2. BACKGROUND

The South African Weather Service (SAWS) is a public entity of the Department of Forestry, Fisheries and the Environment (DFFE) and derives its mandate from the South African Weather Service Act (No 8 of 2001 as amended). The public entity is listed as a Schedule 3A Public Entity in terms of the Public Finance Management Act (PFMA).

SAWS is tasked with providing timely and accurate scientific data in the field of meteorology to the broader South African society: a combination of both public good and commercial services. The organisation plays a vital role in South African public life, not just as a provider of key services, but also in empowering citizens to adapt the effects of the ever-changing weather.

In October 2023 South African Weather Service (SAWS) relocated from Eco Park head office to a new office building at ABSA building in Centurion CBD with limited space to accommodate all SAWS assets.

The excess assets were moved to the off-site storage facility and some to Irene to avoid a cluttered environment in the new office building. The offsite storage period is 6 months started from the 1 November 2023 to 30 April 2024.

Some of the offsite storage assets were previously impaired, scrapped and recommended for disposal and stored at our old head office storages.

Due to the status of these assets, we therefore request that these assets be disposed all at once to the highest bidder at the current condition.

Therefore, SAWS is disposing these assets in line with the 80/20 preference point scoring system as determined in the Preferential Procurement Regulations, 2022 pertaining to the Preferential Procurement Policy Framework Act, Act No 5 of 2000.
