PART C1: AGREEMENT AND CONTRACT DATA

C1.1 Form of Offer and Acceptance

OFFER

The Employer, identified in the Acceptance signature block, has solicited offers to enter into a contract for the procurement of **Indoor Electrical Maintenance at Cape Town International Airport for a Period of 60 Months**.

The tenderer, identified in the Offer signature block, has examined the documents listed in the Tender Data and addenda thereto as listed in the Returnable Schedules, and by submitting this Offer has accepted the Conditions of Tender.

By the representative of the contractor, deemed to be duly authorised, signing this part of this Form of Offer and Acceptance the contractor offers to perform all of the obligations and incur liabilities of the NEC TSC under the contract including compliance with all its terms and conditions according to their true intent and meaning for an amount to be determined in accordance with the *conditions of contract* identified in the Contract Data.

THE OFFERED TOTAL OF PRICES ARE:

AMOUNT exclusive of VAT	
VAT 15%	
AMOUNT inclusive of VAT is

This offer may be accepted by the employer by signing the acceptance part of this form of offer and acceptance and returning one copy of this document to the tenderer before the end of the period of validity stated in the tender data, whereupon the tenderer becomes the party named as the contractor in the conditions of contract identified in the contract data.

Acceptance

By signing this part of this Form of Offer and Acceptance, the Employer identified below accepts the tenderer's Offer. In consideration thereof, the Employer shall pay the Contractor the amount due in accordance with the *conditions of contract* identified in the Contract Data or the Pricing Data. Acceptance of the contractor's Offer shall form an agreement between the Employer and the tenderer upon the terms and conditions contained in this agreement and in the contract that is the subject of this agreement.

The terms of the contract, are contained in:

Part C1	Agreements and Contract Data, (which includes this Form of Offer and Acceptance)
Part C2	Pricing Data
Part C3	Service Information
Part C4	Site Information

and drawings and documents (or parts thereof), which may be incorporated by reference into the above listed Parts.

Deviations from and amendments to the documents listed in the Tender Data and any addenda thereto listed in the Returnable Schedules as well as any changes to the terms of the Offer agreed by the tenderer and the Employer during this process of offer and acceptance, are contained in the Schedule of Deviations attached to and forming part of this Form of Offer and Acceptance. No amendments to or deviations from said documents are valid unless contained in this Schedule.

The contractor shall within two weeks of receiving a completed copy of this agreement, including the Schedule of Deviations (if any), contact the Employer's agent (whose details are given in the Contract Data) to arrange the delivery of any securities, bonds, guarantees, proof of insurance and any other documentation to be provided in terms of the *conditions of contract* identified in the Contract Data. Failure to fulfil any of these obligations in accordance with those terms shall constitute a repudiation of this agreement.

Notwithstanding anything contained herein, this agreement comes into effect on the date when the tenderer receives one fully completed copy of this document, including the Schedule of Deviations (if any). Unless the tenderer (now Contractor) within five working days of the date of such receipt notifies the Employer in writing of any reason why he cannot accept the contents of this agreement, this agreement shall constitute a binding contract between the Parties.

Z	The <i>additional conditions of contract</i> are	

AMENDMENTS TO THE CORE CLAUSES

- Z1 Interpretation of the law**
- Z1.1 Add to core clause 12.3:** Any extension, concession, waiver, non-enforcement of any terms of the contract or relaxation of any action stated in this contract by the Parties, the *Service Manager*, the, or the *Adjudicator* does not constitute a waiver of rights, and does not give rise to an estoppel unless the Parties agree otherwise and confirm such agreement in writing.
- Z2 Providing the Service: Delete core clause 20.1 and replace with the following:**
- Z2.1** The *Contractor* provides the *service* in accordance with the *Service* Information and warrants that the results of the *service*, when complete, shall be fit for their intended purpose.
- Z3. Other responsibilities: add the following at the end of core clause 27:**
- Z3.1** The *Contractor* shall have satisfied himself, prior to the *starting date*, as to the completeness, sufficiency and accuracy of all information and drawings provided to him as at the *starting date* .
- Z3.2** The *Contractor* shall be responsible for the correct setting out or carrying out of the *service* in accordance with the original points, lines and levels stated in the *Service* Information or notified by the *Service Manager*,. Any errors in the setting or carrying out of the *service* shall be rectified by the *Contractor* at the *Contractor's* own costs.
- Z4. Termination**
- Z4.1 Add the following to core clause 91.1, at the second main bullet, fourth sub-bullet point, after the words “assets or”:** “business rescue proceedings are initiated or steps are taken to initiate business rescue proceedings”.
- Z5. Ambiguities and inconsistencies: Delete core clause 17 and replace with the following:**
- Z5.1** If there is any ambiguity or inconsistency in or between the documents which are part of this contract, the priority of the documents is in accordance with the following sequence:

- The additional conditions of contract under these Z clauses
- The conditions of contract and
- The other documents.

Z5.2

The Service Manager or the Contractor notifies the other as soon as either becomes aware of any such ambiguity or inconsistency in or between the documents which are part of this contract. The Service Manager gives an instruction resolving the ambiguity or inconsistency. Notwithstanding any other provision of this contract, any such ambiguity, inconsistency and/or instruction does not automatically result in any increase to the Price List or any delay to the end of the service period.

Z6.

Payment: Add the following at the end of core clause 51:

51.5 The Employer does not pay interest to the Contractor on a late payment resulting from the Contractor's failure to provide the Employer with a correctly rendered VAT invoice within the period stated in clause 51.1 above.

51.5 The Employer is entitled to deduct from or set off against any money due to the Contractor

- any sum due to the Employer from the Contractor or
- any amount for which the Contractor is liable to pay to the Employer (whether liquidated or otherwise) arising under this contract.

AMENDMENTS TO THE SECONDARY OPTION CLAUSES

Z7. Changes in Law: Add the following clause to secondary option X2 as X2.2:

Z7.1 A change in law is defined as:

Z7.1.1 the adoption, enactment, promulgation, coming into effect, repeal, amendment, reinterpretation, change in application or other modification after the starting date of any law, excluding (i) the promulgation of any bill, unless such bill is enacted into the *law of the country*, and (ii) any such modification in law relating to any taxes, charges, imposts, duties, levies or deductions that are assessed in relation to a person's income;

Z7.1.2 any permit being terminated, withdrawn, amended, modified or replaced, other than (i) in accordance with the terms upon which it was originally granted, (ii) as a result of the failure by the *Contractor* to comply with any condition set out therein, or (iii) as a result of any act or omission of the *Contractor*, any Subcontractor or any affiliate to the *Contractor*.

Z8. Performance Bond: The following amendments are made to clause X13:

Z8.1. Add the following new clause as Option X13.2: The *Contractor ensures* that the performance bond is valid and enforceable until the end of the *service period*. If the terms of the performance bond specify its expiry date and the end of the *service period* does not coincide with such expiry date, four weeks prior to the said expiry date, the *Contractor* extends the validity of the performance bond until the end of the *service period*. If the *Contractor* fails to so extend the validity of the performance bond, the *Employer* may claim the full amount of the performance bond and retain the proceeds as cash security

Z9. Limitation of liability: Insert the following new clause as Option X18.6:

Z8.1 The *Employer's* liability to the *Contractor* for the *Contractor's* indirect or consequential loss or damage of any kind is limited to R0.00.

Z8.2 Notwithstanding any other clause in this contract, any proceeds received from any insurances or any proceeds which would have been received from any insurances but for the conduct of the *Contractor* shall be excluded from the calculation of the limitations of liability listed in the contract.

ADDITIONAL Z CLAUSES

Z10. Cession, delegation and assignment

- Z10.1.** The *Contractor* shall not cede, delegate or assign any of its rights or obligations to any person without the written consent of the *Employer*, which consent shall not be unreasonably withheld. This clause shall be binding on the liquidator/business rescue practitioner /trustee (whether provisional or final) of the *Contractor*.
- Z10.2.** The *Employer* may, on written notice to the *Contractor*, cede and delegate its rights and obligations under this contract to any person or entity.

Z11. Joint and several liability

- Z11.1.** If the *Contractor* constitutes a joint venture, consortium or other unincorporated grouping of two or more persons, these persons are deemed to be jointly and severally liable to the *Employer* for the performance of this Contract.
- Z11.2.** The *Contractor* shall, within 1 week of the starting date, notify the *Service Manager* and the *Employer* of the key person who has the authority to bind the *Contractor* on its behalf.
- Z11.3.** The *Contractor* does not materially alter the composition of the joint venture, consortium or other unincorporated grouping of two or more persons without prior written consent of the *Employer*.

Z12. Ethics

- Z12.1.** The *Contractor* undertakes:
- Z12.1.1.** not to give any offer, payment, consideration, or benefit of any kind, which constitutes or could be construed as an illegal or corrupt practice, either directly or indirectly, as an inducement or reward for the award or in execution of this contract;
- Z12.1.2.** to comply with all laws, regulations or policies relating to the prevention and combating of bribery, corruption and money laundering to which it or the *Employer* is subject, including but not limited to the Prevention and Combating of Corrupt Activities Act, 12 of 2004.
- Z12.2.** The *Contractor's* breach of this clause constitutes grounds for terminating the *Contractor's* obligation to provide the service in accordance with the procedures stated P2, P3 or P4 in core clause 92.2 or taking any other action as appropriate against the *Contractor* (including civil or criminal action). However, lawful inducements and rewards shall not constitute grounds for termination.
- Z12.3.** If the *Contractor* is found guilty by a competent court, administrative or regulatory body of participating in illegal or corrupt practices, including but not limited to the making of offers (directly or indirectly), payments, gifts, gratuities, commission or benefits of any kind, which are in any way whatsoever in connection with the contract with the *Employer*, the *Employer* shall be entitled to terminate the contract in accordance with the procedures stated in core clause 92.2, the amount due on termination is A1.

Z13. Confidentiality

- Z13.1.** All information obtained in terms of this contract or arising from the implementation of this contract shall be treated as confidential by the *Contractor* and shall not be used or divulged or published to any person not being a party to this contract, without the prior written consent of the *Service Manager*, whose consent shall not be unreasonably withheld.
- Z13.2.** If the *Contractor* is uncertain about whether any such information is confidential, it is to be regarded as such until otherwise notified by the *Service Manager*.
- Z13.3.** This undertaking shall not apply to –

- Z13.3.1.** information disclosed to the employees of the *Contractor* for the purposes of the implementation of this contract. The *Contractor* undertakes to ensure that its employees are aware of the confidential nature of the information so disclosed and that they comply with the provisions of this clause;
- Z13.3.2.** information which the *Contractor* is required by law to disclose, provided that the *Contractor* notifies the *Employer* prior to disclosure so as to enable the *Employer* to take the appropriate action to protect such information. The *Contractor* may disclose such information only to the extent required by law and shall use reasonable efforts to obtain assurances that confidential treatment will be afforded to the information so disclosed;
- Z13.3.3.** information which at the time of disclosure or thereafter, without default on the part of the *Contractor*, enters the public domain or to information which was already in the possession of the *Contractor* at the time of disclosure (evidenced by written records in existence at that time);
- Z13.4.** The taking of images (whether photographs, video footage or otherwise) of the *services or Affected Property* or any portion thereof, in the course of providing the *services* or at the end of the service period requires the prior written consent of the *Service Manager*. All rights in and to all such images vests exclusively in the *Employer*.
- Z13.5.** The *Contractor* ensures that all his Subcontractors abide by the undertakings in this clause.
- Z14. *Employer's Step-in rights***
- Z14.1.** If the *Contractor* defaults by failing to comply with its obligations in terms of this contract and fails to remedy such default within 2 weeks of the notification of the default by the *Service Manager*, the *Employer*, without prejudice to its other rights, powers and remedies under the contract, or at law may remedy the default either, itself or procure a third party (including any subcontractor or supplier of the *Contractor*) to do so on its behalf. The reasonable costs of the Employer exercising its step-in rights in respect of any subcontractor or supplier of the *Contractor* shall be borne by the *Contractor*.
- Z14.2.** The *Contractor* co-operates with the *Employer* and facilitates and permits the use of all required information, materials and other matter (including but not limited to documents and all other drawings, CAD materials, data, software, models, plans, designs, programs, diagrams, evaluations, materials, specifications, schedules, reports, calculations, manuals or other documents or recorded information (electronic or otherwise) which have been or are at any time prepared by or on behalf of the *Contractor* under the contract or otherwise for and/or in connection with the *works*) and generally does all things required by the *Service Manager* to achieve this end.
- Z15. *Liens and Encumbrances***
- Z15.1.** The *Contractor* keeps the Equipment used to provide the *service* free of all liens and other encumbrances at all times. The *Contractor*, vis-a-vis the *Employer*, waives all and any liens which he may from time to time have, or become entitled to over such Equipment and any part thereof and ensures that his Subcontractors similarly, vis-a-vis the *Employer*, waive all liens they may have or become entitled to over such Equipment from time to time
- Z16. *Intellectual Property***
- Z15.1** Intellectual Property ("IP") rights means all rights in and to any patent, design, copyright, trade mark, trade name, trade secret, other intellectual or industrial property rights, technical information and concepts, know-how, specifications, data, formulae, computer programs, memoranda, scripts, reports, manuals, diagrams, drawings, prototypes, drafts and any rights to them created during the performance of the service and include applications for and rights to obtain or use any such intellectual property whether under South African or foreign law.
- Z15.2** IP rights remain vested in the originator and shall not be used for any reason whatsoever other than carrying out the *service*.

- Z15.3** The *Contractor* gives the *Employer* an irrevocable, transferrable, non-exclusive, royalty free licence to use and copy all IP related to the *service* for the purposes of constructing, repairing, demolishing, operating and maintaining the *service* or *the Affected Property*.
- Z15.4** The written approval of the *Contractor* is to be obtained before the *Contractor's* IP made available to any third party which approval will not be unreasonably withheld or delayed. Prior to making any *Contractor's* IP available to any third party the *Employer* shall obtain a written confidentiality undertaking from any such third party on terms no less onerous than the terms the *Employer* would use to protect its IP.
- Z15.5** The *Contractor* shall indemnify and hold the *Employer* harmless against and from any claim alleging an infringement of IP rights ("**the claim**"), which arises out of or in relation to:
- Z15.5.1** the *Contractor's service*;
- Z15.5.2** the use of the *Contractor's* Equipment, or
- Z15.5.3** the proper use of the *Affected Property* on which the service is provided.
- Z15.6** The *Employer* shall, at the request and cost of the *Contractor*, assist in contesting the claim and the *Contractor* may (at its cost) conduct negotiations for the settlement of the claim, and any litigation or arbitration which may arise from it.
- Z17. Dispute resolution: The following amendments are made to Option W1:**
- Z16.1 Under clause W1.3, in the fourth row of the first column of the adjudication table, the following words are added after the words "any other matter":** "excluding disputes relating to termination of the contract".
- Z16.2 The following clauses are added at the end of clause W1.3 as sub-clauses (12) and (13) respectively:**
- Z16.2.1** "The Adjudicator shall decide the dispute solely on the written submissions of the parties. No oral submissions shall be heard during adjudication."
- Z16.2.2** "Disputes relating to or arising from termination of the Contract shall not be determined by an adjudicator. Any such dispute shall be referred directly to the tribunal in accordance with the procedures set out in clause W1.4."
- Z17 Day:**
- Z17.1** Any reference to a day in terms of this contract shall be construed as a calendar day.
- Z18 Safety**
- Z18.1** The *Employer*, *Service Manager* or any of his nominated representatives may stop any unsafe *service*. The *Contractor* does not proceed with the relevant service until the safety violation is corrected. This instruction to stop or not to start the *service* is not a compensation event.
- Z18.2** As stipulated by section 37(2) of the Occupational Health and Safety Act No. 85 of 1993 (**OHS Act**) as amended the Contractor agrees to the following:
- Z18.2.1** As part of the contract the *Contractor* acknowledges that it is an Employer in its own right with duties as prescribed in the OHS Act, as amended and agrees to ensure that all work performed, or equipment and materials used, are in accordance with the provisions of the OHS Act.

Z18.2.2 The *Contractor* furthermore agrees to comply with the requirements set forth by the *Service Manager* and agree to liaise with the *Employer* should the *Contractor*, for whatever reason, be unable to perform in terms of the clause Z18.

Z18.3 The *Contractor* acknowledges that it is an *Employer* in its own right and is registered with duties as prescribed in the Compensation for Occupational Injuries & Diseases Act No. 130 of 1993.

Z19 | Dispute resolution:

Z19.1 Appointment of the Adjudicator

An *Adjudicator* is appointed when a dispute arises, from the Panel of Adjudicators below. The referring party nominates an *Adjudicator*, which nomination is either accepted or rejected by the other party. In the instance of a rejection of the nominated *Adjudicator*, the referring Party refers the appointment deadlock to the Chairman of the Johannesburg Bar Council, who appoints an *Adjudicator* listed in the Panel of Adjudicators below

The Parties appoint the *Adjudicator* under the NEC3 Adjudicator's Contract, April 2013

PART C2: PRICING DATA

TSC3 Option A

C2.1 Pricing assumptions: Option A

The conditions of contract

How work is priced and assessed for payment

Clause 11 in NEC3 Term Service Contract, April 2013 (TSC3) core clauses and Option A states:

Identified and defined terms	11	(12) The Price List is the <i>price list</i> unless later changed in accordance with this contract.
	11.2	(17) The Price for Services Provided to Date is the total of the Price for each lump sum item in the Price List which the <i>Contractor</i> has completed and where a quantity is stated for an item in the Price List, an amount calculated by multiplying the quantity which the <i>Contractor</i> has completed by the rate. (19) The Prices are the amounts stated in the Price column of the Price List. Where a quantity is stated for an item in the Price List, the Price is calculated by multiplying the quantity by the rate.

This confirms that Option A is a priced contract where the Prices are derived from a list of items of service which can be priced as lump sums or as expected quantities of service multiplied by a rate or a mix of both.

Function of the Price List

Clause 54.1 in Option A states: "Information in the Price List is not Service Information". This confirms that instructions to do work or how it is to be done are not included in the Price List but in the Service Information. This is further confirmed by Clause 20.1 which states, "The *Contractor* Provides the Service in accordance with the Service Information". Hence the *Contractor* does **not** Provide the Service in accordance with the Price List. The Price List is only a pricing document.

Link to the Contractor's plan

Clause 21.4 states "The *Contractor* provides information which shows how each item description on the Price List relates to the operations on each plan which he submits for acceptance". Hence when compiling the *price list*, the tendering contractor needs to develop his first clause 21.2 plan in such a way that operations shown on it can be priced in the *price list* and result in a satisfactory cash flow in terms of clause 11.2(17).

Preparing the price list

It will be assumed that the tendering contractor has read Pages 14, 15 and 73 of the TSC3 Guidance Notes before preparing the *price list*. Items in the *price list* may have been inserted by the *Employer* and the tendering contractor should insert any additional items which he considers necessary. Whichever party provides the items in the *price list* the total of the Prices is assumed to be fully inclusive of everything necessary to Provide the Service as described at the time of entering into this contract.

1 As the *Contractor* has an obligation to correct Defects (core clause 42.1) and there is no compensation event for this unless the Defect was due to an *Employer's* risk, the lump sum Prices and rates must also include for the correction of Defects.

2 If the *Contractor* has decided not to identify a particular item in the *price list* at the time of tender the cost to the *Contractor* of doing the work must be included in, or spread across, the other Prices and rates in the *price list* in order to fulfil the obligation to complete the *service* for the tendered total of the Prices.

3 There is no adjustment to lump sum prices in the *price list* if the amount, or quantity, of work within that lump sum item of service later turns out to be different to that which the *Contractor* estimated at time of tender. The only basis for a change to the Prices is as a result of a compensation event. See Clause 60.1.

4 Hence the Prices and rates tendered by the *Contractor* in the *price list* are inclusive of everything necessary and incidental to Providing the Service in accordance with the Service Information, as it was at the time of tender, as well as correct any Defects not caused by an *Employer's* risk.

5 The Contractor does not have to allow in his Prices and rates for matters that may arise as a result of a compensation event. It should be noted that the list of compensation events includes those arising as a result of an *Employer's* risk event listed in core clause 80.1.

Format of the *price list*

(From page 73 of the TSC3 Guidance Notes)

Entries in the first four columns in the *price list* in section C2.2 are made either by the *Employer* or the tendering contractor.

If the *Contractor* is to be paid an amount for the item which is not adjusted if the quantity of work in the item changes, the tendering contractor enters the amount in the Price column only, the Unit, Expected Quantity and Rate columns being left blank.

If the *Contractor* is to be paid an amount for an item of work which is the rate for the work multiplied by the quantity completed, the tendering contractor enters the rate which is then multiplied by the Expected Quantity to produce the Price, which is also entered.

If the *Contractor* is to be paid a Price for an item proportional to the length of time for which a service is provided, a unit of time is stated in the Unit column and the expected length of time (as a quantity of the stated units of time) is stated in the Expected Quantity column.

C2.2 the *price list*

Part 1:

Preventative maintenance Table 1

	Item	Frequency	Qty	Unit Price (R)	Total (R)
1.	Site Supervisory/ Manager (1)	Monthly	12 months		
2.	Electrician 1	Monthly	12 months		
3.	Electrician 2	Monthly	12 months		
4.	Electrician 3	Monthly	12 months		
5.	Elconop Electrician Assistant 1	Monthly	12 months		
6.	Elconop Electrician Assistant 2	Monthly	12 months		
7.	Elconop Electrician Assistant 3	Monthly	12 months		
8.	General worker 1	Monthly	12 months		
9.	General worker 2	Monthly	12 months		
10.	General worker 3	Monthly	12 months		
11.	Earth Leakage Testing	6 Monthly	2 times		
12.	LUX Readings	3 Monthly	4 times		
13.	Thermal Verification	Annually	1 time		
14.	Earth Cable Resistance test	Annually	1 time		
15.	CoC issue and inspection	AD HOC	10 times		
Total Ex. VAT					

Note:

1. Site Supervisor to monitor the work and provide technical reports on major incidents and maintenance progress reports.
2. Pricing for personnel must be based on 10 staff members, as specified in the staff requirements list, please note that certain work must be planned and carried out at night. The team will therefore be required to schedule night shifts to close calls that can only be completed after hours.
3. Work tasks include Daily WR Call outs; Monthly checks and Work orders; Meter Reading; 3 monthly inspections of all buildings (Terminals, Industrials; Offices; Denel; Airside buildings and any future building added) and DB for compliance; Compliance reports and recommendations for upkeep to clients; Weekly and monthly Reporting; Inspection of walkways and pedestrian movement areas; All unformed Maintenance, Repairs to defects, Upgrades, Refurbishment, and Installations in the assigned buildings. These will be a once off monthly cost for all works within ACSA owned property, including Terminal buildings' industrial parks, office parks, Aircraft hangers, Airside buildings' Remote sites (Denel) and any future property owned by ACSA. For Scope of works, and assets.
4. Earth Leakage testing
5. Lux Readings
6. Thermal Verification
7. Portable Appliance Checks
8. Earth Cable resistance
9. CoC will be done on AD HOC, as pricing set value we will use 20 times as a fair estimation. CoC will be done on all ACSA owned property when needed and any findings will be repaired under the normal contract work task in point 4.

Labour Rates and Mark-up

Any works Outside the scope of the contract as per will be charged at the labor rates below:

Table 2

	Description	Normal Hours (R/hr)	After Hours (R/hr)	Sun/Public H Hr (R/hr)
1	Site Manager			
2	Master Electrician (For 3ph installations, CoC and Compliance Inspections)			
3	Electrician			
4	Electrical Assistant			
5	General Labourer			
6	Hire the Nifty lift (rates per hour)			

Scope of Work and Assets

Below is a summary of the scope and assets covered under the contract.

List of Areas and buildings covered but not necessarily limited to the following:

- a. Terminal Buildings
- b. Office blocks
- c. Industrial warehouse
- d. Aircraft Hangers
- e. Retail and Rental spaces
- f. Substations
- g. Airside buildings
- h. Remote Site (Denel/ Swartklip)
- i. All future assets handed over to CTIA Electrical Department

Scope of electrical work but not necessarily limited to the following:

- a. Installation of new systems
- b. Commissioning of systems
- c. Inspection for availability and SANS compliance
- d. Repair to faulty and defective equipment.
- e. Upgrade existing electrical infrastructure.
- f. Refurbish existing infrastructure.
- g. Monthly Meter reading and values issued to billing technician.
- h. Repair and maintain all lighting systems affixed onto any ACSA building including fault finding and repairs of associated circuits.
- i. Electrical Meter Installations and decommissioning when required.
- j. Execute costs saving initiatives and electricity billing recovery projects.
- k. Maintain all electrical assets as per list but not limited to the following:
 - i. Provide maintenance to electrical distribution network (Main 400V panel to client/end-user)
 - ii. Provide maintenance to earthing system.
 - iii. Provide maintenance to lightning/surge protection system if any.
 - iv. Provide maintenance to power factor correction units.
 - v. Provide maintenance to electrical distribution boards.

- vi. Provide maintenance to electrical switchgear 400V and 220V.
- vii. Provide maintenance to back supply system changeovers panels and controls.
- viii. Provide maintenance to electricity meters including calibrations.

Maintenance can be defined as any task to clean, preserve, service or extend the life span of the asset. Contractor must ensure the asset remain in peak conditions and will be held liable for defects that were not reported for repairs, upgrade, or replacement by mean of a written asset report, risk analysis and feasibility study. This will be done by the site manager under this contract.

Routine Maintenance:

All routine Maintenance, Repairs and Inspections are issued through the work order system and issued monthly. The work order must be completed and submitted month end in conjunction with any monthly reporting. Below will define the work types and magnitude of work scopes:

A. Work Tasks:

I. Daily Work Orders (AKA Work Requests)

These are calls logged at the maintenance helpdesk by stakeholder for defects. The contractor will be dispatched to the stakeholder for assessment and immediate repairs. In the event a task was not able to be completed, feedback must be given to the helpdesk with reason for delay and action plan for repairs. This work will be completed within 3 days of dispatch as the SLA (Service Level Agreement) of this contract. This work account for nearly fifty percent of the contract work scope and is the core function of the contractor. This includes the scope above for all repairs, maintenance, upgrade and replacements.

II. Weekly and Monthly Work Order (Preventative works)

These are work order for inspections and repair to electrical assets to highlight any defects before a breakdown occurs or before a report is made at helpdesk. Inspection will be done on all ACSA buildings as per the asset list and repair immediately. A comprehensive report will be submitted to the contract manager on a weekly basis.

III. 3 Monthly Work Order (Auditing)

Retail Areas and Stakeholder rentals are maintained by the lease as per the lease. The asset needs to be kept to the Standards and 3 monthly audits and reporting will be done on these areas to ensure the stakeholder upkeep the rental property. This will be a compliance audit to ensure that the building still complies to its latest CoC. Any defects or deviation found must be reported to the contract manager in writing in the form of a report to ensure corrective actions takes place.

All Work tasks must be document and a work order must be issued for all tasks. All work order tasks will be done under the contract.

B. Earth Leakage testing

As per OHS regulation, all plug points need to be tested for earth leakage protection.

C. Lux Readings

As per OHS regulation, all area has a minimum luminance, and the contractor needs measure lux levels and do corrective work to ensure we meet the regulatory requirements in all areas.

D. Thermal Verification

E. Portable Appliance Checks

F. Earth Cable resistance

CAPEX to the value of R10million will be made provisionally for certain activities including but not limited to (A CAPEX budget approval will be provided when required):

1. Parkade 1&2 Lighting retrofit with LED
2. Terminal Building lighting retrofit with LED
3. Light fitting replacements
4. DALI systems replacements

5. Energy Efficiency initiatives
6. Energy usage meters replacements

The contractor will be expected to produce monthly report detailing all works completed, including inspection findings, energy efficiency initiatives, highlighting all areas requiring attention. The report shall include accurate stock reconciliation, of stock uses and purchases including stock at hand.

The resources assigned will be a minimum of one qualified electrician and assistant. At least one of the resources must have one or both certification for Working on heights and Lifting equipment certificate.

The requirement covers, but is not limited to the following:

Part 2

Preliminaries and general

Table 3

Item no.	Description - Contract Administration Costs	Frequency	Quantity	Cost per item	Total cost
Preliminary and General - Contract Administration Costs:					
1.	Airport Safety Induction.	Every 2 years	10 personnel x 3	R 960.00	R 28 800.00
2.	General Security Awareness	Every 2 years	10 personnel x 3	R 960.00	R 28 800.00
3.	Airport personnel permits.	Annually	10 personnel x 5	R 470.00	R 23 500.00
4.	Vehicle permits and branding.	Annually	5	R 3 000	R 15 000.00
5.	Airside Vehicle Operating Permit	Every 2 years	4 personnel X 3	R 2 500.00	R 30 000.00
6.	Health & safety requirements.	Annually	5	R17 000.00	R 85 000.00
7.	Provisional sum (Spares and adhoc)	Monthly	60	R 50 000.00	R 3 000 000.00
8.	Site establishment – site offices and storage facilities	Once off	1	R 50 000.00	R 50 000.00
Total preliminaries and general's costs (Ex VAT)					R 3 261 100.00

Contract Price and Price Adjustment for inflation

The rates applicable to this contract will be listed as in the Bid submission returnable and as per Activity Schedule. The total contract price shall be adjusted on each anniversary date to compensate for increases in cost of labours. The labour content of the contract price, as declared in the Bid Price summary, shall be adjusted on the basis of the increase or decrease in CPI.

Mark-up (3rd party procured items/services)

Spares and sub-contracted work will be charged at cost plus mark-up. VAT shall not form part of mark-up calculations. Cost shall be net cost (excluding VAT) of parts supplied to site with all discounts deducted. Percentage added shall include profit, overheads, financing, contract insurance, guarantee costs and supervision, and contract management.

ACSA retains the right to procure parts of equal quality and standard if such goods or services can be procured at a lower cost and supply same to the Contractor for fitment or use.

This will be use for any works including emergency works as per ACSA process.

Table 4

1 Description of the service

1.1 Executive overview

The CTIA Electrical Maintenance's objective is to maintain the serviceability of electrical infrastructure at Terminal Building, Apron, Power & Lighting Complex, Fire Station, Parkade1 & 2 including ACSA remote sites for all lighting systems both landside and airside at Cape Town International Airport (CTIA). This is to ensure safety, functionality, effectiveness, and compliance to legislations for all Lighting infrastructure. This request is furthermore guided by the Maintenance of General and Emergency Lighting (D060 024M) which defines the specific maintenance activities to be carried out on lighting systems and steps to be followed to ensure that all infrastructure is effectively maintained in accordance with applicable policies, regulations, and standards.

The scope of work is summarised as follows (see appendix A for detailed scope):

- Inspection and Repair of all indoor illumination at CTIA including all associated circuits from the supply Distribution Boards.
- 400V Distribution Boards
- Wall socket outlets
- Inspection and Repairs of all lighting controls (Switches, Ballasts, LED Drivers, DALI System, Motion sensors etc.)
- Spares supply and management
- Minor projects

1.2 Employer's requirements for the service

Below is a summary of the scope and assets covered under the contract.

List of Areas and buildings covered but not necessarily limited to the following:

- a. Terminal Buildings
- b. Office blocks
- c. Industrial warehouse
- d. Aircraft Hangers
- e. Retail and Rental spaces
- f. Substations
- g. Airside buildings
- h. Remote Site (Denel/ Swartklip)
- i. All future assets handed over to CTIA Electrical Department

Scope of electrical work but not necessarily limited to the following:

- a. Installation of new systems
- b. Commissioning of systems
- c. Inspection for availability and SANS compliance
- d. Repair to faulty and defective equipment.
- e. Upgrade existing electrical infrastructure.
- f. Refurbish existing infrastructure.
- g. Monthly Meter reading and values issued to billing technician.
- h. Repair and maintain all lighting systems affixed onto any ACSA building including fault finding and repairs of associated circuits.
- i. Electrical Meter Installations and decommissioning when required.
- j. Execute costs saving initiatives and electricity billing recovery projects.
- k. Maintain all electrical assets as per list but not limited to the following:
 - i. Provide maintenance to electrical distribution network (Main 400V panel to client/end-user)
 - ii. Provide maintenance to earthing system.
 - iii. Provide maintenance to lightning/surge protection system if any.
 - iv. Provide maintenance to power factor correction units.
 - v. Provide maintenance to electrical distribution boards.
 - vi. Provide maintenance to electrical switchgear 400V and 220V.
 - vii. Provide maintenance to back supply system changeovers panels and controls.

viii. Provide maintenance to electricity meters including calibrations.

Maintenance can be defined as any task to clean, preserve, service or extend the life span of the asset. Contractor must ensure the asset remain in peak conditions and will be held liable for defects that were not reported for repairs, upgrade, or replacement by mean of a written asset report, risk analysis and feasibility study. This will be done by the site manager under this contract.

Routine Maintenance:

All routine Maintenance, Repairs and Inspections are issued through the work order system and issued monthly. The work order must be completed and submitted month end in conjunction with any monthly reporting. Below will define the work types and magnitude of work scopes:

A. Work Tasks:

I. Daily Work Orders (AKA Work Requests)

These are calls logged at the maintenance helpdesk by stakeholder for defects. The contractor will be dispatched to the stakeholder for assessment and immediate repairs. In the event a task was not able to be completed, feedback must be given to the helpdesk with reason for delay and action plan for repairs. This work will be completed within 3 days of dispatch as the SLA (Service Level Agreement) of this contract. This work account for nearly fifty percent of the contract work scope and is the core function of the contractor. This includes the scope above for all repairs, maintenance, upgrade and replacements.

II. Weekly and Monthly Work Order (Preventative works)

These are work order for inspections and repair to electrical assets to highlight any defects before a breakdown occurs or before a report is made at helpdesk. Inspection will be done on all ACSA buildings as per the asset list and repair immediately. A comprehensive report will be submitted to the contract manager on a weekly basis.

III. 3 Monthly Work Order (Auditing)

Retail Areas and Stakeholder rentals are maintained by the lease as per the lease. The asset needs to be kept to the Standards and 3 monthly audits and reporting will be done on these areas to ensure the stakeholder upkeep the rental property. This will be a compliance audit to ensure that the building still complies to its latest CoC. Any defects or deviation found must be reported to the contract manager in writing in the form of a report to ensure corrective actions takes place.

All Work tasks must be document and a work order must be issued for all tasks. All work order tasks will be done under the contract.

B. Earth Leakage testing

As per OHS regulation, all plug points need to be tested for earth leakage protection.

C. Lux Readings

As per OHS regulation, all area has a minimum luminance, and the contractor needs measure lux levels and do corrective work to ensure we meet the regulatory requirements in all areas.

D. Thermal Verification

E. Portable Appliance Checks

F. Earth Cable resistance

CAPEX to the value of R10million will be made provisionally for certain activities including but not limited to (A CAPEX budget approval will be provided when required):

1. Parkade 1&2 Lighting retrofit with LED
2. Terminal Building lighting retrofit with LED
3. Light fitting replacements
4. DALI systems replacements
5. Energy Efficiency initiatives
6. Energy usage meters replacements

The contractor will be expected to produce monthly report detailing all works completed, including inspection findings, energy efficiency initiatives, highlighting all areas requiring attention. The report shall include accurate stock reconciliation, of stock uses and purchases including stock at hand.

The resources assigned will be a minimum of one qualified electrician and assistant. At least one of the resources must have one or both certification for Working on heights and Lifting equipment certificate.

The requirement covers, but is not limited to the following:

1.3 Interpretation and terminology

If required include here definitions additional to those used in the *conditions of contract* which are required only for the purpose of making the Service Information easier to draft and read. Also list abbreviations used and provide a full interpretation of each one, for example:

The following abbreviations are used in this Service Information:

Abbreviation	Meaning given to the abbreviation
ACSA	Airports Company South Africa
CTIA	Cape Town International Airport
BBBEE	Broad Base Black Economic Empowerment
PPPFA	Preferential Procurement Policy Framework Act
OHS	Occupational Health & Safety
H&S	Health and Safety
SANS	South African National Standard

2 Management strategy and start up.

2.1 The Contractor's plan for the service

The Contractor's plan shall be issued by the Contractor to the Employer at the beginning of each working month throughout the duration of the Contract. The Contractor's plan shall be reviewed by both parties.

The Contractor's plan shall include work time schedules (programme), Material required, plant & equipment required, resources and the Total work cost.

The final plan agreed to shall be adopted for use.

The Contractor's plan shall be as per clause 21 of the Term Service Contract.

2.2 Management meetings

The Contractor will be expected to attend meetings to maintenance, operations, contract management and other issues that may arise from time to time. As far as is practicable, the Contractor will make the required persons available for these meetings. The contract shall record and distribute meeting minutes as may be required or agreed with the Service Manager. The contractor shall not submit claims for payment for attending any of these meetings.

Regular meetings of a general nature may be convened and chaired by the *Service Manager* as follows:

Title and purpose	Approximate time & interval	Location	Attendance by:
Risk register and compensation events	Weekly on _____ at _____		
Overall contract progress and feedback	Monthly on _____ at _____		<i>Employer, Contractor and _____</i>

Meetings of a specialist nature may be convened as specified elsewhere in this Service Information or if not so specified by persons and at times and locations to suit the Parties, the nature and the progress of the *service*. Records of these meetings shall be submitted to the *Service Manager* by the person convening the meeting within five days of the meeting.

All meetings shall be recorded using minutes or a register prepared and circulated by the person who convened the meeting. Such minutes or register shall not be used for the purpose of confirming actions or instructions under the contract as these shall be done separately by the person identified in the *conditions of contract* to carry out such actions or instructions.

2.3 Contractor's management, supervision and key people

The Contractor will be expected to attend meetings to maintenance, operations, contract management and other issues that may arise from time to time. As far as is practicable, the Contractor will make the required persons available for these meetings. The contract shall record and distribute meeting minutes as may be required or agreed with the Service Manager. The contractor shall not submit claims for payment for attending any of these meetings.

2.4 Provision of bonds and guarantees

The form in which a bond or guarantee required by the *conditions of contract* (if any) is to be provided by the *Contractor* is given in Part 1 Agreements and Contract Data, document C1.3, Sureties.

The *Employer* may withhold payment of amounts due to the *Contractor* until the bond or guarantee required in terms of this contract has been received and accepted by the person notified to the *Contractor* by the *Service Manager* to receive and accept such bond or guarantee. Such withholding of payment due to the *Contractor* does not affect the *Employer's* right to termination stated in this contract.

2.5 Documentation control

Documents will be identified with an alpha numeric which indicates source and receipts. The exact document referencing, or numbering option shall be discussed and agreed between the Service Manager and the Contractor upon inception of the contract.

Contractual communication will in the form of:

- Written signed letter, letter can be hand delivered or attached to an e-mail.
- Written signed document, the document can be hand delivered or attached to an e-mail.
- And e-mail

2.6 Invoicing and payment

Include a list of information which is to be shown on an invoice as per the example given below.

Within one week of receiving a payment certificate from the *Service Manager* in terms of core clause 51.1, the *Contractor* provides the *Employer* with a tax invoice showing the amount due for payment equal to that stated in the *Service Manager's* payment certificate.

The *Contractor* shall address the tax invoice to
Private Bag X 9002, Cape Town International, Western Cape, South Africa, 7525.

and include on each invoice the following information:

- Name and address of the *Contractor* and the *Service Manager*;
- The contract number and title;
- *Contractor's* VAT registration number;
- The *Employer's* VAT registration number _____;
- Description of service provided for each item invoiced based on the Price List;
- Total amount invoiced excluding VAT, the VAT and the invoiced amount including VAT;
- (add other as required).

Add procedures for invoice submission and payment (e. g. electronic payment instructions).

Where internal approval policies regulate payment, these should be set out. For example, in the provision of ad hoc services purchase orders may have to be submitted by the Contractor for approval followed by the invoice payment will be made. The following example may apply:

- (a) uploading of a blanket purchase agreement to enable payment to the Contractor;
- (b) planned maintenance comprising the Service to be preceded by a quotation from the Contractor;
- (c) approval of the quote by the Service Manager;
- (d) authorisation of the issue of a purchase order;

- (e) execution of the Service following issue of the purchase order;
- (f) purchase orders collated into monthly payment certificates and for payment in terms of the contract.

Insofar as emergency work is concerned, the “normal” procedure may not apply. This should be set out here. See: 2.13 below for further detail.

2.7 Contract change management

This section is intended to deal with any additional requirements to the compensation event clauses in section 6 of the core clauses; such as the use of standard forms. Not the same thing as documentation control.

2.8 Records of Defined Cost to be kept by the Contractor

If Option C or E applies first read clause 52.2 and then state whether the *Contractor* is required to keep any other records. Include any other constraint which may be required in regard to format and filing of the records, and whether access for the *Service Manager* shall be provided in hard copy or electronically.

Could delete if Option A applies unless the *Employer* requires some form of control over the *Contractor's* record keeping for the purpose of compensation event management.

2.9 Insurance provided by the Employer

First read TSC3 Core Clause 86.1 and then add anything necessary for the management of insurance related issues such as a cross reference to where procedures for making claims can be found. Also provide contact details for persons capable of being able to answer any insurance related queries the *Contractor* may have, as well as to whom the information required by Marine Insurance (if any) may be addressed.

2.10 Training workshops and technology transfer

The Contractor must ensure that he/she is, at all times, familiar with ACSA's safety and security requirements relating to permits in order for no work to be delayed as a result thereof. This will include the permit application process.

Note that (with reason) the Contractor will have no claim against ACSA in the event that a permit request is refused.

Proof of having attended the airside induction training course is required for all personal permit applications. Persons applying for an AVOP must provide proof of having attended an AVOP course. Fees are levied for these courses. Fees are further levied for all permit renewals and refresher courses - where applicable.

2.11 Design and supply of Equipment

On some complex services (e. g. nuclear) it could be in the Parties best interests that some details of the design of Equipment are shared with the *Service Manager*, not necessarily for his acceptance but as an assurance that the Equipment will be able to allow the *Contractor* to Provide the Service efficiently and without delay. For example specialised handling Equipment for a particular maintenance operation. Clause 23.1 is always available to the *Service Manager* if this paragraph is not used.

Also the *Employer* may wish to exercise constraints or include witness and hold points during manufacture, assembly or delivery of such Equipment. Include these constraints here.

Draft in such a way that there is no doubt that the liability for such design supply and use of the Equipment remains with the *Contractor*. Consider deleting this if it is not relevant to the contract.

Refer to clause 23 TSC3.

2.12 Things provided at the end of the *service period* for the *Employer's* use

2.12.1 Equipment

After the end of the service period the Contractor shall deliver to the Employer:

- All material that has been replaced by the contractor may be retained as may be required by the Employer.
- All material, spurs and equipment purchase by the Contractor on behalf of the Employer shall remain properly of the Employer.
- Operations and maintenance manuals for installed equipment & spares, as built drawings, design documents, for construction documents, project plans, models, test results for all test performed, and other documents of technical nature.

2.12.2 Information and other things

None

2.13 Management of work done by Task Order

Refer to Clause X19 of TSC3.

3 Health and safety, the environment and quality assurance

3.1 Health and safety risk management

In addition to the requirements of the laws governing health and safety, the *Employer* may have some additional requirements particular to the *service* and the Affected Property for this contract. The text below provides for these being attached as an Annexure to this Service Information. PLEASE ALSO READ CORE CLAUSE 27.4 TO MAKE SURE THAT WHATEVER IS INCLUDED IN THE ANNEXURE FOLLOWS ON FROM THOSE CLAUSES.

The *Contractor* shall comply with the health and safety requirements contained in **Annexure B** to this Service Information

3.2 Environmental constraints and management

The *Contractor* shall comply with the environmental criteria and constraints stated in Annexure B.

3.3 Quality assurance requirements

The Contractor must execute all maintenance work according to the industry quality norms and standards prevailing from time to time. In this regard, the Contractor will be expected to draft quality plans from time to time that must be presented to the Service Manager. Emphasis must be on improving system reliability and ensuring that scheduled maintenance work is indeed completed to recommended standards.

The Contractor shall, in the performance of the Works and in accordance with good Service Manage and construction practices, use suitable items.

Quality Assurance

(a) Prior to commencing the Works, the Contractor shall:

- (1) Plan, establish and maintain a quality system which conforms with the job quality management plan; and
- (2) Provide the Employer with evidence of compliance with the job quality management plan by presenting Contractor warrants.

(b) The job quality management plan is only an aid to achieving compliance with this contract and to document compliance.

The Contractor's scope of obligations will include the management of the Works to ensure performance in accordance with the requirements of this contract.

4 Procurement

The Contractor will always respect OEM (Original Equipment Manufacturer) warranties to ACSA when procuring spare parts, products or 3rd party services. It will be the Contractor's sole responsibility to ensure that OEM warranty requirements are always adhered to.

The Contractor must adhere to all airport requirements regarding fire resistance, health and safety and quality when procuring replacements.

ACSA currently requires that no casual labour (i.e. "off street labour") may be employed by the Contractor unless pre-arranged with ACSA.

4.1 People

4.1.1 Minimum requirements of people employed

(a) The Contractor shall:

(1) Ensure that all people working in this contract have all necessary relevant working documentation that is compliant to South African labour act, i.e. South African Identity documents and or Working permits for foreigners.

(2) Provide all things and take all measures necessary to protect people and property and, in particular, comply with all Workplace Health and Safety Legislation and take full responsibility for the adequacy, stability and safety of all Materials and Equipment, and methods of construction, transportation and operation; and

(3) Establish, maintain and comply with emergency safety and security procedures applicable to the Work.

If the Contractor or the employees, Subcontractors or agents of the Contractor damage third party property, the Contractor shall:

(a) Make good the damage; and

(b) Pay any compensation to such third party which the Contractor is required to pay under this contract or pursuant to any Applicable Law.

(c) Subject to clause (b), if the Contractor fails to make good such damage or pay any compensation referred to in clause (b) within the time reasonably required by the Employer by notice in writing (which shall not less than fifteen (15) Business Days), the Employer may, by notice in writing to the Contractor remedy the damage at the sole risk and expense of the Contractor.

(d) If the Contractor fails to comply with obligation under this clause, the Employer may, in addition to any other remedy which the Employer may have, perform that obligation on the Contractor's behalf and any cost incurred by the Employer shall be a debt due and payable by the Contractor.

(e) The Contractor shall comply with employment equity act as issued by the Department of Labour.

4.1.2 BBBEE and preferencing scheme

The contractor shall maintain the same BBBEE status level or above during the period of the contract.

4.2 Subcontracting

4.2.1 Preferred subcontractors

Refer to clause 26 TSC3.

4.2.2 Subcontract documentation, and assessment of subcontract tenders

Refer to clause 26 of TSC3.

In addition, appointment of sub-contractors must at all times be in line with the PPPFA.

4.2.3 Limitations on subcontracting

Refer to clause 26 TSC3

4.2.4 Attendance on subcontractors

Refer to clause 26 TSC3

4.3 Plant and Materials

4.3.1 Specifications

The Contractor shall supply all plant necessary to ensure the provision of the Services in a manner that is in conformance with workplace Health and Safety Act. The Contractor shall ensure that all plant supplied by it is, and is maintained in, a condition that is in conformance with workplace Health and Safety act.

All Plant and Material shall conform to the SANS.

The contractor shall use Plant and Materials that are fit for purpose as may be specified in the SANS.

Design and specification shall always be discussed and agreed with the Service Manager.

4.3.2 Correction of defects

Defective Material and Equipment or Works

(a) Notwithstanding any previous test or certification, the Employer may, acting reasonably, instruct the Contractor to:

(1) Remove from the Site and replace any Materials and Equipment which are not in accordance with the Employer's requirement;

(2) Remove and re-execute any other work is not in accordance with the Employer's requirements.

(3) Execute any work which is urgently required for the safety of the Works, whether because of an accident, unforeseeable event or otherwise.

(b) The Contractor shall comply with the instruction within a reasonable time, which shall be the time (if any) specified in the instruction.

(c) If the Contractor fails to comply with any such instruction, the Employer shall be entitled to employ and pay other persons to carry out the work. Except to the extent that the Contractor would have been entitled to payment for work, the Contractor shall pay the Employer all costs arising from this failure.

4.3.3 Contractor's procurement of Plant and Materials

The contractor:

(a) Shall supply:

(1) The Material and Equipment

(2) and anything else necessary for the performance of the Works.

(b) Equipment, spares and Materials: it will be expected that the prospective Contractor maintains an inventory of equipment, spares and materials or have access to those equipment, spares and materials without compromising response times.

4.3.4 Tests and inspections before delivery

The Employer is entitled to see any Materials and Equipment or attend any part of the Works that are to be tested and inspect the result of any Test.

Who conducts Test?

(a) Tests are to be conducted as indicated by the Employer/Service Manager/Employer representative.

(b) Testing required under this contract shall be carried out by appropriately qualified and skilled persons adequately trained for the tasks allocated to them.

(c) Tests shall be chosen and testing shall be carried out in the manner that shall cause the least possible damage to the Works.

(d) Tests specification shall be discussed and agreed with the Service Manager.

4.3.5 Plant & Materials provided "free issue" by the Employer

None

5 Working on the Affected Property

When planning to work on the affected property, the Contractor shall:

(a) Issue to the Employer a detailed work methodology, the work methodology shall be reviewed by the Employer and agreed in signing.

(b) At all times comply with the Operational Health, Safety & Environmental act as detailed on Annexure A.

(c) Notify in writing the Employer of the date and time of proposed work. Upon receiving the date and time of the proposed work the Employer shall within seven (7) days review the proposal and notify the Contractor about final decision.

Protection of the public

The Contractor shall take special care in order not to harm or endanger the public in any way. Work shall be sufficiently hoarded and guarded in order to safeguard children and the general public from injury relating to machinery, work or other means.

Barricades and lighting

Where hoarding, barricades or lighting is required in the execution of the Works, the Contractor shall provide same. Hoarding, barricades and lighting shall comply with industry accepted safety standards and may not

be used for purposes of advertising or any other purpose than safeguarding the Works. All specifications in this regard shall be discussed and agreed with the Service Manager.

5.1 Employer's site entry and security control, permits, and site regulations

Contractor should provide to his employees all necessary training, i.e. Airside Induction and AVOP required to obtain airside permits.

The Contractor must ensure that he/she is, at all times, familiar with ACSA's safety and security requirements relating to permits in order for no work to be delayed as a result thereof. This will include the permit application process.

Note that (within reason) the Contractor will have no claim against ACSA in the event that a permit request is refused.

Proof of having attended the airside induction training course is required for all personal permit applications. Persons applying for an AVOP must provide proof of having attended an AVOP course. Fees are levied for these courses. Fees are further levied for all permit renewals and refresher courses - where applicable.

5.2 People restrictions, hours of work, conduct and records

Restrictions and hours of work may apply at CTIA. It is very important that the Contractor keeps records of his people working on the Affected Property, including those of his Subcontractors. The Service Manager shall have access to these records at any time. These records may be needed when assessing compensation events.

5.3 Health and safety facilities on the Affected Property

Contractor shall comply to all requirements stated in Annexure A

5.4 Environmental controls, fauna & flora

The Contractor shall comply with the environmental criteria and constraints stated in Annexure B.

5.5 Cooperating with and obtaining acceptance of Others

The Contractor shall co-operate with others in obtaining and providing information which they may require in connection with the service. He shall co-operate with others and shares the Affected Property with them as stated in the Service Information.

The Contractor must accept and respect the fact that the Airport is continuously undergoing construction and improvement and that a variety of stakeholders are involved in ACSA's business. Therefore, within reason and with prior arrangement with the Contractor, ACSA might require the following from time to time:

- Assisting with emergency repairs;
- Re-scheduling of work to accommodate other contractors;
- Allowing access and providing assistance to OEM suppliers to correct defects on equipment and/or systems;
- Checking on other contractors in order to reduce risk;
- Pointing out services to consultants or other contractors;
- Providing access to other contractors;
- Attending co-ordination and planning meetings;
- Removing rubble and/or equipment from site;
- Training of ACSA operators and/or technicians;
- Providing of system data to ACSA or its consultants;
- Recommending improvement on maintenance procedures;
- Co-operating with ACSA Security relating to security initiatives.

Notification of Works needs to be issued to Airport stakeholders whenever there is planned work. The Contractor will inform the Service Manager regarding the Work Plan, The Service Manager shall be responsible for distributing the Notification of Work 7 days prior to commencement of work.

5.6 Records of *Contractor's* Equipment

Service and Maintenance records of Contractor's vehicles and/or equipment shall be made available on request by Service Manager.

5.7 Equipment provided by the *Employer*

None

5.8 Site services and facilities

5.8.1 Provided by the *Employer*

Employer shall if and when required provide a power supply point, domestic waste disposal (no Hazardous waste) which the contractor will be required to pay for the installation and usage. Contractor will be shown nearest ablution facilities and will have to provide own fire protection systems. The contractor shall provide everything else necessary for providing the service.

5.8.2 Provided by the *Contractor*

Contractor shall if and when required provide own storage containers, provide all equipment required for the work at night and everything else necessary for Providing the Service.

5.9 Control of noise, dust, water and waste

See annexure B

5.10 Hook ups to existing works

See annexure B

5.11 Tests and inspections

5.11.1 Description of tests and inspections

Refer to clause 40 TSC3

5.11.2 Materials facilities and samples for tests and inspections

Responsibilities for Materials facilities, test methods, and required inspection will be discussed and agreed between the Contractor and Employer.

6 List of drawings

6.1 Drawings issued by the *Employer*

This is the list of drawings issued by the *Employer* at or before the Contract Date and which apply to this contract.
