

SD02-2025/2026 - APPOINTMENT OF A SERVICE PROVIDER TO PROVIDE AN E-MOBILITY SERVICE TO THE DEPARTMENT OF SOCIAL DEVELOPMENT FOR A PERIOD OF THIRTY-SIX (36) MONTHS

NO	INQUIRY	RESPONSE
1	Please provide us with the breakdown of the 700 sim cards. What we wish to know is how many employees (in each employment level) should be allocated what amount of bundles per month?	<p>We do not assign individual data bundles per person.</p> <p>We require a Corporate Data Bundle that we can use and share across all 700 SIMs. Each user, dependent on role (and not level) is assigned a maximum amount of data they are allowed to use in a month – data cap.</p>
2	<p>We wish to know how many employees get assigned what maximum of data per month, unless you're saying the dept will manage the assignment (and/or sharing) by themselves.</p> <p>For instance we don't wish to quote R100k for data bundles per month, only to find that (out of a staff complement of 90 employees) 5 employees are assigned 2TB while the rest is assigned 500MB each</p>	<p>Yes, we manage the individual data allocations ourselves.</p> <p>We are not looking for individual data bundles. We want a Corporate APN with a Corporate data bundle.</p> <p>We will manage users using an online portal provided by the service provider.</p>
