DETAILED TECHNICAL SPECIFICATION

1. Background

The SABC KZN office has two Chillers, which are part of the water-cooling system. Water is channelled from the cooling towers into the Chillers through the condenser pipes. Over the years the condenser water pipes have developed internal corrosion, as a result the risk of the plant room flooding is imminent, if the status of the corroded pipes is not addressed.

The most contributing factor for the corrosion in the pipes is the office proximity to the sea. There have been a few incidents, whereby the condenser pipes burst due to rust, resulting in flooding in the plant room. Based on this, it is evident that the equipment is long overdue for a replacement to safeguard the Chillers for the next coming years.

2. Scope of work

- Removal of all corroded water pipes and dispose away from site.
- Connect the new water condenser pipes to the Chillers, run and test the equipment before handover.
- The new piping will be hot dip galvanized and coated with anti-corrosion prima; final finish will be painted brilliant green.
- Piping will be pressure tested to 10 bars for 24hrs, certificate to be issued.
- The new piping must be warranted against defects for 5years.
- Existing water isolation valves to be used.
- Butt weld to used.
- Mild steel with thickness of 10-20mm.
- Length of the pipes to be replaced 40m

3. RFQ Response Information

Effective Date of Bid

Vendors should state in writing that their quotation to the SABC and all furnished information, including price, will remain valid and applicable for 90 days from the date the vendor quotation is received by the SABC.

- 5.2. A list of names of working staff and ID proof will be submitted to the SABC. Workers will wear clothing clearly identifying the identity of the supplier.
- 5.3. The site area is inside a broadcasting environment; therefore, care should be taken to reduce noise and dust when executing the work.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
