Appointment of a Service Provider to
implement and support an Online Pricing
Tool

DBSA ICT TENDER FOR AN ONLINE PRICING
TOOL

APRIL 2023

1. BACKGROUND

The Development Bank of Southern Africa (“the DBSA” or “the Bank”) is a Development Finance Institution (“DFI”) wholly owned by the Government of the Republic of South Africa (“the shareholder”), with a mandate to finance infrastructure projects across Africa. This is achieved primarily through providing debt financing to infrastructure projects in the markets within which the Bank operates.

DBSA primarily plays a key role in the preparation, funding and building phases of the infrastructure development value chain. The diagram below (Figure 1) illustrates the various services as well as the key target markets per value chain segments.

FIGURE 1: DBSA'S PRIMARY FOCUS AREAS

2. DBSA ENVIROMENT IN CONTEXT

DBSA is a small to medium organisation with the following dynamics that need to be taken into account when scoping and pricing in response to the tender. DBSA employs approximately 750 employees, all located at the DBSA Head Office in Midrand, Johannesburg. DBSA, through its Infrastructure Delivery Division (IDD), owns two satellites offices, in East London (Eastern Cape) and Polokwane (Limpopo).

3. INTENTION and BACKGROUND

The DBSA would like to procure an Online Pricing Tool to assist in determining the viability of a deal.

Currently, the Pricing Tool is a password-protected, excel-based spreadsheet, used to price deals. This Tool makes use of several inputs and produces a number of metrics, with certain metrics used to determine whether a deal is economically viable or not. The MIS only updates the Tool for inputs changes or methodology as required by the Bank.

The Pricing Tool is used to ensure that deals are price with a consistent methodology as agreed by the Bank. A variance would apply if there are methodology changes or certain inputs are changed, i.e. change

to operating cost allocation, change to capital requirement, change to country risk, etc. Pricing Working Group is a sub technical committee of IC, which ensures that the pricing tool is applied consistently across all deals, i.e. ensure that inputs are correct, and the correct pricing tool version is used.

As already stated, this is currently an excel-based Tool, and a decision has been taken to convert it to an Online Tool that is auditable and can be accessed securely from anywhere, at any time. The solution will be hosted at the DBSA's private or public cloud.

4. OBJECTIVES

The objectives include addressing the following:

- To convert the existing excel-based pricing tool spreadsheet into a fully functional online pricing tool, accessible anywhere at anytime
- Easily access to deal information which is centrally controlled through an Online Pricing Tool
- Easier version control as a result of changes, especially when deals are not approved
- Single version of the truth through one centrally controlled database

5. SCOPE OF WORK

The scope of this exercise encompasses the business objectives identified, with relation to automating the Pricing Tool from a manually based excel tool to an Online Pricing Tool.
