1	Kindly confirm as to why the 2024 hourly rates have been used as the metric for the legislated wage rate, when the 2025 wage rate is currently being paid to cleaning personnel? The next legislated wage increase is due 01 March 2026. I'd just like to confirm if the 2024 rate was not stipulated in error.	Thank you. This was a typing error. The updated wage rate will be considered.
2	Can you please assist with the square meters of your 12 offices in the Cape Winelands Region.	Unfortunately, we do not have the square meters of the offices, just the number of cleaners required to clean the offices and Annexure B.
3	How many cleaners is needed in total? Please specify. Will there be a briefing or site inspection?	There is no briefing or site inspection for this bid. Refer pages 13 to 16 of the bid on each WCBD 3.2. This indicates, according to the office, how many cleaners are needed.
