WORK

Bid Description:	INFRASTRUCTURE IMPROVEMENTS TO HEALTHCARE FACILITIES OR TAMBO DISTRICT: NMAH HOSPITAL BUILDING FAÇADE MAINTENANCE WORKS
Tender No:	SCMU3-2627-0165-OR

C3.1 SCOPE OF WORKS

1. DESCRIPTION OF THE WORKS:

General:

Location: Nelson Mandela Academic Hospital (NMAH), situated on **Erf 2438**, Sisson Street, Fort Gale, Mthatha, Eastern Cape, within the OR Tambo Municipality.

Access Points:

- N2 (Savoy side) – main entrance via national route.
- Fort Gale side – secondary entrance all on tarred road.

Scope of Works:

- Painting of existing external plastered walls.
- Pressure washing of pebbledash wall surfaces.
- Works to be executed on three sides of the hospital façade

The hospital will remain operational during the construction period and phased to accommodate this.

Facility Name	Co-ordinates
NMAH	31°35'15"S 28°45'51"E

The image below indicates the hospital to be maintained.

Figure 01: Hospital image

Detailed Scope of Works:

The proposed works comprise the refurbishment of the external façades of Nelson Mandela Academic Hospital. The scope includes two different wall finishes requiring different treatments:

- Plastered Walls: All external plastered wall surfaces are to be prepared and painted with approved paint , ensuring durability and weather resistance. Surface preparation must include cleaning, patching defects, and priming where necessary.
- Pebbledash Walls: All external pebbledash wall surfaces are to undergo high-pressure washing to remove accumulated dirt, biological growth, and weathering deposits. Care must be taken to preserve the integrity of the textured finish while achieving a uniform clean surface.

C3.2 RESTRICTIONS AND CONSTRAINTS

- The completion of the project is urgent and work shall be executed during normal working hours i.e. 7h30 till 17h00 weekdays only. Work required to be executed outside of these hours must be arranged with the Facility Manager of the hospital, in advance.
- Limit noisy activities during sensitive hours Use low-noise equipment where possible.
- Implement dust barriers, wet methods, and regular cleaning to prevent contamination in patient care areas.
- Follow hospital infection prevention protocols, including PPE use, sealed work areas, and waste disposal compliance.
- Coordinate with hospital management to schedule disruptive works outside peak patient care hours.
- Adhere to Occupational Health and Safety Act requirements, including scaffolding safety, signage, and fall protection.
- Avoid disruption to essential services (oxygen lines, electrical supply, water systems).
- Ensure minimal disturbance to patients, staff, and visitors, maintain dignity and privacy at all times.
- Contractors must comply with hospital security checks and ID requirements.
- Manage water run-off from pressure washing and ensure eco-friendly disposal of paint waste.

C3.3 OPERATIONAL PROTOCOLS

- Security is a priority, and the site shall be kept safe at all times.
- The approved Health and Safety plan shall be adhered to at all times
- All staff members of the contractor shall wear PPE at all times
- All staff members of the contractor shall be specifically identifiable at all times and to this end shall wear a predetermined coloured overall with contractor's logo to be able to enter and work on the site.
- Regular meetings, the frequency of which is to be determined, shall be held with the management of the clinic to always ensure a cohesive spirit of co-operation
- The successful contractor must take into account that other contractors may be busy with construction in close proximity to the works and allowance must be made in the contractor's submission to accommodate these parties.

C3.4 ACCESS AND SITE ESTABLISHMENT

- Prospective bidders are to fully familiarize themselves with the site and access to the site and restricted area for site establishment. Allowance for temporary construction access etc. shall be deemed to be included in contractor's price/bid. Prospective bidders are to familiarize themselves with the site as no additional costs shall be entertained.
- No Contractor's representatives or workers are allowed to sleep at establishment area or within the facility.

- The Contractors are required to price for establishment, de-establishment and re-instatement in the Preliminaries section of the Bills of Quantities.

C3.5 ACCEPTANCE OF TENDERS

- The Employer is not bound to accept the lowest, or any tender, or any portion of any tender

C3.6 MINIMUM WAGE

- The Contractor shall adhere to “The national minimum wage determined by the Minister in accordance with the National Minimum Wage Act (NMWA)” and yearly pronounced increases for duration of contract.

C3.7 TEMPORARY WORKS

- All temporary work to comply with the Construction Health and safety Act (Act 85 of 1993) and its regulations and are confirmed and recorded under section C3.14 Occupational Health & Safety Specification.

C3.8 DESIGN DETAILS

N/A

C3.9 EMPLOYER'S OBJECTIVES IN TO RELATION THE EMPLOYMENT OF LABOUR

- The Contractor shall ensure labour and community harmony on the project site and in the surrounding community. (Ward). The Contractor shall participate in all community engagement activities to promote harmony during the project.
- The Contractor is to complete the Construction Labour Forecast Schedule included in the returnable section of the Tender Document

2 SCOPE

2.1 Site Specific Specification

This health and safety specification pertains to the scope of works outlined in the tender document as well as in this OHS Specification document.

- Provides the overarching framework within which the Principal Contractor is required to demonstrate compliance with certain requirements for occupational health and safety established by the Occupational Health and Safety Act 85 of 1993 during work;

- Establishes the way the Principal Contractor is to manage the risk of health and safety incidents during construction; and
- Establishes the way the Client's Health and Safety office will interact with the Principal Contractor.

This specification establishes general requirements to enable the Principal Contractor to satisfy aspects of the Occupational Health and Safety Act, 1993 (Act No. 85 of 1993) and the relevant related regulations. The Principal Contractor is required to develop, implement and maintain a site-specific health and safety plan. The Client is required to provide certain site-specific information to the Principal Contractor or a health and safety specification for the works to enable such a plan to be formulated. Accordingly, this specification on its own cannot ensure compliance with the requirements of the Act.

A Client must stop any contractor from executing construction work which is not in accordance with the contractor's health and safety plan for the site or which poses to be a threat to the health and safety of persons.

Traffic Management Plan –

- Work zone Limits: Clearly defined boundaries of the operational area(e.g. active construction.
- Traffic flow Mapping: Diagrams/Site maps showing designated routes for heavy duty vehicles, delivery trucks, staff parking and foot traffic.
- Segregation: The physical separation of pedestrians and moving machinery using temporary barriers, fences, or clearly marked walkways.

Control Measures

- Speed Limits: Strictly defined and enforced speed limits tailored to site conditions
- Signage and Markings: Appropriate warning signs, cones, bollards, and directional arrows
- Traffic Personnel: flaggers, marshals deployed at critical traffic areas.

3 Detailed Scope of Works:

DESCRIPTION OF THE WORKS:

The proposed works comprise the refurbishment of the external façades of Nelson Mandela Academic Hospital. The scope includes two different wall finishes requiring different treatments:

- Plastered Walls: All external plastered wall surfaces are to be prepared and painted with approved exterior-grade paint systems, ensuring durability and weather resistance. Surface preparation must include cleaning, patching defects, and priming where necessary.
- Pebbledash Walls: All external pebbledash wall surfaces are to undergo high-pressure washing to remove accumulated dirt, biological growth, and weathering deposits. Care must be taken to preserve the integrity of the textured finish while achieving a uniform clean surface.

Figure 01: Locality Plan

Facility location: Location: Nelson Mandela Academic Hospital (NMAH), situated on **Erf 2438**, Sisson Street, Fort Gale, Mthatha, Eastern Cape, within the OR Tambo Municipality.

Coordinates: 31°35'15"S, 28°45'51"E

SCOPE OF WORK:

1. Painting of existing external plastered walls
2. Pressure washing of pebbledash wall surfaces
3. Works to be executed on three sides of the hospital facade

COMPLIANCE & QUALITY ASSURANCE

- Installation work completed in accordance with health and safety standards.
- Submission of certificates of compliance and warranty documents for all materials used.
- Conducting a final inspection and handover with hospital representatives.
- Completion report summarizing all work undertaken, including photographic evidence and as-built documentation.

PROGRAMME DETAILS

The contractor is to submit a detailed Works Programme with the quotation. The programme must serve as a clear guide outlining the logical sequence of activities, including defined timeframes and specific deliverables. The submission should also include:

- Start and completion dates for each activity
- Key milestones and dependencies
- Critical path activities
- Resource allocations (labour, materials, equipment)
- Lead times for procurement items
- Inspection and approval stages (where applicable)
- Any anticipated disruptions or constraints
- Health and safety planning considerations
- Progress reporting intervals and update procedures

ENABLING WORK

- The Contractor shall install site hoarding in accordance with the approved phasing plan, maximizing the reuse of existing hoarding materials where feasible to minimize waste and optimize efficiency.
- Where required furniture to be suitably identified with marked stickers prior to removal
- Hoarding to be removed on completion and make good any surfaces affected.
- Scaffolding erector and Inspector to be appointed
- The Contractor shall develop and submit a comprehensive traffic management plan

REMOVAL OF WASTE MATERIALS FROM SITE

- The Contractor shall ensure the removal and disposal of all waste materials, including but not limited to construction debris, hazardous waste, surplus materials, hoarding, and packaging, in accordance with the approved Waste Management Plan.
- The contractor will be required to produce a Safe Disposal Certificate for the area where the waste was disposed.
- Where there is no licensed approved disposal site for general waste, the contractor will have to provide agreement between the chief and the contractor for the agreed disposal site where applicable.

4. INTERPRETATION

The Act and its associated regulations shall have precedence in the interpretation of any ambiguity or inconsistency between it and this specification.

4.1. Purpose of the Project Specific Health and Safety Specification (PSHSS)

The PSHSS is a performance specification to ensure that the Client and any bodies that enter into formal agreements with the Client / Agents, Professional Service Consultants (Engineers, Quantity Surveyors and Architects), Principal Contractor and Contractors achieve an acceptable level of OHS performance.

The absence of advice or approval for any document mandated by the PSHSS, such as hazard identification and risk assessments, or any communication from the Client should not be interpreted as the Client accepting any obligation that relieves the Principal Contractor of the responsibility to meet the required performance standards and comply with legal requirements. It is essential to note that the Client does not assume liability for any consequences arising from the Principal Contractor's failure to adhere to the PSHSS; thus, the Principal Contractor retains the responsibility for achieving the necessary performance levels and ensuring legal compliance.

A Mandatory Agreement in terms of Section 37.2 of the OHS Act will be signed between parties prior to any works commencing. The PSHSS highlights the aspects to be implemented over and above the minimum requirements of current legislation. Requirements may be changed should new risks arise, work scope change or any other issues be identified that could not have been foreseen during the design phase of the project, or during the construction phase. Any new legislation or standards (legislated or determined by the Client) that are promulgated or accepted during the contract will automatically be applied.

It should be noted that this PSHSS in no way relieves the Contractor of any of his responsibilities set out in the Act and Regulations

4.2. Implementation of the Project Specific Occupational Health and Safety Specifications (PSHSS)

A project specific H&S specification will be subject to approval by the Client. This must include all supporting documentation as required to verify the H&S system. The OHS Plan must address the scope of works.

5. GENERAL REQUIREMENTS

5.1. Risks

Principal Contractor to provide a detailed risk assessment for the entire work on site. The items noted are for information only and must be expanded as required by the project.

Summary of Risk on site:

- a) Working within an operational health facility (sick people).
- b) Temporary Works
- c) Working at Heights.
- d) Site establishment
- e) Hand tools
- f) Fire
- g) Selection of Workers/ Staff for site
- h) Fragile Materials
- i) Hazardous Substances
- j) Public safety
- k) Night Work

- l) Unsafe site Access roads
- m) Stuff transportation
- n) Painting
- o) Biological risks
- p) Ergonomic risks
- q) Painting
- r) Environmental pollution
- s) Weather related.
- t) Equipment and machinery

Existing structures on site and surrounding land use (with a significant impact on Health & Safety):

- a) Health Facility safety a concern.
- b) Security

5.2. Specified Hazardous Chemical Substances

The PC is to supply the products required as per the bill of quantities-, materials / safety data sheets (SDSs) for each of the product foreseen to be utilized on site. The South African SDS to be provided as per the new legislation.

The SDS data must be indexed, and a risk analysis done to indicate the risks related to each product in use. Training on this information must be given on site and risk controls implemented.

Please ensure that wastewater resulting from the cleaning of paint brushes is treated as hazardous biological waste and must not be disposed of directly into drainage systems. Implement a filtration system for the removal of paint waste. Additionally, ensure adequate ventilation systems are in place in areas where paint primer is applied to facilitate air circulation during painting activities. This may include the use of fans and opening windows to enhance ventilation.

6. OCCUPATIONAL HEALTH & SAFETY MANAGEMENT

6.1. Notification of Commencement of Construction Work

The Principal Contractor (PC) shall notify the Provincial Director of the Department of Employment and Labour (DoEL) in writing, using the prescribed Construction Regulation Annexure 2 form, at least 7 days prior to the commencement of construction work. This notification must be submitted to the nearest Regional Department of Labour Office for acknowledgment, and proof of submission and/or receipt must form part of the OHS Plan approval process.

Work may **only commence once the notification is correctly completed and signed by the Client**, which must follow written approval by the Health and Safety (H&S) office. Any **changes to the initial submission**, such as Contractor details, expected completion dates, or workforce size, must be reflected in a **revised Annexure 2**, which must also be submitted to the DoEL.

6.1.1. Health & Safety Training

The Principal Contractor must ensure that all his / her staff is adequately trained to perform the tasks allocated to them and that there is always the requisite amount of supervision to maintain safe work practices and standards, particularly where semi-skilled and unskilled personnel are involved. The contractor shall conduct a training needs analysis to ascertain

what health and safety training, and re-training is required. No employees shall be allowed on site unless there is proof of induction training and identification.

Competency for the following is not negotiable; list is not limited to:

- Construction Manager and Assistant alternate Construction Manager, Competent person with a minimum qualification of NQF Level 6 with at least minimum of 2 years' experience.
- Health and Safety Officer must have NQF Level 5 and fully registered with SACPCMP with 1 year post experience to registration with SACPCMP.
- Temporary works planner and controller
- Scaffold erector & Scaffold Inspector
- SHE Rep (certificate NQF Level 2)
- First Aider (Level 3)

6.1.2. Induction

The contractor shall conduct a site-specific health & safety induction for all the employees, contractors and visitors to the site.

Copies of the attendance registers signed by the attendees as acknowledgement of attendance are to be kept on site in the health & safety file for verification during inspections and Client Audits.

6.1.3. Awareness

The Principal Contractor shall conduct on-site periodic toolbox talks that cover the relevant activity and an attendance register, and the contents of the topics discussed must be kept on site in the health & safety file.

Proof of training requires proof of the lesson plan and employee signatories.

Safety notices and symbolic signs, including health and safety awareness posters must be displayed at the site entrance and at strategic positions on the site to create health and safety awareness.

6.1.4. Competency

The Principal Contractor shall send relevant persons to appropriate courses as required by the Act, relevant Regulations, and applicable safety standards. The type of training to be conducted will be determined after conducting a Hazard Identification and Risk Assessment (HIRA). Copies of training certificates must be kept on site in the health & safety file.

The training to be conducted is, but not limited to:

- Health & Safety Representative Course.
- First Aid Level 3 Training,
- Working at heights training (accredited) level 1 (SAQA Unit Standard 229998) (covering basic fall arrest techniques, equipment inspection and hazard awareness; and
- HIRA Course.

Proof of competency to be attached to Appointment letters.

6.2. Organogram and Appointment of Competent Site Personnel

Contractor will be required to submit a detailed **organogram** clearly illustrating the **personnel responsible for supervision** on site. This organogram must **align with the formal appointments** recorded in the project's **Occupational Health and Safety file** and must

accurately **reflect the individuals appointed to be physically present and active on site**. Each supervisory role depicted must correspond to a valid legal appointment (e.g., Construction Manager, Supervisor, Safety Officer), and any discrepancies between the organogram and the appointment letters will be deemed non-compliant. The organogram must be updated promptly to reflect any changes in supervisory personnel across the different operational sites.

6.3. OHS 16.1 CEO

The CEO (OHS 16.1) of the PC will take overall responsibility for the appointment of competent site staff for the duration of the project. Should the CEO not be personally involved in the project, the H&S responsibilities are to be delegated to the Acting CEO (OHS 16.2). Knowledge and training in H&S are required, and certificates indicating H&S training as well as experience to be included in CVs.

All other legal appointments are to be made with relevance to the type of work to be performed.

Note: Please be aware that the construction manager is not permitted on this project to sign legal appointment letters. Only the 16.2 appointment may sign legal appointment letters.

6.3.1. Construction Manager (CR 8.1)

The Principal Contractor is required to formally designate a **full-time** competent individual specializing in construction works as the Construction Manager. This individual will be responsible for overseeing all construction activities at the designated site, including ensuring compliance with occupational health and safety standards. If the designated Construction Manager is unavailable, an alternate must be appointed, possessing appropriate training and/or experience in the relevant area of responsibility.

Upon the acceptance of the tender, the contractor is obligated to submit the Construction Manager's competency details in writing to the client for approval before commencing work.

Note: Please be aware that the construction manager is not permitted on this project to sign legal appointment letters. Only the 16.2 appointment may sign legal appointment letters.

6.3.2. Construction Work Supervisor (CR 8.7)

The Principal Contractor must in writing appoint construction work supervisor/s responsible for construction activities and ensuring occupational health and safety compliance on the construction site.

6.3.3. Construction Health and Safety Officer (CR 8.5)

The Principal Contractor must appoint a suitably competent Construction Health & Safety Officer (CHSO) to co-ordinate his or her organization's health & safety efforts on the site.

The appointed CHSO must be full time on site and readily available during working hours. The CHSO must conduct monthly internal audits and random site safety, and equipment checks, including overall compliance with the site-specific construction health and safety plan and procedures, and compile a monthly CHSO report (see Annexure A) to be tabled at each site progress meeting. The CHSO must evaluate the contractors Health and Safety Plan. The minimum qualification for the CHSO must be a matric certificate, NQF 5 qualification with at least two years and more experience on building projects.

The CHSO that the Principal Contractor intends to appoint **must be fully registered as a CHSO** with the SACPCMP and shall provide a valid registration.

6.3.4. Health & Safety Representative / H&S Committee Member (OHS Act 17 & 19)

The Principal Contractor (PC) is required to appoint a **full-time Health and Safety Representative for the site**.

The appointed representative must have successfully completed the relevant Health and Safety Representative training course. All elections or appointments must be documented in writing.

Health and Safety Representatives are responsible for conducting regular site inspections using the prescribed Annexure A form attached. Records of these inspections must be maintained in the project's Health and Safety File. Any deviations or non-conformances identified must be addressed immediately by the responsible person.

The Health and Safety Representative will report to and liaise directly with the appointed Health and Safety Officer.

6.3.5. First Aider

The Principal Contractor must appoint a First Aider with a valid certificate of competency for the project.

The Principal Contractor together with the responsible First Aider must ensure that the first aid box is available on site and fully stocked. General Safety Regulations must be applied. The First Aider must be always available and accessible on site and should form part of the rescue team.

6.3.6. Risk Assessor

The Principal Contractor is required to appoint a competent risk assessor that's full time on site and must understand the process of identifying hazards and assessing risks emanating from the identified hazards.

This appointed person can be an already designated health & safety officer that's full time on site because the task of assessing risks is an ongoing process and therefore risk review process must be done regularly.

There must be a direct link to the personal protective equipment / clothing and training to be conducted throughout the contract.

7. GENERAL RISK MANAGEMENT

7.1. Health Risks and Medical Surveillance

All personnel, including Contractor employees, must possess a medical fitness certificate issued by a registered Occupational Medical Practitioner before starting work. The commencement of Medical Certificate of fitness is scheduled during the pre-employment phase, and Annexure 3 should be on record.

Authorization to retain, share, and dispose of data must be documented under the Protection of Personal Information Act (POPIA).

Every worker, including those employed by Sub-Contractors, must have a valid medical fitness certificate before commencing work. No employed / contract worker will be allowed on site without a valid medical certificate of fitness. Annual medical surveillance is mandatory unless a more frequent schedule is specified.

Provisions for retaining medical records for the required duration should be duly acknowledged. Given the potential health risks the following aspects are to be included in each medical surveillance intervention:

- Full medical, surgical, and occupational history.
- Full physical examination of all systems, and
- Referral if required for the management of identified health issues that may affect the worker.

Specific testing for existing conditions and limitations relative to exposure could include, but are not limited to:

- Audiometry (hearing tests).
- Spirometry (lung function testing).
- Chest X-rays.
- Liver function testing (volatiles), and

Any other relevant tests should be identified as part of the project. It is recommended that the Principal Contractor (PC) implement a medical surveillance plan for workers. In the case where employees should go for a **vertigo test** to confirm the worker's capability in terms of height phobia, which is essential to avoid any untoward incident/accident. Appropriate allowances for this should be included in the Bill of Quantities (BoQ).

7.2. Emergency Procedures

An emergency plan and procedure that is appropriate to the risks is required prior to commencement on site. It is advised that the system should be simple and easy for any worker to follow.

The emergency plan is to ensure the inclusion of local service providers where possible. Such arrangements should be made with these persons prior to the commencement of the project.

Local emergency telephone numbers must be displayed and made part of the emergency procedure.

The general principals of emergency management are to be applied as it applies to the hierarchy of control and management. The PC must consult with the Client in preparation of the emergency as buildings will be operational.

7.3. Fires and Emergency Management

Emergency preparedness is a critical component of this project and must be prioritised at all active sites. Emergency equipment, including appropriately rated fire extinguishers and fully stocked first aid boxes, must be readily available and accessible at all times. The quantity and type of fire extinguishers must correspond to the specific fire risks identified on site and in relation to the activities being undertaken, and all plant and machinery must also be equipped with suitable extinguishers. Open fires are strictly prohibited on all sites, and clearly designated smoking areas with controlled smoking times must be established and enforced.

The site must have appointed emergency responders, including a competent Level 3 First Aider, who will form part of a clearly defined emergency response team, and must be formally appointed, with his/her roles and responsibilities clearly documented. Prior to the commencement of any work, a comprehensive emergency response plan must be submitted. This plan must outline the procedures and actions to be followed in the event of various emergencies, including fire, injury, environmental incidents, and disease outbreaks. It must also demonstrate coordination with local emergency service providers, such as fire and ambulance services, and ensure that all relevant arrangements are finalised before project initiation. Furthermore, the plan must incorporate specific protocols to address the risk of a

disease outbreak, including preventative measures, health monitoring, and detailed response strategies.

Giving due consideration to site-specific emergency risks and ensuring the availability of emergency equipment, trained personnel, and a well-structured response plan is essential to maintaining safety, legal compliance, and operational integrity across all active sites.

7.4. Incident Management and Compensation Claims

All incidents and accidents are to be investigated. All serious incidents involving any form of disabling injury or fatality are to be reported to the Designer (PA) /Client /CHS Agent immediately. This shall be confirmed in writing following the incident.

Proof of compensation claims, DOEL reports, and other relevant information must be on site for verification. All Occupational diseases to be reported to Compensation Commissioner

7.5. Personal Protective Equipment (PPE) and Clothing

The PC is to provide PPE to all employees free of charge.

The wearing of the identified SANS approved PPE at all times is non-negotiable.

- Hard hats: Chin strapped hats must have a safety breaker strap (Applicable only to employees performing work at height).
- Protective footwear.
- Overalls must be high-visibility and clearly display the company name, with reflective strips for enhanced worker visibility.
- Eye protection (as required)
- Attenuated hearing protection.
- Reflective jackets - only for supervisors and visitors (no bibs)
- Respiratory protection (minimum of FFP2).
- Gloves.
- other necessary PPE identified from SDS's and/or risk assessments.
- PPE for Visitors (Reflector vest and Hard hat only)

7.6. Occupational Health and Safety Signage

On-site H&S signage is required. Signage shall be posted up at fixed or temporary working areas, or other potential risk areas/operations. These signs shall be in accordance with the requirements of the General Safety Regulations or SANS requirements as amended. Signage is to be noted on the site drawings indicating where fixed/temporary signage is required.

- 'Hard hat area' or other PPE requirements noted.
- First aid box positions (including vehicles); and
- Fire extinguishers.
- Assembly Area
- Construction work in progress
- No Un-authorized entry.

Signs shall be posted at areas of work on site indicating that a construction site is being entered and that persons should take note of H&S requirements.

7.7. Induction of Employees and Visitors, General H&S Training

A simple, formal induction program is to be prepared which is site specific. Inductions must be carried out for all workers and visitors (including Client and PSP's) to the site. Record of induction must be kept for a period of 2 years.

DSTI training is required to ensure workers are familiar with the risks and H&S measures of the work or tasks to be done.

Penalties for non-compliance regarding induction is stipulated in penalty clause.

7.8. Access Control Measures

Access control measures apply to all individuals involved in the construction project, including contractors, subcontractors, suppliers, and visitors. The contractor is responsible for maintaining a secure, safe, and controlled environment within the client premises throughout the duration of the project. This includes strict adherence to safety protocols and proactive risk mitigation to protect staff, and all other occupants of the clients.

7.9. Protection of Members of the Public

The contractor must implement appropriate measures to ensure the safety of the public at all times. This includes the installation of adequate barriers and warning signage around the work area. Workers are to actively deter public access to hazardous zones. Where work interfaces with public footpaths or bridges, these must be closed off or made safe to prevent injury. Traffic management systems, including signage, must be in place at site entrances to alert motorists of construction vehicle movements. Roads leading to the site are to be kept free of mud to prevent slip hazards. Refer to the plant risk assessment for plant-specific precautions. A safe means of access must be established and agreed upon for both construction vehicles and affected homeowners. POPI Act Policy, Procedure and Control

The PC will ensure that the company's control of information is known to all employees and that the employees had signed off on Medicals, Monitoring and Incident information being shared, and all other contractual information sharing requirements. All personal information collected for health and safety purposes will be handled in accordance with the Protection of Personal Information Act (POPIA). Such information will only be used for the intended purpose and will not be disclosed to unauthorized individuals or entities.

The Contractor must get consent before collecting any personal information, and individuals will be informed about the specific purpose for which their information is being collected or used. Personal information will be retained only for the necessary duration required for health and safety compliance purposes.

Each employee of the contractor is required to sign a declaration granting permission for us to capture photographs during audits and utilise them exclusively for reporting purposes to the client. (see declaration form Annexure C).

8. Communication On Site

All H&S communication during the project between the CHS Agent and the PC will be done through the PA/ Clerk of works/ Client and will be in writing, including the issue and responses to non-conformances and H&S audit results.

9. Care of Workers on Site (Welfare)

Adequate welfare facilities must be provided for all workers at all times, including access to clean and safe drinking water, decent shelter, and hygienic toilet facilities. The required ratio is **one toilet for every 15 workers**, and **separate toilets must be provided for men and women**, clearly marked to ensure privacy and dignity for all employees. These facilities must be maintained in a clean and functional condition throughout the duration of the project.

Clean drinking water should be accessible to all employees continuously, with an emphasis on the importance of protecting this precious resource. Hand washing facilities must be provided with soap and hand sanitiser.

A sheltered eating area is required for on-site workers.

Moreover, an information board within employee facilities should be utilised to display audits and awareness notices. Department of Employment and Labour (DoEL) information must be prominently displayed and effectively communicated.

Arrangement can be made with the facility to use their ablution facilities, this arrangement must be done in writing and signed by both parties. These facilities must be used responsibly and returned in the same condition as they were received upon completion of the work. Under no circumstances may the Principal Contractor or their workers use facilities intended for staff or visitors of the healthcare facility

10. Discipline, Alcohol and Substance Abuse

A contractor working on site, regardless of the project duration, is expected to fully comply with all facility rules and regulations. This includes strict adherence to the client's safety protocols and operational requirements. All employees, including management, are required to follow instructions issued in the interest of health and safety. Any failure to comply with these instructions, company policies, or client safety rules will result in disciplinary action.

No individual is permitted to work or access the site while under the influence of alcohol or any substances that may jeopardize their own safety or the safety of others. Contractors are responsible for establishing an Alcohol Abuse Policy and implementing disciplinary procedures to ensure compliance with the policy.

11. Electrical Tools

The use of electrical tools involves potential hazards such as electric shock, burns, or fire. Safety measures include proper training on tool usage, regular equipment inspections, using tools with appropriate safety features, and following guidelines for electrical safety to prevent accidents.

12. Hoarding

Adequate hoarding to be done to reduce dust and noise and prevent public entrance to site. Security features must accompany the hoarding to maintain a secure environment for the existing occupants. Hoarding will be specified by the PA.

Please be advised that throughout the construction phases, the clients will remain fully operational. It is crucial to prioritize the quality, specifications, and placement of temporary hoardings to effectively contain dust and reduce noise levels.

13. Construction And Mobile Plant

The principal contractor must ensure that equipment in use is in good working order and fit for purpose. The PC must plan for access and egress, ensuring no unsafe situation or blocking of emergency routes occur unless planned for and coordinated with PSP.

14. Working at Heights

Prior to commencing any work, it is imperative to formulate a Working at Heights Fall Protection Plan, inclusive of a Fall Arrest Plan, developed by a qualified professional. A competent individual, as defined by Unit Standard 229994, must develop a practical, site-specific Fall Protection Plan in accordance with Construction Regulation 10 (CR 10). This plan must be submitted to the DPWI Construction Health and Safety Officer (CHSO) for evaluation and approval.

A meticulous risk assessment must be conducted to identify and address potential hazards related to working at heights, including but not limited to falls, unstable surfaces, and adverse

weather conditions. To uphold safety standards, all workers must undergo thorough training and demonstrate competence in working at heights.

Furthermore, employees required to work at heights must be declared medically fit by an occupational health practitioner, and valid medical certificates must be obtained and kept on record prior to commencing such work. These medicals must specifically cover the physical and psychological fitness required for working at elevated positions.

All ladders used on-site must meet SABS-approved standards to ensure the safety of personnel throughout the project. The appointment of a competent person to erect, supervise, and inspect scaffolding is crucial for ensuring compliance with SANS 10085 standards. Additionally, fall arrest and fall protection equipment must be readily available on-site and subjected to regular inspections and maintenance to ensure their ongoing integrity and effectiveness.

15. Delivery of Materials

The Principal Contractor (PC) is responsible for the proper management of all material deliveries to the site, ensuring coordinated stacking and storage. Dust generation should not cause a nuisance to the health facilities and surrounding communities.

Material stacking must be conducted in a controlled manner, with a focus on minimising wastage. Lay down areas should be cordoned off to manage multiple contractors effectively, ensuring the safety of everyone. All sand and dust-related materials must be securely enclosed to prevent wind-driven dust nuisances at the health facilities and surrounding communities.

16. Site Establishment and Requirements

While the client may have existing security services in place for the facility, it must be clearly understood that the contractor is fully responsible for the security of their own personnel, tools, equipment, and materials. The contractor is therefore required to appoint their own security personnel as necessary to safeguard their operations. Under no circumstances should the contractor request the use of any room within the facility for storage purposes. The Principal Contractor (PC) must provide their own lockable storage facility for secure storage of tools, materials, and equipment.

In terms of site utilities, the contractor may make arrangements with the Facility Manager for access to water and electricity, should the need arise. Alternatively, the contractor may choose to provide their own supply. Any arrangements made regarding the use of the facility's utilities must be formalised in writing and signed by all relevant parties, ensuring clarity of responsibilities and avoiding any misunderstandings during the project.

These provisions are essential to maintain order, accountability, and smooth cooperation between the contractor and the facility during the project.

Site lay out plan indicating:

- Access and security controls
- Site Office
- Lay down areas.
- Parking
- Escape routes (emergency) and assembly points
- Fire extinguishers
- First Aid Equipment
- Waste

- Facilities

17. Paint Work

Please treat wastewater from cleaning paint brushes as hazardous chemical waste and avoid disposing of it directly into drainage systems. Instead, implement a filtration system to remove paint waste.

18. Ergonomics

Conduct a thorough ergonomic risk assessment carried out by a competent professional. Provide consistent guidance to workers regarding ergonomic considerations in tasks, equipment lifting, and repetitive movements.

19. Biological Waste and Hygiene Control

The Principal Contractor (PC) must implement strict control measures and procedures for the handling, storage, and disposal of waste in accordance with the approved Waste Management Plan and applicable regulations. All waste generated on site must be managed responsibly, with particular emphasis on segregation, containment, and disposal at accredited facilities to ensure environmental compliance and minimise health risks.

Special attention must be given to biological waste and hygiene control throughout the project, especially in high-risk areas. This includes establishing and maintaining proper drainage systems, as well as regular cleaning and safe removal of biological and chemical waste materials. All procedures must comply with relevant health and environmental standards to prevent contamination or exposure risks.

Personnel handling such waste must use the appropriate personal protective equipment (PPE), including disposable gloves, masks, and other protective gear, to safeguard against potential hazards. Regular training and supervision should be provided to ensure strict adherence to these procedures.

20. Electrical

In addition to the requirements of the Electrical Machinery Regulations and the General Machinery Regulations, any electrical distribution board used for construction work shall be fitted with suitable earth leakage protection and must have a valid Certificate of Compliance (COC) issued by a qualified electrician. All electrical leads must be properly and firmly connected and plugs and sockets shall be maintained in good and safe condition, each accompanied by the appropriate COCs to verify compliance and safety.

All electrical apparatus, excluding electrical hand tools, shall be equipped with a physical “lock out” system that prevents operation by anyone other than an authorized supervisor. A “lock out” sign must be prominently displayed when the apparatus is not in use.

Furthermore, method statements and safe work procedures are required for all tasks involving electrical tool to ensure safe operation and compliance with safety standards. The validity and availability of Certificates of Compliance for all electrical equipment must be confirmed and kept on site for inspection at all times.

21. Hand Tools

No handmaid or damaged tools may be used on site.

The Principal Contractor needs to exercise control over all contractors on site. Hand tools may only be used for its intended purpose.

A competent person must be appointed to inspect hand tools monthly.

Inspections need to be recorded on a register and each tool identified with a unique number. Inspection of equipment and tools.

The following items of equipment must be regularly inspected and maintained and appropriate records kept.

1. First Aid dressing registers
2. Fire equipment
3. Portable electrical equipment
4. Stacking and storage inspections
5. Regulations for Hazardous Chemical Agents (RHCA)
6. Ladders
7. Fall arrest systems
8. Scaffolding
9. Anchorage devices
10. Construction vehicles and mobile plant.
11. Health and Safety Representatives checklists

22. Ladders and Ladder Work

The Principal Contractor shall appoint a competent person in writing to inspect all ladders monthly and record such findings in a register.

Ladders are to extend one meter above a landing and must be secured at the top and have a secure, non-slip base.

All ladders that do not comply with Health and Safety standards are to be removed from the site immediately.

23. Electrical and Mechanical Work

Electrical work and mechanical work are exclusively to be executed by individuals recognised as competent in their respective fields. Strict adherence to safe work procedures is mandatory, with continuous monitoring by competent personnel. Any electrical installations and mechanical works necessitating a Certificate of Compliance (COC) must only be overseen by an appointed person duly approved by the Electrical and Mechanical Engineer. Non-compliance with these directives may result in legal consequences. The electrical contractor must be registered with the Department of Employment and Labour (DOEL), and the competent person on-site must match the registered name. Their competency to manage required voltages needs verification, along with proof of competence.

Competent person must issue Certificates of Compliance (COC), cover temporary electrical installations and mechanical installations and provide a temporary disconnection certificate with a lockout procedure for demolition and refurbishment work.

All electrical and mechanical installations must adhere to the Health and Safety Act, Construction Regulation 2014, Electrical Installation Regulations (EIR), and relevant standards. Specialised contractors must handle such work, and compliance with Regulation 7 of Construction Regulations 2014 is mandatory when appointing them.

24. Non-Conformances

Should, at any time, the works, or part of the works, be stopped due to unsafe acts or non-compliance with the Clients OHS Specification or PCs H&S Plan; the PC shall have no claim for extension of time or any other compensation.

25. Health And Safety File

As required by Construction Regulation 7, the Principal Contractor shall keep and maintain a Site Health and Safety File where all relevant health & safety records will be kept, including the Site-Specific Health & Safety Plan, and the relevant construction risk assessments as referred to above. Other relevant information includes but not limited to:

- a) Client Site Specific Health and Safety Specification and HIRA
- b) PC appointment letter

- c) Signed 37.2 Mandatory Agreement
- d) PC approved OHS Plan and approval letter.
- e) Notification of Construction Work
- f) OHS Administrative statutory documents:
 - Valid Letter of Good Standing with the Workmen's Compensation Commissioner
- g) OHS Policies and procedures signed by the CEO, dated with a review provision.
- h) Other Policies (POPIA, Alcohol Abuse, Drug Abuse, HIV/Aids, Smoking, Environmental, Waste Management, PPE, Competency)
- i) Organogram with appointments, competencies, and statutory registrations
- j) HIRA for proposed site activities and works.
- k) Safe work procedures / Methodologies/ Plans: inclusive of but not limited to:
 - Working at heights/ Harnesses and or scaffolding and use of ladders
 - Dust control
 - Waste management plans
 - Facility management and planning for safe access to the works areas.
 - Electrical connection of pressure washers
- l) Induction program
- m) Training and toolbox talks. Upliftment of competency requirements as required for this works.
- n) Inspection registers with appropriate policies and procedures
- o) Emergency management, relevant contact numbers.
- p) Hazardous Chemical management
- q) Construction environmental management system
- r) Laws and Regulations
- s) Communications
- t) OHS Committee

- u) Employee medical monitoring:
 - OHS Medicals fit for work.
 - Employee ID; s
 - Assessment for work at heights
 - Ergonomic surveys
 - Proof of UIF payments
- v) Incident Management:
 - Procedures
 - General monthly incident management register
 - Annexure 1
 - COIDA forms

- u) Audits
 - Internal
 - CHSO Audits and Inspections

26. Project Close Out Requirements

The documentation submitted and approved following the awarding of the contract will be used to form the H&S file. On completion of the project, a consolidated health and safety file consisting of the following documents but not limited to, shall be submitted to the DPWI CHSO:

- The H&S Plan and the approval by Client.
- PC Appointment Letter.
- Mandatory Agreements with Clients.
- Notification of Construction Work
- Record of Competencies (CVs) and appointments (close out of appointments).

- Training Records.
- Method statements.
- Risk assessments.
- Safe work procedures and specialized plans.
- Emergency and Injury Management (Accident Stats and Investigations);
- Medical surveillance records.
- Registers and Checklist.
- Internal H&S Audit Reports.
- Contractor H&S Audit Reports.
- Non-Conformance Reports.
- COC's
- Any other documents which may be required by the DPWI OHS office.

The file must be submitted for close out and sign off by the CHSM and then submitted with a performance close out report to the Client for storage.

27. Penalties

The Client, CHSO, PA observing an unsafe act or practice reserves the right to stop work, and issue non-conformances when SHE violations are observed, for both PCs and/or their Contractors. Expenses incurred as a result of such work stoppage will be for the PCs account.

Penalties shall be enforced on the principal contractor for SHE related non-conformances identified for both the Principal Contractor and/or his/her sub-contractor(s) and/or supplier(s) pertaining to this contract on SHE requirements.

Penalties applied will be according to the following tables and where issued, the amount indicated on the non-conformance will be deducted from the certificate of the PC. Failure or refusal on the part of the PC or their Contractors to take the necessary steps to ensure the safety of workers and the general public in accordance with these specifications or as required by statutory authorities or ordered by the engineer, shall be sufficient cause to apply penalties.

In cases where a penalty has been issued and the contractor provides reasonable evidence to support the non-issue of the penalty; the client or PA may withdraw the penalty.

Over and above the details relating to the penalties noted in the SHE Management System, and Tender document, spot fines will be issued as follows, according to 'minor', 'medium' or 'severe' non-conformances.

The term "count" refers to the number of non-conformances or issues, so if there are multiple unresolved issues, the penalty would be calculated by multiplying R5 by the total number of issues that are still non-compliant past the agreed target date.

For example, if there are 3 non-conformances unresolved, the total penalty would be 3 x R5 = R15.

Absence of the reference to a possible penalty for non-conformance does not mean one cannot be issued. All aspects will link to legal non-compliance or risks identified in the SHE Specification or work being done at the time. The 2 forms of penalties will be used together, with immediate penalties issued as they apply.

In addition, a time-related penalty of R500,00 per day over and above the fixed penalty may be deducted for non-compliance to rectify any non-conformance within the allowable time after a site instruction to this effect has been given by the Designer. The site instruction shall state the agreed time, which shall be the time in hours for reinstatement of the defects. Should the Contractor fail to adhere to this instruction, the time-related penalty shall be applied from the time the instruction was given.
