CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

1. PURPOSE

- 1.1. To appoint the service providers for the supply of tools of trade to the Department of Forestry, Fisheries and the Environment for the Source to Sea Programme as part of the Economic Stimulus Package towards Covid-19 response in the four (4) Coastal Provinces in South Africa.

2. INTRODUCTION AND BACKGROUND

- 2.1. The Department of Forestry, Fisheries and the Environment (the DFFE/The Department) is entrusted with a crucial legislative mandate to ensure that all citizens within the Republic of South Africa live in an environment that is not harmful to their health and to have the environment protected for the benefit of current and future generations.
- 2.2. The DFFE has over the years through reasonable legislative and other means endeavoured to ensure that the right to an environment that is not harmful to health and protection of the environment are achieved. The COVID-19 pandemic is not only a global challenge and a public health crisis, but it has also severely affected the South African economy. South Africa has experienced significant reductions in income and a rise in unemployment rate.
- 2.3. It is quite evident that littering and illegal dumping are some of the most common problems in South Africa affecting our coastal provinces. Ineffective waste management practices can affect the well-being of communities and this can be further exacerbated by increased illegal dumping and littering.
- 2.4. In April 2020, His Excellency President Ramaphosa announced an economic recovery stimulus package in order to create jobs and support livelihoods. The Source to Sea expansion project represents the contribution by the Branch: Oceans and Coasts towards the implementation of the Presidency's Employment Stimulus Initiative.
- 2.5. Marine litter and debris, such as plastic items, fishing gear, food packages, glass, metals, etc. have become environmental threats of international concern not only because it washes up on beaches and shorelines worldwide and looks unsightly, but also because debris can be transferred from one country to another via ocean currents and it impacts on commercial fisheries and other coastal economic sectors throughout the world. Rivers and other waterways such as storm-water canals are common ways in which litter is transported to the coastal environment.

- 2.6. The Source to Sea Project was initiated by the Department in September 2019 to address the increasing impact of waste from land into the marine environment. The objectives of the Source to Sea Project are primarily to:
- Investigate areas of litter concern/hotspots along priority rivers and other waterways;
 - Deploy litter recovery resources, including increased clean-up efforts, to recover litter from the identified priority rivers and waterways;
 - Monitor and evaluate (characterise) the types and quantities of litter collected from the rivers, and
 - Identify and implement at least one waste management intervention in one community per priority river system.
- 2.7 As part of the Presidential Employment Stimulus Programme the Source to Sea Project will be expanded into **16 coastal districts** and the intent is to create employment for **100 young people per district** for a period of **6 months**.

3. OBJECTIVES

- 3.1 The Department would like to procure the services of the Service Providers to supply tools of trade and selected personal protective equipment items for the implementation of the Source to Sea Programme within the 16 coastal districts of South Africa.
- 3.2 The objective of this request is to appoint service providers that will supply, deliver and offload the following tools of trade at the Departmental Branch Oceans and Coasts offices in Cape Town (physical address highlighted at the bottom of this document) which they bided for:
