8. GENERAL CONDITIONS

In the absence of any such clear indication in writing from a response to RFP, the HDA shall deem the response to RFP to have waived any right to confidentiality and treat such information as public in nature.

Where a Bidder at any stage during the RFP Process indicates to the HDA that information or any response to RFP requested from the HDA is or should be treated confidentially, the HDA shall treat such information or response to RFP confidentially, unless the HDA believes that to ensure the transparency and competitiveness of the RFP Process the content of the information or response to RFP should be conveyed to all Bidders, in which event it shall apply the following process:

- The HDA shall confirm with the Bidder whether the raising of confidentiality applies to the entire response to the RFP or only specific elements or sections of the response;
- Where confidentiality is maintained by the Bidder and the HDA is of the opinion that the information or response to RFP if made publicly available would affect the commercial interests of the Bidder or is commercially sensitive information, the HDA shall not release such information to other Bidders if providing such information or response to the RFP would prejudice the competitiveness and transparency of the RFP Process;
- Where the HDA is of the opinion that information provided is not commercially sensitive or would have no impact on the commercial interests of the relevant Bidder if released and fairness and transparency requires that such information be released to all Bidders, the HDA may:

- ii. obtain legal advice regarding the confidentiality of the relevant information and/or response to RFP and the legal ability of the HDA to release such information; or
- iii. refrain from releasing the information and/or response to RFP, in which event the HDA shall not take account of the contents of such information in the evaluation of the relevant response to RFP.

ANNEXURE A: SCOPE OF WORK

1. INTRODUCTION

The Housing Development Agency (HDA) is a national public sector development agency that inter alia has the mandate to identify, acquire, prepare, and develop suitable land for human settlements. The HDA also undertakes the programme and project management for development of housing and human settlements. The HDA carries out its functions in partnership with a range of stakeholders including national, provincial and local government and municipalities, as well as with communities, developers and financiers. Established in 2009, the HDA was established by an Act of Parliament in 2008 and is accountable through its Board to the Minister of Human Settlements. For more information about the HDA, please visit our website: www.thehda.co.za.

2. THE DEPARTMENT OF HUMAN SETTLEMENTS MANDATE

FRAMEWORK FOR THE NATIONAL HOUSING POLICY: A VISION FOR HOUSING IN SOUTH AFRICA

The housing vision is the establishment of viable, socially and economically integrated communities, situated in areas allowing convenient access to economic opportunities, as well as to health, educational and social amenities in which all South Africans will, on a progressive basis, have access to:

- a) Permanent residential structures with secure tenure ensuring internal and external privacy and providing adequate protection against the elements; and
- b) Potable water, adequate sanitary facilities and domestic energy supply.

The housing vision is underpinned by principles of sustainability, viability, integration, equality, reconstruction, holistic development and good governance. South Africa's housing policy and strategy must contribute to a non-racial, non-sexist, democratic integrated society. The goal is to improve the quality of living of all South Africans with an emphasis on the poor and those who cannot independently satisfy their basic housing needs.

3. TREASURY INSTRUCTION PRACTICE NOTE

The project shall be implemented under the conditions of the National Treasury. The National Treasury issued an Instruction Note No. 03 of 2019/2020 which prescribes the minimum requirements for the implementation of Infrastructure Delivery Management System (IDMS) through Framework for Infrastructure Delivery and Procurement (FIDPM) by State Organs. The IDMS is the Government's chosen management system that guides, directs and enables infrastructure delivery across the three (3) spheres of Government.

The Housing Development Agency will terminate/ amend the scope at any phase of the project should it deem the project not to be viable and feasible. The service provider shall request permission from the HDA to proceed to the next phase of the project.

4. BACKGROUND

Sea Point represents a dynamic urban space within Cape Town, characterized by strong economic activity, a thriving property market, and a vibrant tourism sector. However, challenges such as rising property prices, affordability concerns, and spatial inequality remain key considerations for urban planners and

The Housing Development Agency

polymakers. The municipality's focus on inclusive housing solutions and mixed-use developments will be critical in shaping the future of Sea Point and ensuring sustainable urban growth. Sea Point's growth aligns with the city's MSDF vision for sustainable densification, but affordability remains a challenge. Strengthening inclusionary housing policies, supporting affordable housing developments, and fostering PPP initiatives will be essential in shaping a balanced, integrated urban future.

The Housing Development Agency's primary mandate which is to identify, acquire, hold, develop and release suitable land and properties for sustainable human settlements is aligned with the City of Cape Town's plan on inclusive housing solutions.

5. PROJECT BACKGROUND

- The Housing Development Agency purchased the SABC building, originally developed for usage by SABC employees as boarding quarters, to fulfil its primary mandate and drive rapid housing delivery. The SABC building portfolio in the vicinity will be converted to a high-rise residential area that will cater for middle to high income individuals. The status of the properties is as follows:
 - ERF 1220 : Property is owned by the HDA – **focus area for this ToR**
 - ERF 753 : SABC vehicle maintenance workshop
 - ERF 760 : SABC Offices

- Figure 1: Image showing top view of Erf 1220, Erf 753 and Erf 760

6. PURPOSE

- To appoint a qualified multi-disciplinary team to deliver end-to-end development services for a high-rise building on the former SABC Rockland Villas site in Sea Point, Cape Town. The appointed team will be responsible for:

The Housing Development Agency

- Conducting market analysis and specialist engineering studies.
- Managing demolition of the existing structure.
- Providing planning, architectural, and engineering design services.
- Preparing procurement and tender documentation.
- Overseeing construction, marketing, and sales.
- Managing project implementation and close-out

- This appointment requires expertise across engineering, construction, development planning, and real estate marketing.

7. PROJECT OBJECTIVE

To deliver a highly sustainable and contextually appropriate housing solution rooted in advanced green building principles that maximize resource efficiency, minimize environmental impact, and ensure long-term resilience and climatic responsiveness.

8. COMMON BUILDING CLASSIFICATION CRITERIA

The Housing Development Agency proposes the table below as a reference for building height classification, aligned with SACAP's Identification of Work (IDoW). While South Africa does not have a universally adopted classification system across all regulatory bodies, the framework presented reflects commonly accepted industry norms, planning guidelines, and international best practices within the local built environment.

Table 9: Table defining building heights

Classification	Height Range (Typical)
Low-rise	1-3 storeys
Mid-rise – medium complexity projects	4-8 storeys
High-rise – high complexity projects	9+ storeys
Skyscraper	>100m
Super tall	>300m

9. KEY PROJECT CONSIDERATIONS

The key development considerations relating to the site and its surroundings, according to site inspections conducted by the HDA are as follows:

- The building has remained unoccupied for an extended period, resulting in uncertain levels of deterioration and associated safety risks, which cannot be reliably quantified at this stage. Additionally, as-built drawings or records are available to inform a condition assessment. Based on preliminary observations, the HDA has determined that the structure is likely unsound and recommends demolition prior to the commencement of any redevelopment work. The appointed professional team is required to conduct a detailed assessment and provide recommendations, taking into account any potential heritage significance and the surrounding urban context.
- Significant structural damage has been observed, including corroded and exposed reinforcement bars in the first-floor slabs, primarily due to the corrosive coastal environment.

The Housing Development Agency

- Uneven foundation settlement, likely caused by prolonged water infiltration, has resulted in horizontal and vertical cracks exceeding 10mm in structural wall plates.
- Internal timber staircases have collapsed due to continuous moisture ingress and damage from previous fires.
- The roof trusses have been severely compromised by fire damage, resulting in extensive water ingress during precipitation events.
- The asbestos roof tiles have deteriorated due to lack of maintenance, and the stormwater management system is non-functional due to multiple breakages.

- Figure 2: The figure below depicts the external condition of the building

The Housing Development Agency

10. TOWN PLANNING ANALYSIS

10.1. Project Locality

The building is located on Erf 1220 in Sea Point, a suburb on Cape Town’s Atlantic Seaboard within the

City of Cape Town Metropolitan Municipality, known for its middle-class and affluent neighbourhoods.

Figure 3: Map showing Erf 1220 and Erf 753 site boundaries.

10.2. Land Use

While the building is currently vacant, the surrounding area is predominantly characterised by apartments, luxury residences, hotels, retail shops, and the SABC radio station offices.

10.3. Ownership

The property, Erf 1220 Cape Town, is currently registered in favour of the Housing Development Agency, as reflected in deed of Transfer T000040433/2023.

The Housing Development Agency

11. OVERVIEW OF SCOPE OF WORKS

11.1. ENGINEERING SPECIALIST STUDIES

- The appointed service provider will be responsible for a comprehensive range of services, including but not limited to the following:

11.1.1. Market Demand Analysis

A detailed market demand analysis will be conducted to assess the feasibility of the development in line with local economic, demographic, and real estate trends. This will include studies of population growth, income distribution, housing demand, and competitive developments within the catchment area. The analysis will benchmark rental yields, sales absorption rates, and price points to ensure the project's product offering aligns with the market. Data-driven recommendations will be produced to guide unit mix, pricing strategy, and phasing of the development. This scope complies with industry best practices for market feasibility studies and will form the foundation for the financial viability of the project.

- Undertake a thorough macro and microeconomic market demand and supply assessment of the Sea Point Precinct.
- Undertake a real demand study to determine a suitable target for the housing residential development market for the proposed development areas while taking into consideration the mandate of the National Department of Human Settlements, policies, programme and funding.
- Compile comprehensive reports with data and information analysis, findings, conclusions, and recommendations that include the following:
 - **Location delineation** - defining clearly the area of coverage and rationale including what modes of transport, education and health amenities exist and are planned for, and link to potential beneficiaries.
 - **Location analysis** - determining what is the total need for various forms of affordable housing in the area. What is the size of a social housing portfolio and any other housing responses if available such as student housing, First Home Finance (FHF), etc. How is the current housing response segmented e.g., what is the percentage of informal vs formal settlements, subsidized vs privately funded, ownership vs rental, what is the land need to address current and future housing needs;
 - **Economic Profiling** - What is the size of each of the regional economies, the dominant contributors, what are the current and future forecast growth and performance patterns of the various segments of these economies. Provide an analysis of the economic profile in relation to the provision of affordable housing, student housing and first home finance programme target markets;

Context:

The site is located within the vibrant urban precinct of Sea Point, a well-established mixed-use neighbourhood along Cape Town's Atlantic Seaboard. The area is characterised by a blend of medium- to high-density residential developments, ground-floor commercial activities, and proximity to key social and recreational amenities, including the Sea Point Promenade, public parks, and retail nodes along Main Road.

The Housing Development Agency

Accessibility and Connectivity:

The property benefits from excellent accessibility via Main Road and other arterial routes, offering convenient connections to Cape Town CBD, Green Point, and Clifton/Bantry Bay. Public transport options, including MyCiTi bus routes, are readily available, enhancing connectivity and supporting transit-oriented development principles.

Urban Character and Surroundings:

The surrounding built environment displays a diverse architectural language, with modern apartment blocks interspersed with refurbished older buildings. This creates opportunities for a contemporary architectural response that respects the established urban grain while contributing positively to the evolving skyline of Sea Point.
