- SAFCOL will endeavour to request RFQ's and allocate security services on an annual basis, preferably at the beginning of the budget year or as and when the operational requirement arises.
- The allocation of security services will be decided by SAFCOL as operational needs and market requirements dictate.
- Appointed bidders on the panel may be requested to provide written quotations as and when security services are required by means of a RFQ process,
- The appointed bidder who achieves the highest points on preference point system (price and specific goals) during RFQ evaluation will be considered first, however SAFCOL may appoint more than one service provider depending on the security services requirement of the RFQ and available services of appointed service providers,
- **No appointed bidder on the panel will automatically be entitled to any security service,**
- Bidders will be required to submit a detailed costing template to support the RFQ quoted rate for security services.
- If the process results in only one successful competent service provider, that service provider can be appointed.
- SAFCOL reserves the right to approach the market after two years to supplement the panel for security service providers. The current service provider will be required to resubmit updated documents to remain in the panel.
