

b. Company Experience

The Tenderer shall provide/stipulate the **Company's Work Experience** relating to service delivery projects and/or faecal waste extraction projects. The relevant work experience will mean the tenderer has previous contractual engagement where servicing of sanitation and/or faecal waste extraction were provided. The Tenderer must submit proof, such as **completion certificates and/or reference letter and/or appointment letter** which clearly indicate the type of work.

Company experience must be listed on **Returnable Schedule F13D**, including both completed and current contracts. To demonstrate relevant work experience for current contracts, the tenderer must provide an appointment letter and/or reference letter to substantiate the work performed under the current contracts. For completed contracts, the tenderer must submit both appointment letters and completion certificates. Each appointment letter must indicate the contract duration, specifying the start and end dates (day, month and year). Failure to complete the relevant table and provide the necessary supporting evidence may result in the tenderer being unable to achieve the required minimum score.

c. Equipment

i. Vacuum Tanker

The tenderer is expected to remove a minimum of 1860kl of waste per week. Therefore, number of vacuum tankers with high pressure water dispensing unit is required per area for this tender is based on the volume of waste the Service Provider is expected to remove in each specific area. The Tenderer shall provide details of the waste tank capacity of the required mechanical equipment and **Proof of Ownership of a vacuum tankers (Licence Registration Certificate) or proof of an intent to hire a vacuum tanker for this tender (from the rental company to the tenderer)**. For intent to hire, the Tenderer must provide a letter and the intent to hire memorandum from the rental company. The intent to hire memorandum and the letter must be accompanied by the License Registration Certificates for the vacuum tankers that the Tenderer intends to hire from the rental company. **Refer to Returnable Schedule F13E.**

WORK AREA	MINIMUM NUMBER OF VACUUM TANKERS
Area 1	16
Area 2	14
Area 3	8
