

T07/07/21: REQUEST FOR PROPOSALS TO SUPPLY HP SYNERGY SERVERS FOR MAIL SERVICE HIGH AVAILABILITY

CLARIFICATION QUESTIONS

1. We have noticed that in the Bill of materials provided the processor - P36924-B21 - Intel Xeon-Gold 5318Y 2.1GHz 24-core 165W Processor for HPE - for the SY480 compute module listed is incompatible with the SY480 compute module.

We have noted the error in our document. Please be advised of the following:

2	P36924-B21	Intel Xeon-Gold 5318Y 2.1GHz 24-core 165W Processor for HPE
---	------------	---

Is to be replaced with

4	P36925-B21	Intel Xeon-Gold 5320 2.2GHz 26-core 185W Processor for HPE
---	------------	--

2. The requested CPU is an option for the Sy480 Gen10 Plus only - not supported on the HPE Synergy 480 Gen10 Compute Module

We have noted the error in our document. Please be advised of the following:

2	871940-B21	Synergy 480 Gen10 Configure-to-order Compute Module
---	------------	---

Is to be replaced with

2	P22139-B21	HPE Synergy 480 Gen10 Plus Base Chassis Configure-to-order Compute Module
---	------------	---

3. Support services has transitioned from Proactive / Foundation to the new HPE offering Tech care options

We have noted the error in our document. Please be advised of the following:

1	H1K92A3 3Y	Proactive Care 24x7 SVC
---	------------	-------------------------

Is to be replaced with

1	HU4A6A3	HPE 3Y Tech Care Essential Service
---	---------	------------------------------------

Note: The Tender Closing Date; Time and Venue remain unchanged.

Nikita Maharaj

Yours sincerely
